

# BlueJeans Rooms.

**Make any room a one-touch video, audio, and web conferencing room that is easy to use and manage**

**BlueJeans Rooms transforms any room into an easy-to-use video meeting room requiring little to-no end-user training and effortless IT management, while increasing workforce collaboration.**

## **Make any room a video conference room**

BlueJeans Rooms brings simple, easy to use video to any size room. Improve employee communication and collaboration with in-room access to BlueJeans Meetings and Events. Modernize your workspaces and seamlessly connect offices, employees, partners, and customers.

## **Flexible configurations to meet your needs**

With BlueJeans Rooms you can configure an in-room video system to match your unique requirements. Leverage your existing room system or buy off-the-shelf components to optimize your preferred video and audio setup.

## **Clear the clutter with an award-winning room experience**

BlueJeans Rooms with Dolby Voice delivers an unmatched room system meeting experience. With a differentiated suite of offerings that include intelligent video, world-class audio, and enterprise-grade manageability, BlueJeans Rooms with Dolby Voice creates the best opportunities for meeting attendees to do their best work.

## **Fast and easy touch-screen meeting control**

Walk into any room and easily start and control a video meeting with one touch. Share presentations, documents, and other content wirelessly from your laptop from anywhere in the meeting room without cables or dongles. With Microsoft and Google calendar integrations, rooms can be reserved for ad-hoc or pre-scheduled meetings.

## **Easy for IT to deploy, monitor, and manage**

Simple IT management and easy installation minimizes setup costs and speeds ROI. Centralized management enables bulk provisioning, remote device monitoring, and diagnostics that accelerate deployment and maximize uptime.

---

## **Key features**

### **One-touch meeting initiation**

Initiate, join and manage meetings with one touch. Minimize time trying to make room equipment work.

### **Smart sensor technology**

Enter a room using your smart phone and quickly join an in-room meeting without pre-scheduling or reserving a room.

### **Calendar integrations**

Integrate the room's meeting schedule with Microsoft or Google calendaring systems to enable participants to quickly join a scheduled in-room meeting and eliminate scheduling conflicts.

### **Wireless screen sharing and projection**

Share screen content during video meetings wirelessly and project from your laptop to the in-room display without fumbling for cables, dongles or remotes.

### **Dual screen support**

See shared content on one screen and video meeting participants on a second screen so you can engage and interact with meeting participants while reviewing shared content.

### **Device management software**

Remotely provision, deploy, measure usage, and update hardware so it's efficient and easy for IT to monitor, reducing costs and user problems.

### **Central management**

Configure and manage every BlueJeans Room system from an enterprise-wide console, freeing IT and audio-visual technicians from on-site moderation and troubleshooting.

### **Industry-Leading Interop**

Connect with existing room systems from Cisco, Polycom, Lifesize, and other H.323 or SIP-based systems and interoperate with your corporate calendar system.

### **Flexible configurations**

Optimize your video meeting hardware system with BlueJeans recommendations or configure it with off-the-shelf hardware to suit your specific requirements.

### **Consistent and Unified Experience**

Built on the BlueJeans platform, users enjoy a simple, interactive experience that is seamless across BlueJeans Meetings, BlueJeans Rooms, and BlueJeans Events.
