

Powerful productivity and collaboration tools for on-the-go employees

Google Workspace

Help employees stay productive from virtually anywhere their jobs take them, with Google Workspace. With combined productivity tools—including email, video conferencing, document sharing and more—you now have one easy-to-access package that enables employees to connect and collaborate on projects whether they're working remotely or in the office.

Key capabilities

Gmail®

To create and send business emails

Google Calendar™

To schedule meetings and events

Google Meet™

To set up and hold video conferences

Google Chat™

To message contacts instantly

Google Drive™

To store project files and other documents

Google Docs™

To create, edit and share documents

Google Sheets™

To create, edit and share spreadsheets

Google Slides™

To generate engaging, high-quality presentations

Google Sites™

To easily create and launch team sites

Benefits

Google Workspace helps mobile employees and admins enhance productivity and agility.

Connect

Stay up to date with other team members through email, chat and video conferencing.

Create

Produce documents, spreadsheets and presentations on mobile devices from virtually any location.

Access

Store files in the cloud and find what's needed more quickly and easily. Access files with ease and control how they are shared.

Control

Manage employee accounts, mobile devices and data with the admin and mobile device management features available with certain packages. Utilize two-step verification for an extra layer of security, where included, to help protect your business data.

You have options

No two businesses are alike, which is why we offer Business editions for up to 300 licenses and Enterprise editions with no minimum or maximum number of licenses. Licenses are sold on an annual basis with a one year minimum. No refunds.
