* LTE Business Internet is available within the U.S. on Verizon's 4G LTE network to US business customers with 10 or more lines. Plans reflect maximum available download speeds, which may vary. Upload speeds also vary & will be lower than download speeds. All plans include 300 GB/mo/line of data; if usage exceeds that allowance, blocks of 5 GB will be automatically added to your account for an additional charge of \$10 per block, plus taxes. All plans include a monthly allotment of premium network access (varies per plan) after which your data may be temporarily slower than other traffic in times of congestion. No domestic or international roaming. Cannot be used for certain applications, including audio/video streaming, web hosting, public/guest Wi-Fi, voice & texts. Compatible LTE-enabled router required (Verizon-provided or Customer-provided). Activation fee may apply depending on speed tier purchased.
