

Verizon LTE Business Internet

Simple, reliable connectivity for your business

Plug it in. Turn it on.

Whether you have a business that needs internet, a temporary site to connect or you just need backup for critical operations, LTE Business Internet offers a fast, wireless internet connection that you can easily self-install at virtually any location. Purchase our recommended router or use your own compatible 4G LTE-enabled router.

\$199/mo

Plus taxes and fees*

¹ America's most reliable network based on rankings from the RootMetrics® U.S. National RootScore® Report: 1H 2021. Tested with best commercially available smartphones on three national mobile networks across all available network types. Your experiences may vary. The RootMetrics award is not an endorsement of Verizon.

² Offer available to new LTE Business Internet customers who sign up for qualifying service as follows: A one-time discount of \$199 (50 Mbps speed tier) or a one-time discount of \$99 (25 Mbps speed tier) will each be fulfilled as a bill credit to your Verizon account and will appear within one to two billing cycles. May only be combined with select offers. Limited-time offer.

³ The Arris NVG558 router (\$299.99) is included on the 50 Mbps plan with 24-month device payment plan. Offer fulfilled as a monthly bill credit of \$12.49 for 24 months; credits end when eligibility requirements are no longer met. 0% APR. Plus taxes. Limited-time offer.

* LTE Business Internet is available within the U.S. on Verizon's 4G LTE network to U.S. business customers with 999 lines or less, subject to credit review. Plans reflect maximum available download speeds, which may vary. Upload speeds also vary and will be lower than download speeds. All plans include 300 GB/mo/line of data; if usage exceeds that allowance, blocks of 5 GB will be automatically added to your account for an additional charge of \$10 per block, plus taxes. All plans include a monthly allotment of premium network access (varies per plan) after which your data may be temporarily slower than other traffic in times of congestion. No domestic or international roaming. Cannot be used for certain applications, including audio/video streaming, web hosting, public/guest Wi-Fi, voice and texts. Terms apply.

Price disclosure: Depending on speed tier purchased, 4G LTE pricing guaranteed for 12 consecutive months (\$10 price increase starting month 13), or 24 consecutive months (\$10 price increase starting month 25), or 36 consecutive months (\$10 price increase starting month 37), subject to continuation of all qualifying services and products; prices subject to increase thereafter; price guarantee applies to base monthly rate only; excludes optional services and equipment charges; prices subject to increase thereafter. Compatible LTE-enabled router required (Verizon-provided Arris NVG558 is \$299.99, or customer-provided). Activation fee may apply depending on speed tier purchased.
