

Executive Briefing Program

**Powerful collaboration.
Transformative strategies.**

verizon

Explore, collaborate and learn how Verizon technology solutions can spark new possibilities.

A Verizon Executive Briefing allows you to see what's new and what's next in innovation, with an experience designed just for you and guided by technology innovators and industry experts.

Regardless of the location you visit, you'll explore a range of commercially available solutions and emerging technologies.

You can look forward to:

- Participating in hands-on demonstrations with Verizon leadership in a technology-focused forum
- Collaborating with technology and business experts
- Exploring goals, exchanging ideas, considering new strategies and discovering the possibilities of tomorrow's technologies

Our Executive Briefing locations are immersive spaces designed to take you on a journey that leads to technology and business transformation.

Come see how Verizon is advancing innovation in:

Extended Reality

Simulates reality, blending the physical and virtual worlds to provide a real-life hands-on experience. This immersive method can significantly help enhance learning and retention.

Internet of Things

Allows organizations to gain valuable insights, streamline processes, reduce downtime and boost overall profitability by connecting machines, devices, people and processes.

Robotics & Automation

Automates routine and often complex tasks using autonomous mobile robots (AMRs) and comprehensive robot fleet management, so businesses can increase productivity, reduce human error and improve resource allocation.

Computer Vision & Analytics

Utilizing 5G to enable efficient monitoring, generates actionable insights and enhances decision-making capabilities. Provides an in-depth understanding of the data, and derives valuable information from it.

First Responder & Disaster Recovery

Built for the intensive demands of first responders, Verizon Frontline delivers an advanced network platform and dynamic solutions and devices that help keep first responders on the front lines connected on both routine and extreme missions.

Network & Security

Delivers agility and reliability by safeguarding your network and applications from current and emerging threats. Connect employees, customers, and suppliers where they live, work, and play.

Visit one of our locations to learn what's possible.

Ashburn, Virginia

Located in Northern Virginia within the Washington, DC metropolitan area, this Executive Briefing Center is co-located with our Global Network Operations and Security Operations Centers.

Basking Ridge, New Jersey

Central to New York City, Connecticut and Pennsylvania, this Executive Briefing Center is located within our headquarters, home to Verizon's Executive Leadership Team.

London, United Kingdom

Situated in Central London, this Hub is where the world's leading technology creators collaborate to innovate.

Los Angeles, California

Situated in Playa Vista, this Innovation Lab is designed as a physical sandbox, where customers and partners can experience, test, validate and commercialize their solutions.

San Francisco, California

Our Innovation Lab in downtown San Francisco offers both development environments and real-world use cases and solutions.
