Subject : Verizon Partner Solutions Industry Letter: Silver Spring MD 5ESS Switch Retirement

PLEASE NOTE:

All references to the Silver Spring MD 5ESS switch are associated with CLLI code SLSPMDNBDS0 and will not be repeated throughout this letter. All references to the Hyattsville MD CS2K switch are associated with CLLI code HYVLMDHYPS0 and will not be repeated throughout this letter.

As set out in the Verizon Maryland LLC Short Term Public Notice Under Rule 51.333(a), dated June 12, 2026, on or after August 1, 2026, the Silver Spring MD 5ESS switch will be retired and removed from the Verizon network.

General Information: The Silver Spring MD 5ESS switch will be replaced by the Hyattsville MD CS2K switch. See details in Table A.

Table A

Description	From	To
Office Name	Silver Spring	Hyattsville
CLLI Code	SLSPMDSSDS0	HYVLMDHYPS0
Switch Type	5ESS	CS2K
Location	8670 Georgia Avenue Silver Spring, MD 20910	5500 Baltimore Avenue Hyattsville, MD 20781
Point Code	246 193 121	246 193 152
NXX Type	EOC	EOC
OCN	9212	9212
Rate Center LATA	236	236
Rate Center	Silver Spring	Hyattsville

State MD MD

The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 301 currently residing in the Silver Spring MD 5ESS switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) on or after August 1, 2026. See details in Table B.

Table B

NPA	NXX	TYPE	Switch
240	662	EOC	Silver Spring
301	285	EOC	Silver Spring
301	427	EOC	Silver Spring
301	495	EOC	Silver Spring
301	562	EOC	Silver Spring
301	563	EOC	Silver Spring
301	565	EOC	Silver Spring
301	578	EOC	Silver Spring
301	585	EOC	Silver Spring
301	587	EOC	Silver Spring
301	588	EOC	Silver Spring
301	589	EOC	Silver Spring
301	608	EOC	Silver Spring
301	626	RCC	Silver Spring
301	650	EOC	Silver Spring
301	819	EOC	Silver Spring
301	930	EOC	Silver Spring
401	454	EOC	Silver Spring
401	455	EOC	Silver Spring

Network Changes and Trunk Rearrangements:

The Hyattsville MD CS2K switch will be the recipient office of traffic migrated from the Silver Spring MD 5ESS switch. Traffic to be migrated to the Hyattsville MD CS2K switch includes all of the traffic currently handled by the Silver Spring MD 5ESS switch including, but not limited to, Inter-LATA access traffic (including Feature Group B and D traffic), and Intra-LATA and local traffic (including CLEC, IEC, wireless and Verizon sector end office switched traffic). After all traffic is migrated off of the Silver Spring MD 5ESS switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, ILEC, wireless carriers and paging carriers will need to provision new trunk groups built to the Hyattsville MD CS2K switch or have existing trunk groups to that switch augmented if necessary. Carriers that have direct end office trunks (DEOT) with access connectivity in the Silver Spring MD 5ESS switch will be required to reposition the codes to the Hyattsville MD CS2K switch.

All ASRs for the Hyattsville MD CS2K switch must be received no later than **July 6, 2026**, to provide sufficient time to migrate the traffic described above. All traffic must be moved on or after **August 1, 2026**, based on LERG change notification.

Upon decommissioning of the Silver Spring MD 5ESS switch, the seventeen (17) native codes (NPA NXXs) that currently reside in the Silver Spring MD 5ESS switch will reflect the Hyattsville MD CS2K switch in the LERG.

Submissions of disconnect ASRs to Verizon for the Silver Spring MD 5ESS switch are required immediately after the re-homing of traffic is complete.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Silver Spring MD 5ESS switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
