Subject : Verizon Partner Solutions Industry Letter: Annandale VA 5ESS Switch Retirement

PLEASE NOTE:

All references to the Annandale VA 5ESS switch are associated with CLLI code ALXNVAADDS0 and will not be repeated throughout this letter.

All references to the Fairfax VA C20 switch are associated with CLLI code FRFXVAFFPS1 and will not be repeated throughout this letter.

As set out in the Verizon Virginia LLC Short Term Public Notice Under Rule 51.333(a), dated October 5, 2026, on or after November 30, 2026, the Annandale VA 5ESS switch will be retired and removed from the Verizon network.

General Information: The Annandale VA 5ESS switch will be replaced by the Fairfax VA C20 switch. See details in Table A.

Table A

Description	From	To
Office Name	Annandale	Fairfax CS2K
CLLI Code	ALXNVAADDS0	FRFXVAFFPS1
Switch Type	5ESS	C20
Location	6538 Little River Tpke. Alexandria, VA 22312	10431 Fairfax Boulevard Fairfax, VA 22030
Point Code	246 182 001	246 182 044
NXX Type	EOC	EOC
OCN	9213	9213
Rate Center LATA	236	236
Rate Center	Annandale	Fairfax

State VA VA

The Exchange Codes (NXXs) in Numbering Plan Areas (NPA) 703 currently residing in the Annandale VA 5ESS switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) on or after November 30, 2026. See details in Table B.

Table B

	NPA NXX	TYPE	RATECENTER
703	256	EOC	WSNGTNZN17
703	315	RCC	WSNGTNZN17
703	316	EOC	WSNGTNZN17
703	333	EOC	WSNGTNZN17
703	354	EOC	WSNGTNZN17
703	642	EOC	WSNGTNZN17
703	658	EOC	WSNGTNZN17
703	750	EOC	WSNGTNZN17
703	813	EOC	WSNGTNZN17
703	914	EOC	WSNGTNZN17
703	916	EOC	WSNGTNZN17
703	941	EOC	WSNGTNZN17
703	942	EOC	WSNGTNZN17

Network Changes and Trunk Rearrangements:

The Fairfax VA C20 switch will be the recipient office of traffic migrated from the Annandale VA 5ESS switch. Traffic to be migrated to the Fairfax VA C20 switch includes all of the traffic currently handled by the Annandale VA 5ESS switch including, but not limited to, Inter-LATA

access traffic (including Feature Group B and D traffic), and Intra-LATA and local traffic (including CLEC, IEC, wireless and Verizon sector end office switched traffic). After all traffic is migrated off of the Virginia Beach VA 5ESS, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, ILEC, wireless carriers and paging carriers will need to provision new trunk groups built to the Fairfax VA C20 switch or have existing trunk groups to that switch augmented if necessary. Carriers that have direct end office trunks (DEOT) with access connectivity in the Annandale VA 5ESS switch will be required to reposition the codes to the Fairfax VA C20 switch.

All ASRs for the Fairfax VA C20 switch must be received no later than November 8, 2026, to provide sufficient time to migrate the traffic described above. All traffic must be moved on or after **November 30, 2026**, based on LERG change notification. Upon decommissioning of the **Annandale VA 5ESS** switch, the thirteen (13) native codes (NPA NXXs) that currently reside in the **Annandale VA 5ESS** switch will reflect the Fairfax VA C20 switch in the LERG.

Submissions of disconnect ASRs to Verizon for the Annandale VA 5ESS switch are required immediately after the re-homing of traffic is complete.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Annandale VA 5ESS switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
