Subject : Verizon Partner Solutions Industry Letter: Saugus MA DMS100 Switch Retirement

PLEASE NOTE:

All references to the Saugus MA DMS100 switch are associated with CLLI code **SAGSMACEDS0** and will not be repeated throughout this letter.

All references to the Newton MA C20 switch are associated with CLLI code **NWTNMAWAPS1** and will not be repeated throughout this letter.

As set out in the Verizon New England Inc. Short Term Public Notice Under Rule 51.333(a), dated November 2, 2026, the Saugus MA DMS100 switch will be retired and removed from the Verizon network on or after December 30, 2026, as part of ongoing efforts to modernize the network.

General Information: The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 781 currently residing in the Saugus MA DMS100 switch (see list in Table B below) will be moved to the Newton MA C20 switch (see details in Table A below).

The native NPA NXXs belonging to the Saugus MA DMS100 switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Newton MA C20 switch. This will occur on or after December 30, 2026.

Table A

	From	**To**
Entity	Saugus, MA EO	Newton, MA PEO
CLLI	SAGSMACEDS0	NWTNMAWAPS1
Product	DMS100	C20
Location	487 Central Street Saugus, MA 01906	787 Washington Street Newton, MA 02460
Point Code	247 065 006	247 065 015
NXX Type	EOC	EOC
OCN	9102	9102
Rate Center LATA	128	128
Rate Center	Saugus	Multi
State	MA	MA

Table B

NPA	NXX	TYPE	Switch
781	231	EOC	SAGSMACEDS0
781	233	EOC	SAGSMACEDS0
781	941	EOC	SAGSMACEDS0

Network Changes and Trunk Rearrangements:

The Newton MA C20 switch will be the recipient office of traffic migrated from the Saugus MA DMS100 switch. Traffic bound for the codes listed in Table B will be delivered via the Newton MA Tandem (NWTNMAWA01T intra-Lata SHA / NWTNMAWA01T inter-Lata FG Access SHA).

After all traffic is migrated off of the Saugus MA DMS100 switch, it will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers, and paging carriers will need to secure new trunk groups built to the Newton MA C20 switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunks (DEOT) with access connectivity in the Saugus MA DMS100 switch will be required to reposition the codes to the Newton MA C20 switch.

All ASRs for the Newton MA C20 switch must be received no later than November 25, 2026, to provide sufficient time to migrate the traffic described above. All traffic must be moved by December 30, 2026.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Saugus MA DMS100 switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
