Subject : Verizon Partner Solutions Industry Letter: Belleville NJ DMS100 Switch Retirement

PLEASE NOTE:

All references to the Belleville NJ DMS100 switch are associated with CLLI code BLVLNJBEDS5 and will not be repeated throughout this letter.

All references to the New Brunswick NJ C20 switch are associated with CLLI code NBWKNJNBPS2 and will not be repeated throughout this letter.

As set out in the Verizon New Jersey Inc. Short Term Public Notice Under Rule 51.333(a), dated November 2, 2026, on or after December 30, 2026, the Belleville NJ DMS100 switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

General Information: The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 973 currently residing in the Belleville NJ DMS100 switch (see list in Table B below) will be moved to the New Brunswick NJ C20 switch (see details in Table A below). The four (4) native NPA NXXs belonging to the Belleville NJ DMS100 switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the New Brunswick NJ C20 switch. This will occur on or after December 30, 2026.

Table A

	From	**To**
Entity	Belleville BEDS5	New Brunswick NBPS2
Clli	BLVLNJBEDS5	NBWKNJNBPS2
Product	DMS100	C20
Location	282-286 Washington Avenue Belleville, NJ 07109	18 Paterson Street New Brunswick, NJ 08901
Point Code	246 074 035	246 075 028
NXX Type	EOC	EOC
OCN	9206	9206
Rate Center Lata	224	224
Rate Center	Belleville	New Brunswick

State NJ NJ

NPA	**NXX**	**TYPE**	**RATECENTER**
973	450	EOC	Belleville
973	751	EOC	Belleville
973	759	EOC	Belleville
973	844	EOC	Belleville

Network Changes and Trunk Rearrangements:

The New Brunswick NJ C20 switch will be the recipient office of traffic migrated from the Belleville NJ DMS100 switch. Traffic bound for the codes listed in Table B will be delivered via the New Brunswick 04T Tandem (NBWKNJNB04T).

After all traffic is migrated off of the Belleville NJ DMS100 switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers and paging carriers will need to secure new trunk groups built to the New Brunswick NJ C20 switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the Belleville NJ DMS100 switch will be required to reposition the codes to the New Brunswick NJ C20 switch.

All ASRs for the New Brunswick NJ C20 switch must be received no later than December 3, 2026, to provide sufficient time to migrate the traffic described above. All traffic must be moved by December 30, 2026.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Belleville NJ DMS100 switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of

your traffic.
