SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

June 12, 2026

Carrier: Verizon New England Inc., 6 Bowdoin Square, 9th Floor, Boston, MA 02114

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin
Verizon Network Engineering
385 Myles Standish Blvd.
Taunton, MA 02780
978-552-3638

Michael Childs
Associate Director
Verizon Network Engineering
5055 North Point Pkwy
Alpharetta, GA 30022
469-497-4466

Implementation Date: On or after August 1, 2026.

Planned Network Change(s) will occur at the following location(s) in Rhode Island:

Verizon Central Office	Address	CLLI
Providence Washington Street RI DMS100 Switch	234 Washington Street Providence, RI 02903	PRVDRIWADS2
Providence RI C20 Switch	234 Washington Street Providence, RI 02903	PRVDRIWAPS1

This notice may also be viewed at
<http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Providence Washington Street RI DMS100 switch are associated

with CLI code PRVDRIWADS2 and will not be repeated throughout this notice.

- All references to the Providence RI C20 switch are associated with CLI code PRVDRIWAPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Providence Washington Street RI DMS100 switch, located at 234 Washington Street, Providence, RI 02865, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Providence RI C20 switch, located at 234 Washington Street, Providence, RI 02865. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Providence RI C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Providence Washington Street RI DMS100 switch will be required to reposition the codes to the Providence RI C20 switch.

All ASRs for the Providence RI C20 switch must be received no later than July 6, 2026, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Providence Washington Street RI DMS100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Providence Washington Street RI DMS100 switch (**on or after August 1, 2026**). This will serve to guide interconnect re-routes of traffic for the forty-two (42) native codes currently served by the Providence Washington Street RI DMS100 switch to reflect the Providence RI C20 switch as the new home switch.
