

SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)

October 5, 2026

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin

Verizon Network Engineering

385 Myles Standish Blvd.

Taunton, MA 02780

978-552-3638

Michael Childs

Associate Director

Verizon Network Engineering

5055 North Point Pkwy.

Alpharetta, GA 30022

469-497-4466

Implementation Date: On or after November 30, 2026.

Planned Network Change(s) will occur at the following location(s) in New York:

Verizon Central Office	Address	CLLI
Albany Washington NY 5ESS	1161 Washington Avenue Albany, NY 12206	ALBYNYWADS0
Albany NY Packet End Office Switch	158 State Street Albany, NY 12207	ALBYNYSSPS1

This notice may also be viewed at

<http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

All references to the Albany Washington NY 5ESS switch are associated with CLLI code ALBYNYWADS0 and will not be repeated throughout this notice.

All references to the Albany NY Packet End Office (PEO) switch are associated with CLLI code ALBYNYSSPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Albany Washington NY 5ESS switch, located at 1161 Washington Avenue, Albany, NY 12206, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Albany NY PEO switch, located at 158 State Street, Albany, NY 12207. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Albany NY Packet End Office switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Albany Washington, NY 5ESS switch will be required to reposition the codes to the Albany, NY Packet End Office switch.

All ASRs for the Albany, NY Packet End Office switch must be received no later than October 30, 2026 in order to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Albany Washington, NY 5ESS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Albany Washington, NY 5ESS switch (**on or after November 30, 2026**). This will serve to guide interconnect re-routes of traffic for the sixteen (16) native codes currently served by the Albany Washington, NY 5ESS switch to reflect the Albany, NY Packet End Office switch as the new home switch.
