PLEASE NOTE:

All references to the Fairfax, VA C20 switch are associated with CLLI code FRFXVAFFPS1 and will not be repeated throughout the notice.

Description of the Planned Network Change(s):

The Verizon Annandale VA 5ESS switch, located at 6538 Little River Turnpike, VA 22312, will be retired and removed from the Verizon network after all traffic served by this switch is migrated to the Fairfax VA C20 switch, located at 10431 Fairfax Blvd, Fairfax, VA 22030. All traffic to be migrated to the Fairfax VA C20 switch includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC IXC), wireless and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s): All carriers, including competitive local exchange carriers (CLECs), Interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers, will need to provision new trunk groups to support direct end office trunking to the Fairfax VA C20 switch or have existing trunk groups to that switch augmented.

All ASRs for the Fairfax VA C20 must be received no later than **November 8, 2026**, to provide sufficient time to migrate the traffic described above. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Annandale VA 5ESS switch (**on or after November 30, 2026**). This will serve to guide interconnect re-routes of traffic for the NPA codes currently served by the Annandale VA 5ESS switch to reflect the Fairfax VA C20 as the new home switch. All trunks to the Fairfax VA C20 switch must be in place prior to the decommissioning of the Annandale VA 5ESS switch.
