3.4.5 Intelenet

A. Description

Intelenet offers a full service voice product for single or multi-location customers using switched

Effective October 1, 2017

or dedicated, and calling card origination and switched or dedicated toll-free termination. The Intelenet package includes a single flat rate for both peak and off-peak dedicated and switched usage and offers discounts for customers willing to sign a term commitment of month to month, twelve (12) or twenty-four (24) months and/or a willingness to commit to a specific dollar volume of monthly minimum usage.

The minimum monthly commitment will be based on net charges for service (after discounts have been applied) and must be reached by the fourth invoice period and monthly thereafter. Multiple services and/or multiple locations using Intelenet can contribute to the overall monthly commitment; however, the customer must allocate the minimum by service and location. All inbound and outbound domestic and international, calling card, intrastate service and internet access charges, including local services (if applicable) contribute to determining the monthly minimum usage with the exception of enhanced fax, conference calling and non-recurring charges. If a customer's monthly service usage charges for any month in the term are less than the monthly commitment agreed upon, the customer shall pay the company the difference between the monthly usage charges and the monthly commitment in addition to charges for service.

1. Term Commitment Liability

When the customer has completed the term commitment, service will automatically be renewed for additional term(s) of the agreement unless the Company has received the customer's written notice to terminate the service on not less than sixty (60) days prior to the then existing term expiration date. Customers who terminate service prior to the end of the term in any manner other than stated will be liable for a service termination charge of an amount equal to the greater of the following, unless customer converts to another Company service with equal or greater term and minimum usage commitment:

- (a) If the termination becomes effective prior to the completion of the first year of the Customer Term, then the charge shall be an amount equal to the monthly billing commitment times the number of months remaining in Term through the expiration of the first year. If applicable, twenty-five percent (25%) of the balance remaining (monthly billing commitment times the number of remaining months in the Term beyond the first year) will also be included.
- (b) If the termination becomes effective after the completion of the first year, then the charge shall be an amount equal to twenty-five percent (25%) of the balance remaining (monthly billing commitment times the number of months remaining in the Term).
- (c) In addition, the customer will be required to repay any promotional credits that were applied, and any charges reimbursed or waived.

Upon execution of the Intelenet Service Agreement, the customer has ninety (90) days from the date service is made available in which to notify the Company in writing, either by certified or registered mail (return receipt requested), of customer's desire to cancel the Service Agreement without penalty or further obligation, except for charges incurred up to the date of termination, in the event that quality deficiencies solely caused by the Company in the provision of telecommunications service hereunder are demonstrated by customer to affect adversely and materially customer's telecommunications applications (such a termination under this clause constituting a Termination for Cause). A Termination for Cause shall not be effective unless customer has reported trouble on an ANI or circuit-specific basis to (and received corresponding trouble ticket from) the appropriate Company Support Center and a period of not less than thirty (30) days after receipt of customer's written notice of termination has elapsed during which the Company fails to correct such quality deficiencies. Provided, nothing contained herein shall impose any liability on Company and customer's sole remedy shall be termination of the affected service as described.

Effective October 1, 2017

Customer's Intelenet Service Agreement is subject to the general terms, and conditions and rates of this Tariff and/or Service or Credit Application forms executed in connection with the services provided herein.

##### A. Description of Service

Total Solution Gold<sup>SM</sup> Service is an offering which allows customers to select shared and dedicated outbound and inbound service arrangements, and obtain Term Plan discounts. Total Solution Gold<sup>SM</sup> calls are eligible for volume discounts based on total cross-contribution usage from all interstate and intrastate shared and dedicated outbound and inbound usage products (directory assistance and operator assistance are not contributory). Discounted rates apply retroactively, such that once the next dollar threshold is reached, the lower rate applies back to the first minute of usage for that billing period. Charges such as taxes, late payment fees or other service non-recurring and monthly recurring charges will not be included in the volume discount cross-contribution calculation.

The Outbound Calling Service arrangement is a long distance switched access service, which is available on either a shared or dedicated basis. The usage is billed on a flat rated basis. Toll Free Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. Should the Customer's actual usage fall below the monthly minimum usage commitment, the Customer is required to pay the Company a fee equal to the difference between the Customer's actual usage and the Customer's minimum monthly commitment. Term Plan threshold calculations will include usage charges from all intrastate and interstate switched outbound and inbound usage products (directory assistance and operator assistance are not contributory). Total Solution Series 100<sup>SM</sup> Service is available on a month to month basis or on an optional 1 or 2 year Term Plan. Discounts off the base rates are available to the Customer according to the commitment level and Term Plan selected by the Customer.

Total Solution Series 100<sup>SM</sup> Service is subject to a minimum monthly usage commitment (after the third full month following the initial installation of service for new Customers) based on the Customer's selected commitment level. The commitment level is calculated from the monthly total of usage generated from the following Company products: shared and dedicated domestic interstate and intrastate outbound and inbound service, international outbound, intraLATA, local service, and calling card. Should the Customer's actual usage fall below the monthly minimum usage commitment, the Customer is required to pay the Company a fee equal to the difference between the Customer's actual usage and the Customer's minimum monthly commitment. A Customer who terminates a Term Plan prior to the term's expiration will be required to pay in one lump sum an amount equaling the selected monthly commitment level times the number of months remaining in the term, plus an amount equal to any promotional credit, or discount, or waiver, if applicable, that was provided to the Customer.
