

MCImetro ACCESS TRANSMISSION SERVICES CORP. d/b/a VERIZON ACCESS TRANSMISSION SERVICES  
NEW HAMPSHIRE LOCAL EXCHANGE SERVICES CATALOG SCHEDULE NO. 2  
(ENTERPRISE NON-CURRENT SERVICES)

EFFECTIVE: NOVEMBER 1, 2016

MCImetro Access Transmission Services Corp.  
d/b/a Verizon Access Transmission Services

New Hampshire Local Exchange Services Catalog Schedule No. 2  
(Enterprise Non-Current Services)

This Catalog Schedule No. 2 applies to the non-current services pertaining to enterprise business customers (i.e., non-mass markets) previously offered in New Hampshire by MCImetro Access Transmission Services Corp. d/b/a Verizon Access Transmission Services which are not set forth in other sections of the Guide. Unless otherwise indicated, the material below was previously described in New Hampshire Rate Schedule of MCImetro Access Transmission Services Corp. d/b/a Verizon Access Transmission Services. For ease of reference, where applicable, the prior section numbers contained in the prior tariff have been retained.

All of these non-current services are subject to the Terms and Conditions applicable to the other Local Services as set forth in the Guide. The product descriptions, rates and charges for the non-current services previously offered in New Hampshire that were in effect at the time that the New Hampshire Local Exchange Services were added to the Guide and which are not set forth in other portions of the guide nor set forth below, will continue to remain in effect for a Customer previously subscribed to these services until the Customer no longer subscribes to such service(s), or changes are made to the product descriptions, rates or charges in the Guide.

Any questions regarding this Catalog Schedule, please call 1-888-215-5680.

EFFECTIVE: NOVEMBER 1, 2016

CHANGE SHEET

This sheet details the most recent revisions made to this Catalog Schedule.  
Any questions regarding this Catalog Schedule, please call 1-888-215-5680.

**Revisions to Local Exchange Services Catalog Schedule No. 2, Effective November 1, 2016**

- **Change of the legal entity name from MCImetro Access Transmission Services LLC d/b/a Verizon Access Transmission Services to MCImetro Access Transmission Services Corp. d/b/a Verizon Access Transmission Services.**

VIII. GRANDFATHERED SERVICES

The following provides services and pricing programs which are no longer available to new enterprise business customers (i.e., non-mass markets) and are not otherwise described in other portions of this Rate Schedule. All of these grandfathered services are subject to the same terms and conditions applicable to the other Local services as set forth in this Rate Schedule. Gaps in the numbering of sections indicate sections which are intentionally left blank. To a large extent, this is due to the desire to have the sections below match the section numbers to the grandfathered services which previously were in various portions of Sections C through F of this Rate Schedule.

Effective on or after October 1, 2016, MCImetro Access Transmission Services Corp. d/b/a Verizon Access Transmission Services will no longer offer the following Operator Services features in the United States and internationally: Busy Line Verification or Interrupt, Person-to-Person, 3rd Number Billing, and Collect Call services.

C. CALLING PLANS

5. Local T1 Rewards Plan

Offer

Eligible customers, who enroll in this plan and subscribe to facilities based MCI Local T1 and/or PRI Service ("Plan Service") will receive a waiver of monthly recurring charges for Plan Service, applied to Customer's first, second (if eligible), third (if eligible), and fourth (if eligible) invoice(s) following activation of Plan Service. In addition, customer will receive a waiver of DID block monthly recurring charges for the duration of the Customer's MCI Services Agreement ("Agreement").

Benefit

Term	Benefit
1 year	Waiver of one month Plan Service and monthly recurring charges for DID blocks for duration of Agreement.
2 year	Waiver of two months Plan Service and monthly recurring charges for DID blocks for duration of Agreement
3+ year	Waiver of three months Plan Service and monthly recurring charges for DID blocks for duration of Agreement.

Additional Benefit

Customers who enroll in an Agreement having a two-year or greater term and who subscribe to MCI Private IP service as found in the Company's Service Publication and Price Guide (The Guide) at [http://www.verizonenterprise.com/us/publications/service\\_guide/](http://www.verizonenterprise.com/us/publications/service_guide/) at time of Plan enrollment will receive a waiver of one additional month of Plan Service.

9. Local T1/PRI Lit Building Plan

Customer will receive a monthly recurring charge (Plan Charge) of \$595.00 for Local T1/PRI service.

Customer must:

- \* Be a new or existing customer adding new circuits into Lit Buildings;
- \* Be located and provision in a building connected via Company owned fiber to the Company's network (Lit Building);
- \* Receive service under Verizon Business Service II Local which receives the benefits of this plan under a term of service which equals or exceeds one year;
- \* Represent the Company's satisfaction, as determined with the company's sole discretion, that it would not permit conversion of facilities without further inducement; and

EFFECTIVE: NOVEMBER 1, 2016

- \* Agree to allow the Company and its subcontractors and their respective employees and agents access to Customer or Authorized User premises at which service is being or will be provided (including access to associated equipment).

D. BUSINESS SERVICES

4. General Services

4.2 Local Calling Service

Local Calling Service provides a customer with the ability to originate calls from a Company-provided access line to all other stations on the public switched telephone network bearing the designation of any central office of the exchanges, areas, and zones included in the caller's local calling area as specified applicable laws and regulations established by the State of New Hampshire, in effect and as amended.

Rates - Business Customers Only

The rates set forth in this section apply to all direct dialed local calls.

- A. Usage Rates for Local calls - Business Customers Only  
Per call and per time increment charges apply for each call. Timing is per minute increments.

1) Usage Rates

	<u>Usage Rate per Message</u>	<u>Usage Rate per Minute</u>
Nashua	\$0.40	\$.027
Manchester	\$0.50	\$.036

- 2) Allowance  
The allowance per month is \$6.50.

3) Discount Time

- B) These rates are not available to new customers as of June 30, 1998. See Section 13.8 for Intelenet Local Calling Service rates for new customers.

The Gateway S1 Basic Business Line provides a Customer with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Gateway S1 Basic Business Lines are provided for the connection of customer provided wiring, station sets or facsimile machines, or Key Systems.

Standard Features

Each Gateway S1 Basic Business Line is provided with the following standard features:

Touch-Tone  
Hunting

Optional Features

Distinctive Ring  
Deny Terminating

5.3 Gateway S1 Analog PBX Trunk

The Gateway S1 Analog PBX Trunk provides a Customer with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time.

Standard Features

Each Analog PBX Trunk will be provided with the following standard features:

In, Out, Two-Way  
Touch-Tone  
Hunting

Security Package

The following features are provided with the, optional, Security Package:

Call Forwarding – Variable  
Remote Activation of Call Forwarding  
Call Trace

5.4 Gateway S1 Analog DID Trunk

Standard Features

Each Analog DID Trunk will be provided with the following standard features:

DID/Two Way  
DTMF, MF or Dial Pulse signaling (as specified by the customer)  
Trunk Group Hunting,

Optional Features

DID Telephone Numbers <sup>(1)</sup>

<sup>(1)</sup> There must be a minimum of 10 trunks equipped for DID for every block of 100 or fewer numbers.

Individual  
Group of 20  
Group of 100

5.5 Gateway S1 Digital PBX Trunk

The Gateway S1 Digital PBX Trunk provides a Customer with connection to the Company's switch via DS-1 digital fiber optic transmission facility operating at 1.544 Mbps and time division multiplexed into 24 voice-grade telephonic communications channels. Customer may employ Digital PBX Trunks in order to connect PBX or trunk-capable key systems to the Company's switch.

Standard Features

Each Gateway S1 Digital PBX Trunk is provided with the following standard features:  
a) Terminal Interface: DSX-I panel

Each of the channels has the following features:

MCImetro ACCESS TRANSMISSION SERVICES CORP. d/b/a VERIZON ACCESS TRANSMISSION SERVICES  
 NEW HAMPSHIRE LOCAL EXCHANGE SERVICES CATALOG SCHEDULE NO. 2  
 (ENTERPRISE NON-CURRENT SERVICES)

EFFECTIVE: NOVEMBER 1, 2016

- a) Pulse Type: Dual Tone Multi-Frequency (DTMF), or Dial Pulse (DP), or Multi-Frequency (MF)
- b) Directionality: DID/DOD or two way, as specified by the Customer.
- c) Hunting

10. Integrated Service Digital Network (ISDN)

ISDN service provides 2B+D switched access to the public switched network for the transmission of circuit switched voice, circuit switched data and packet switched data on an incoming and outgoing basis. It provides a customer with the ability to integrate current voice and data channel services utilizing Gateway S1 Basic Business Line Service.

Standard Features:

- (a) 2B+D-Channel
- (b) National ISDN Standard
- (c) 56/64/112/128 Kbps Dialed Data
- (d) Simultaneous Voice-Data Calling
- (e) Call Forwarding - Variable<sup>(1)</sup>
- (f) Call Forwarding - Busy <sup>(1)</sup>
- (g) Call Forwarding - Don't Answer <sup>(1)</sup>
- (h) Touch-Tone
- (i) Voice-Data Protection<sup>(1)</sup>
- (j) 3-Way Conference Calling<sup>(1)</sup>
- (k) Separate Signaling Channel
- (l) Customer changeable Speed Calling<sup>(1)</sup>
- (m) Multi-button Key Set Capability
- (n) Multi-point DSL

Optional Features:

- (a) Multiple Directory Numbers
- (b) X.25 on D Channel
- (c) X.25 on B Channel

Security Package:

- (a) Call Forwarding - Variable
- (b) Remote Activation of Call Forwarding
- (c) Call Trace

10.1 Integrated Service Digital Network (ISDN) – Primary Rate Interface (PRI)

ISDN-PRI service provides 23B+D (twenty three 64 Kbps B channels and a 64 Kbps data channel), access on a DSX- I interface.

Rates and Charges

Measured Usage Rate - Data Only

## F. GRANDFATHERED SERVICES

### 1. PRIVATE LINE SERVICE

#### 1.1 DEFINITIONS

Certain terms used generally throughout this catalog section for the Network Services of this Company are defined below.

Company: MCImetro Access Transmission Services **Corp.**, the issuer of this catalog, which is a Delaware corporation.

Customer: The person, firm or corporation which orders service and is responsible for the payment of charges and compliance with the company's regulations.

Mbps: Megabits, denotes millions of bits per second.

EFFECTIVE: NOVEMBER 1, 2016

Network: The Company's digital fiber optics-based network located in the State of New Hampshire.

Network Services: The Company's telecommunications access services offered on the Company's Network.

Premises: The space occupied by a Customer or authorized user in a building or buildings or contiguous property (except railroad rights-of-way, etc.) not separated by a highway.

Recurring Charges: The monthly charges to the Customer for services, facilities and equipment, which continue for the agreed upon duration of the service.

Services: The Company's telecommunications access services offered on the Company's network.

1.2. SERVICES

1.2.1 General

Network Services consist of any of the services offered hereunder, either individually or in combination. Each service is offered independently of all others.

1.3 Transmission Service

1.3.1 Transmission Service is offered via the Company's facilities for the transmission of one-way and two way communications.

1.3.2 Digital channels over the Company's Network are furnished for full-duplex transmission of digital signals at operating speeds as follows:

64 Kbps  
56 Kbps  
19.2 Kbps  
9.2 Kbps  
4.8 Kbps  
2.4 Kbps  
1.544 Mbps (DS-1)  
44.736 Mbps (DS-3)

1.4. RATES

1.4.1 Special Construction

Rates and charges for special construction will be based on the costs incurred by the Company.

1.4.2 Transmission Service

Rates are composed of two elements which may apply to a Customer's service, depending upon the specific service requested and its location: channel termination rate element and Channel Mileage rate element.

Formula:

$$\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}$$

1.4.3 Voice Grade Service

MCImetro ACCESS TRANSMISSION SERVICES CORP. d/b/a VERIZON ACCESS TRANSMISSION SERVICES  
 NEW HAMPSHIRE LOCAL EXCHANGE SERVICES CATALOG SCHEDULE NO. 2
