6. RATE & MILEAGE TABLES

METHOD FOR CALCULATION FOR AIRLINE MILEAGE

.01 Method of Calculation

EFFECTIVE: October 1, 2017

The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) Coordinates as obtained by reference to AT&T's Tariff F.C.C. NO. 10 according to the following methods:

A. Dedicated Leased Line Service

$$\frac{\sqrt{((V_1-V_2)^2+(H_1-H_2)^2)}}{10}$$

where V₁ and H₁ correspond to the V & H coordinates of City 1 and V₂ and H₂ correspond to the V & H coordinates of City 2.

Example	:	<u>V</u>	:	<u>H</u>
City 1 - Hutchinson		7452		4644
City 2 - Topeka		7110		4369

$$\frac{\sqrt{(7452 - 7110)^2 + (4644 - 4369)^2}}{10}$$

19258.9 = 138.78 miles*

Airline Mileage = 139 Miles

* Result will always be rounded to the next highest mile.

B. Metered Use Service

To determine the mileage between any two cities proceed as follows:

1. Obtain the "V" and "H" coordinates of the two cities.
2. Obtain the difference between the "V" coordinates of the two cities. Obtain the difference between the "H" coordinates.

NOTE: The difference is always obtained by subtracting the smallest coordinate from the larger coordinate.

3. Divide each of the differences obtained in 2, by three, rounding each quotient to the nearer integer.
4. Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in 3 by three, and repeat step 4. Repeat this process until the sum of the squares obtained in 4 is less than 1778.
5. The number of successive divisions by three in steps 3 and 4 determine the value of "N". Multiply the final sum of the two squares obtained in step 4 by the multiplier specified in the following table for this value of "N" proceeding:

<u>N</u>	<u>MULTIPLIER</u>	<u>MINIMUM RATE MILEAGE</u>
1	0.9	-
2	8.1	41

EFFECTIVE: October 1, 2017

3	72.9	121
4	656.1	361
5	5,904.9	1,081
6	53,144.1	3,241

6. Obtain square root of product in 5 and, with any resulting fraction, round up to next higher integer. This is the rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in 5. preceding the minimum rate mileage corresponding to the "N" value is applicable.

Example:

The rate mileage between Hutchinson and Topeka is calculated as follows:

	V	H
(a) Hutchinson	7452	4644
Little Rock	<u>7110</u>	<u>4369</u>
(b) difference	342	275

- (c1) divide each difference by three and rounding to nearer integer = 114 and 92

(d1) square integers and add,	114 x 114 =	12,996
	92 x 92 =	<u>8,464</u>
sum of squared integers		21,460

sum of squared integers is greater than 1777, so divide integers in

(c1) by three and repeat (d1)

- (c2) divide integers in (c1) by three and rounding = 38 and 31

(d2) square integers and add,	38 x 38 =	1,444
	31 x 31 =	<u>961</u>

sum of squared integers 2,405

sum of squared integers is greater than 1777, so divide integers in (c2) by three and repeat (d2)

- (c3) divide integers in (c2) by three and rounding = 13 and 10

(d3) square integers and add,	13 x 13 =	169
	10 x 10 =	<u>100</u>
sum of squared integers		269

sum of square integers is less than 1778 and was obtained after three successive divisions by three, therefore, "N" = 3.

(e) Multiply final sum of squared integers by factor 72.9	x	269
(corresponding to "N" = 3)		<u>72.9</u>
		= 19,610.1

EFFECTIVE: October 1, 2017

- (f) Square root of 19,610.1 = 140 and a fraction, which is rounded up to 141 miles (fractional miles are considered full miles). The 141 miles is larger than the minimum of 121 miles applicable when "N" = 3, so the rate mileage is 141 miles.

3.3 Toll Free Services

3.3.1 Toll Free Service is an inbound service originating on feature group facilities provided by the Local Exchange Carrier (LEC) and terminating on a Regular Business Line or a Special Access Line (SAL). This service enables the Customer to receive Toll Free service calls at their residence or place of business.

3.3.2 The Company reserves the right to require an applicant for Toll Free Service to supply the following information when requesting service: an initial traffic forecast, identification

EFFECTIVE: October 1, 2017

of anticipated busy hour, identification of its geographical marketing target areas, and a schedule of marketing and promotional activities. The Company also reserves the right to withdraw service without notice in the event the Customer is using the service to commit unlawful acts. The Company may also require that a new traffic forecast be submitted by the Customer quarterly after service is initiated.

- 3.3.3 Toll Free Service is furnished upon condition that the Customer contracts for adequate facilities to permit the use of this service without injurious effects upon it or any service rendered by the Company. The Company may terminate or refuse to furnish Toll Free Service to any applicant, without incurring any liability and without notice to the Customer, if the use of the service would interfere with or impair any service rendered by the Company.

The Customer must obtain an adequate number of access lines for Toll Free Services to handle the Customer's expected demand in order to prevent interference or impairment of this service or any other service provided by the Company considering: (1) total call volume; (2) average call duration; (3) time-of-day characteristics; and (4) peak calling period. The Company, without incurring any liability and without notice to the Customer, may disconnect or refuse to furnish Toll Free Service to any Customer that fails to comply with these conditions.

- 3.3.5 Use of numbers: Each Toll Free Service telephone number must be placed in actual and substantial use by the Customer. "Substantial use" shall mean a pattern of use that demonstrates an intent on the Customer's part to employ the number for the purpose for which it was intended; namely, to allow callers to reach the Customer, as indicated, for example, by at least 30 average monthly minutes of use or more. Any Toll Free telephone number associated with Toll Free Service that has not been placed in actual and substantial use during the first 60 day period after service activation may be redesignated as a spare number in the SMS 800 database by the Company upon written notice to the Customer.

- 3.3.6 If the Customer requests assignment of a specific Toll Free Service telephone number, the Company may require the Customer to submit a number reservation agreement form to the Company. At no time may a Customer have more than 10 numbers reserved. Any reservation shall be for no more than 60 days and shall be subject to a reservation fee which will be credited to Customer's unpaid balance after Toll Free Service has been in actual and substantial use for a consecutive 60 day period. Nothing in this Section, or in any other provision of this tariff, or in any marketing materials issued by or on behalf of the Company, shall give any person, including prospective Customers who have reserved Toll Free telephone numbers hereunder or Customers who subscribe to and use the Company's Toll Free Service or their transferee or assigns, any ownership interest or proprietary right in any particular Toll Free number; however, upon placing a number actually and substantially in use, as defined above, the Company's Toll Free Service Customers do have a controlling interest in this Toll Free number(s). The Company's Toll Free Service Customers may retain the use of their Toll Free number assignments, even following changes in their Toll Free carrier and/or Resp. Org.

- 3.3.7 If a Customer places an order for the Company to carry Customer's already existing Toll Free number service, the Customer shall provide to the Company the contact names, telephone number and address of the Customer's Responsible Organization (Resp. Org.). Upon subscription to the Company's Toll free Service, the Customer may execute a Letter of Authorization to transfer Resp. Org. responsibility of its Toll free number(s) to the Company's Resp. Org. If the Customer elects to retain a non-Company Resp. Org., the Customer must notify the Company of any changes in the Customer's Resp. Org. in

EFFECTIVE: October 1, 2017

writing within 48 hours of the change. The Customer is responsible for all outstanding indebtedness for services provided by a previous Resp. Org. or Toll Free service carrier. The Company assumes no responsibility or liability with respect to any obligations of Customer to such previous service providers existing at the time of transfer to the Company.

- 3.3.8 Subject to execution of a Resp. Org. Service Agreement between the Company and the Customer, the Company's Resp. Org. will perform the function of Resp. Org. for all Company Toll Free Service orders unless the Customer requests another Resp. Org. The Company's Resp. Org. functions include 1) search for and reservation of Toll Free numbers in the SMS/800; 2) creating and maintaining the Toll Free number Customer record in the SMS/800; and 3) provision of a single point of contact for trouble reporting.
- 3.3.9 Where the Company serves as the Resp. Org. for a Company Toll Free Service Customer, the Company will, at the Customer's request, subscribe to Toll Free Directory Listing for the Toll Free number(s) assigned to the Customer. A charge for Toll Free Directory Listings will apply as set forth in this Tariff. In the event that a Customer transfers its Toll Free service to another Resp. Org., the Company, upon such notice, shall immediately cease to subscribe to Toll Free Directory Listing Service on behalf of the Customer and the Customer is responsible for assuring that Toll Free Directory Listing Service is maintained through the new Resp. Org. Customer is responsible for payment of any outstanding Toll Free Directory Listing charges, including any unexpired portion of any minimum period applicable to such services, and the Company shall have no liability for any interruption or other delay, error, mistake, omission or other defect occurring in connection with the transfer of Toll Free Directory Listing responsibility.
- 3.3.9.1 Where the Company serves as the Resp. Org. for a Company Toll Free Service Customer, it will, at the Customer's request, subscribe to Vertical Features obtained from Local Exchange Company access tariffs. When a Company Toll Free Service Customer uses Vertical Features obtained by the Company from Local Exchange Company tariffs, a charge will apply. This charge may not be counted toward the attainment of any volume or revenue commitment and will not be discounted.
- 3.3.9.2 In the event that a Customer cancels its Toll Free Service, the Customer may elect to retain the Company as its Resp. Org. Where the Company serves as Resp. Org. for a non-Company Toll Free Service Customer, a charge for Resp. Org. Service will apply as set forth in this Tariff.
- 3.3.9.3 In the event that a Customer cancels its Company Resp. Org. or Toll Free Service, the Customer shall be responsible for all outstanding indebtedness to the Company and any outstanding charges applicable to any services obtained by or on behalf of the Customer by the Company.
- 3.3.9.4 It is the Customer's responsibility to provide answer supervision back to the Company point of connection even when the Toll Free Service is connected to switching equipment or a Customer-provided communications system. In such case, the equipment or system must provide appropriate supervision so that the measure of chargeable time begins upon delivery of the call to the Customer's switching equipment or communications system and ends upon termination of the call.

KANSAS INTEREXCHANGE SERVICES CATALOG SCHEDULE NO. 2
(ENTERPRISE NON-CURRENT SERVICES)

EFFECTIVE: October 1, 2017

The minimum monthly commitment will be based on net charges for service (after discounts have been applied) and must be reached by the fourth invoice period and monthly thereafter. Multiple services and/or multiple locations using Intelenet can contribute to the overall monthly commitment; however, the customer must allocate the minimum by service and location. All inbound and outbound domestic and international, calling card, intrastate service and internet access charges, including local services (if applicable) contribute to determining the monthly minimum usage with the exception of enhanced fax, conference calling and non-recurring charges.

If a customer's monthly service usage charges for any month in the term are less than the monthly commitment agreed upon, the customer Shall pay the company the difference between the monthly usage charges and the monthly commitment in addition to charges for service.

When the customer has completed the term commitment, service will automatically be renewed for additional term(s) of the agreement unless the Company has received the customer's written notice to terminate the service on not less than sixty (60) days prior to the then existing term expiration date. Customers who terminate service prior to the end of the term in any manner other than stated will be liable for a service termination charge of an amount equal to the greater of the following, unless customer converts to another Company service with equal or greater term and minimum usage commitment:

- .1 If the termination becomes effective prior to the completion of the first year of the Customer Term, then the charge shall be an amount equal to the monthly billing commitment times the number of months remaining in Term through the expiration of the first year. If applicable, twenty-five percent (25%) of the balance remaining (monthly billing commitment times the number of remaining months in the Term beyond the first year) will also be included.
- .2 If the termination becomes effective after the completion of the first year, then the charge shall be an amount equal to twenty-five percent (25%) of the balance remaining (monthly billing commitment times the number of months remaining in the Term).
In addition, the customer will be required to repay any promotional credits that were applied, and any charges reimbursed or waived.

Upon execution of the Intelenet Service Agreement, the customer has ninety (90) days from the date service is made available in which to notify the Company in writing, either by certified or registered mail (return receipt requested), of customer's desire to cancel the Service Agreement without penalty or further obligation, except for charges incurred up to the date of termination, in the event that quality deficiencies solely caused by the Company in the provision of telecommunications service hereunder are demonstrated by customer to affect adversely and materially customer's telecommunications applications (such a termination under this clause constituting a Termination for Cause). A Termination for Cause shall not be effective unless customer has reported trouble on an ANI or circuit-specific basis to (and received corresponding trouble ticket from) the appropriate Company Support Center and a period of not less than thirty (30) days after receipt of customer's written notice of termination has elapsed during which the

Company fails to correct such quality deficiencies. Provided, nothing contained herein shall impose any liability on Company and customer's sole remedy shall be termination of the affected service as described.

Total Solution Series 100(sm) Service is subject to a minimum monthly usage commitment (after the third full month following the initial installation of service for new Customers) based on the Customer's selected commitment level. 3.4.10 Total Solution Gold Service

EFFECTIVE: October 1, 2017

3.4.10.1 Description

Total Solution Gold Service is an offering which allows customers to select shared and dedicated outbound and inbound service arrangements, and obtain Term Plan discounts. Total Solution Gold calls are eligible for volume discounts based on total cross-contribution usage from all interstate and intrastate shared and dedicated outbound and inbound usage products (directory assistance and operator assistance are not contributory). Discounted rates apply retroactively, such that once the next dollar threshold is reached, the lower rate applies back to the first minute of usage for that billing period. Charges such as taxes, late payment fees or other service non-recurring and monthly recurring charges will not be included in the volume discount cross-contribution calculation.

The Outbound Calling Service arrangement is a long distance switched access service, which is available on either a shared or dedicated basis. The usage is billed on a flat rated basis. Outbound Calling Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. Rates for Operator-assisted calls are set forth in Section 3.2.

The Inbound Calling Service arrangement is a toll free switched access service, which permits calls to be completed at the Customer's location without charge to the calling party. This service is available on either a shared or dedicated basis. Access to the service is gained by an end user dialing a 10 digit telephone number (e.g., 800/888+NXX-XXXX) which will terminate at the Customer's location. The usage is billed on a flat rated basis. Toll Free Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. In addition, there is a non-recurring and monthly recurring Toll Free Service number charge, which will be applied either on a "per Toll Free Service number" basis for shared access or on a "per routing arrangement" basis for dedicated access.

3.4.10.2 Term Plans

Total Solution Gold Service is available at 1 or 2 year Term Plan rates. Term Plans are subject to a minimum monthly usage level of \$500 for shared access or \$2,500 for dedicated access after 90 days of initial service. Should the Customer's actual usage fall below the monthly minimum usage commitment, the Customer is required to pay the Company a fee equal to the difference between the Customer's actual usage and the Customer's minimum monthly commitment. Term Plan threshold calculations will include usage charges from all intrastate and interstate switched outbound and inbound usage products (directory assistance and operator assistance are not contributory). Charges such as taxes, late payment fees and other service non-recurring and monthly recurring charges will not be included in the Term Plan usage threshold calculation. A Customer who terminates a Term Plan prior to the term's expiration will be required to pay in one lump sum an amount equaling the monthly minimum service usage charge times the number of months remaining in the term.

EFFECTIVE: October 1, 2017

A Customer may terminate their Term Plan without liability under the following conditions:

- .1 The customer requests, and remains on, a new Term Plan for a term equal to or greater than the time remaining on their current Company Term Plan.
- .2 The Customer provides written notification to cancel the Term Plan to the Company postmarked within 90 days of the commencement of the Term Plan. The Customer is responsible for payment of services used during this period.

Term Plans will be automatically renewed unless the Customer notifies the Company in writing to cancel the renewal within 30 days of expiration of the current Term Plan.

3.4.10.3 Rate Periods

Peak and Off-Peak rate periods are as follows:

<u>Non-Holiday Rate Periods</u>	<u>From</u>	<u>To But Not Including</u>	<u>Days</u>

Holidays: On Christmas Day (Dec. 25), New Years Day (Jan. 1), Memorial Day, Independence Day (July 4), Labor Day (first Monday in Sept.) and Thanksgiving Day (fourth Thursday in Nov.) the Off-Peak Period rate applies unless a lower rate would normally apply.
