This Catalog Schedule No. 1 applies to the non-current services pertaining to enterprise business customers (i.e., non-mass markets) previously offered in Missouri by MCI Communications Services, Inc. d/b/a Verizon Business Services which are not set forth in other sections of the Guide. Unless otherwise indicated, the material below was previously described in Missouri Tariff No. 4 of MCI Communications Services, Inc. d/b/a Verizon Business Services. For ease of reference, where applicable, the prior section numbers contained in the prior tariff have been retained.

All of these non-current services are subject to the Terms and Conditions applicable to the other Intrastate Services as set forth in the Guide. The product descriptions, rates and charges for the non-current services previously offered in Missouri that were in effect at the time that the Missouri Intrastate Services were added to the Guide and which are not set forth in other portions of the guide nor set forth below, will continue to remain in effect for a Customer previously subscribed to these services until the Customer no longer subscribes to such service(s), or changes are made to the product descriptions, rates or charges in the Guide.

Revisions to Interexchange Services Catalog Schedule No. 1, Effective October 1, 2017

## GRANDFATHERED SERVICES, Subsection A

- Removal of Dedicated Leased Line Service from the catalog. There are no customers on the service and the service is no longer available.

## XIII. GRANDFATHERED SERVICES:

The following provides services and pricing programs which are no longer available to new enterprise business customers (i.e., non-mass markets) and are not otherwise described in other portions of this tariff. All of these grandfathered services are subject to the same terms and conditions applicable to the other services as set forth in this tariff.

Gaps in the numbering of sections indicate sections which are intentionally left blank. To a large extent, this is due to the desire to have the sections below match the section numbers to the grandfathered services which previously were in other Verizon Business Services tariffs. The material in Subsection A of the Grandfathered Services section was previously in Company tariff No. 1. The material in Subsection B of the Grandfathered Services section was previously in Company Tariff No. 3.

## GRANDFATHERED SERVICES, Subsection A

Subsection A contains material previously in Company tariff No. 1, reflecting the sections and numbering as used in that tariff.

Effective on or after August 8, 2016, MCI Communications Services, Inc. will no longer offer Person-to-Person, 3rd Number Billing, or Collect Call operator services throughout the United States to customers that MCl serves as an interexchange carrier or facility-based local carrier.

## 3. METERED USE SERVICE (Cont.)

. 04 Option C (MCI WATS) 1/
[1/ Commencing January 5, 1994 MCI WATS will not be available to new subscribers.]
Option C involves the provision of interexchange communications channels. Option C is a oneway, multipoint service requiring the customer to originate calls via dedicated facilities between his premises and MCl 's terminal location and allowing the termination of calls via a combination of MCI -provided interexchange facilities and local business telephone lines, and the resold facilities of other carriers. All Option C calls are subject to a one minute average connect time (i.e. total monthly minutes of use divided by total monthly calls must equal at least one minute). All Option C calls are rounded to the next higher 6 -second increment.

## .041 Monthly Recurring Charges

. 0411 Interexchange Facilities Usage Charges: Option C is available on the basis of usage charges and is subject to a monthly Minimum Charge.
. 04111 Minimum Charge: $\quad \$ 75$ for all usage
.04112 Usage Charges: Usage Charges are determined by such variables as Rate Periods, Rate Schedules and Service Areas. The charges are billed

EFFECTIVE: October 1, 2017
according to the average monthly use for each rate period of each dedicated access line within a service group. 1/ (See definition of "Service Group" in Section A preceding.) The rate period is determined by the day and time at the Option C dedicated access line location. [1/ The average monthly minutes of use for each rate period per access line will be deemed to be the same as the average monthly minutes of total traffic (including traffic to Canada) for each rate period. The resulting effective per minute rate will then be applied to the customers Tier 1 and Tier 2 usage, respectively.]
a) RATE PERIODS:

Business Day Period

b) RATE SCHEDULES:

The Tier 1 hourly Usage Charges as set forth below under Section C-3.041122 shall apply to all calls terminating, via MCI provided interexchange facilities, in those cities set forth in Table IV, Section C-7.

The Tier 2 hourly Usage Charges as specified in Section C3.041122 below apply to calls terminating, via resold interexchange facilities of other carriers, in cities other than those set forth in Table IV, Section C-7.
c) SERVICE AREAS

Service Areas (S.A's) represent broad geographical areas which encompass specific locations to which the customer subscribes. The Service Areas are designated S.A one through S.A. five and each higher Service Area includes service to all lower numbered Service Areas. See Section C-7, Table IV, Part C, for complete geographical coverage of Service Areas.
.041121 Rate Step Table:
The following Rate Step Table is used to determine the usage rates that apply to Option C. To use the table, locate the number in the column under the selected service area. This number is referred to as the Rate Step. Then locate the same Rate Step number on the Monthly Usage Table (Section C-3.041122). The rates listed on that line will apply to the service provided for that Originating State and Service Area.

## . 041122 See Section C-3.044

## . 0412 Method of Determining Usage Charges

Based upon the hourly rates set forth in Section C-3.041122, MCI WATS usage charges are calculated as described below: 1/
[1/ Minutes used in the calculation include both intrastate and interstate minutes.]
a) Determine the total minutes of monthly usage for each rate period over all dedicated access lines in a service group.
b) Determine the total number of access lines in service during the month (access lines in service for a partial month will be pro-rated).
c) Determine the average usage for each rate period per access line by dividing the minutes for each rate period from (a) above by the number of lines from (b) above.
d) Determine the effective rate step for the desired service area from the appropriate originating state.
e) Determine the effective Tier 1 hourly rate for each rate period by: 1) Multiplying the total hours in each tapered usage increment for that rate period by the associated hourly rate for that increment; 2) totaling these charges for each rate period; and 3) dividing the total by the average usage per line from (c) above.
f) Repeat step (e) for Tier 2 usage.
g) Determine the Tier 1 usage charge for each rate period by multiplying the effective Tier 1 hourly rate per rate period from (e) above by the total Tier 1 hours of monthly use in a service group for each rate period, respectively, and totaling these charges.
h) Repeat step (g) for Tier 2 usage by using the effective Tier 2 hourly rate per rate period as determined in (f) above.
i) Determine the total Tier 1 and Tier 2 usage charge for all rate periods in each service group by adding the results of $(\mathrm{g})$ and ( h ) above.

MCI 800 Service is an inward WATS service which permits intrastate calls to a customer's station in one location from stations in diverse geographical service areas, and in which the MCI 800 customer is billed for the calls rather than the call originators. 800 Service has one pricing Range for each terminating area code, with total intrastate coverage on every line. Range designation, determined by originating and terminating area code, is shown in Section C-7, Table IV, Part D.

MCl may require that a customer provide calling pattern information necessary for MCl to evaluate whether it anticipates network blockage, and MCl reserves the right to suspend installation of
service until adequate facilities are available to meet such traffic. All Option H calls will be subject to an 18 -second minimum initial period and additional 6 -second increments. All Option H calls are rounded to the next higher 6 -second increment. A call begins when call termination is received by or passes through customer premises equipment. It is the customer's responsibility to pass appropriate answer supervision back to the MCl point of connection. For rules regarding the reservation of MCI 800 Service telephone numbers, refer to Section B-16.

Unless otherwise indicated herein, the terms "MCI 800 Service," " 888 Service," and/or "Toll Free Service"; and the terms " 800 number," "888 number," and/or "Toll Free number" can be used interchangeably when used throughout this tariff.

## . 093 Volume Discounts

Incremental Volume Discounts, as set forth below, are available to those MCI 800 Service customers who have established accounts with MCl and whose total monthly charge for usage under Section C-3.09211 through Sections C-3.09213 preceding equals or exceeds certain levels for a particular terminating location (MCl terminal). The discounts will be applied to the customer's monthly invoice and will be based on the total monthly usage in all three rate periods and for all service groups of the same termination type served off a particular MCI terminal. The discount is then applied to each of the terminating service groups based on their percentage of the total usage.

## . 1034 Operator Assistance - For intrastate calls placed with the assistance of an MCl operator, the rates and surcharges described in Sections C-3.0266 and C-3.0264, respectively, will apply.

## Basic Feature Package Charge

The Basic Feature Package, to which all Vnet customers subscribe, includes the availability of Dedicated and Shared Access and Termination; usage rates with associated Volume Discounts; Directory Assistance; plus the following:

7 digit customer-defined private dialing plan, used for:

- direct termination of calls dialed as 7-digit to customer locations
- optionally, for convenience in dialing locations reached via 10 digit numbers, Vnet converts the 7 digit number to the appropriate 10 digit number.

10-Digit Private Dialing Plan - used for direct termination of calls dialed as 10 digits, to customer locations.

10-digit Exclusion - Customer specifies individual called 10 -digit phone numbers to be blocked.

Consolidated Invoice - A single consolidated billing statement for all calls placed via Vnet from all locations. Invoice includes call detail on paper at the customer's option.

Universal Range Privilege - A customer can specify the type of Vnet calls allowable for users on each Dedicated Access Line group, for each Vnet Card authorization code and for each Dial "1" ANI (originating telephone number) band for each ID code (see Section $\mathrm{C}-3.1055$ regarding ID codes). The range privileges are defined as follows:
$0=$ no calls allowed
$1=$ on Vnet numbers (7- and 10-digit private dialing plan numbers)
$2=$ Range 1 plus 10 -digit off-Vnet numbers
Accounting Codes - A customer can specify that Accounting Codes are to be dialed from specific dedicated access line groups or from Dial "1" telephone numbers (ANIs). For Dial "1" access, the code must be two digits and cannot be used in combination with an ID Code (see Section C-3.1055). If the ANI is equipped for the code, the code will be dialed on all Vnet calls originated at that ANI. For Dedicated Access, the code may be dialed in combination with an ID Code and both the ID and Accounting Code may be of customerspecific length so long as the total number of digits of both does not exceed seven. If the dedicated access line group is equipped for the code(s), the customer can select, on that line group, that either all originations must dial the code(s), or that only 10 -digit originations must dial the code(s). Accounting codes are non-verified codes.

Segment 2: From target terminating dedicated trunk group to destination telephone number. Call type specific usage charges (Sections C-3.103 preceding,

## 6. RATE \& MILEAGE TABLES

## METHOD FOR CALCULATION FOR AIRLINE MILEAGE

Method of Calculation
The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) Coordinates as obtained by reference to AT\&T's Tariff F.C.C. No. 10 according to the following formula:

## Metered Use Service

To determine the mileage between any two cities proceed as follows:

1. Obtain the " V " and " H " coordinates of the two cities.
2. Obtain the difference between the " V " coordinates of the two cities. Obtain the difference between the " H " coordinates.

Note: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
3. Divide each of the differences obtained in 2 by three, rounding the quotient to the nearer integer.
4. Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in 3 by three, and repeat step 4. Repeat this process until the sum of the squares obtained in 4 is less than 1778.
5. The number of successive divisions by three in steps 3 and 4 determines the values of "H". Multiply the final sum of the two squares obtained in step 4 by the multiplier specified in the following table for this value of " H " preceding:

$$
\begin{array}{lll}
\mathrm{H} & \text { Multiplier } & \text { Minimum Rate Mileage }
\end{array}
$$

| 1 | 0.9 | - |
| :--- | :--- | :--- |
| 2 | 8.1 | 41 |
| 3 | 72.9 | 121 |
| 4 | 656.1 | 361 |
| 5 | $5,904.9$ | 1,081 |
| 6 | $53,144.1$ | 3,241 |

6. Obtain square root of product in 5 and, with any resulting fraction, round up to the next higher integer. This is the rate mileage except that when the number obtained is less than the minimum rate mileage shown in \#5 preceding. The rate mileage corresponding to the " H " value is applicable.

## Example:

The rate mileage between Kansas City and St. Louis is calculated as follows:

|  |  | V | H |
| :--- | :--- | :--- | :--- |
| (a) | Kansas City | 7027 | 4203 |
|  | St. Louis | 6807 | 3482 |
| (b) | Difference | 220 | 721 |

(c1) Divide each difference by three and rounding to nearer integer = 73 and 240
(d1) square integers and add, $73 \times 73=$ 5,329
$240 \times 240=\underline{57,600}$
sum of squared integers 62,929
sum of squared integers is greater than 1777, so divide integers in (c1) by three and repeat (d1)
(c2) divide integers in (c1) by three and rounding = 24 and 80
(d2)

| square integers and add, | $24 \times 24=$ | 576 |
| :--- | :--- | :---: |
|  | $80 \times 80=$ | $\frac{6,400}{6,976}$ |

(c3) divide integers in (c2) by three and rounding $=8$ and 27
(d3) square integers and add, $8 \times 8=\quad 64$

$$
27 \times 27=\quad \frac{729}{700}
$$

sum of squared integers 793
This sum of squared integers is less than 1778 and was obtained after three successive divisions by three, therefore, "H" = 3 .
(e) Multiply final sum of squared

793
integers by factor 72.9
$\times 72.9$
(corresponding to " H " $=3$ )
57,809.7
(f) Square root of $57,809.7=240$ and a fraction, which is rounded up to 241 miles (fractional miles are considered full miles). The 241 miles is larger

EFFECTIVE: October 1, 2017
than the minimum of 121 miles applicable when " H " $=3$, so the rate mileage is 241 miles.

5.2 Toll-Free Service

## 1. Description

A. Toll-Free Service is an inbound service originating on feature group facilities provided by the Local Exchange Carrier (LEC) and terminating on a Regular Business Line or a Special Access Line (SAL). This service enables the Customer to receive toll-free service calls at their residence or place of business.
B. The Company reserves the right to require an applicant for the Company's Toll-Free Service to supply the following information when requesting service: an initial traffic forecast, identification of anticipated busy hour, identification of its geographical marketing target areas, and a schedule of marketing and promotional activities. The Company also reserves the right to withdraw service without notice in the event the Customer is using the service to commit unlawful acts. The Company may also require that a new traffic forecast be submitted by the Customer quarterly after service is initiated.
C. Toll-Free Service is furnished upon condition that the Customer contracts for adequate facilities to permit the use of this service without injurious effects upon it or any service rendered by the Company. The Company may terminate or refuse to furnish Toll-Free Service to any applicant, without incurring any liability and without notice to the Customer, if the use of the service would interfere with or impair any service rendered by the Company.
D. The Customer must obtain an adequate number of access lines for Toll-Free Services to handle the Customer's expected demand in order to prevent interference or impairment of this service or any other service provided by the Company considering: (1) total call volume; (2) average call duration; (3) time-ofday characteristics; and (4) peak calling period. The Company, without incurring any liability and without notice to the Customer, may disconnect or refuse to furnish Toll-Free Service to any Customer that fails to comply with these conditions.
E. Use of numbers: Each Toll-Free Service telephone number must be placed in actual and substantial use by the Customer. "Substantial use" shall mean a pattern of use that demonstrates an intent on the Customer's part to employ the number for the purpose for which it was intended; namely, to allow callers to reach the Customer, as indicated, for example, by at least 30 average monthly minutes of use or more. Any toll-free telephone number associated with Toll-Free Service that has not been placed in actual and substantial use during the first 60 day period after service activation may be redesignated as a spare number in the SMS toll-free database by the Company upon written notice to the Customer.
F. If the Customer requests assignment of a specific Toll-Free Service telephone number, the Company may require the Customer to submit a number reservation agreement form to the Company. At no time may a Customer have more than 10 numbers reserved. Any reservation shall be for no more than 60 days and shall be subject to a reservation fee which will be credited to Customer's unpaid balance after Toll-Free Service has been in actual and substantial use for a consecutive 60 day period.

Nothing in this Section, or in any other provision of this tariff, or in any marketing materials issued by or on behalf of the Company, shall give any person, including prospective Customers who have reserved toll-free telephone numbers hereunder or Customers who subscribe to and use Toll-Free Service or their transferee or assigns, any ownership interest or proprietary right in any particular toll-free number; however, upon placing a number actually and substantially in use, as defined
above, Toll-Free Service Customers do have a controlling interest in this toll-free number(s). Toll-Free Service Customers may retain the use of their toll-free number assignments, even following changes in their toll-free carrier and/or Resp. Org.
G. If a Customer places an order for the Company to carry Customer's already existing toll-free number service, the Customer shall provide to the Company the contact names, telephone number and address of the Customer's Responsible Organization (Resp. Org.). Upon subscription to Toll-Free Service, the Customer may execute a Letter of Authorization to transfer Resp. Org. responsibility of its toll-free number(s) to the Company's Resp. Org. If the Customer elects to retain a non-Company Resp. Org., the Customer must notify the Company of any changes in the Customer's Resp. Org. in writing within 48 hours of the change. The Customer is responsible for all outstanding indebtedness for services provided by a previous Resp. Org. or toll-free service carrier. The Company assumes no responsibility or liability with respect to any obligations of Customer to such previous service providers existing at the time of transfer to the Company.
H. Subject to execution of a Resp. Org. Service Agreement between the Company and the Customer, the Company Resp. Org. will perform the function of Resp. Org. for all Company Toll-Free Service orders unless the Customer requests another Resp. Org. The Company's Resp. Org. functions include 1) search for and reservation of toll-free numbers in the SMS/toll-free; 2) creating and maintaining the toll-free number Customer record in the SMS/toll-free; and 3) provision of a single point of contact for trouble reporting.
I. Where the Company serves as the Resp. Org. for a Company Toll-Free Service Customer, the Company will, at the Customer's request, subscribe to Toll-Free Directory Listing for the toll-free number(s) assigned to the Customer. A charge for Toll-Free Directory Listings will apply as set forth in this Tariff. In the event that a Customer transfers its toll-free service to another Resp. Org., the Company, upon such notice, shall immediately cease to subscribe to Toll-Free Directory Listing Service on behalf of the Customer and the Customer is responsible for assuring that Toll-Free Directory Listing Service is maintained through the new Resp. Org. Customer is responsible for payment of any outstanding Toll-Free Directory Listing charges, including any unexpired portion of any minimum period applicable to such services, and the Company shall have no liability for any interruption or other delay, error, mistake, omission or other defect occurring in connection with the transfer of Toll-Free Directory Listing responsibility.
J. Where the Company serves as the Resp. Org. for a Company Toll-Free Service Customer, it will, at the Customer's request, subscribe to Vertical Features obtained from Local Exchange Company access tariffs. When a Company Toll-Free Service Customer uses Vertical Features obtained by a Customer from Local Exchange Company tariffs, a charge will apply. This charge may not be counted toward the attainment of any volume or revenue commitment and will not be discounted.
K. In the event that a Customer cancels its Company Toll-Free Service, the Customer may elect to retain the Company as its Resp. Org. Where the Company serves as Resp. Org. for a non-Company Toll-Free Service Customer, a charge for Resp. Org. Service will apply as set forth in this Tariff.
L. In the event that a Customer cancels its Company Resp. Org. or Toll-Free Service, the Customer shall be responsible for all outstanding indebtedness to the Company and any outstanding charges applicable to any services obtained by or on behalf of the Customer by the Company.

EFFECTIVE: October 1, 2017
M. It is the Customer's responsibility to provide answer supervision back to the Company's point of connection even when the Company's Toll-Free Service is connected to switching equipment or a Customer-provided communications system. In such case, the equipment or system must provide appropriate supervision so that the measure of chargeable time begins upon delivery of the call to the Customer's switching equipment or communications system and ends upon termination of the call.

A. Description

## B. Commitment Levels and Term Plans

Total Solution Series $100^{\text {SM }}$ Service is available on a month to month basis or on an optional 1 or 2 year Term Plan. Discounts off the base rates are available to the Customer according to the commitment level and Term Plan selected by the Customer.

Total Solution Series $100^{\text {SM }}$ Service is subject to a minimum monthly usage commitment (after the third full month following the initial installation of service for new Customers) based on the Customer's selected commitment level. The commitment level is calculated from the monthly total of usage generated from the following Company products: shared and dedicated domestic interstate and intrastate outbound and inbound service, international outbound, intraLATA, local service, and calling card. Charges such as taxes, late payment fees or other service non-recurring and monthly recurring charges will not be included in the total usage amount calculation, as well as usage charges from Directory Assistance, Operator Service, voice mail and conference calling.

Should the Customer's actual usage fall below the monthly minimum usage commitment, the Customer is required to pay the Company a fee equal to the difference between the Customer's actual usage and the Customer's minimum monthly commitment. A Customer who terminates a Term Plan prior to the term's expiration will be required to pay in one lump sum an amount equaling the selected monthly commitment level times the number of months remaining in the term, plus an amount equal to any promotional credit, or discount, or waiver, if applicable, that was provided to the Customer.

A Customer may terminate their Term Plan without liability under the following conditions:

1) The Customer requests, and remains on, a new Term Plan for a term and commitment level equal to or greater than their current Company Term Plan and commitment level.
2) A new Customer (who was not receiving services through the Company prior to execution of the Term Plan) provides written notification to cancel the Term Plan to the Company postmarked within 90 days of the commencement of the Term Plan. ## 11. Intelenet Service

## A. Description

Intelenet offers a full service voice product for single or multi-location customers using switched or dedicated, and calling card origination and switched or dedicated toll-free termination. The Intelenet package includes a single flat rate for both peak and off-peak dedicated and switched usage and offers discounts for customers willing to sign a term commitment of month to month, twelve (12) or twenty-four (24) months and/or a willingness to commit to a specific dollar volume of monthly minimum usage.

The minimum monthly commitment will be based on net charges for service (after discounts have been applied) and must be reached by the fourth invoice period and monthly thereafter. Multiple services and/or multiple locations using Intelenet can contribute to the overall monthly commitment; however, the customer must allocate the minimum by service and location. All inbound and outbound domestic and international, calling card, intrastate service and internet access charges, including local services (if applicable) contribute to determining the monthly minimum usage with the exception of enhanced fax, conference calling and non-recurring charges.

If a customer's monthly service usage charges for any month in the term are less than the monthly commitment agreed upon, the customer shall pay the company the difference between the monthly usage charges and the monthly commitment in addition to charges for service.

## B. Service Agreement

When the customer has completed the term commitment, service will automatically be renewed for additional term(s) of the agreement unless the Company has received the customer's written notice to terminate the service on not less than sixty (60) days prior to the then existing term expiration date. Customers who terminate service prior to the end of the term in any manner other than stated will be liable for a service termination charge of an amount equal to the greater of the following, unless customer converts to another Company service with equal or greater term and minimum usage commitment:
(1) If the termination becomes effective prior to the completion of the first year of the Customer Term, then the charge shall be an amount equal to the monthly billing commitment times the number of months remaining in

Term through the expiration of the first year. If applicable, twenty-five percent ( $25 \%$ ) of the balance remaining (monthly billing commitment times the number of remaining months in the Term beyond the first year) will also be included.
(2) If the termination becomes effective after the completion of the first year, then the charge shall be an amount equal to twenty-five percent ( $25 \%$ ) of the balance remaining (monthly billing commitment times the number of months remaining in the Term).

In addition, the customer will be required to repay any promotional credits that were applied, and any charges reimbursed or waived.
(3) Upon execution of the Intelenet Service Agreement, the customer has ninety (90) days from the date service is made available in which to notify the Company in writing, either by certified or registered mail (return receipt requested), of customer's desire to cancel the Service Agreement without penalty or further obligation, except for charges incurred up to the date of termination, in the event that quality deficiencies solely caused by the Company in the provision of telecommunications service hereunder are demonstrated by customer to affect adversely and materially customer's telecommunications applications (such a termination under this clause constituting a Termination for Cause). A Termination for Cause shall not be effective unless customer has reported trouble on an ANI or circuit-specific basis to (and received corresponding trouble ticket from) the appropriate Company Support Center and a period of not less than thirty (30) days after receipt of customer's written notice of termination has elapsed during which the Company fails to correct such quality deficiencies. Provided, nothing contained herein shall impose any liability on Company and customer's sole remedy shall be termination of the affected service as described.
(4) Customer's Intelenet Service Agreement is subject to the general terms, and conditions and rates of this Tariff and/or Service or Credit Application forms executed in connection with the services provided herein.

## 6. Intermedia Grandfathered Services*

[*These services will apply only to the existing Intermedia customers that have been migrated over. This service will not be available to new customers.]

### 6.1 Payphone Compensation Charge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate, and international calls that originate from any domestic pay telephone used to access Intermedia services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with Intermedia service, applies for the use of the instrument used to access Intermedia service and is unrelated to the Intermedia service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Payphone Compensation Charge applies to the initial completed call and any reoriginated call (i.e., using the "\#" symbol).

Whenever possible, the Payphone Compensation Charge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Payphone Compensation Charge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Payphone Compensation Charge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

### 6.2 Standard Features

When services herein are identified as including Standard Features, the following features will be included at no additional charge:

Generic Project Codes - A two (2), three (3), or four (4) digit code assigned by the customer and dialed after the long distance number. Project codes are not verified except as provided under "Verified Project Codes." Project codes are printed on the customer bill as part of the call detail record.

AT\&T Call Cost Report - A report prepared at the time of monthly billing which lists all calls and equivalent AT\&T cost, according to current AT\&T tariffs on file, and approved by the appropriate regulatory body.

Potential Call Abuse Report - A report prepared at the time of monthly billing which can list the 20 longest calls made during a billing cycle, or all calls placed during the Evening/Weekend time periods during a billing cycle. A combination of both reports can also be provided on request by a customer.
