All of these grandfathered services are subject to the same terms and conditions applicable to the other Local services as set forth on the Guide.

This Grandfathered Services Section of this catalog schedule has three subsections, to help identify where the material was in prior tariffs. Material in Subsection C previously were in Brooks Fiber of New York Tariff No. 2 and Brooks Fiber was previously merged into Verizon Access Transmission Services.

Gaps in the numbering within the subsections indicate section numbers which are intentionally left blank. To a large extent, this is due to the desire to have the sections below match the section numbers to the grandfathered services which previously were in prior tariffs to the extent applicable.

Where there are no regulations, notification will be made in a manner appropriate to the circumstances involved. A customer can request that the Company disconnect service that is provided under the Flexible Pricing due to the price increase. The customer will be credited for the difference between the new price and the old price retroactive to the effective date of the price increase if the customer notifies the Company of its desire to disconnect service within 20 days of receiving notification of the price increase.

Term Commitment and Renewal Options: A customer must commit to service for a term of either one, two, three, four, or five years. The term of service will commence no earlier than the first day of the next billing month in which the customer subscribes to the plan. A plan will automatically renew for an equivalent term and volume commitment upon expiration of its term unless the customer provides written notification to cancel the Local On-Net Term Plan, which must be received by the Company no more than 30 days after expiration of the existing term. If the customer cancels the existing term plan within 30 days after expiration of the existing term, the customer will receive the discounts for which the customer qualifies during the 30-day period following the expiration of the existing term of service.

Effective October 1, 2018

Volume commitment: A customer may elect a Local On-Net Term Plan monthly volume commitment of one of the following amounts, calculated after the application of promotional and other discounts: \$100; \$250; \$500; \$1,000; \$2,000; \$3,000; \$4,000; \$5,000; \$7,000, or an annual volume commitment of one of the following amounts, calculated after the application of promotional and other discounts: \$120,000; \$180,000; \$300,000; \$600,000. The customer's volume commitment will be based upon the customer's Qualifying Volume. At any time during the term of service, a customer may elect a higher equivalent annualized volume commitment. If a customer so elects, the term of service expiration date will not change. The new volume commitment will apply beginning in the following month for monthly commitments and as of the beginning of the commitment year in which the new volume commitment is elected for annual commitments. The discounts associated with the new commitment volume level apply to charges and usage only from the new election date forward.

Underutilization Charges: If at the end of any year of the term of service, a customer fails to satisfy its annual volume commitment, the customer must pay the difference between the customer's actual Qualifying Volume in that year and the annual volume commitment. If at the end of any month of the term of service, a customer fails to satisfy its monthly volume commitment, the customer must pay the difference between the customer's actual Qualifying Volume in that month and the monthly volume commitment.

Early Termination Charges:

Cancellation of Discontinuance without Liability: If: (i) the customer's use of Local Exchange Service under a Local On-Net Term Plan equals or exceeds the Customer's equivalent annualized minimum volume commitment or monthly volume commitment and (ii) at the time of termination the customer is enrolled in a new Local On-Net Term Plan with a volume commitment which equals or exceeds the Customer's existing volume commitment, the customer may terminate service under Term Plan without liability as follows: (i) the customer may terminate service at any time during the last three months of the term of service if the customer's Local On-Net Term Plan's term commitment is one year; or (ii) the customer may terminate service at any time during the last six months of the term of service if the customer's new Local On-Net Term Plan's term commitment is equal to or greater than two years.

Cancellation or Discontinuance with Liability: Discontinuance of all services furnished under the Local On-Net Term Plan prior to the expiration of the committed term of service constitutes discontinuance of the plan and the customer will be billed and required to pay an early termination charge equal to the Underutilization Charge for the year of termination plus 50% of all of each annual or monthly volume commitment for each year remaining in the unfulfilled term of service.

Discounts: (Monthly volume commitments will no longer be available after October 1, 2000. Existing customers electing a monthly volume commitment prior to October 1, 2000 will remain on their existing elected monthly volume commitments.)

4.4.3 Intelenet Service

A. Description

Intelenet offers a full service voice product for single or multi-location customers using switched or dedicated, and calling card origination and switched or dedicated toll-free termination. The Intelenet package includes a single flat rate for both peak and off-peak dedicated and switched usage and offers discounts for customers willing to sign a term commitment of month to month, twelve (12) or twenty-four (24) months and/or a willingness to commit to a specific dollar volume of monthly minimum usage.

The minimum monthly commitment will be based on net charges for service (after discounts have been applied) and must be reached by the fourth invoice period and monthly thereafter. Multiple services and/or multiple locations using Intelenet can contribute to the overall monthly commitment; however, the customer must allocate the minimum by service and location. All inbound and outbound domestic and international, calling card, intrastate service and internet access charges, including local services (if applicable) contribute to determining the monthly minimum usage with the exception of enhanced fax, conference calling and non-recurring charges.

If a customer's monthly service usage charges for any month in the term are less than the monthly commitment agreed upon, the customer shall pay the company the difference between the monthly usage charges and the monthly commitment in addition to charges for service.

B. Service Arrangements

1. Intelenet Service Agreement

When the customer has completed the term commitment, service will automatically be renewed for additional term(s) of the agreement unless the Company has received the customer's written notice to terminate the service on not less than sixty (60) days prior to the then existing term expiration date. Customers who terminate service prior to the end of the term in any manner other than stated will be liable for a service termination charge of an amount equal to the greater of the following, unless customer converts to another Company service with equal or greater term and minimum usage commitment:

- (a) If the termination becomes effective prior to the completion of the first year of the Customer Term, then the charge shall be an amount equal to the monthly billing commitment times the number of months remaining in Term through the expiration of the first year. If applicable, twenty-five percent (25%) of the balance remaining (monthly billing commitment times the number of remaining months in the Term beyond the first year) will also be included.
- (b) If the termination becomes effective after the completion of the first year, then the charge shall be an amount equal to twenty-five percent (25%) of the balance remaining (monthly billing commitment times the number of months remaining in the Term).

Effective October 1, 2018

In addition, the customer will be required to repay any promotional credits that were applied, and any charges reimbursed or waived. Upon execution of the Intelenet Service Agreement, the customer has ninety (90) days from the date service is made available in which to notify the Company in writing, either by certified or registered mail (return receipt requested), of customer's desire to cancel the Service Agreement without penalty or further obligation, except for charges incurred up to the date of termination, in the event that quality deficiencies solely caused by the Company in the provision of telecommunications service hereunder are demonstrated by customer to affect adversely and materially customer's telecommunications applications (such a termination under this clause constituting a Termination for Cause). A Termination for Cause shall not be effective unless customer has reported trouble on an ANI or circuit-specific basis to (and received corresponding trouble ticket from) the appropriate Company Support Center and a period of not less than thirty (30) days after receipt of customer's written notice of termination has elapsed during which the Company fails to correct such quality deficiencies. Provided, nothing contained herein shall impose any liability on Company and customer's sole remedy shall be termination of the affected service as described. Customer's Intelenet Service Agreement is subject to the general terms, and conditions and rates of this Tariff and/or Service or Credit Application forms executed in connection with the services provided herein.

2. Intelenet Association

The Intelenet Association program is a benefit package offered in conjunction with Intelenet, which allows the individual users who are members or employees of the participating organization to receive additional product discounts off of domestic interstate usage. Members who elect to participate in the Intelenet Association will receive IntelNet products and Calling card service.

To qualify for Intelenet association an organization generally must be a: (1) Trade association representing businesses or individuals in an industry, profession or business classification; (2) Business with franchises, agents, distributors, or multiple representatives; (3) Nonprofit organization; or, (4) Buying group not organized merely to buy the Company's long distance for resale. The qualifying organization agrees to meet the following criteria within six (6) months of undertaking to qualify and thereafter maintain, and enters into a written agreement with the Company for marketing of the Company's services. The group's members who have subscribed to the Company's services throughout the group must have aggregate billings, net of taxes; promotional credits and surcharges of at least \$5,000 per month.

The Company will render monthly statements to the individual members and the statement received will show all appropriate discounts. All sums due from members are the sole property of the Company, and the Company shall have sole right to collect, enforce collection and settle such sums. The Intelenet member group shall receive a monthly report from the Company listing members of the group who subscribe to the Company service under this program.

Unless otherwise specified in this tariff, member's usage of Company service under this plan cannot be used to qualify for any other benefits under this tariff or under other arrangements between the Company and third parties who undertake to market the Company's services. All other conditions of IntelNet will apply to IntelNet Association.

4.4.4 Total Solution GoldK Service

A. Description: Total Solution GoldK Service is an offering which allows customers to select shared and dedicated outbound and inbound service arrangements, and obtain Term Plan discounts. Total Solution GoldK calls are eligible for volume discounts based on total cross-contribution usage from all interstate and intrastate shared and dedicated outbound and inbound usage products (directory assistance and operator assistance are not contributory). Discounted rates apply retroactively, such that once the next dollar threshold is reached, the lower rate applies back to the first minute of usage for that billing period. Charges such as taxes, late payment fees or other service non-recurring and monthly recurring charges will not be included in the volume discount cross-contribution calculation.

The Outbound Calling Service arrangement is a long distance switched access service, which is available on either a shared or dedicated basis. The usage is billed on a flat rated basis. Outbound Calling Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. Rates for Operator-assisted calls are set forth in Section 4.3.2. The Inbound Calling Service arrangement is a toll free switched access service, which permits calls to be completed at the Customer's location without charge to the calling party. This service is available on either a shared or dedicated basis. Access to the service is gained by a end user dialing a 10 digit telephone number (e.g., 800+NXX-XXXX) which will terminate at the Customer's location. The usage is billed on a flat rated basis. Toll Free Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. In addition, there is a non-recurring and monthly recurring Toll Free Service number

Effective October 1, 2018

charge, which will be applied either on a "per Toll Free Service number" basis for shared access or on a "per routing arrangement" basis for dedicated access (reference rates in Section 4.4.5.D.3).

B. Service Arrangements

1. Term Plans: Total Solution GoldK Service is available at 1 or 2 year Term Plan rates. Term Plans are subject to a minimum monthly usage level of \$500 for shared access or \$2,500 for dedicated access after 90 days of initial service. Should the Customer's actual usage fall below the monthly minimum usage commitment, the Customer is required to pay the Company a fee equal to the difference between the Customer's actual usage and the Customer's minimum monthly commitment. Term Plan threshold calculations will include usage charges from all intrastate and interstate switched outbound and inbound usage products (directory assistance and operator assistance are not contributory). Charges such as taxes, late payment fees and other service non-recurring and monthly recurring charges will not be included in the Term Plan usage threshold calculation. A Customer who terminates a Term Plan prior to the term's expiration will be required to pay in one lump sum an amount equaling the monthly minimum service usage charge times the number of months remaining in the term.

A Customer may terminate their Term Plan without liability under the following conditions: (a) The customer requests, and remains on, a new Term Plan for a term equal to or greater than the time remaining on their current Company Term Plan. (b) The Customer provides written notification to cancel the Term Plan to the Company postmarked within 90 days of the commencement of the Term Plan. The Customer is responsible for payment of services used during this period. Term Plans will be automatically renewed unless the Customer notifies the Company in writing to cancel the renewal within 30 days of expiration of the current Term Plan.

4.4.5 Total Solution Series 100K Service

A. Description

Total Solution Series 100K Service is an offering that allows Customers to select a commitment level and shared and dedicated outbound and inbound service arrangements, obtain term plan discounts, and receive Peak and Off-Peak pricing (Off-Peak pricing only applies to intraLATA outbound service where available). Total Solution Series 100K calls are flat rated, with discounts off the base rates available according to the commitment level and term plan selected by the Customer.

The Outbound Calling Service arrangement is a long distance switch-based service, which is available on either a shared or dedicated access basis. The usage is billed on a flat rated basis. Outbound Calling Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. Rates for Operator-assisted calls are set forth in Section 4.3.2.

The Inbound Calling Service arrangement is a toll free switched access service, which permits calls to be completed at the Customer's location without charge to the calling party. This service is available on either a shared or dedicated basis. Access to the service is gained by an end user dialing a 10 digit telephone number (e.g., 800+NXX-XXXX) which will terminate at the Customer's location. The usage is billed on a flat rated basis. Toll Free Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. In addition, there is a non-recurring and monthly recurring Toll Free Service number charge, which will be applied either on a "per Toll Free Service number" basis for shared access or on a "per routing arrangement" basis for dedicated access (reference rates in Section 4.4.5.D.3).

B. Service Arrangements

1. Commitment Levels and Term Plans

Total Solution Series 100K Service is available on a month to month basis or on an optional 1 or 2 year Term Plan. Discounts off the base rates are available to the Customer according to the commitment level and Term Plan selected by the Customer. Total Solution Series 100K Service is subject to a minimum monthly usage commitment (after the third full month following the initial installation of service for new Customers) based on the Customer's selected commitment level. The commitment level is calculated from the monthly total of usage generated from the following Company products: shared and dedicated domestic interstate and intrastate outbound and inbound service, international outbound, intraLATA, local service, and calling card. Charges such as

Effective October 1, 2018

taxes, late payment fees or other service non-recurring and monthly recurring charges will not be included in the total usage amount calculation, as well as usage charges from Directory Assistance, Operator Service, voice mail and conference calling.

Should the Customer's actual usage fall below the monthly minimum usage commitment, the Customer is required to pay the Company a fee equal to the difference between the Customer's actual usage and the Customer's minimum monthly commitment. A Customer who terminates a Term Plan prior to the term's expiration will be required to pay in one lump sum an amount equaling the selected monthly commitment level times the number of months remaining in the term, plus an amount equal to any promotional credit, or discount, or waiver, if applicable, that was provided to the Customer.

A Customer may terminate their Term Plan without liability under the following conditions:

- (a) The Customer requests, and remains on, a new Term Plan for a term and commitment level equal to or greater than their current Company Term Plan and commitment level.
- (b) A new Customer (who was not receiving services through the Company prior to execution of the Term Plan) provides written notification to cancel the Term Plan to the Company postmarked within 90 days of the commencement of the Term Plan. The Customer is responsible for payment of services used during this period.

Term Plans will be automatically renewed unless the Customer notifies the Company in writing to cancel the renewal within 30 days of expiration of the current Term Plan.

B. Service Arrangements

1. "The Answer" Extended Service Plan ("ESP")

Effective October 1, 2018

"The Answer" services are available to customers through an Extended Service Plan ("ESP") option if the customer agrees to commit to such service for a term of twelve (12), twenty-four (24), or thirty-six (36) months and to generate a minimum monthly gross usage as outlined in Section 4.5.3.A. Customers who elect the Answer ESP option are subject to the following:

- (a) Customers must indicate what Answer service or services are to be included in the ESP. The discounts provided under this option become effective with the first full month's usage.
- (b) Customers must reach the minimum usage requirement associated with each Answer ESP option by the fourth invoice period and monthly thereafter.
- (c) Customers who do not generate the monthly minimum required in a given month will be billed the monthly minimum in lieu of the actual usage for that month. No discounts will be applied if usage does not reach required ESP option monthly minimum.
- (d) Customers who terminate service prior to the end of the term of commitment will be billed the minimum usage requirement times the number of full or partial months remaining in the term in one lump sum. This charge will not apply to Answer customers who convert from an Answer service to another Company service with equal or greater term and minimum requirement commitments.
- (e) All customer requests to commence or terminate an Answer ESP must be made in writing to the Company and received no later than the last day of the month preceding the month in which the desired action is to take effect. The customer must provide written notification to cancel the ESP which must be received by the Company not less than 30 days prior to the expiration of the term commitment. If such notification is not received by the Company within this timeframe, the Answer ESP agreement will be automatically renewed for a new term of commitment.

Total domestic and international usage contributes to discount level, including OnLine "Answer" card usage. Directory Assistance calls are not added to the total of monthly usage to determine the appropriate discount nor are they discounted. The discount percentage will apply to all domestic Peak usage, including OnLine "Answer" calling card usage.

A. EasyAnswer Service

The EasyAnswer Service offers a unified service for single or multi-location customers using switched, dedicated, and OnLine calling card origination and switched or dedicated toll-free (in WATS) termination. The EasyAnswer package includes the availability of outbound, inbound (toll-free) and calling card services, and offers a discount on outbound and toll-free service for customers willing to sign a term commitment and/or a willingness to commit to a specific dollar volume of monthly minimum usage.

There are three (3) Options of EasyAnswer available to customers, each of which are described below:

Option 1 - Requires no monthly minimum billing commitment.

Option 2 - Requires a monthly minimum billing commitment of \$1,000; if the minimum is not reached, the customer is charged for the difference.

Effective October 1, 2018

Option 3 - Requires a monthly minimum billing commitment of \$5,000; if the minimum is not reached, the customer is charged for the difference.

Multiple services and/or multiple locations using EasyAnswer's services can contribute to the overall monthly minimum commitment; however, the customer must allocate the minimum by service and location. Domestic toll-free, Domestic and International outbound calls contribute to determine monthly minimum usage. Easy OnLine Calling Card, Operator Services and Directory Assistance usage is not included in determining monthly minimum usage.

Customers must reach the minimum monthly usage requirement associated with their selected EasyAnswer Option by the fourth invoice period and monthly thereafter.

B. Service Arrangement

1. EasyAnswer Term Plan

EasyAnswer Services are available to customers through a Term Plan option if the customer agrees to commit to such service for a term of twelve (12), twenty-four (24) or thirty six (36) months. Customers who elect the Term Plan option will receive a discount off their selected Option's domestic interstate, and intrastate outbound and toll-free rates. This discount will apply to EasyAnswer's peak interstate rates and all time periods for intrastate rates. Customers who elect the EasyAnswer Service option are subject to the following:

- (a) Customers must indicate what EasyAnswer service or services are to be included in the term plan. The discounts provided under this option become effective with the first full month's usage.
- (b) Option 2 Customers are required to meet a minimum annual usage commitment of \$12,000 (Customer's \$1,000 monthly minimum multiplied by twelve (12) months). Option 3 Customers are required to meet a minimum annual usage commitment of \$60,000 (Customer's \$5,000 monthly minimum multiplied by twelve (12) months). At the end of each successive twelve (12) month period following the date service becomes effective, Option 2 and Option 3 Customers will be required to pay the shortfall, if any, between their actual usage during that twelve (12) month period and the minimum annual usage commitment applicable to the option selected by the Customer. As used herein, "usage" consists of the amount of all domestic and international usage of all EasyAnswer Services (excluding EasyAnswer Association) measured in dollars.
- (c) Customers who terminate service prior to the end of the term of commitment in any manner other than stated in (D) following, will be liable for a cancellation penalty equal to the number of months remaining in the term then in effect multiplied by: (1) for Option 1 Customers, \$200 per month for switched services (per service type), or \$500 per month for dedicated services (per service type); (2) for Option 2 Customers, \$1,000 per month for switched or dedicated services (per service type); or (3) for Option 3 Customers, \$5,000 per month for switched or dedicated services (per service type). The foregoing cancellation penalty will apply unless the Customer immediately converts to another Company service with equal or greater term and minimum usage requirement commitments, and Customer continues to use such Company Service for a period of months equal to or greater than the number of months remaining in the term during which the conversion takes place.
- (d) All customer requests to commence or terminate an EasyAnswer Term Plan must be made in writing, either by certified or registered mail (return receipt requested), to the Company and received no later than thirty (30) days prior to the

Effective October 1, 2018

then existing term expiration date. If such notification is not received by the Company within this timeframe, the EasyAnswer Term Plan agreement will be automatically renewed for a new term of commitment. Customers who elect the Term Plan option will receive a discount off their selected Option's domestic interstate and intrastate outbound and 800 rates. This discount will apply to EasyAnswer's peak interstate rates and all time periods for intrastate rates. This plan does not apply to Easy OnLine Calling Card usage.
