SECTION C - SERVICE DESCRIPTION AND RATES

.04 Option C (MCI WATS)

Option C involves the provision of intercity communications channels. Option C is a one-way, multipoint service requiring the customer to originate calls via dedicated facilities between his premises and MCI 's terminal location and allowing the termination of calls via a combination of MCI -provided intercity facilities and local business telephone lines, and the resold facilities of other carriers. All Option C calls are subject to a one minute average connect time (i.e. total monthly minutes of use divided by total monthly calls must equal at least one minute). All Option C calls are rounded to the next higher 6-second increment.

The Company does not invoice charges in fractions of a cent; the minimum charge for any charge element is \$.01.

.041 Monthly Recurring Charges

.0411 Intercity Facilities Usage Charges: Option C is available on the basis of usage charges and is subject to a monthly Minimum Charge.

.04111 Minimum Charge: \$75 for all usage

.04112 Usage Charges:

Usage Charges are determined by such variables as Rate Periods, Rate Schedules and Service Areas. The charges are billed according to the average monthly use for each rate period of each dedicated access line within a service group. <sup>1/</sup> (See definition of "Service Group" in Section A preceding.) The rate period is determined by the day and time at the Option C dedicated access line location.

[<sup>1/</sup> The average monthly minutes of use for each rate period per access line will be deemed to be the same as the average monthly minutes of total traffic (including traffic to Canada) for each rate period. The resulting effective per minute rate will then be applied to the customers Tier 1 and Tier 2 usage, respectively.]

c) Service Areas

Service Areas (S.A.'s) represent broad geographical areas which encompass specific locations to which the customer subscribes. See Section C-7, Table IV, Part C, for complete geographical coverage of Service Areas.

.041121 Rate Step Table:

The following Rate Step Table is used to determine the usage rates that apply to Option C. To use the table, locate the number in the column under the selected service area. This number is referred to as the Rate Step. Then locate the same Rate Step number on the Monthly Usage Table (Section C-3.041122). The rates listed on that line will apply to the service provided for that Originating State and Service Area.

Method of Determining Usage Charges

Based upon the hourly rates set forth in Section C-3.041122, MCI WATS usage charges are calculated as described below: 1/

**MCI COMMUNICATIONS SERVICES, INC. d/b/a VERIZON BUSINESS SERVICES  
 OKLAHOMA INTEREXCHANGE SERVICES CATALOG SCHEDULE NO. 3  
 (ENTERPRISE NON-CURRENT SERVICES)**

[1/ Minutes used in the calculation include both intrastate and interstate minutes.]

- a) Determine the total minutes of monthly usage for each rate period over all dedicated access lines in a service group.
- b) Determine the total number of access lines in service during the month (access lines in service for a partial month will be pro-rated).
- c) Determine the average usage for each rate period per access line by dividing the minutes for each rate period from (a) above by the number of lines from (b) above.
- d) Determine the effective rate step for the desired service area from the appropriate originating state.
- e) Determine the effective Tier 1 hourly rate for each rate period by: 1) Multiplying the total hours in each tapered usage increment for that rate period by the associated hourly rate for that increment; 2) totaling these charges for each rate period; and 3) dividing the total by the average usage per line from (c) above.
- f) Repeat step (e) for Tier 2 usage.
- g) Determine the Tier 1 usage charge for each rate period by multiplying the effective Tier 1 hourly rate per rate period from (e) above by the total Tier 1 hours of monthly use in a service group for each rate period, respectively, and totaling these charges.
- h) Repeat step (g) for Tier 2 usage by using the effective Tier 2 hourly rate per rate period as determined in (f) above.
- i) Determine the total Tier 1 and Tier 2 usage charge for all rate periods in each service group by adding the results of (g) and (h) above.

1. STATE GOVERNMENT OFFERINGS

From time to time MCI will enter into contracts with the Oklahoma State Government ("State") by responding to Invitations to Bid (ITB) and/or Requests for Proposals (RFP) where such ITBs/RFPs call for the provision of services, features or rate designs which are unique in nature and are not offered otherwise under MCI's tariffs. In such circumstances, the rates, terms and conditions applicable to such special contractual offerings will be specified below, with cross-reference to the particular contract involved.

.01 MCI State Government Calling Card Service

The State Government Calling Card Service under this tariff is a customized Calling Card service which is provided to the State pursuant to the terms of the State's Purchase Order No. BP10813. The service is a one-way, dial-in-dial-out multipoint service. Subscribers can originate calls from any tone-dial phone via an "800" number.

All rates and charges for the specific service(s) provided will be negotiated on an individual case basis. Unless otherwise specified, the regulations for Special Service Arrangements are in addition to the applicable regulations and rates specified in other sections of this tariff.

.01 The customer will receive the standard tariffed rates for the Vision PowerRate Plan. In addition, the Customer shall receive a monthly credit equal to 28% of the customer's monthly intrastate Vision usage in the Selected States. This credit is applied against the Customer's domestic interstate usage charges. This discount does not apply to the following charges: access, egress, non-recurring charges, intrastate service charges, directory assistance, taxes, or surcharges.

.011 For Vision Card Service Usage, in addition to the rates set forth above, Customer shall pay a per call surcharge in the amount of \$.25.

SUBSECTION B – MATERIAL PREVIOUSLY IN TARIFF NO. 2

5. SERVICE DESCRIPTIONS AND CHARGES (Cont'd)

5.1 Message Telecommunications Service (Cont'd)

5.1.2 Product Types (Cont'd)

5.1.2.2 Basic MTS

This service arrangement allows a customer to originate calls in areas with equal access capabilities served by the Company by presubscribing to the service. This service is also available to customers in areas without equal access capabilities through use of a non-travel authorization code and Company-provided shared access facilities. Calls can be terminated to any point within the state.

A \$.50 per call surcharge will be applied to all casual usage when usage totals \$2.50 or less during a billing period. Usage volume discounts will not apply to usage billed through the LEC.

The applicable usage rate depends upon the distance between originating and terminating points and the rate period(s) in which the call occurs. Calls are billed in one minute increments after an initial minimum billable period of one minute. Discounts are given based upon the customer's usage volume.

**.4 LEC Billed Measured Service**

LEC Billed Measured Service calling includes calls made by customers without an established account dialed:

- 1) Using an accepted company access code (e.g., 10XXX) from a line not presubscribed to the company; or
- 2) From a line presubscribed to the company (i.e., when the customer does not have an established account and billing relationship with MCI Communications or another carrier using the MCI Communications network.)

Such LEC Billed Measured Service calls may be routed to the MCI Communications network when placed within the 48 contiguous United States. LEC Billed Measured Service calls accepted by the Company will be billed at the basic MTS per minute rates listed above and will be billed a \$0.50 surcharge on each call.

**5.2 Toll Free Services**

5.2.1 Toll Free Service is an inbound service originating on feature group facilities provided by the Local Exchange Carrier (LEC) and terminating on a Regular Business Line or a Special Access Line (SAL). This service enables the Customer to receive toll free service calls at their residence or place of business.

5.2.2 The Company reserves the right to require an applicant for Toll Free Service to supply the following information when requesting service: an initial traffic forecast, identification of anticipated busy hour, identification of its geographical marketing target areas, and a schedule of marketing and promotional activities. The Company also reserves the right to withdraw service without notice in the event the Customer

(ENTERPRISE NON-CURRENT SERVICES)**

is using the service to commit unlawful acts. The Company may also require that a new traffic forecast be submitted by the Customer quarterly after service is initiated.

- 5.2.3 Toll Free Service is furnished upon condition that the Customer contracts for adequate facilities to permit the use of this service without injurious effects upon it or any service rendered by the Company. The Company may terminate or refuse to furnish Toll Free Service to any applicant, without incurring any liability and without notice to the Customer, if the use of the service would interfere with or impair any service rendered by the Company.
- 5.2.4 The Customer must obtain an adequate number of access lines for Toll Free Services to handle the Customer's expected demand in order to prevent interference or impairment of this service or any other service provided by the Company considering: (1) total call volume; (2) average call duration; (3) time-of-day characteristics; and (4) peak calling period. The Company, without incurring any liability and without notice to the Customer, may disconnect or refuse to furnish Toll Free Service to any Customer that fails to comply with these conditions.
- 5.2.5 Use of numbers: Each Company Toll Free Service telephone number must be placed in actual and substantial use by the Customer. "Substantial use" shall mean a pattern of use that demonstrates an intent on the Customer's part to employ the number for the purpose for which it was intended; namely, to allow callers to reach the Customer, as indicated, for example, by at least 30 average monthly minutes of use or more. Any toll free telephone number associated with the Company's Toll Free Service that has not been placed in actual and substantial use during the first 60 day period after service activation may be redesignated as a spare number in the SMS/800 database by the Company upon written notice to the Customer.
- 5.2.6 If the Customer requests assignment of a specific Toll Free Service telephone number, the Company may require the Customer to submit a number reservation agreement form to the Company. At no time may a Customer have more than 10 numbers reserved. Any reservation shall be for no more than 60 days and shall be subject to a reservation fee which will be credited to Customer's unpaid balance after Toll Free Service has been in actual and substantial use for a consecutive 60 day period. Or refund the reservation fee to the Customer upon the cancellation of the reservation. Nothing in this Section, or in any other provision of this tariff, or in any marketing materials issued by or on behalf of the Company, shall give any person, including prospective Customers who have reserved toll free telephone numbers hereunder or Customers who subscribe to and use Toll Free Service or their transferee or assigns, any ownership interest or proprietary right in any particular toll free number; however, upon placing a number actually and substantially in use, as defined above, the Company's Toll Free Service Customers do have a controlling interest in this toll free number(s). The Company's Toll Free Service Customers may retain the use of their toll free number assignments, even following changes in their toll free carrier and/or Resp. Org.
- 5.2.7 If a Customer places an order for the Company to carry Customer's already existing toll free number service, the Customer shall provide to the Company the contact names, telephone number and address of the Customer's Responsible Organization (Resp. Org.). Upon subscription to Toll Free Service, the Customer may execute a Letter of Authorization to transfer Resp. Org. responsibility of its toll free number(s) to the Company's Resp. Org. If the Customer elects to retain a non-Company Resp. Org., the Customer must notify the Company of any changes in the Customer's Resp. Org. in writing within 48 hours of the change. The Customer is responsible for all outstanding indebtedness for services provided by a previous Resp. Org. or toll free service carrier. The Company assumes no responsibility or liability with respect to any obligations of Customer to such previous service providers existing at the time of transfer to the Company.
- 5.2.8 Subject to execution of a Resp. Org. Service Agreement between the Company and the Customer, the Company Resp. Org. will perform the function of Resp. Org. for all Company Toll Free Service orders unless the Customer requests another Resp. Org. The Company's Resp. Org. functions include 1) search for and reservation of toll free numbers in the SMS/800; 2) creating and maintaining the toll free number Customer record in the SMS/800; and 3) provision of a single point of contact for trouble reporting.
- 5.2.8.1 Where the Company serves as the Resp. Org. for a Toll Free Service Customer, the Company will, at the Customer's request, subscribe to Toll Free Directory Listing for the toll free number(s)

assigned to the Customer. A charge for the second Toll Free Directory Listing will apply as set forth in this Tariff. In the event that a Customer transfers its toll free service to another Resp. Org., the Company, upon such notice, shall immediately cease to subscribe to Toll Free Directory Listing Service on behalf of the Customer and the Customer is responsible for assuring that Toll Free Directory Listing Service is maintained through the new Resp. Org. Customer is responsible for payment of any outstanding Toll Free Directory Listing charges, including any unexpired portion of any minimum period applicable to such services, and the Company shall have no liability for any interruption or other delay, error, mistake, omission or other defect occurring in connection with the transfer of Toll Free Directory Listing responsibility.

- 5.2.8.2 Where the Company serves as the Resp. Org. for a Toll Free Service Customer, it will, at the Customer's request, subscribe to Vertical Features obtained from Local Exchange Company access tariffs. When a Toll Free Service Customer uses Vertical Features obtained by the Company from Local Exchange Company tariffs, a charge will apply. This charge may not be counted toward the attainment of any volume or revenue commitment and will not be discounted.
- 5.2.8.3 In the event that a Customer cancels its Toll Free Service, the Customer may elect to retain the Company as its Resp. Org. Where the Company serves as Resp. Org. for a non-Company Toll Free Service Customer, a charge for Resp. Org. Service will apply as set forth in this Tariff.
- 5.2.8.4 In the event that a Customer cancels its Company Resp. Org. or Toll Free Service, the Customer shall be responsible for all outstanding indebtedness to the Company and any outstanding charges applicable to any services obtained by or on behalf of the Customer by the Company.
- 5.2.9 It is the Customer's responsibility to provide answer supervision back to the Company's point of connection even when the Toll Free Service is connected to switching equipment or a Customer-provided communications system. In such case, the equipment or system must provide appropriate supervision so that the measure of chargeable time begins upon delivery of the call to the Customer's switching equipment or communications system and ends upon termination of the call.
- 5.2.10 Toll Free Feature Charges  
 Feature Charges are determined by the specific feature requested by a Company Toll Free Customer. These changes are in addition to toll free usage charges and are not subject to discounting unless specifically indicated.

A Termination for Cause shall not be effective unless Customer has reported trouble on an ANI or circuit-specific basis to (and received a corresponding trouble ticket from) the appropriate MCI Support Center and a period of not less than thirty (30) days after receipt of Customer's written notice of termination has elapsed during which MCI fails to correct such quality deficiencies. Provided nothing contained herein shall impose any liability on MCI and Customer's sole remedy shall be the termination of the affected service as described.
- .3 Customers who terminate service prior to the end of the term of commitment in any manner other than stated in (.4) following, will be liable for a cancellation penalty equal to the monthly minimum billing commitment times the number of months remaining in the customer commitment period through the expiration of the first year.
