Method of Determining Usage Charges

EFFECTIVE: OCTOBER 1, 2017

Based upon the hourly rates set forth in Section C-2.041122, MCI WATS usage charges are calculated as described below:  
 [\*Minutes used in the calculation include both intrastate and interstate minutes.]

- a) Determine the total minutes of monthly usage for each rate period over all dedicated access lines in a service group.
- b) Determine the total number of access lines in service during the month (access lines in service for a partial month will be pro-rated).
- c) Determine the average usage for each rate period per access line by dividing the minutes for each rate period from (a) above by the number of lines from (b) above.
- d) Determine the effective rate step for the desired service area from the appropriate originating state.
- e) Determine the effective Tier 1 hourly rate for each rate period by: 1) Multiplying the total hours in each tapered usage increment for that rate period by the associated hourly rate for that increment; 2) totaling these charges for each rate period; and 3) dividing the total by the average usage per line from (c) above.
- f) Repeat step (e) for Tier 2 usage.
- g) Determine the Tier 1 usage charge for each rate period by multiplying the effective Tier 1 hourly rate per rate period from (e) above by the total Tier 1 hours of monthly use in a service group for each rate period, respectively, and totaling these charges.
- h) Repeat step (g) for Tier 2 usage by using the effective Tier 2 hourly rate per rate period as determined in (f) above.
- i) Determine the total Tier 1 and Tier 2 usage charge for all rate periods in each service group by adding the results of (g) and (h) above.

#### 4.4.3 Intelenet Service

##### A. Description

Intelenet offers a full service voice product for single or multi-location customers using switched or dedicated, and calling card origination and switched or dedicated toll-free termination. The Intelenet package includes a single flat rate for both peak and off-peak dedicated and switched usage and offers discounts for customers willing to sign a term commitment of month to month, twelve (12) or twenty-four (24) months and/or a willingness to commit to a specific dollar volume of monthly minimum usage.

The minimum monthly commitment will be based on net charges for service (after discounts have been applied) and must be reached by the fourth invoice period and monthly thereafter. Multiple services and/or multiple locations using Intelenet can contribute to the overall monthly commitment; however, the customer must allocate the minimum by service and location. All inbound and outbound domestic and international, calling card, intrastate service and internet access charges, including local services (if applicable) contribute to determining the monthly minimum usage with the exception of enhanced fax, conference calling and non-recurring charges.

EFFECTIVE: OCTOBER 1, 2017

If a customer's monthly service usage charges for any month in the term are less than the monthly commitment agreed upon, the customer shall pay the company the difference between the monthly usage charges and the monthly commitment in addition to charges for service.

B. Service Arrangements

1. Intelenet Service Agreement

When the customer has completed the term commitment, service will automatically be renewed for additional term(s) of the agreement unless the Company has received the customer's written notice to terminate the service on not less than sixty (60) days prior to the then existing term expiration date. Customers who terminate service prior to the end of the term in any manner other than stated will be liable for a service termination charge of an amount equal to the greater of the following, unless customer converts to another Company service with equal or greater term and minimum usage commitment:

- (a) If the termination becomes effective prior to the completion of the first year of the Customer Term, then the charge shall be an amount equal to the monthly billing commitment times the number of months remaining in Term through the expiration of the first year. If applicable, twenty-five percent (25%) of the balance remaining (monthly billing commitment times the number of remaining months in the Term beyond the first year) will also be included.
- (b) If the termination becomes effective after the completion of the first year, then the charge shall be an amount equal to twenty-five percent (25%) of the balance remaining (monthly billing commitment times the number of months remaining in the Term).

In addition, the customer will be required to repay any promotional credits that were applied, and any charges reimbursed or waived.

- (c) Upon execution of the Intelenet Service Agreement, the customer has ninety (90) days from the date service is made available in which to notify the Company in writing, either by certified or registered mail (return receipt requested), of customer's desire to cancel the Service Agreement without penalty or further obligation, except for charges incurred up to the date of termination, in the event that quality deficiencies solely caused by the Company in the provision of telecommunications service hereunder are demonstrated by customer to affect adversely and materially customer's telecommunications applications (such a termination under this clause constituting a Termination for Cause). A Termination for Cause shall not be effective unless customer has reported trouble on an ANI or circuit-specific basis to (and received corresponding trouble ticket from) the appropriate Company Support Center and a period of not less than thirty (30) days after receipt of customer's written notice of termination has elapsed during which the Company fails to correct such quality deficiencies. Provided, nothing contained herein shall impose any liability on Company and customer's sole remedy shall be termination of the affected service as described.
- (d) Customer's Intelenet Service Agreement is subject to the general terms, and conditions and rates of this Tariff and/or Service or Credit Application forms executed in connection with the services provided herein.

2. Intelenet Association

The Intelenet Association program is a benefit package offered in conjunction with Intelenet, which allows the individual users who are members or employees of the

The group's members who have subscribed to the Company's services throughout the group must have aggregate billings, net of taxes; promotional credits and surcharges of at least \$5,000 per month.

The Company will render monthly statements to the individual members and the statement received will show all appropriate discounts. All sums due from members are the sole property of the Company, and the Company shall have sole right to collect, enforce collection and settle such sums. The Intelenet member group shall receive a monthly report from the Company listing members of the group who subscribe to the Company service under this program.

Unless otherwise specified in this tariff, member's usage of Company service under this plan cannot be used to qualify for any other benefits under this tariff or under other arrangements between the Company and third parties who undertake to market the Company's services. 4.4.4 Total Solution Gold Service

A. Description

Total Solution Gold\_ Service is an offering which allows customers to select shared and dedicated outbound and inbound service arrangements, and obtain Term Plan discounts. Total Solution Gold\_ calls are eligible for volume discounts based on total cross-contribution usage from all interstate and intrastate shared and dedicated outbound and inbound usage products (directory assistance and operator assistance are not contributory). Discounted rates apply retroactively, such that once the next dollar threshold is reached, the lower rate applies back to the first minute of usage for that billing period. Charges such as taxes, late payment fees or other service non-recurring and monthly recurring charges will not be included in the volume discount cross-contribution calculation.

The Outbound Calling Service arrangement is a long distance switched access service, which is available on either a shared or dedicated basis. The usage is billed on a flat rated basis. Outbound Calling Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call.

The Inbound Calling Service arrangement is a toll free switched access service, which permits calls to be completed at the Customer's location without charge to the calling party. This service is available on either a shared or dedicated basis. Access to the service is gained by an end user dialing a 10 digit telephone number (e.g., 800+NXX-XXXX) which will terminate at the Customer's location. The usage is billed on a flat rated basis. Toll Free Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. In addition, there is a non-recurring and monthly recurring Toll Free Service number charge, which will be applied either on a "per Toll Free Service number" basis for shared access or on a "per routing arrangement" basis for dedicated access (reference rates in Section 4.4.5.D.3).

B. Service Arrangements

1. Term Plans

Total Solution Gold\_ Service is available at 1 or 2 year Term Plan rates. Should the Customer's actual usage fall below the monthly minimum usage commitment, the Customer is required to pay the Company a fee equal to the difference between the Customer's actual usage and the Customer's minimum monthly commitment. Term Plan threshold calculations will include usage charges from all intrastate and interstate switched outbound and inbound usage products (directory assistance and operator assistance are not contributory). Charges such as taxes, late payment fees and other service non-recurring and monthly recurring charges will not be included in the Term Plan usage threshold calculation. A Customer who terminates a Term Plan prior to the term's expiration will be required to pay in one lump sum an amount equaling the monthly minimum service usage charge times the number of months remaining in the term.

EFFECTIVE: OCTOBER 1, 2017

A Customer may terminate their Term Plan without liability under the following conditions:

- (a) The customer requests, and remains on, a new Term Plan for a term equal to or greater than the time remaining on their current Company Term Plan.
- (b) The Customer provides written notification to cancel the Term Plan to the Company postmarked within 90 days of the commencement of the Term Plan. The Customer is responsible for payment of services used during this period.

All fractional per call charges will be rounded to the nearest whole cent.

Answer I is available as an outgoing switched product with origination via FGD, equal access lines. Answer II is available as an outgoing dedicated product via customer-provided dedicated access line (DAL) or T-1 access. Answer III is an inbound product via regular business lines. Answer IV is an inbound product via customer-provided dedicated access line (DAL) or T-1 service. The OnLine "Answer" Card is available as a calling card service.

B. Service Arrangements

1. Answer Extended Service Plan ("ESP")

Answer services are available to customers through an Extended Service Plan ("ESP") option if the customer agrees to commit to such service for a term of twelve (12), twenty-four (24), or thirty-six (36) months and to generate a minimum monthly gross usage as outlined in (c) below. Customers who elect the Answer ESP option are subject to the following:

- (a) Customers must indicate what Answer service or services are to be included in the ESP. The discounts provided under this option become effective with the first full month's usage.
- (b) Customers must reach the minimum usage requirement associated with each Answer ESP option by the fourth invoice period and monthly thereafter.
- (c) Customers who elect ESP for Answer I or III must meet the minimum usage requirement of \$250 per month per account for each service. - (e) Customers who terminate service prior to the end of the term of commitment will be billed the minimum usage requirement times the number of full or partial

EFFECTIVE: OCTOBER 1, 2017

- (f) All customer requests to commence or terminate an Answer ESP must be made in writing to the Company and received no later than the last day of the month preceding the month in which the desired action is to take effect. The customer must provide written notification to cancel the ESP which must be received by the Company not less than 30 days prior to the expiration of the term commitment. If such notification is not received by the Company within this timeframe, the Answer ESP agreement will be automatically renewed for a new term of commitment.

Customers who subscribe to Answer through an ESP option will receive the following discounts in lieu of those described in Section 6.2.1.F (following). This additional discount is applied to all usage and is given only to customers who have met the monthly minimum usage requirement.

Total intrastate, interstate and international usage contributes to discount level, including OnLine "Answer" card usage. Domestic Inbound, Domestic and International outbound calls contribute to determining monthly minimum usage. Easy OnLine Calling Card, Operator Services and Directory Assistance usage is not included in determining monthly minimum usage.

Customers must reach the minimum monthly usage requirement associated with their selected EasyAnswer Option by the fourth invoice period and monthly thereafter.

At the end of each successive twelve (12) month period following the date service becomes effective, Option 2 and Option 3 Customers will be required to pay the shortfall, if any, between their actual usage during that twelve (12) month period and the minimum annual usage commitment applicable to the option selected by the Customer.
