MCImetro ACCESS TRANSMISSION SERVICES CORP.
d/b/a VERIZON ACCESS TRANSMISSION SERVICES

Tennessee Local Exchange Services Catalog Schedule No. 1
(Enterprise Non-Current Services)

This Catalog Schedule No. 1 applies to the non-current services pertaining to enterprise business customers (i.e., non-mass markets) previously offered in Tennessee by MCImetro Access Transmission Services Corp. d/b/a Verizon Access Transmission Services which are not set forth in other sections of the Guide. Unless otherwise indicated, the material below was previously described in Tennessee T.R.A. Tariff No. 5 of MCImetro Access Transmission Services LLC. For ease of reference, where applicable the prior section numbers contained in the prior Tennessee tariff have been retained. Subsections in the following pages indicate where older material was in other tariffs before this material was added to Tennessee T.R.A. Tariff No. 5.

All of these non-current services are subject to the Terms and Conditions applicable to the other Local Services as set forth in the Guide. The product descriptions, rates and charges for the non-current services previously offered in Tennessee that were in effect at the time that the Tennessee Local Exchange Services were added to the Guide and which are not set forth in other portions of the Guide nor set forth below, will continue to remain in effect for a Customer previously subscribed to these services until the Customer no longer subscribes to such service(s), or changes are made to the product descriptions, rates or charges in the Guide.

Any question regarding this Catalog Schedule, please call 1-888-215-5680.

3.1.6.1 Local Service Term Plan 1/ 2/

[1/ Beginning November 6, 1997 the terms and conditions of this program will only be available for those customers subscribing to a Special Customer Arrangement offered by MCI Telecommunications Corporation.]

[2/ Beginning December 19, 1998, this plan will no longer be available to new subscribers.]

Customers who subscribe to facilities based Local Exchange Service and enroll in a Local Service Term Plan are eligible to receive the discounts described below on specific monthly recurring and usage charges based on the customer's term commitment. The customer must commit to service for a term of either one, two, three, four or five years. The term of the Local Service Term Plan will commence no earlier than the first of the next billing month in which the customer subscribes to the plan. The customer will receive the following discounts in lieu of all other discounts or promotions except for the Local Customer Assurance Promotion on the following recurring charges: Local Line, Local Trunk-Basic, Local Trunk-DID, Local Trunk - 2 Way Direct, ISDN Primary Rate Interface Local (ISDN PRI), DID/2 Way Direct numbering charges, and usage charges.

Term Commitment	Discount
1 year	10%
2 years	15%
3 years	20%
4 years	20%
5 years	20%

A plan will automatically renew for an equivalent term unless the customer provides written notification to cancel the MCI Local Service Term Plan. This notice must be received by MCI no more than 30 days prior to the expiration of the term plan.

Cancellation or Discontinuance with Liability: Discontinuance of all Local Services furnished under the Local Service Term Plan prior to the expiration of the committed term constitutes discontinuance of the plan and the customer will be billed and required to pay an early termination charge. The early termination charge will be equal to the customer's highest billed monthly charges incurred during the length of the term commitment multiplied by the number of months remaining in the customer's term plan.

For customers that have enrolled in a networkMCI One long distance term plan or special customer arrangement offered by MCI Telecommunications Corporation, the customer's term length may be coterminous with the networkMCI One or special customer arrangement term of service. Accordingly, the customer's actual term may be of a shorter duration than the term commitment selected above. If the customer selects a term commitment greater than the term of service of the networkMCI One or special customer arrangement, the coterminal provision shall not apply.

For those customers who subscribe to a networkMCI One term plan or special customer arrangement, the early termination charges associated with that term plan or special customer arrangement will apply in lieu of the charges specified above. In addition, customers will be required to repay any credits received as a result of enrolling in the term plan.

Cancellation or Discontinuance without Liability:

A customer can terminate a term plan without liability if the customer enrolls in a new term plan with an expiration date later than the current term plans expiration date.

Customers signing a networkMCI One Term agreement and integrating their facilities based Local Exchange Service can terminate their local term plans at anytime without penalty.

3.1.6.2 Local Exchange Service Term Plan 2 1/

[1/ Beginning December 19, 1998, this plan will no longer be available to new subscribers.]

A Customer who subscribes to facilities based, standalone Local Exchange Service and enrolls in a Local Service Term Plan is eligible to receive the discounts described below on specific monthly recurring and usage charges, based on the customer's term commitment. The customer must commit to service for a term of one, two, or three years. The term of the Local Service Term Plan will commence no earlier than the first day of the next billing month in which the

customer subscribes to the plan. The Customers subscribing to this term plan will receive the following discounts in lieu of all other discounts or promotions, unless the promotion specifies otherwise. The discounts will be applied to the following recurring charges: Local Line, Local Trunk-Basic, DID/ 2 Way Direct numbering charges, Local Trunk-DID, Local Trunk - 2 Way Direct, Local ISDN -PRI, as well as local service usage charges.

Term Commitment	Discount
One Year	5%
Two Year	10%
Three Year	15%

A plan will automatically renew for an equivalent term unless the customer provides written notification to cancel the MCI Local Service Term Plan. This notice must be received by MCI no more than thirty (30) days after the expiration of the term.

Cancellation or Discontinuance with Liability: Discontinuance of all Local Services furnished under the Local Service Term Plan prior to the expiration of the committed term constitutes discontinuance of the plan and the customer will be billed and required to pay an early termination charge. The early termination charge will be equal to the customer's highest billed monthly charges incurred during the length of the term commitment multiplied by the number of months remaining in the customer's term plan.

Cancellation or Discontinuance without Liability: A customer can terminate a term plan without liability if the customer enrolls in a new term plan with an expiration date later than the current term plan's expiration date. A customer may terminate without penalty at any time and enroll in a networkMCI One term plan.

3.1.6.3 networkMCI One Term Plan 1/
[1/ Beginning December 19, 1998, this plan will no longer be available to new subscribers.]

The networkMCI One Term plan is a term plan, in lieu of all other tariffed Local Exchange Service term plans. Customers who subscribe to facilities based Local Exchange Service offered by the company through the networkMCI One Term Plan are subject to the terms and conditions set forth in MCI Telecommunications F.C.C. Tariff No. 1, section C-3.4.1.4.2, and this tariff. Customers who enroll in this term plan must have their facilities based MCI Local Exchange service usage billed to a single networkMCI One invoice.

Customers subscribing to this term plan will receive discounts as set forth in MCI Telecommunications Corporation F.C.C. Tariff No. 1, section C-3.4.1.4.2 in lieu of all other discounts or promotions, unless the promotion specifies otherwise. The discounts will be applied to the following recurring charges: Local Line, Local Trunk-Basic, DID/ 2 Way Direct numbering charges, Local Trunk-DID, Local Trunk - 2 Way Direct, Local ISDN - PRI, as well as local service usage charges.

Customers enrolled in Special Customer Arrangements or offered by company or MCI Telecommunications Corporation are not eligible for the benefits of this term plan.

3.1.6.4 On-Net Term Plan

The On-Net Term Plan is a term plan, in lieu of all other tariffed Local Exchange Service term plans. Customers who subscribe to facilities based Local Exchange Service offered by the Company through the On-Net Term Plan are subject to the terms and conditions set forth in MCI Communications Services, Inc. d/b/a Verizon Business Services Tariff F.C.C No. 1, section C-3.464, and this tariff. Customers who enroll in this term plan must have their facilities based MCI Local Exchange service usage billed to a single On-Net invoice.

Customers subscribing to this term plan will receive discounts as set forth below, in lieu of all other tariffed term plans. The discounts will be applied to the following recurring charges: Local Line Charge, Local Trunk-Basic Charge, Local Trunk-DID Charge, Local Trunk-2 Way Direct Charge, DID/2 Way Direct Number Charges, Local ISDN-PRI T-1 Charge as well as local service usage charges. Optional features and Local ISDN-PRI optional features.

Eligible Volume is the customer's total monthly recurring charges and usage of the following, after the application of promotional and other discounts: Local Line Charge, Local Trunk-Basic Charge, Optional Features and Local ISDN-PRI Optional Features, Local Trunk-DID Charge, Local Trunk-2 Way Direct Charge, DID/2 Way Direct Number Charges, Local ISDN-PRI T-1 Charge as well as local service usage charges. Charges for the following are not included as Eligible Volume and will not receive Local On-Net Term Plan volume discounts: Non-Recurring charges for Local Line, Local Trunk-Basic, Local Trunk-DID, Local Trunk-2 Way Direct; Standard Optional Feature; Local ISDN-PRI Optional Features; Directory Assistance usage; non-recurring and recurring charges for Directory Listings; Operator Assisted Surcharges (including Busy Line Verification and Busy Line Interrupt), and taxes.

Term Commitment and Renewal Options: A customer must commit to service for a term of either one, two, three, four, or five years. The term of service will commence no earlier than the first day of the next billing month in which the customer subscribes to the plan. A plan will automatically renew for an equivalent term and volume commitment upon expiration of its term unless the customer provides written notification to cancel the Local On-Net Term Plan, which must be received by the Company no more than 30 days after expiration of the existing term. If the customer cancels the existing term plan within 30 days after expiration of

the existing term, the customer will receive the discounts for which the customer qualifies during the 30-day period following the expiration of the existing term of service.

Volume commitment: A customer may elect a Local On-Net Term Plan monthly volume commitment of one of the following amounts, calculated after the application of promotional and other discounts: \$100; \$250; \$500; \$1,000; \$2,000; \$3,000; \$4,000; \$5,000; \$7,000, or an annual volume commitment of one of the following amounts, calculated after the application of promotional and other discounts: \$120,000; \$180,000; \$300,000; \$600,000; \$900,000, \$1.2M, \$1.8M; \$2.4M. The customer's volume commitment will be based upon the customer's Qualifying Volume. At any time during the term of service, a customer may elect a higher equivalent annualized volume commitment. If a customer so elects, the term of service expiration date will not change. The new volume commitment will apply beginning in the following month for monthly commitments and as of the beginning of the commitment year in which the new volume commitment is elected for annual commitments. The discounts associated with the new commitment volume level apply to charges and usage only from the new election date forward.

Underutilization Charges: If at the end of any year of the term of service, a customer fails to satisfy its annual volume commitment, the customer must pay the difference between the customer's actual Qualifying Volume in that year and the annual volume commitment. If at the end of any month of the term of service, a customer fails to satisfy its monthly volume commitment, the customer must pay the difference between the customer's actual Qualifying Volume in that month and the monthly volume commitment.

Early Termination Charges:

Cancellation of Discontinuance without Liability: If: (i) the customer's use of Local Exchange Service under a Local On-Net Term Plan equals or exceeds the Customer's equivalent annualized minimum volume commitment or monthly volume commitment and (ii) at the time of termination the customer is enrolled in a new Local On-Net Term Plan with a volume commitment which equals or exceeds the Customer's existing volume commitment, the customer may terminate service under Term Plan without liability as follows: (i) the customer may terminate service at any time during the last three months of the term of service if the customer's Local On-Net Term Plan's term commitment is one year; or (ii) the customer may terminate service at any time during the last six months of the term of service if the customer's new Local On-Net Term Plan's term commitment is equal to or greater than two years.

Cancellation or Discontinuance with Liability: Discontinuance of all services furnished under the Local On-Net Term Plan prior to the expiration of the committed term of service constitutes discontinuance of the plan and the customer will be billed and required to pay an early termination charge equal to the Underutilization Charge for the year of termination plus 50% of all of each annual or monthly volume commitment for each year remaining in the unfulfilled term of service.

Discounts: Customers will receive the following discounts applied to Eligible Volume charges and usage.

3.1.7 Local ISDN Primary Rate Interface (Local ISDN-PRI): Local ISDN-PRI is an alternative arrangement for individual local exchange services such as Local Trunk Basic and Local Trunk DID. Local ISDN-PRI is provisioned at the 1.544 Mbps rate via the Primary Rate Interface standard of the Integrated Services Digital Network (ISDN). Local ISDN-PRI provides the Customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport.

3.1.7.1 Local ISDN-PRI Service Arrangement - One or more Service Configurations can be combined to create an Local ISDN-PRI Service Arrangement. Customers may have multiple Local ISDN-PRI Service Arrangements per location, however for each Service Arrangement one Service Configuration 1 must be included. The controlling D channel will always reside on Service Configuration 1.

The ISDN Digital Facility is ordered separately and not included as part of the Service Configuration.

3.1.7.1.1 Service Configuration 1 - The first Service Configuration for any PRI Local Service Arrangement must be a Service Configuration 1. Service Configuration 1 provides twenty-three (23) 64 Kbps B channels and one (1) primary 64 Kbps D signaling channel. The primary D channel is an-out-of band signaling channel used to control and route all of the B channel traffic within the PRI Local Service Arrangement.

3.1.7.1.2 Service Configuration 2 - This configuration is only available in conjunction with Service Configuration 1. It provides an additional twenty-four (24) 64 Kbps B channels which are controlled by the D channel on Service Configuration 1. Multiple Service Configuration 2s may be associated with a Service Configuration 1 subject to switching equipment limitations.

3.1.7.1.3 Service Configuration 3 - This configuration is also only available to subscribers who have Service Configuration 1. It provides a backup 64 Kbps D channel and twenty-three (23) additional 64 Kbps B channels. The backup D channel will control and route all of the B channel traffic of a single PRI Service Arrangement in the event the D channel on the primary configuration (Service Configuration 1) fails. A maximum of one Service Configuration 3 may be included with each Local ISDN-PRI Service Arrangement. Service Configuration 3 is available subject to switching equipment capabilities.

The bearer (or B) channels are used for information transfer between users. B channels provide the same features as Local Trunk Basic and Local Trunk DID. To receive the DID capability, customers must order separately DID telephone numbers, as found in Section 3.1.3.2 preceding.

The D channel is a 64 Kbps channel that carries signaling and control for the B channels. The capabilities of the D channel are contained within the customers Service Configuration

7. Miscellaneous Services

7.1 Selective Call Screening

Selective Call Screening (SCS) is a call processing arrangement designed to restrict certain types of billing options from a line or trunk originating a call. The service is offered to provide customers with a choice of originating call screening options when an operator services system is involved with the call processing. The Selective Call Screening service provides information to the operator services platform (mechanized or live operator) to denote special originating call handling was requested. The following billing options are available: collect billing, bill to a third party number, or bill to a calling card.

The Company assumes no liability for calls completed by any other entity, carrier, or operator services platform as long as the Selective Call Screening code accompanies the call sent to another entity, carrier or operator services platform.

SCS Customers are responsible for all toll charges billed to their line(s) for calls that are not carried solely over the MCI network and facilities.

SCS is offered subject to switch availability on MCI Local Business facilities (lines and trunks).

Rates and Charges:

The following rates and charges apply to Selective Call Screening Service and are in addition to all other charges as specified elsewhere in the tariff:

	Establishing Service Non-Recurring	Monthly Recurring
Selective Call Screening, per line or per trunk	\$24.00	\$7.10

7.3 Virtual Foreign Exchange (VFX) Service:

MCImetro ACCESS TRANSMISSION SERVICES CORP. d/b/a VERIZON ACCESS TRANSMISSION SERVICES
TENNESSEE LOCAL EXCHANGE SERVICES CATALOG SCHEDULE NO. 1
(ENTERPRISE NON-CURRENT SERVICES)
EFFECTIVE: OCTOBER 1, 2018

VFX Service enables a Customer to receive Company-provided Local Exchange Access Service at a point(s) outside the Local Exchange Service Area, within that same LATA, that normally serves the customer's location. VFX service can be used to receive one-way inbound digital traffic only. Customers subscribing to VFX service must purchase an entire T-1 and meet the following conditions: 1) 100 percent of the traffic carried must be inbound local; and 2) the average off-hook time per call is more than ten minutes.

The Local Exchange Calling Area and all Usage Services rates which apply to a VFX Exchange Access Service are the same as those which regularly apply to other Company-provided Local Exchange Access Services bearing the same NPA-NXX designation.

Customers are prohibited from using VFX service to place outbound calls including, but not limited to "911" emergency numbers. This restriction is required in order to assure that emergency calls are routed to the Public Safety Answering Point serving the geographical area associated with the Customer's telephone number. The Company strongly recommends that each Customer maintain at least one telephone exchange service access line bearing an NPA-NXX designation associated with the Customer's actual geographic location for emergency use.

VFX Service customers are not eligible to enroll in the On-Net Term Plan or Local On-Net Term Plan discount programs.

7.3.1 Features: The following features are available:

Standard:
Hunting (Circular, Sequential and Uniform Call Distribution)
Touchtone

Optional:
Vanity Number

7.3.2 VFX Service Rates and Charges: An VFX service Customer will be charged applicable Non-Recurring Charges and monthly Recurring Charges. Customers signing a new term plan can subscribe to digital trunk FX service or Local ISDN-PRI FX Service. The monthly recurring T-1 charge for Local ISDN-PRI FX service is in lieu of the monthly recurring Local ISDN-PRI T-1 charge as specified in section 3.1.7.3. All other applicable charges associated with PRI will apply. The DID functionality and blocks of DID numbers will be available at no additional charge for up to a 100 DID numbers. Charges for volume of DID numbers greater than 100 will apply as specified in Section 3.1.3.2.3.

7.3.2.1 Non-Recurring Charges

Rates previously under this section can now be found in this tariff on Page 103.

7.3.2.2 Monthly Recurring Charges

Local ISDN PRI Charge	\$480.00	
	(Per T-1)	
Digital Trunk Charge (Per T-1)		\$552.00
Local ISDN-PRI Charge (Per T-1)		\$552.00

Optional Features:

The charges specified in section 3.6 will apply for Vanity Numbers.

7.3.3 Term Plans

The VFX Service Term Plan is a term plan, in lieu of all other tariffed term plans, available to VFX Service customers. Customers who subscribe to VFX Service Term Plan are subject to the following conditions:

Definition of Terms:

Qualifying Volume is the customer's total monthly recurring VFX Service Digital Per Trunk charge, monthly recurring VFX charge, monthly recurring charges for VFX Service Optional Features and monthly recurring charges for Local ISDN-PRI Optional Features, after the application of promotional and other discounts. Charges for the following are not included as Qualifying Volume and are not calculated in satisfaction of the VFX Service Term Plan volume commitment: Non-recurring charges for VFX Service; non-recurring charges for VFX Service Optional Features; non-recurring charges for Local ISDN-PRI, and taxes.

Eligible Volume is the customer's total monthly recurring VFX Service Digital Per Trunk charge and VFX charge, after the application of promotional and other discounts. Charges for following are not included as Eligible Volume and will not receive VFX Service Term Plan volume discounts: Non-recurring charges for VFX Service; non-recurring and monthly recurring charges for VFX Service Optional Features; non-recurring and monthly recurring charges for Local ISDN-PRI Optional Features, and taxes.

Term Commitment and Renewal Options: A customer must commit to a service for a term of either one, two, three, four, or five years. The term of service will commence no earlier than the first day of the next billing month in which the customer subscribes to the plan. A plan will automatically renew for an equivalent term and volume commitment upon expiration of its term unless the customer provides written notification to cancel the VFX Service Term Plan, which must be received by the Company no more than 30 days after expiration of the existing term. If the customer cancels the existing term plan within 30 days after expiration of the existing term, the customer will receive the discounts for which the customer qualifies during the 30-day period following the expiration of the existing term of service.

Volume Commitment: A customer may elect a VFX Service Term Plan monthly volume commitment of one of the following amounts, calculated after the application of promotional and other discounts: \$100; \$250; \$500; \$1,000; \$2,000; \$3,000; \$4,000; \$5,000; \$7,000, or an annual volume commitment of the following amounts, calculated after the application of promotional and other discounts: \$120,000; \$180,000; \$300,000; \$600,000; \$900,000; \$1.2 million; \$1.8 million, \$2.4 million. The customer's volume commitment will be based upon the customer's Qualifying Volume. At any time during the term of service, a customer may elect a higher equivalent Annualized volume commitment. If a customer so elects, the term of service expiration date will not change. The new volume commitment will apply beginning in the following month for monthly commitments and as of the beginning of the commitment year in which the new volume commitment is elected for annual commitments. The discounts associated with the new commitment volume level apply to charges and usage only from the new election date forward.

Underutilization Charges: If at the end of any year of the term of service, a customer fails to satisfy its annual volume commitment, the customer must pay the difference between the customer's actual Qualifying Volume in that year and the annual volume commitment. If at the end of any month of the term of service, a customer fails to satisfy its monthly volume commitment, the customer must pay the difference between the customer's actual Qualifying Volume in that month and the monthly volume commitment.

Early Termination Charges:

Cancellation of Discontinuance without Liability: If; (I) the customer's use of FX Service under a FX Service Term Plan equals or exceeds the customer's equivalent annualized minimum volume commitment or monthly volume commitment and (II) at the time of termination the customer is enrolled in a new FX Service Term Plan with a volume commitment which equals or exceeds the customer's existing volume commitment, the customer may terminate service under Term Plan without liability as follows: (I) the customer may terminate service at any time during the last three months of the term of service if the customer's FX Service Term Plan's term commitment is one year: or, (II) the customer may terminate service at any time during the last six months of the term of service if the customer's new FX Service Term Plan's term commitment if equal to or greater than two years.

Cancellation or Discontinuance with Liability: Discontinuance of all services furnished under the FX Service Term Plan prior to the expiration of the committed term of service constitutes discontinuance of the plan and the customer will be billed and required to pay an early termination charge equal to the Underutilization Charge for the year of termination plus 50% of all of each annual or monthly volume commitment for each year remaining in the unfulfilled term of service.

8.1.4 Local ISDN Primary Rate Interface (Local ISDN PRI): Local ISDN-PRI is an alternative arrangement for individual local exchange services such as Local Trunk Basic and Local Trunk DID. Local ISDN-PRI is provisioned at the 1.544 Mbps rate via the Primary Rate Interface standard of the Integrated Services Digital Network (ISDN). Local ISDN-PRI provides the Customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport.

8.1.4.1 Local ISDN-PRI Service Arrangement - One or more Service Configurations can be combined to create a Local ISDN-PRI Service Arrangement. Customers may have multiple Local ISDN-PRI Service Arrangements per location, however for each Service Arrangement one Service Configuration 1 must be included. The controlling D channel will always reside on Service Configuration 1.

The D channel is a 64 Kbps channel that carries signaling and control for the B channels. The capabilities of the D channel are contained within the customer's Service Configuration.

The ISDN Digital Facility is ordered separately and not included as part of the Service Configuration.

8.1.4.1.1 Service Configuration 1 - The first Service Configuration for any Local ISDN-PRI Service Arrangement must be a Service Configuration 1. Service Configuration 1 provides twenty-three (23) 64 Kbps B channels and one (1) primary 64 Kbps D signaling channel. The primary D channel is an-out-of band signaling channel used to control and route all of the B channel traffic within the Local ISDN-PRI Service Arrangement.

8.1.4.1.2 Service Configuration 2 - This configuration is only available in conjunction with Service Configuration 1. It provides an additional twenty-four (24) 64 Kbps B channels which are controlled by the D channel on Service Configuration 1. Multiple Service Configuration 2s may be associated with a Service Configuration 1 subject to switching equipment limitations.

The bearer (or B) channels are used for information transfer between users. B channels provide the same features as Local Trunk Basic and Local Trunk DID. To receive the DID capability, customers must order separately DID telephone numbers, as found in Section 8.1.2 proceeding.

8.1.4.1.3 Service Configuration 3 - This configuration is also only available to subscribers who have a Service Configuration 1. It provides a backup 64 Kbps D channel and twenty-three (23) additional 64 Kbps B channels. The backup D channel will control and route all of the B channel traffic of a single PRI Service Arrangement in the event the D channel on the

8.2 Miscellaneous Services

8.2.3 Operator Assistance

A Customer may obtain the assistance of a local operator to complete local exchange telephone calls. Surcharges as specified in Section 3.2 will apply.

8.2.4 Directory Listings

The Company shall provide for a single directory listing, termed the primary listing, in the telephone directory published by the dominant exchange service provider in the Customer's exchange area, of the Station number which is designated as the Customer's main billing number. Directory listings of additional Company Station numbers, other than the Customer's main billing number, associated with a Customer's service will be provided for a monthly recurring charge per listing.

A) The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clarity of the listing or the identification of the Customer is not impaired thereby. Where more than one line is required to properly list the Customer, no additional charge is made.

B) The Company may refuse a listing which is known not to constitute a legally authorized or adopted name, contains obscenities in the name, or any listing which, in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is a contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.

C) Each listing must be designated government or business to be placed in the appropriate section of the directory. In order to aid the user of the directory, and to avoid misleading or deceiving the calling party as to the identity of the listed party, only business listings may be placed in the Business Section. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.

D) In order for listings to appear in an upcoming directory, the Customer must furnish the listing to the Company in time to meet the directory publishing schedule.

E) Directory listings are provided in connection with each Customer service as specified herein.

1) Primary Listing: A primary listing contains the name of the Customer, or the name under which a business is regularly conducted, as well as the address and telephone number of the Customer. This listing is provided at no additional charge.

2) Additional Listings: In connection with business service, additional listings are available only in the names of Authorized Users of the Customer's service, as defined herein. Rates for additional listings are specified in Section 8.2.4.E7 and 8.2.4.E8.

9. MESSAGE TOLL SERVICE *

[* Beginning, October 26, 2000, this service will no longer be available to new subscribers.]

9.1 Description

IntraLATA toll service is furnished for telephone communication between telephones in different local calling areas within the LATA in accordance with the regulations and schedules of charges specified in this tariff. The toll service charges specified in this section are in payment for all service furnished between the calling and called telephone, except as otherwise provided in this Tariff.

The LATA is an area defined in the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192.

9.2 Timing of Messages

9.2.1 Unless otherwise indicated, all calls are timed in 6 (six) second increments.

9.2.2 For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.

9.2.3 For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agree alternate.

9.2.4 Call timing ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.

9.2.5 Calls originating in one time period as defined under 9.3 and terminating in another will be billed the rates in effect at the beginning of six second increments.

10. GATEWAY CUSTOM EXCHANGE SERVICE (CES) *

[* Beginning, October 26, 2000, this service will no longer be available to new subscribers.]

10.1 Description

Gateway Custom Exchange Service (CES) is a Centrex service that provides the Customer with multiple individual voice upgrade telephone communications channels, each of which can be used to place or receive one call at a time. Gateway Custom Exchange Service Station Lines are provided for connection of Centrex-compatible, Customer-provided station sets to the public switched telecommunications network.

10.2 General Regulations

10.2.1 Gateway Custom Exchange Service is provided in combination with other Company-provided services.

10.2.2 Gateway Custom Exchange Service is offered as Custom Exchange Service I (CES 1) and Custom Exchange Service II (CES 11).

10.2.3 Promotional Offerings: The Company, from time to time, may make promotional offerings of its services which may include waiving or reducing the applicable charges for the promoted service. The promotional offering may be limited as to the duration, the date and times of the offerings and the locations where the offerings are made. The Public Utility Commission will be notified 10 days in advance of such promotional offerings.

10.2.4 Station Line Charges

Custom Exchange Service Station Lines are charged on a monthly basis.

10.2.5 Usage Charges

In central offices where facilities are available for timing of messages, local usage charges for measured service calls apply, as specified under Section 4, Local Exchange Services.

10.2.6 Rates and charges for CES1 and CES11 apply as outlined under D., following.

10.3 Custom Exchange Service - I (CES)

A. The following call processing features are included in CES1 and are provided under control of the common equipment of the central office switching system.

10.3.1 Standard System Features

Full Network Access (Squared System)

There is no pre-defined limit on the number of exchange access or intercom calls active at any one time.

Direct Inward Dialing

Arrangement which allows an incoming call to reach a CES station without attendant assistance.

Individual Dialing Plan

Provides the ability to interpret dialed digits according to customer specific dialing sequences.

Intercom Dialing

Permits the customer to dial an access code to reach another CES station without having to dial 7 digits.

Touch-Tone calling service

Full, Semi, Un-restricted station Capability

Fully Restricted: Allows only station- to -station (intercom) calling capabilities

Semi-Restricted: Allows access to the exchange network only for local calling.

Unrestricted: Allows access to the exchange network, the toll network or any service accessible by dialing.

Access treatment screening

Stations can be individually allowed or disallowed access to system features.

Attendant capabilities

Attendants may be designated to handle incoming, internal , and other call types with various special telephone consoles.

Centralized attendant services

For multi-location customers, the attendants can be located in only one location.

Flexible night service

Provides the ability to forward each listed directory number to a unique customer-changeable night directory number.

Automatic Station Message Detail Recording -ASMDR

Provides a record (via printout) of call details (date, time, etc.) on outgoing calls.

10.3.2 Enhanced Control System Feature Package

Auto Route Selection

Directs outgoing calls to the customer's most preferred available route. If the primary route is busy, the ARS feature automatically tries alternate routes. The customer will preselect a sequence of routes which may include private or public carrier services. A warning tone is provided to indicate the selection of the least preferred route.

Account Code

Permits CES stations and attendants to dial in account code number of eight digits. For use when placing calls over facilities arranged for Automatic Message Accounting (AMA) recording. The account or project number must be input prior to dialing the call number.

Authorization Code

Allows different station users to have different calling privileges. Dialing capabilities can be defined and restricted to authorized personnel.

Time of Day Do Not Disturb

Activates Do Not Disturb at particular times. Allows for setting both the time and day for a particular action to occur (for example, the customer wants to have feature "do not disturb" activated at noon on Tues. through Wed.).

Time of Day Routing

Changes routing by time of day.

Dial Call Waiting

Provides the ability for originating CES stations to invoke a Call Waiting service on selected intergroup calls.

Priority Ringing

Differentiates incoming calls by signaling the customer with a distinctive ringing pattern.

10.3.3 Optional System Features

MCImetro ACCESS TRANSMISSION SERVICES CORP. d/b/a VERIZON ACCESS TRANSMISSION SERVICES
TENNESSEE LOCAL EXCHANGE SERVICES CATALOG SCHEDULE NO. 1
(ENTERPRISE NON-CURRENT SERVICES)
EFFECTIVE: OCTOBER 1, 2018

Access Circuit - Music on Hold

Allows customers to optionally provide music, or any other type of customer-provided audio source, to calls on hold.

Access Circuit - Loudspeaker Paging

Allows dial access to subscriber-owned loudspeaker paging equipment. The paged party can be connected to the calling party by dialing an answering code from any station within the subscriber group.

Access Circuit - Pollable SMDR

Provides a record of call details (date, time, etc.) on outgoing calls placed over a customer's private or public facilities on an interactive basis.

Access Circuit - Private Facilities

Allows the customer to have dial access to various types of public and private switching arrangements (i.e. 800-Service Simulated Facility Group, Tie Trunk Access, Common Control Switching Arrangement Access, etc.), provided by a subscriber dialed access code.

Six-Way Conference Circuit

Allows a station user to initiate a conference call. A total of five conferees can be added to the conference in addition to the originator. The customer may order more than one conference circuit.

B. The following features are available with each CES1 line located at a designated customer primary location. Where facilities and operating conditions exist, features of a CES1 system may be extended to stations of the same system located at customer secondary locations.

10.3.1 Standard Features

Individual Telephone Number

Each station line has its own telephone number.

Individual Access Screening

Each station is assigned its own access treatment code for call screening,

Individual Terminating Screening

Single Digit Dialing

Permits a station user to reach selected lines or other internal facilities for special customer services by dialing a single-digit code.

Hot Line Stations

Automatically calls a pre-selected station when the Hot Line station goes off hook.

Touch-Tone

All station lines are equipped for Touch-Tone dialing

Call Hold

Allows a station user to hold any call in progress, thereby freeing the line for the purpose of originating another call or answering a waiting call.

3-Way Calling

Allows a station in the talking state to add a third party to the call. To add a third party to the call, the 3-Way Calling subscriber flashes the switchhook once to place the other party on hold, receives a dial tone, dials the telephone number of the third party, and then flashes the switchhook again to establish the three-way connection.

Call Forwarding - Variable

(1) (Limited) When this feature is activated by a station line user or the attendant, incoming calls to the activated station line or attendant position will be automatically routed to any other selected station line, within the same CES system, or to the attendant position. The attendant may also activate this feature for a station line user.

(2) (Unlimited)

The same as Call Forwarding Variable Limited except that incoming calls may be automatically routed to a telephone number outside the CES system or to station lines within the same CES system. The attendant may not activate this feature to a telephone number outside the CES system for a station line user. Calls forwarded outside the CES system are subject to the appropriate charges for local and toll messages.

Call Forwarding - Busy

Allows incoming calls to a busy station to be routed to a preselected station line, attendant, or voice mail system within the same system or outside the system. Intercom calls can be arranged to be forwarded to a number different from DID calls.

Call Forwarding - Don't Answer

Allows incoming calls to be automatically routed to a preselected station line, attendant, or voice mail system in the same system or outside the system, when the called station is not answered after a preset number of rings. Intercom calls can be arranged to be forwarded to a number different from DID calls.

Remote Activation of Call Forwarding

Allows the user to activate and/or deactivate the Call Forwarding feature from any remote location, using a Touch-Tone phone.

Hunting

Routes a call to an idle station line in a prearranged group when the called station line is busy.

Call Park

Allows a station line to park a call against its own line number. The parked call can be retrieved from any station line by dialing the feature code and the line number against which the call is parked.

Call Pickup

Allows a station line to answer incoming calls to another station line within a defined pickup group. Call pickup is provided on individual station lines within a customer group.

Call Transfer

Allows a station line user to transfer any established call to another station line inside or outside the customer group without the assistance of the attendant.

Auto Recall (intra-group)

Permits the station user to have calls automatically redialed, within a defined group within the CES system, when the first attempt reaches a busy.

Customer Changeable Speed Calling

Allows a user to establish a speed calling list, each of which is associated with a unique 2-digit speed calling code. Initial entry and changing of a speed calling list are directly input from the user.

10.3.2 Optional Bundle

Automatic Callback - Outside

Allows a station user who encounters a busy condition to be automatically called back when the called line becomes idle.

Automatic Recall- Outside

Automatically redials the last incoming call.

Caller ID - Outside

Provides the station user with the telephone number of the calling party before answering the phone.

Call Trace

Allows the station user to dial a code to automatically request a record of the caller's origination telephone number, the date and time of the call. The information is disclosed only to a law enforcement agency for investigation purposes.

10.3.3 Premium Bundle

Selective Call Acceptance - Outside

Allows you to create a list of telephone numbers from which you are willing to accept calls. List parameter is 3 1.

Selective Call Rejection - Outside

Allows you to create a list of telephone numbers from which you do not wish to receive call. Calls from telephone numbers on your list are sent to an announcement that informs the caller you are not receiving calls at this time. List parameter is 16.

Selective Call Forwarding -Outside

Allows you created a list of "selected" telephone numbers that you want to be forwarded to another number. Calls from the telephone numbers on hour list will be forwarded to the number you have designated. List parameter is 16.

Screen List Editing/Selection Control

Allows users to create and modify lists of telephone numbers associated with a directory number. These listed numbers are used to identify calling parties. Interactive recorded announcements are used to guide users in editing screening lists.

C. CES Line Features - ISDN Interface

Class of service restriction:

Fully Restricted Capability: Allows only station-to-station (intercom) *calling capabilities

Semi-Restricted Capability: Allows access to the exchange network for local calls, only.

Unrestricted Capability: Allows access to the exchange network, the toll network or any service accessible by dialing.

National ISDN Compatibility

Out of Band (D channel) Signaling

Multiple Call Appearances/Same Number

A directory number that is assigned more than one business set. The business sets that are assigned this directory number are known as a Multiple Appearance call group.

Two Status LEDs per Appearance

Multiple Telephone Number Coverage

One station line can answer calls to many telephone numbers.

Coverage for Analog or ISDN sets

One ISDN station line can observe the state (busy or idle) of other station lines, whether analog or ISDN.

Simultaneous Voice/Data/Signaling

Voice, data, and signaling happens simultaneously without interruption or interference.

Multi-point ISDN Line

Allows up to 8 separate devices to be connected to one ISDN station line.

Voice/Data Protection

Prevents data calls from being interrupted by call waiting tones, testing or busy verification attempts.

10.4 CUSTOM EXCHANGE SERVICE II - (CES II)

A. The following call processing features are included in CES II and are provided under control of the common equipment of the central office switching system.

10.4.1 Standard System Features

Virtual Network Access Circuits (Trunked)

Exchange access is restricted to a user-specified total number of active calls (access paths).

Individually Billed Access Paths

Billing is determined by the total number of access paths specified.

Direct Inward Dialing

Arrangement which allows an incoming call to reach a CES station line without attendant assistance.

Individual dialing plan

Provides the ability to interpret dialed digits according to customer specific dialing sequences.

Intercom dialing

Permits the customer to dial an access code to reach another CES station without having to dial 7 digits,

Touch-Tone calling service

Full, Semi, Un-restricted Capability Fully Restricted- Allows only station-to-station (intercom) calling capabilities

Semi-Restricted. Allows access to the exchange network for local calling only.

Unrestricted. Allows access to the exchange network, the toll network or any service accessible by dialing.

Access treatment screening

Stations can be individually allowed or disallowed access to system features.

Attendant capabilities

Attendants may be designated to handle incoming, internal, and other call types with various special telephone consoles.

Centralized attendant services

For multi-location customers, the attendants can be located in only one location.

Flexible night service

Provides the ability to forward each listed directory number to a unique customer-changeable night directory number.

Automatic Station Message Detail Recording -ASMDR

Provides a record (via printout) of call details (date, time, etc.) on outgoing calls.

12. Integrated Service Digital Network – ISDN

A. Integrated Service Digital Network (ISDN) - Basic Rate Interface (BRI)

12.1 Description

ISDN-BRI service provides 2B+D switched access to the public switched network for the transmission of circuit switched voice, circuit switched data and packet switched data on an incoming and outgoing basis. It provides a customer with the ability to integrate current voice and data channel services utilizing Gateway S1 Basic Business Line Service

Circuit Switched Voice provides the ability to originate and receive switched voice calls over a 64 Kbps channel.

Circuit Switched Data provides the ability to originate and receive circuit switched data calls over a 64 Kbps channel.

BRI lines have two 64Kbps B channels. Each channel can have a separate phone number that can be used as a regular phone line, or the two B channels can be combined to create a single, higher bandwidth channel.

12.2 General Regulations

12.2.1 BRI has one 16 Kbps data or D channel used primarily for signaling and data transmission.

12.2.2 ISDN-BRI is furnished to customers at the rates and charges, following.

12.2.3 Rates and Charges for other optional features -are in addition to those for ISDN-BRI service.

12.3 ISDN - BRI Basic Service provides the following standard features:

- a) National ISDN Standard
- b) 2B+D channels
- c) 213 channels support Circuit Switched Voice and/or Circuit Switched Data and one D channel supports signaling and/or Packet Switched Data.
- d) Multi-point DSL

12.3.1 Optional features include:

- a) X.25 on D channel
 - b) 56/64 Kbps X.25 on B channel

12.4 ISDN -BRI for Home Office, Small Business is available with the following standard features:

- a) 2B+D Channel
- b) National ISDN Standard
- c) 56/64/112/128 Kbps Dialed Data
- d) Simultaneous Voice-Data Calling
- e) Call Forwarding – Variable (1)

- c) Call Trace

B. Integrated Service Digital Network (ISDN) - Primary Rate Interface (PRI)

12.1 Description

ISDN-PRI service provides 23B+D (twenty three 64 Kbps B channels and a 64 Kbps data channel) access on a DSX- I interface.

12.2 Efficiency Package for ISDN -PRI includes:

- a) Non-Facility Associated signaling
- b) D-Channel Backup
- c) Associated 24 Channel PRI

C. PAYMENT PLANS

12.1 The ISDN-BRI and ISDN-PRI payment plan offers the customer two options for payment as follows:

12.1.1 Fixed Monthly Rate Plan

Under this plan the customer pays a fixed monthly rate for a specified contract term. The customer may choose a 1, 2, 3, 4, or 5 year contract. During the course of the contract, fixed rates (recurring and non-recurring) are not subject to Company initiated rate changes.

INTELENET EXCHANGE ACCESS SERVICE

20.1 GENERAL

Intelenet Exchange Access Service provides a Customer with a telephonic connection and a unique telephone number address on the public switched telecommunications network. Intelenet Exchange Access Service enables users to:

- A) receive calls from other stations on the public switched telecommunications network;
- B) access other services offered by the Company as set forth in this tariff,
- C) access certain interstate and international calling services provided by the Company;
- D) access (at no additional charge) the Company's operators and business office for service related assistance;
- E) access (at no additional charge) emergency services by dialing 0 or 9- 1 - 1; and
- F) access services provided by other common carriers which purchase the Company's Switched Access services as provided under the Company's Federal and State tariffs, or which maintain other types of traffic exchange arrangements with the Company.

Intelenet Exchange Access Service cannot be used to originate calls to other telephone companies' caller paid information services (e.g. NPA 900, NXX 970, 540, etc.). Calls to those numbers and other numbers used for caller-paid information services will be blocked. Calls to numbers "NXX 976" will also be blocked unless otherwise specified by the Customer at the time service is ordered. Should a customer request unblocking for access to a caller-paid information service, the Company will bill and collect on behalf of the telephone companies' information provider holding the customer fully liable for all charges incurred for use of the information provider's service.

Intelenet Exchange Access Service is available on a "Full" service basis, whereby service is delivered to a demarcation/connection block at the Customer's premise.

The following Exchange Access Services are offered:

Single Line Service
 Multi Line Service
 Analog PBX Trunk Service
 Intelenet. Full Service T- I

20.5 INTELENET FULL SERVICE T- 1

20.5.1 Service Description

Intelenet (Digital PBX Trunk) Service provides a Customer with a digital connection operating at 1.544 Mbps which is time division multiplexed into 24 individual voice-grade telephonic communications channels, each of which can be used to place or receive one call at a time. Digital Trunks are provided for connection of compatible Customer-provided private branch exchanges (PBX) to the public switched telecommunications network. Each Digital Trunk is provided with dual tone multi-frequency (DTMF) or multi-frequency (MF) signaling, as specified by the Customer. Digital Trunks may be configured into hunt groups with other Company-provided Digital Trunks. The terminal interface for each Digital Trunk Service is a DSX-1 panel.

20.5.2 Direct Inward Dial Service (DID)

DID Service can be purchased as an optional feature in conjunction with Full Service T-1. DID service transmits the dialed digits for all incoming calls allowing the Customer's PBX to route incoming calls directly to individual stations corresponding to each individual DID number.

The Customer is required to purchase at least one DID number block for each DID-equipped trunk or trunk group, or DID-equipped channel or channel group (1). The Company reserves the right to limit the amount of DID numbers that will constitute a block of telephone numbers. Currently, blocks of 20 and 100 DID numbers can be selected. The amount of DID numbers included in a telephone number group will be determined at the sole discretion of the Company, and will reflect the efficient management of the Company's resources. In addition, the Company reserves the right to review vacant DID stations or stations not in use to determine efficient telephone number utilization. Should the Company determine based on its own discretion that there is inefficient number utilization, the Company may either reassign the DID numbers or charge an Underutilization Telephone Number Assignment Fee.

The Customer has no property right to the telephone number or any other call number destination associated with DID service furnished by the Company, and no right to the continuance of service through any particular end office. The Company reserves the right to change such numbers, or end office designation associated with such numbers, or both, assigned to the Customer, whenever the Company deems it necessary to do so in the conduct of its business.

21.4.2 Local MCI WorldCom On-Net Term Plan

The Local MCI WorldCom On-Net Term Plan is a term plan, in lieu of all other tariffed term plans, available to facilities based standalone local exchange service customers. Customers who subscribe to Local MCI WorldCom On-Net Term Plan are subject to the following conditions:

21.4.2.1 Definition of Terms

Qualifying Volume is the customer's total monthly recurring charges and usage of the following, after the application of promotional and other discounts: Local Line Charge, Local Trunk-Basic Charge, Local Trunk-DID Charge, Local Trunk-2 Way Direct Charge, DID/2 Way Direct Number Charges, recurring and non-recurring charges for Standard and Optional Features, Local ISDN-PRI T-1 Charge as well as local service usage charges. Charges for the following are not included as Qualifying Volume and are not calculated in satisfaction of the Local MCI WorldCom On-Net Term Plan volume commitment: Non-Recurring charges for Local Line, Local Trunk-Basic, Local Trunk-DID, Local Trunk-2 Way Direct, and Local ISDN-PRI; non-recurring for Local ISDN-PRI Optional Features; Directory Assistance usage; non-recurring and recurring charges for Directory Listings; Operator Assisted Surcharges (including Busy Line Verification and Busy Line Interrupt), and taxes.

Eligible Volume is the customer's total monthly recurring charges and usage of the following, after the application of promotional and other discounts: recurring charges for optional features and recurring charges for Local ISDN-PRI Optional Features, Local Line Charge, Local Trunk-Basic Charge, Local Trunk-DID Charge, Local Trunk-2 Way Direct Charge, DID/2 Way Direct Number Charges, Local ISDN-PRI T-1 Charge as well as local service usage charges. Charges for the following are not included as Eligible Volume and will not receive Local MCI WorldCom On-Net Term Plan volume discounts: Non-Recurring charges for Local Line, Local Trunk-Basic, Local Trunk-DID, Local Trunk-2 Way Direct, and Local ISDN-PRI; non-recurring charges for Standard and Optional Features; non-recurring for Local ISDN-PRI Optional Features; Directory Assistance usage; non-recurring and recurring charges for Directory Listings; Operator Assisted Surcharges (including Busy Line Verification and Busy Line Interrupt), and taxes.

21.4.2.2 Term Commitment and Renewal Options

A customer must commit to service for a term of either one, two, three, four, or five years. The term of service will commence no earlier than the first day of the next billing month in which the customer subscribes to the plan. A plan will automatically renew for an equivalent term and volume commitment upon expiration of its term unless the customer provides written notification to cancel the Local MCI WorldCom On-Net Term Plan, which must be received by the Company no more than 30 days after expiration of the existing term. If the customer cancels the existing term plan within 30 days after expiration of the existing term, the customer will receive the discounts for which the customer qualifies during the 30-day period following the expiration of the existing term of service.

21.4.2.3 Volume commitment

A customer may elect a Local MCI WorldCom On-Net Term Plan monthly volume commitment of one of the following amounts, calculated after the application of promotional and other discounts: \$100; \$250; \$500; \$1,000; \$2,000; \$3,000; \$4,000; \$5,000; \$7,000, or an annual volume commitment of one of the following amounts, calculated after the application of promotional and other discounts: \$120,000; \$180,000; \$300,000; \$600,000; \$900,000; \$1.2M; \$1.8M; \$2.4M. The customer's volume commitment will be based upon the customer's Qualifying Volume. At any time during the term of service, a customer may elect a higher equivalent annualized volume commitment. If a customer so elects, the term of service expiration date will not change. The new volume commitment will apply beginning in the following month for monthly commitments and as of the beginning of the commitment year in which the new volume commitment is elected for annual commitments. The discounts associated with the new commitment volume level apply to charges and usage only from the new election date forward.

21.4.2.4 Underutilization Charges

MCImetro ACCESS TRANSMISSION SERVICES CORP. d/b/a VERIZON ACCESS TRANSMISSION SERVICES
 TENNESSEE LOCAL EXCHANGE SERVICES CATALOG SCHEDULE NO. 1
 (ENTERPRISE NON-CURRENT SERVICES)
 EFFECTIVE: OCTOBER 1, 2018

If at the end of any year of the term of service, a customer fails to satisfy its annual volume commitment, the customer must pay the difference between the customer's actual Qualifying Volume in that year and the annual volume commitment. If at the end of any month of the term of service, a customer fails to satisfy its monthly volume commitment, the customer must pay the difference between the customer's actual Qualifying Volume in that month and the monthly volume commitment.

21.4.2.5 Early Termination Charges

Cancellation of Discontinuance without Liability: If (i) the customer's use of Local Exchange Service under a Local MCI WorldCom On-Net Term Plan equals or exceeds the Customer's equivalent annualized minimum volume commitment or monthly volume commitment and (ii) at the time of termination the customer is enrolled in a new Local MCI WorldCom On-Net Term Plan with a volume commitment which equals or exceeds the Customer's existing volume commitment, the customer may terminate service under Term Plan without liability as follows: (i) the customer may terminate service at any time during the last three months of the term of service if the customer's Local MCI WorldCom On-Net Term Plan's term commitment is one year: or (ii) the customer may terminate service at any time during the last six months of the term of service if the customer's new Local MCI WorldCom On-Net Term Plan's term commitment is equal to or greater than two years.

Cancellation or Discontinuance with Liability: Discontinuance of all services furnished under the Local MCI WorldCom On-Net Term Plan prior to the expiration of the committed term of service constitutes discontinuance of the plan and the customer will be billed and required to pay an early termination charge equal to the Underutilization Charge for the year of termination plus 50% of all of each annual or monthly volume commitment for each year remaining in the unfulfilled term of service.

TENNESSEE LOCAL EXCHANGE SERVICES CATALOG SCHEDULE NO. 1
(ENTERPRISE NON-CURRENT SERVICES)
EFFECTIVE: OCTOBER 1, 2018

21.5 Local ISDN Primary Rate Interface (Local ISDN PRI): Local ISDN-PRI is an alternative arrangement for individual local exchange services such as Local Trunk Basic and Local Trunk DID. Local ISDN-PRI is provisioned at the 1.544 Mbps rate via the Primary Rate Interface standard of the Integrated Services Digital Network (ISDN). Local ISDN-PRI provides the Customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport.

21.5.1 Local ISDN-PRI Service Arrangement - One or more Service Configurations can be combined to create a Local ISDN-PRI Service Arrangement. Customers may have multiple Local ISDN-PRI Service Arrangements per location, however for each Service Arrangement one Service Configuration 1 must be included. The controlling D channel will always reside on Service Configuration 1.

The D channel is a 64 Kbps channel that carries signaling and control for the B channels. The capabilities of the D channel are contained within the customer's Service Configuration.

The ISDN Digital Facility is ordered separately and not included as part of the Service Configuration.

21.5.1.1 Service Configuration 1 - The first Service Configuration for any Local ISDN-PRI Service Arrangement must be a Service Configuration 1. Service Configuration 1 provides twenty-three (23) 64 Kbps B channels and one (1) primary 64 Kbps D signaling channel. The primary D channel is an-out-of band signaling channel used to control and route all of the B channel traffic within the Local ISDN-PRI Service Arrangement.

21.5.1.2 Service Configuration 2 - This configuration is only available in conjunction with Service Configuration 1. It provides an additional twenty-four (24) 64 Kbps B channels which are controlled by the D channel on Service Configuration 1. Multiple Service Configuration 2s may be associated with a Service Configuration 1 subject to switching equipment limitations.

The bearer (or B) channels are used for information transfer between users. B channels provide the same features as Local Trunk Basic and Local Trunk DID. To receive the DID capability, customers must order separately DID telephone numbers, as found in Section 21.2.2.1 preceding.

21.5.1.3 Service Configuration 3 - This configuration is also only available to subscribers who have a Service Configuration 1. It provides a backup 64 Kbps D channel and twenty-three (23) additional 64 Kbps B channels. The backup D channel will control and route all of the B channel traffic of a single PRI Service Arrangement in the event the D channel on the primary configuration (Service Configuration 1) fails. A maximum of one Service Configuration 3 may be included with each Local ISDN-PRI Service Arrangement. Service Configuration 3 is available subject to switching equipment capabilities.

The bearer (or B) channels are used for information transfer between users. B channels provide the same features as Local Trunk Basic and Local Trunk DID. To receive the DID capability, customers must order separate DID telephone numbers, as found in Section 21.2.2.1 preceding.

21.5.2 Optional Features: In addition to providing Local Exchange Services specified above, Local ISDN-PRI can be configured to support the following optional advanced ISDN features:

Call-by-Call Service Selection: Allows B channels to be shared between multiple services carried over a single PRI Local Serving Arrangement.

Calling Number Delivery: Allows the customer to receive the originating caller's working telephone number provided this information is forwarded to the Company by the caller's Local Exchange and/or Long Distance Carrier. These features can be ordered separately or combined in Feature Package 1.

21.5.3 Local ISDN-Primary Rate Interface (Local ISDN-PRI) Rates and Charges:

Non-Recurring and Monthly Recurring Charges as specified below apply per T-1 unless otherwise noted. The Local ISDN PRI T-1 non-recurring and recurring charges include Service Configuration and B Channel Service charges. Customers subscribing to DID capability will be assessed DID number charges.

21.5.3.1 Non-Recurring Charges

Rates that were previously on the page can now be found in this tariff on page 103.

21.5.3.2 Monthly Recurring Charges

Per T- 1	
Local ISDN PRI T- 1 Flat Rate Option	\$1,700.00
Local ISDN PRI T- 1 Per minute	
Per Call Option	\$525.00

Optional Features:

Recurring Optional Feature charges are assessed once per customer location regardless of the number of arrangements or Service Configurations installed.

Per Location

Call-by-Call Option	\$0.00
Calling Number Delivery	\$0.00
Feature Package 1 (Includes Call-by-Call & Calling Number Delivery.)	\$0.00
Overflow Routing	\$20.00
Remote Call Forwarding	\$20.00

21.5.3.3 Usage Charges: The rates and charges specified in Section 21.5.3.2 for Flat Rate Option will apply to circuit switched voice and data calls. The rates specified in Section 21.3 will apply for customers selecting the per minute or per call option.

21.6 Digital T-1 Credit Program

Digital T-1 Credit Program provides a credit for customers who purchase digital trunks in blocks of 24 (an entire T-1). Customers who order an entire T-1 will be charged applicable non-recurring trunk and monthly recurring trunk charges as specified below for Local Trunk depending on service for which customer subscribes. Terms, conditions, and other charges, as described elsewhere in this Tariff, apply as appropriate.

21.6.1 Non-Recurring Charges

Applicable rates for non-recurring charges for Local Trunk-Basic (Digital), Local Trunk-DID (Digital) And Local-Trunk 2 Way Direct (Digital) will apply.

21.6.2 Monthly Recurring Charges

Applicable rates for monthly recurring charges for Local Trunk-Basic (Digital), Local Trunk-DID (Digital) and Local-Trunk 2 Way Direct (Digital) will apply. The rates in sections 21.2.1.2.2, 21.2.2.3.2, and 21.2.3.4.2 will apply for monthly recurring charges.

Customers enrolling in this service will receive the following monthly credit per trunk per T-1 ordered:

	Credit per trunk
Local Trunk – DID (Digital)	\$7.50
Local Trunk – Flat Rate Option (Digital)	\$7.50
Local Trunk – 2 Way Direct (Digital Flat Rate Option)	\$7.50

Credits earned during a partial billing period will be given in their entirety and will not be pro-rated.

In addition to the above charges, rates for usage will apply if applicable, as specified in Section 21.3.

Customers must retain their original T-1 configuration. Customers who disconnect trunks from the original T-1 configuration will no longer receive the credits for that T-1. Customers may enroll more than one T-1 in this service.

21.7.8 Virtual Foreign Exchange (VFX) Service: VFX Service enables a Customer to receive Company-provided Local Exchange Access Service at a point(s) outside the Local Exchange Service Area that normally serves the customer's location. VFX service can be used to receive one-way inbound digital traffic only. Customers subscribing to VFX service must purchase an entire T-1 and meet the following conditions: 1) 100 percent of the traffic carried must be inbound local; and 2) the average off-hook time per call is more than ten minutes.

The Local Exchange Calling Area and all Usage Services rates which apply to a VFX Exchange Access Service are the same as those which regularly apply to other Company-provided Local Exchange Access Services bearing the same NPA-NXX designation.

Customers are prohibited from using VFX service to place outbound calls including, but not limited to "911" emergency numbers. This restriction is required in order to assure that emergency calls are routed to the Public Safety Answering Point serving the geographical area associated with the Customer's telephone number. The Company strongly recommends that each Customer maintain at least one telephone exchange service access line bearing an NPA-NXX designation associated with the Customer's actual geographic location for emergency use.

VFX Service customers are not eligible to enroll in the On-Net Term Plan or Local On-Net Term Plan discount programs.

21.7.8.1 Features: The following features are available:

Standard:
Hunting (Circular, Sequential and Uniform Call Distribution)
Touchtone

Optional:
Vanity Number

21.7.8.2 VFX Service Rates and Charges: An VFX service Customer will be charged applicable Non-Recurring Charges and monthly Recurring Charges. Customers signing a new term plan can subscribe to digital trunk VFX Service or Local ISDN-PRI VFX Service. The monthly recurring T-1 charge for Local ISDN-PRI T-1 charge as specified in section 21.5.3. All other applicable charges associated with PRI will apply as specified in Section 21.5. The DID functionality and blocks of DID numbers will be available at no additional charge for up to a 100 DID numbers. Charges for volume of DID numbers greater than 100 will apply as specified in Section 21.2.2.3.

21.7.8.3 Non-Recurring Charges

Rates that were previously on the page can now be found in this tariff on page 103.

21.7.8.4 Monthly Recurring Charges

21.7.8.5 Term Plans

The VFX Service Term Plan is a term plan, in lieu of all other tariffed term plans, available to VFX Service customers. Customers who subscribe to VFX Service Term Plan are subject to the following conditions:

Definition of Terms:

Qualifying Volume is the customer's total monthly recurring VFX Service Digital Per Trunk charge, monthly recurring VFX charge, monthly recurring charges for VFX Service Optional Features and monthly recurring charges for Local ISDN-PRI Optional Features, after the application of promotional and other discounts. Charges for the following are not included as Qualifying Volume and are not calculated in satisfaction of the VFX Service Term Plan volume commitment: Non-recurring charges for VFX Service; non-recurring charges for VFX Service Optional Features; non-recurring charges for Local ISDN-PRI, and taxes.

Eligible Volume is the customer's total monthly recurring VFX Service Digital Per Trunk charge and VFX charge, after the application of promotional and other discounts. Charges for following are not included as Eligible Volume and will not receive VFX Service Term Plan volume discounts: Non-recurring charges for VFX Service; non-recurring and monthly recurring charges for VFX Service Optional Features; non-recurring and monthly recurring charges for Local ISDN-PRI Optional Features, and taxes.

Term Commitment and Renewal Options: A customer must commit to a service for a term of either one, two, three, four, or five years. The term of service will commence no earlier than the first day of the next billing month in which the customer subscribes to the plan. A plan will automatically renew for an equivalent term and volume commitment upon expiration of its term unless the customer provides written notification to cancel the VFX Service Term Plan, which must be received by the Company no more than 30 days after expiration of the existing term. If the customer cancels the existing term plan within 30 days after expiration of the existing term, the customer will receive the discounts for which the customer qualifies during the 30-day period following the expiration of the existing term of service.

Volume Commitment: A customer may elect a VFX Service Term Plan monthly volume commitment of one of the following amounts, calculated after the application of promotional and other discounts: \$ 100; \$250; \$500; \$ 1,000; \$2,000; \$3,000; \$4,000; \$5,000; \$7,000, or an annual volume commitment of the following amounts, calculated after the application of promotional and other discounts: \$120,000; \$180,000; \$300,000; \$600,000; \$900,000; \$1.2 million; \$1.8 million, \$2.4 million. The customer's volume commitment will be based upon the customer's Qualifying Volume. At any time during the term of service, a customer may elect a higher equivalent Annualized volume commitment. If a customer so elects, the term of service expiration date will not change, The new volume commitment will apply beginning in the following month for monthly commitments and as of the beginning of the commitment year in which the new volume commitment is elected for annual commitments. The discounts associated with the new commandment volume level apply to charges and usage only from the new election date forward.

Underutilization Charges: If at the end of any year of the term of service, a customer fails to satisfy its annual volume commitment, the customer must pay the difference between the customer's actual Qualifying Volume in that year and the annual volume commitment. If at the end of any month of the term of service, a customer fails to satisfy its monthly volume commitment, the customer must pay the difference between the customer's actual Qualifying Volume in that month and the monthly volume commitment.

Early Termination Charges:

Cancellation of Discontinuance without Liability: If, (1) the customer's use of VFX Service under a VFX Service Term Plan equals or exceeds the customer's equivalent annualized minimum volume commitment or monthly volume commitment and (II) at the time of termination the customer is enrolled in a new VFX Service Term Plan with a volume commitment which equals or exceeds the customer's existing volume commitment, the customer may terminate service under Term Plan without liability as follows: (1) the customer may terminate service at any time during the last three months of the term of service if the customer's VFX Service Term Plan's term commitment is one year: or, (H) the customer may terminate service at any time during the last six

12.6 Local ISDN Primary Rate Interface (Local ISDN-PRI): Local ISDN-PRI is an alternative arrangement for individual local exchange services such as Local Trunk - Basic and Local Trunk -DID. Local ISDN-PRI is provisioned at the 1.544 Mbps rate via the Primary Rate Interface standard of the Integrated Services Digital Network (ISDN).. Local ISDN-PRI provides the Customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport.

12.6.1 Local ISDN-PRI Service Arrangement - One or more Service Configurations can be combined to create a Local ISDN-PRI Service Arrangement. Customers may have multiple Local ISDN-PRI Service Arrangements per location; however for each Service Arrangement one Service Configuration 1 must be included. The controlling D channel will always reside on Service Configuration 1.

The D channel is a 64 Kbps channel that carries signaling and control for the B channels. The capabilities of the D channel are contained within the customer's Service Configuration.

12.6.1.1 Service Configuration 1 - The first Service Configuration for any Local ISDN-PRI Service Arrangement must be a Service Configuration 1. Service Configuration 1 provides twenty-three (23) 64 Kbps B channels and one (1) primary 64 Kbps D signaling channel. The primary D channel is an-out-of band signaling channel used to control and route all of the B channel traffic within the Local ISDN-PRI Service Arrangement.

12.6.1.2 Service Configuration 2 - This configuration is only available in conjunction with Service Configuration 1 - It provides an additional twenty-four (24) 64 Kbps B channels which are controlled by the D channel on Service Configuration 1. Multiple Service Configuration 2s may be associated with a Service Configuration 1 subject to switching equipment limitations.

The bearer (or B) channels are used for information transfer between users. B channels provide the same features as Local Trunk Basic and Local Trunk DID. To receive the DID capability, customers must order separately DID telephone numbers, as found in Section 12.5.

12.6.1.3 Service Configuration 3 - This configuration is also only available to subscribers who have a Service Configuration 1. It provides a backup 64 Kbps D channel and twenty-three (23) additional 64 Kbps B channels. The backup D channel will control and route all of the B channel traffic of a single PRI Service Arrangement in the event the D channel on the primary configuration (Service Configuration 1) fails. A maximum of one Service Configuration 3 may be included with each Local ISDN-PRI Service Arrangement. Service Configuration 3 is available subject to switching equipment capabilities.

The bearer (or B) channels are used for information transfer between users. B channels provide the same features as Local Trunk Basic and Local Trunk DID. To receive the DID capability, customers must order separate DID telephone numbers, as found in Section 12.5.

12.6.2 Optional Features: In addition to providing Local Exchange Services specified above, Local ISDN-PRI can be configured to support the following optional advanced ISDN features:

Call-by-Call Service Selection: Allows B channels to be shared between multiple services carried over a single PRI Local Serving Arrangement.

Calling Number Delivery: Allows the customer to receive the originating callers working telephone number provided this information is forwarded to the Company by the caller's Local Exchange and/or Long Distance Carrier.

These features can be ordered separately or combined in Feature Package 1.

12.6.3 Local ISDN-Primary Rate Interface (Local ISDN-PRI) Rates and Charges:

Non-Recurring and Monthly Recurring Charges apply per T-1 unless otherwise noted. The Local ISDN PRI T-1 Non-Recurring and Monthly Recurring T-1 charges include Service Configuration and B Channel Service charges. Customers subscribing to DID capability will be assessed DID number charges as specified in Sections 12.5.4.1 and 12.5.4.2, respectively.

Term Commitment and Renewal Options: A customer must commit to service for a term of either one, two, three, four, or five years. The term of service will commence no earlier than the first day of the next billing month in which the customer subscribes to the plan. A plan will automatically renew for an equivalent term and volume commitment upon expiration of its term unless the customer provides written notification to cancel the Local On-Net Term Plan, which must be received by the Company no more than 30 days after expiration of the existing term. If the customer cancels the existing term plan within 30 days after expiration of the existing term, the customer will receive the discounts for which the customer qualifies during the 30-day period following the expiration of the existing term of service.

Volume commitment: A customer may elect a Local On-Net Term Plan annual volume commitment of one of the following amounts, calculated after the application of promotional and other discounts: \$1,200, \$3,000, \$6,000, \$12,000, \$24,000, \$36,000, \$48,000, \$60,000, \$84,000, \$120,000, ~\$180,000; \$300,000; \$600,000; \$900,000; \$1.2M; \$1.8M; \$2.4M. The customer's volume commitment will be based upon the customer's Qualifying Volume. At any time during the term of service, a customer may elect a higher equivalent annualized volume commitment. If a customer so elects, the term of service expiration date will not change. The new volume commitment will apply as of the beginning of the commitment year in which the new volume commitment is elected for annual commitments. The discounts associated with the new commitment volume level to charges and usage only from the new election date forward.

Underutilization Charges: If at the end of any year of the term of service, a customer fails to satisfy its annual volume commitment, the customer must pay the difference between the customer's actual Qualifying Volume in that year and the annual volume commitment.

Early Termination Charges:

Cancellation of Discontinuance without Liability: If: (i) the customer's use of Local Exchange Service under a Local On-Net Term Plan equals or exceeds the Customer's equivalent annualized minimum volume commitment and (ii) at the time of termination the customer is enrolled in a new Local On-Net Term Plan with a volume commitment which equals or exceeds the Customer's existing volume commitment, the customer may terminate service under Term Plan without liability as follows: (I) the customer may terminate service at any time during the last three months of the term of service if the customer's Local On-Net Term Plan's term commitment is one year: or (ii) the customer may terminate service at any time during the last six months of the term of service if the customer's new Local On-Net Term Plan's term commitment is equal to or greater than two years.

Cancellation or Discontinuance with Liability: Discontinuance of all services furnished under the Local On-Net Term Plan prior to the expiration of the committed term of service constitutes discontinuance of the plan and the customer will be billed and required to pay an early termination charge equal to the Underutilization Charge for the year of termination plus 50% of all of each annual volume commitment for each year remaining in the unfulfilled term of service. Discounts: Customers will receive the following discounts applied to Eligible Volume charges and usage.
