than the first day of the next billing month in which the customer subscribes to the plan. A plan will automatically renew for an equivalent term and volume commitment upon expiration of its term unless the customer provides written notification to cancel the Local On-Net Term Plan, which must be received by the Company no more than 30 days after expiration of the existing term. If the customer cancels the existing term plan within 30 days after expiration of the existing term, the customer will receive the discounts for which the customer qualifies during the 30-day period following the expiration of the existing term of service.

Volume commitment: A customer may elect a Local On-Net Term Plan monthly volume commitment of one of the following amounts, calculated after the application of promotional and other discounts: \$100; \$250; \$500; \$1,000; \$2,000; \$3,000; \$4,000; \$5,000; \$7,000, or an annual volume commitment of one of the following amounts, calculated after the application of promotional and other discounts: \$1,200; \$3,000; \$6,000; \$12,000; \$24,000; \$36,000; \$48,000; \$60,000; \$84,000; \$120,000; \$180,000; \$300,000; \$600,000; 900,000; \$1.2 million; \$1.8 million; \$2.4 million. The customer's volume commitment will be based upon the customer's Qualifying Volume. At any time during the term of service, a customer may elect a higher equivalent annualized volume commitment. If a customer so elects, the term of service expiration date will not change. The new volume commitment will apply beginning in the following month for monthly commitments and as of the beginning of the commitment year in which the new volume commitment is elected for annual commitments. The discounts associated with the new commitment volume level apply to charges and usage only from the new election date forward.

Underutilization Charges: If at the end of any year of the term of service, a customer fails to satisfy its annual volume commitment, the customer must pay the difference between the customer's actual Qualifying Volume in that year and the annual volume commitment. Should the Company determine based on its own discretion that there is inefficient number utilization, the Company may either reassign the DID numbers or charge an Under-utilization Telephone Number Assignment Fee.

The Customer has no property right to the telephone number or any other call number destination associated with DID service furnished by the Company, and no right to the continuance of service through any particular end office. EMS is a flat-rated, two-way service whereby Customers within the exchanges being served for resold local service, as defined in Section 7.1, can make unlimited calls to telephone stations outside their local calling area. Reference the Southwestern Bell Telephone Company Local Exchange Tariff, Section 3.1.6 for a description of EMS calling scopes. Tier 2 rates are exchanges that are not contiguous, but are near the metropolitan exchanges.

In cases where a single working telephone number is used for multiple lines, if EMS is purchased for one line in the arrangement, it must be purchased for all of the lines. Within a multi line hunting arrangement, if one line has EMS, all lines must have EMS. No local call detail or usage summary information is provided with this service.
