SECTION C - SERVICE DESCRIPTIONS AND RATES (CONT.)

2. TOLL FREE SERVICES

- .01 Toll Free Services are inbound WATS services which permit calls to be completed at the Customer's location without charge to the calling party. Access to the service is gained by dialing an eleven digit telephone number (1-800/888-NXX-XXXX) which will terminate at the Customer's location. Calls may originate from any location within the State of Wyoming.
- .02 The Company reserves the right to require an applicant for Company Toll Free Service to supply the following information when requesting service: an initial traffic forecast, identification of anticipated busy hour, identification of its geographical marketing target areas, and a schedule of marketing and promotional activities. The Company may also require that a new traffic forecast be submitted by the Customer quarterly after service is initiated.
- .03 Company Toll Free Service is furnished upon condition that the Customer contracts for adequate facilities to permit the use of this service without injurious effects upon it or any service rendered by the Company. The Company may terminate or refuse to furnish Company Toll Free Service to any applicant, without incurring any liability and without notice to the Customer, if the use of the service would interfere with or impair any service rendered by the Company.
- .04 The Customer must obtain an adequate number of access lines for Company Toll Free Services to handle the Customer's expected demand in order to prevent interference or impairment of this service or any other service provided by the Company considering: (1) total call volume; (2) average call duration; (3) time-of-day characteristics; and (4) peak calling period. The Company, without incurring any liability and without notice to the Customer, may disconnect or refuse to furnish Company Toll Free Service to any Customer that fails to comply with these conditions.
- .05 Use of numbers: Each Company Toll Free Service telephone number must be placed in actual and substantial use by the Customer. "Substantial use" shall mean a pattern of use that demonstrates an intent on the Customer's part to employ the number for the purpose for which it was intended; namely, to allow callers to reach the Customer, as indicated, for example, by at least 30 average monthly minutes of use or more. Any toll free telephone number associated with Company Toll Free Service that has not been placed in actual and substantial use during the first sixty (60) day period after service activation may be redesignated as a spare number in the SMS 800 database by Company upon written notice to the Customer.
- .06 If the Customer requests assignment of a specific toll free Service telephone number, the Company may require the Customer to submit a number reservation agreement form to the Company. At no time may a Customer have more than ten (10) numbers reserved. Any reservation shall be for no more than sixty (60) days and shall be subject to a reservation fee which will be credited to Customer's unpaid balance after Company Toll Free Service has been in actual and substantial use for a consecutive sixty (60) day period.

Nothing in this Section, or in any other provision of this tariff, or in any marketing materials issued by or on behalf of the Company, shall give any person, including prospective Customers who have reserved toll free telephone numbers hereunder or Customers who subscribe to and use Company Toll Free Service or their transferee or assigns, any ownership interest or proprietary right in any particular toll

Effective August 8, 2016

free number; however, upon placing a number actually and substantially in use, as defined above, Company Toll Free Service Customers do have a controlling interest in this toll free number(s). Company Toll Free Service Customers may retain the use of their toll free number assignments, even following changes in their toll free carrier and/or Resp. Org.

- .07 If a Customer places an order for Company to carry Customer's already existing toll free number service, the Customer shall provide to Company the contact names, telephone number and address of the Customer's Responsible Organization (Resp. Org.). Upon subscription to Company Toll Free Service, the Customer may execute a Letter of Authorization to transfer Resp. Org. responsibility of its toll free number(s) to the Company Resp. Org. If the Customer elects to retain a non-Company Resp. Org., the Customer must notify Company of any changes in the Customer's Resp. Org. in writing within 48 hours of the change. The Customer is responsible for all outstanding indebtedness for services provided by a previous Resp. Org. or toll free service carrier. Company assumes no responsibility or liability with respect to any obligations of Customer to such previous service providers existing at the time of transfer to Company.
- .08 Subject to execution of a Resp. Org. Service Agreement between Company and the Customer, the Company Resp. Org. will perform the function of Resp. Org. for all Company Toll Free Service orders unless the Customer requests another Resp. Org. Company Resp. Org. functions include 1) search for and reservation of toll free numbers in the SMS/800; 2) creating and maintaining the toll free number Customer record in the SMS/800; and 3) provision of a single point of contact for trouble reporting.
- .09 Where Company serves as the Resp. Org. for a Company Toll Free Service Customer, Company will, at the Customer's request, subscribe to Toll Free Directory Listing for the toll free number(s) assigned to the Customer. A charge for Toll Free Directory Listings will apply as set forth in this Tariff. In the event that a Customer transfers its toll free service to another Resp. Org., the Company shall cease to subscribe to toll free Directory Listing Service on behalf of the Customer and the Customer is responsible for assuring that Toll Free Directory Listing Service is maintained through the new Resp. Org. Customer is responsible for payment of any outstanding Toll Free Directory Listing charges, including any unexpired portion of any minimum period applicable to such services, and Company shall have no liability for any interruption or other delay, error, mistake, omission or other defect occurring in connection with the transfer of Toll Free Directory Listing responsibility.
- .10 Where Company serves as the Resp. Org. for a Company Toll Free Service Customer, it will, at the Customer's request, subscribe to Vertical Features obtained from Local Exchange Company access tariffs. When a Company Toll Free Service Customer uses Vertical Features obtained by Company from Local Exchange Company tariffs, a charge will apply. This charge may not be counted toward the attainment of any volume or revenue commitment and will not be discounted.
- .11 In the event that a Customer cancels its Company Toll Free Service, the Customer may elect to retain Company as its Resp. Org. Where Company serves as Resp. Org. for a non-Company Toll Free Service Customer, a charge for Resp. Org. Service will apply as set forth in this Tariff.
- .12 In the event that a Customer cancels its Company Resp. Org. or Toll Free Service, the Customer shall be responsible for all outstanding indebtedness to the Company and any outstanding charges applicable to any services obtained by or on behalf of the Customer by Company.
- .13 It is the Customer's responsibility to provide answer supervision back to the Company point of connection even when the Company Toll Free Service is connected to switching equipment or a Customer-provided communications system. In such case, the equipment or system must provide appropriate supervision so that the measure of chargeable time begins upon delivery of the call to the Customer's switching equipment or communications system and ends upon termination of the call.
- .14 All Company Toll Free Service calls are originated via normal Connecting Carrier facilities and are terminated via the Customer's local exchange service access lines. Company Toll Free Services are

interstate service offerings with Customers having the option of using the services for intrastate calls.

- .15 Charges for Company Toll Free Service are based on duration of the call, rate period when the call terminates at the Customer's location, and total amount of monthly usage within each service group for each rate period. All calls are subject to a 60-second minimum average time requirement. Answer Supervision is applied to all toll free Services. After the first minute, calls are billed in 6 second increments. All calls are rounded up to the nearest 6 second interval.

14. INTELENET

.01 Description

Intelenet offers a full service voice product for single or multi-location customers using switched or dedicated, and calling card origination and switched or dedicated toll-free termination. The Intelenet package includes a single flat rate for both peak and off-peak dedicated and switched usage and offers discounts for customers willing to sign a term commitment of month to month, twelve (12) or twenty-four (24) months and/or a willingness to commit to a specific dollar volume of monthly minimum usage.

The minimum monthly commitment will be based on net charges for service (after discounts have been applied) and must be reached by the fourth invoice period and monthly thereafter. Multiple services and/or multiple locations using Intelenet can contribute to the overall monthly commitment; however, the customer must allocate the minimum by service and location. All inbound and outbound domestic and international, calling card, intrastate service and internet access charges, including local services (if applicable) contribute to determining the monthly minimum usage with the exception of enhanced fax, conference calling and non-recurring charges.

If a customer's monthly service usage charges for any month in the term are less than the monthly commitment agreed upon, the customer shall pay the company the difference between the monthly usage charges and the monthly commitment in addition to charges for service.

When the customer has completed the term commitment, service will automatically be renewed for additional term(s) of the agreement unless the Company has received the customer's written notice to terminate the service on not less than sixty (60) days prior to the then existing term expiration date. Customers who terminate service prior to the end of the term in any manner other than stated will be liable for a service termination charge of an amount equal to the greater of the following, unless customer converts to another Company service with equal or greater term and minimum usage commitment:

- .011 If the termination becomes effective prior to the completion of the first year of the Customer Term, then the charge shall be an amount equal to the monthly billing commitment times the number of months remaining in Term through the expiration of the first year. If applicable, twenty-five percent (25%) of the balance remaining (monthly billing commitment times the number of remaining months in the Term beyond the first year) will also be included.
- .012 If the termination becomes effective after the completion of the first year, then the charge shall be an amount equal to twenty-five percent (25%) of the balance remaining (monthly billing commitment times the number of months remaining in the Term).

Effective August 8, 2016

In addition, the customer will be required to repay any promotional credits that were applied, and any charges reimbursed or waived.

Upon execution of the Intelenet Service Agreement, the customer has ninety (90) days from the date service is made available in which to notify the Company in writing, either by certified or registered mail (return receipt requested), of customer's desire to cancel the Service Agreement without penalty or further obligation, except for charges incurred up to the date of termination, in the event that quality deficiencies solely caused by the Company in the provision of telecommunications service hereunder are demonstrated by customer to affect adversely and materially customer's telecommunications applications (such as termination under this clause constituting a Termination for Cause). A Termination for Cause shall not be effective unless customer has reported trouble on an ANI or circuit-specific basis to (and received corresponding trouble ticket from) the appropriate Company Support Center and a period of not less than thirty (30) days after receipt of customer's written notice of termination has elapsed during which the Company fails to correct such quality deficiencies. Provided, nothing contained herein shall impose any liability on Company and customer's sole remedy shall be termination of the affected service as described.

Customer's Intelenet Service Agreement is subject to the general terms, and conditions and rates of this Tariff and/or Service or Credit Application forms executed in connection with the services provided herein.

Total Solution Series 100K Service is subject to a minimum monthly usage commitment (after the third full month following the initial installation of service for new Customers) based on the Customer's selected commitment level. 16. TOTAL SOLUTION GOLDK SERVICE

.01 Description

Total Solution GoldK Service is an offering which allows customers to select shared and dedicated outbound and inbound service arrangements, and obtain Term Plan discounts. Total Solution GoldK calls are eligible for volume discounts based on total cross-contribution usage from all interstate and intrastate shared and dedicated outbound and inbound usage products (directory assistance and operator assistance are not contributory). Discounted rates apply retroactively, such that once the next dollar threshold is reached, the lower rate applies back to the first minute of usage for that billing period. Charges such as taxes, late payment fees or other service non-recurring and monthly recurring charges will not be included in the volume discount cross-contribution calculation.

The Outbound Calling Service arrangement is a long distance switched access service, which is available on either a shared or dedicated basis. The usage is billed on a flat rated basis. Outbound Calling Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. Rates for Operator-assisted calls are set forth in Section C.4.

The Inbound Calling Service arrangement is a toll free switched access service, which permits calls to be completed at the Customer's location without charge to the calling party. This service is available on either a shared or dedicated basis. Access to the service is gained by an end user dialing a 10 digit telephone number (e.g., 800/888+NXX-XXXX) which will terminate at the Customer's location. The usage is billed on a flat rated basis. Toll Free Service calls are billed in 6 second increments, with an initial billing period of 18 seconds per call. In addition, there is a non-recurring and monthly recurring Toll Free Service number charge, which will be applied either on a "per Toll Free Service number" basis for shared access or on a "per routing arrangement" basis for dedicated access.

.02 Term Plans

Total Solution GoldK Service is available at 1 or 2 year Term Plan rates. Term Plans are subject to a minimum monthly usage level of \$500 for shared access or \$2,500 for dedicated access after 90 days of initial service. Should the Customer's actual usage fall below the monthly minimum usage commitment, the Customer is required to pay the Company a fee equal to the difference between the Customer's actual usage and the Customer's minimum monthly commitment. Term Plan threshold calculations will include usage charges from all intrastate and interstate switched outbound and

inbound usage products (directory assistance and operator assistance are not contributory). Charges such as taxes, late payment fees and other service non-recurring and monthly recurring charges will not be included in the Term Plan usage threshold calculation. A Customer who terminates a Term Plan prior to the term's expiration will be required to pay in one lump sum an amount equaling the monthly minimum service usage charge times the number of months remaining in the term.

A Customer may terminate their Term Plan without liability under the following conditions:

- .021 The customer requests, and remains on, a new Term Plan for a term equal to or greater than the time remaining on their current Company Term Plan.
- .022 The Customer provides written notification to cancel the Term Plan to the Company postmarked within 90 days of the commencement of the Term Plan. The Customer is responsible for payment of services used during this period.

Term Plans will be automatically renewed unless the Customer notifies the Company in writing to cancel the renewal within 30 days of expiration of the current Term Plan.

.0216 Credit Allowance for Interruption of Local Access Service Credit will be allowed for interrupted service as follows:

.02161 A credit allowance will be given for Local Access Channels that are interrupted for 30 minutes or more. The credit allowance is determined in the following manner:

.021611 Calculate the Average Channel Value by determining the total monthly charges for the local channel service. That sum is then divided by the total number of channels on the local channel service to obtain the Average Channel Value.

.021612 Calculate the Average Channel Value for one full day by dividing the Average Channel Value for one month by 30 days: (result of .021611

divided by 30).

.021613 Multiply the Average Channel Value for one day by the interruption period to be credited (see Calculation Table following) in order to determine the credit for one channel: (result of .021612 multiplied by interruption period).

.021614 Multiply the credit for one channel by the number of channels affected to determine the credit allowance for the local channel service: (result of .021613 multiplied by the number of channels affected).

.02162 Calculation Table

The following table is used for calculating credit allowance for interruptions for Local Access Service.

.021621 Interruptions of 24 hours or less

<u>Length of Interruption</u>	<u>Interruption Period to be Credited</u>
Less than 30 minutes	None
30 minutes up to, but not including, 3 hours	1/10 day
3 hours up to, but not including, 6 hours	1/5 day
6 hours up to, but not including, 9 hours	2/5 day
9 hours up to, but not including, 12 hours	3/5 day
12 hours up to, but not including, 15 hours	4/5 day
15 hours up to 24 hours inclusive	One day

Two or more interruption of 30 minutes or more, during any period up to but not including three hours, shall be considered as one interruption.

.021622 Interruptions Over 24 Hours

Interruptions over 24 hours will be credited 1/5 day for each three-hour period or fraction thereof. No more than one full day's credit will be allowed for any period of 24 hours.

.02311 Inter-Office Channel (IOC)

.023111 Mileage Measurements (per IOC)

.0231111 Point-to-Point: The rate mileage for the IOC on a point to point private line service is the airline distance measured between two MCI Points of Presence. See Section B-21 for method of calculation of airline mileage.

.0231112 Multipoint: The rate mileage for the Inter-Office Channel(s) on a private line service with three or more Points of Presence is the sum of the individual airline mileage measured between each pair of MCI Points of Presence which results in the lowest total mileage charge when all of the MCI Points of Presence are connected together. The charge for the airline mileage between each pair of MCI Points of Presence is calculated separately and then summed. (Note: The actual MCI routing of the private line service may vary from the priced configuration. This method of calculation applies except in those cases when the customer specifies the sequence in which the Inter-Office Channels are connected).

.023112 Mileage Charges (per IOC) - See Section C-3.023111 for method of calculation of mileage charges.

.023211 Monthly Plan: Under this Plan, IOC charges are determined according to mileage, using the applicable per circuit and per mile Monthly Plan rates for individual IOCs. A customer may disconnect circuits or shift them to other plans subject to the regulations in Section C-2.013 entitled "Notification Required From Customers".

.023212 Fixed Term Plans: Under these plans, a customer may order individual circuits for fixed terms of 1, 2, 3, 4 or 5 years. The monthly recurring IOC charges under a particular plan are determined by deducting the applicable discount from the monthly charges calculated using the per circuit and per mile rates of the Monthly Plan.

A customer may terminate a Fixed Term Plan or Plans before the end of the committed term or terms without liability, if:

- a revision in this Tariff results in a higher IOC rate for the Plan to which the customer has committed, and to which higher IOC rate the customer has not given written consent;
- the customer enrolls the TDS-1.5 IOC in a new Fixed Term Plan which expires on or after the expiration date of the existing Plan;
- the customer replaces the existing Fixed Term Plan or Plans with a Network Pricing Plan for which the minimum committed revenue over time, calculated by multiplying the number of months in the term of the plan by the minimum monthly IOC revenue commitment amount, is equal to or exceeds the amount determined by summing the IOC charges, calculated using the Monthly Plan rates, of the circuits in the Fixed Term Plan or Plans to be terminated, multiplied by the number of months remaining in the respective committed

- term of each plan;
- the customer commits to a replacement TDS-45 Service between the same city pairs at which a circuit is enrolled in a Fixed Term Plan or Plans, which commitment to TDS-45 Service expires on or after the expiration date of all existing Fixed Term Plans to be terminated. For purposes of applying this provision, a TDS-45 Service circuit shall be the equivalent of 28 TDS-1.5 circuits.

Except as otherwise specified immediately above, if a customer terminates a Fixed Term Plan prior to its expiration, the customer shall pay termination charges for any unexpired portions of the term remaining after the notice period for disconnecting a circuit (See Section C-2.013 entitled "Notification Required From Customer". The customer is liable for termination charges equal to 100 percent of the applicable monthly recurring TDS-1.5 IOC charges for any remaining portions of the first year of the term, and 50 percent of the charges for the remainder of any subsequent years.

.023213 Network Pricing Plans: Under these plans, a customer commits to a minimum monthly IOC revenue level over a selected term. Network Pricing Plans are available at minimum monthly IOC revenue levels of \$10,000, \$25,000, \$50,000, \$100,000, \$200,000, \$350,000, \$500,000 and \$750,000 over terms of 1, 2, 3, 4 or 5 years. .02341 Inter-Office Channel (IOC) (per channel)

A TDS-45 Inter-Office Channel (IOC) connects two designated MCI terminals on MCI's digital fiber-optic network.

.023412 TDS-45 Rate Plans: There are three types of TDS-45 IOC rate plans: individual circuit Monthly and Fixed Term Plans; and Network Pricing Plans. Circuits and services under these plans are provided subject to the regulations in Section C-2.013 entitled "Notification Required From Customers".

.0234121 Monthly Plan: Under the Monthly Plan, charges are determined according to mileage, using the applicable per circuit and per mile Monthly Plan rates for individual IOCs.

.0234122 Fixed Term Plans: Under these plans, a customer may order individual circuits for fixed terms of 1, 2, 3, 4 or 5 years. The monthly recurring IOC charges under a particular plan are determined by deducting the applicable discount from the monthly charges calculated using the per circuit and per mile rates of the Monthly Plan.

A customer may terminate a TDS-45 Fixed Term Plan before the end of the committed term or terms without liability, if:

- a revision in this Tariff results in a higher IOC rate for the Plan to which the customer has committed, and to which higher IOC rate the customer has not given written consent;
- the customer enrolls the same circuit in a new Fixed Term Plan which expires on or after the expiration date of the existing Plan;
- the customer replaces the existing Fixed Term Plan or

Plans with a Network Pricing Plan for which the minimum committed revenue over time, calculated by multiplying the number of months in the term of the plan by the minimum monthly IOC revenue commitment amount, is equal to or exceeds the amount determined by summing the IOC charges, calculated using the Monthly Plan rates, of the circuits in the Fixed Term Plan or Plans to be terminated, multiplied by the number of months remaining in the respective committed term of each plan.

Except as explained above for terminating a Fixed Term Plan prior to its committed term without liability, the customer shall pay termination charges for any unexpired portions of the term remaining after the notice period for disconnecting a circuit (See Section C-2.013 entitled "Notification Required From Customer". The customer is liable for termination charges equal to 100 percent of the applicable monthly recurring charges for any remaining portions of the first year of the term, and 50 percent of the charges for the remainder of any subsequent years.

.0234123 Network Pricing Plans: Under these plans, a customer commits to a minimum monthly IOC revenue level over a selected term. Network Pricing Plans are available at minimum monthly IOC revenue levels of \$10,000, \$25,000, \$50,000, \$100,000, \$200,000, \$350,000, \$500,000 and \$750,000 over terms of 1, 2, 3, 4 or 5 years. .024 Network Pricing Plans (NPPs)

Under these plans a customer commits to a minimum monthly revenue level of combined usage over a selected term, and receives the corresponding NPP discounts for DDS, TDS-1.5 and TDS-45 IOC's under the committed plan. Network Pricing Plans are available at minimum monthly IOC revenue levels of \$10,000, \$20,000, \$50,000, \$100,000, \$200,000, \$350,000, \$500,000 and \$750,000 over terms of 1, 2, 3, 4 or 5 years.

The monthly recurring IOC charges under a particular plan are determined by deducting the respective NPP discounts from the monthly charges calculated for each service using the applicable Monthly Plan rates. DDS, TDS-1.5 and TDS-45 IOC revenues, calculated using the applicable Monthly Plan rates for each service plus any applicable interstate revenues as explained below, are totalled and compared to the minimum monthly commitment amount.

Effective August 8, 2016

Except as explained below under, "Commencing An NPP", if the aggregate revenue applicable towards the minimum monthly revenue commitment is less than the committed amount, a charge equal to the difference is also applied.

Interstate TDS-1.5, DDS and TDS-45 IOC revenue, at the applicable interstate rates, may also be counted towards a selected NPP IOC minimum.

Except as noted below, relative to commencing a plan, the commitment to a Network Pricing Plan is independent of the circuits in the plan. Circuits may be added or deleted from a Network Pricing Plan subject to the terms for "Notification Required From Customers". Other circuit specific regulations, including minimum service interval and notice of discontinuance, are defined elsewhere in this tariff.

Customers who enroll in a Network Pricing Plan shall not be entitled to any other discount or promotion offered by the company on IOC charges arising from services furnished under the NPP.

.0241 Commencing An NPP

Subject to the terms for "Notification Required From Customers", the customer must select: the desired NPP term and month in which the plan is to commence; the monthly minimum IOC revenue commitment; and the circuits, which will initially be part of the plan, including ordered circuits which are due for installation within the first three months of the desired plan commencement.

The NPP commences the first day of a calendar month selected by the customer, or the first day of a subsequent month in which the first circuit can be billed under the plan.

During the first three months of the plan, the customer is not charged for the difference if the aggregate revenue applicable towards the minimum monthly revenue commitment is less than the committed amount. The obligation to the minimum actually commences in the fourth month of the plan, unless a circuit due within the first three months of the plan has not been made available by MCI to the customer. In that case, the minimum will not apply until the circuit is made available.

.0242 Terminating a Network Pricing Plan

A customer may terminate a Network Pricing Plan before the end of its committed term without liability, if:

- a revision in this tariff results in higher Plan charges for the Plan to which the customer has committed, and to which higher charges the customer has not given written consent.
- the customer replaces the existing Network Pricing Plan or Plans with a Network Pricing Plan having a minimum monthly IOC revenue commitment that is equal to or greater than the total monthly IOC minimum revenue commitment of the existing plan or plans, and which expires on or after the expiration date of the plan or plans being replaced.
- the customer falls below the minimum because a service or services under the NPP are replaced with a service of equal or greater transmission speed, between the same cities, and the customer replaces the existing plan by committing to a new plan having the next lower NPP minimum monthly IOC revenue level which expires on or after the date of the plan being replaced.
- a revision in this tariff results in lower plan charges for the plan to which the customer has committed such that the customer is caused to fall below the committed minimum monthly IOC revenue level, and the customer replaces the existing plan by committing to a new plan having the next lower NPP minimum monthly IOC revenue level and which expires on or after the date of the plan being replaced. For purposes of applying

this provision the customer will not be penalized for falling below the minimum under the existing plan and can receive the new plan charges from the date the tariff revision takes effect if the customer enters into the new plan within three months of the tariff effective date.

- a revision in this tariff results in lower charges for the plan to which the customer has committed such that the customer is caused to fall below the lowest NPP minimum monthly IOC revenue level. The customer must terminate the plan within three months of the tariff effective date to exercise this provision. A customer will not be penalized for falling below the minimum for three months from the date that the tariff takes effect.

Except as explained above for terminating a NPP prior to its committed term without liability, the customer will pay a termination charge equal to 100 percent of the monthly minimum IOC revenue commitment amount for any unexpired portion of the first year of the term and 50 percent of the monthly minimum IOC revenue commitment amount for the unexpired portion of any subsequent years remaining in the plan's term.

5. CCSA SERVICE

.01 General Description

- .011 CCSA Service does not involve the provision of intrastate communications channels, but rather is offered as a switching service interconnecting network trunks, including circuits and services provided either by MCI or by other Participating Carriers.* Use of MCI's common control switching machines in connection with this offering may be shared with other customers or other offerings.

* Customers who elect to gain access to MCI's Metered Use Service Option C (MCI WATS) in connection with CCSA Service will be billed for monthly usage on the basis of the Tier 1, Service Area 5, hourly rates specified in Table IV, Part C. However, for such CCSA-related Metered Use Service Option C usage, the average monthly minutes of use for each rate period per access line will be calculated based upon the average monthly minutes of total traffic for each rate period per CCSA Dedicated Access Arrangement. The resulting effective per minute rate will then be applied to the customer's Metered Use Service Option C tier 1 usage. The effective per minute rate for Tier 2 usage will remain unaffected by the above.

6. RATE & MILEAGE TABLES

.01 Method of Calculation

The airline mileage between two cities can be calculated using the Vertical (V) and Horizontal (H) Coordinates as obtained by reference to AT&T's Tariff FCC No. 10 according to the following formula:

Square root of:

$$\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}$$

where V1 and H1 correspond to the V & H coordinates of City 1 and V2 and H2 correspond to the V & H coordinates of City 2.

Example:	V	H
City 1 – Cheyenne	7203	5958
City 2 - La Grange	7068	5888

Square root of:

$$\frac{V1 \quad V2 \quad H1 \quad H2}{(7203 - 7068)^2 + (5958 - 5888)^2}$$

$$10$$

Airline Mileage = 49 miles 2312.5 = 48.08 miles*

* Result will always be rounded to the next highest mile.
