**Wait...**

Before you start, unhook all of the existing TV equipment in your home.

A. Unplug all third-party TV streaming devices.

B. Already have Verizon Internet and not changing your router? Then skip to Step 2.
Step 1: Make the connections
A. Connect the coax cable from your router to a wall outlet.
B. Connect the power cord from your router to a wall outlet.
C. Turn your router ON (this doesn’t apply if you have a Fios Quantum Gateway).

Your router is activated when the lights turn green/white, which may take up to 6 minutes.

Step 1A: Make the connections
A. Connect the coax cable from your router to a wall outlet.
B. Connect the power cord from your router to a wall outlet.
C. Turn your router ON (this doesn’t apply if you have a Fios Quantum Gateway).

Optional: If a TV will be connected to the same coax wall outlet as your router, connect a 2-way splitter.

Optional: for a wired Internet setup.

Step 1B: Go wireless
• Check the label on your router for your Wireless network name and Wireless password.
• On your computer or smartphone, choose your wireless network name when it pops up.
• When asked, enter your wireless password exactly as it is on your router label.

Step 1C: Let’s go surfing
• To verify your service is up and running, open an Internet browser and go to activatemyfios.verizon.net.
Step 2
Now, let's connect your Video Media Server – the Fios TV hub.

Step 2A: Make the connections
A. Connect the coax cable from your Video Media Server to a wall outlet.
B. Connect the HDMI cable from your Video Media Server to your TV.
C. Connect the power cord from your Video Media Server to a wall outlet.

Optional: If a router will be connected to the same coax wall outlet as your TV, connect a 2-way splitter.

Step 2B: Activate away
Turn on your Video Media Server and TV. Using your Fios TV remote, follow the on-screen instructions.
Step 3A: Make the connections using HDMI cable (preferred)
A. Connect the coax cable from your Media Client to a wall outlet.
B. Connect the HDMI cable from your Media Client to your TV.
C. Connect the power cord from your Media Client to a wall outlet.

Alternate option: Make the connections using composite cables
TV not HDMI-compatible? No problem, connect the composite cables instead, making sure to match the cable colors to the back of the Media Client and TV.

Step 3B: Activate away
Turn on your Media Client and TV. Using your Fios TV remote, follow the on-screen instructions.
Digital Adapter

**Make the connections**
A. Connect the coax cable from your Digital Adapter to a wall outlet.
B. Connect the coax cable from your Digital Adapter to your TV.
C. Connect the power cord from your Digital Adapter to a wall outlet.

**Activate away**
- Turn on the Digital Adapter by pressing the set-top box button on the Fios TV remote. Then turn on your TV and tune to channel 3 using the remote control that came with your TV.
- To complete activation, call 1.855.372.2181 and provide the Digital Adapter serial number.

CableCARD

**Get hooked up**
Read through any instructions for your CableCARD-ready device and complete any set up.

**Activate away**
- When the CableCARD is inserted, follow the on-screen instructions.
- When prompted, enter the activation code on your Verizon customer receipt.
- Select which method of activation you prefer:
  - Online at verizon.com/fiostv/selfinstall or by phone at 1.888.897.7499.
Visit activatemyfios.verizon.net to access the Self-Install Wizard.
