If your TV brand is not listed, please contact your local FiOS customer support. For additional brands, please visit the Verizon FiOS TV website.

1. Turn on your TV and the FiOS STB. Make sure you can see live television.

2. Locate the 3-digit code for your TV brand in the code list below. This code is usually found in the manual that came with your TV or on the remote control.

3. Once you locate the code, press and hold the "OK" button on your remote control for 5 seconds. The remote will begin to search for the correct code.

4. Press the "Vol -" and "Vol +" buttons simultaneously until the LED on the remote begins to blink. This indicates that the remote is in programming mode.

5. Press the "<" button on the remote control. This will turn off the LED and exit programming mode.

6. Press and hold the key corresponding to your TV brand in the list below. The LED will blink 3 times and then turn off.

7. If all the keys work, press "OK" to save this TV brand code in the remote control. The remote will then turn off.

8. Troubleshooting:
   a. If the "OK" button does not work correctly, make sure the TV is on and that the remote is paired with the TV.
   b. If the "OK" button works, but the TV key is not recognized, reset your remote control as described in the "Original Settings" section below.

OPTIONAL FEATURES

You can program your FiOS TV remote for different channels and features of your FiOS TV.

1. Turn on your TV and the FiOS TV remote control.
2. Press and hold the "OK" button on the remote control for 5 seconds.
3. Press the "Vol -", "Vol +", or "<" button to select the TV brand code in the remote control.
4. Press "OK" to save the TV brand code.
5. Press the "<" button to return to the previous menu.
6. Repeat steps 3 and 4 until all TV brand codes are programmed.
7. Press "Exit" to return to the main menu.

For more information about programming your FiOS TV remote control, please refer to the Verizon FiOS TV User Manual or visit the Verizon FiOS TV website.
