Today, business happens anywhere and everywhere. Keeping ahead of the competition means staying productive in more places. VoIP makes it possible, with cloud-based communications that help your teams collaborate, share ideas and make critical decision on the fly—wherever your business takes them.

When organizations invest in connected work, the payoff is substantial

- 78% of business leaders increased business agility/responsiveness.
- 68% of business leaders increased productivity.
- 31% of business leaders decreased operating costs.

But don’t choose just any VoIP provider. Turn to a leader, Verizon. With years of expertise and competitive SLAs, we’ll make sure your mission-critical services are there when you need them.

- 5+ years as the overall leader in SIP trunking in North America
- 12+ years serving the VoIP needs of Fortune 1000 companies
- VoIP available to 80% of U.S. businesses

Our U.S. mobile network offers the top overall performance, data performance, call performance, network reliability and network speed, according to RootMetrics®.
