

Verizon Wireless N ADSL Modem Router

802.11n Built In Wi-Fi

Out of the box, the GT784WNV gives you the flexibility and power you need to connect all of your wireless devices. With the latest 802.11n technology your newer devices will achieve wireless N speeds! MIMO smart antenna technology further improves your wireless performance giving you better coverage and fewer dead spots. Backwards compatibility ensures that older wireless devices are supported, giving your wireless network the best of both worlds.

Robust Firewall and Wireless Security

Privacy and security are paramount, and the GT784WNV provides commercial grade protection. Wireless security includes WPA, and WPA2 encryption, and the ability to assign unique IDs to each wireless gateway to prevent hacking. The GT784WNV includes a fully customizable firewall with Stateful Packet Inspection, denial of service protection, content filtering, intrusion detection, and additional encryption to prevent unwanted visitors from accessing your network.

GT784WNV

TR-069 Support and Remote Management (for service providers)

The GT784WNV enables unparalleled remote management and troubleshooting power to provide superior customer experience and support.

Outstanding Customer Support

Actiontec provides 24/7 support by phone and online. Check out our website for answers to frequently asked questions, software updates, and documentation.

Ports at Rear of Unit

Features

• Interfaces

- Four 10/100 BaseT Ethernet LAN
- One RJ-11 ADSL Line (Phone Port)
- One USB 2.0 Host Port

• Wireless

- 802.11n
- 802.11 b/g
- External RADIUS Server Support
- Multiple SSID
- WPS
- WMM, WMM PowerSave (available upon request)
- Wireless Security
 - Wi-Fi Protected Access (WPA, WPA2)
 - TKIP & AES encryption
 - 802.1x authentication
 - Pre-Shared Key (PSK)
 - MAC Address Filtering

• Remote Management

- User-enable Remote Management
- TR069 Carrier Remote Management

• Advanced Security

- Firewall
- Stateful Packet Inspection
- NAT
- Website Blocking
- Web Service Blocking
- URL Keyword-Based Filtering
- Customizable Filtering Policies per Computer
- Internet Traffic Logging
- Denial of Service (DOS) Protection
- Demilitarized Zone (DMZ)
- Scheduling Access

• QoS Support

- Diffserv
- 802.1p/q Prioritization
- Random Early Detection
- Pass-through of WAN-side DSCPs, PHBs & Queuing to LAN-side devices
- Prioritization via DHCP options

• Advanced Features

- DHCP Server Option
- DHCP Server/PPPoE Server Auto Detection
- DNS Server
- Full Bridge Device Control
- LAN IP & WAN IP Address Selection
- UPnP
- Port Forwarding
- PPPoE Support
- Multiple WAN Static IP support
- MAC Address Filtering
- IGMP proxy and snooping
- IPv4 and IPv6 (ready)
- ATM/PTM support (auto-sensing)
- DHCP Reservations

• Min. Sys. Requirements

- PC or Macintosh with Ethernet or 802.11b/802.11n wireless connection.
- Internet Explorer 7.0+, Safari, Firefox
