**HIGH-SPEED INTERNET**

The Verizon Wireless N 4-Port HSI Gateway (DSL-2750B) is a versatile, high-performance router for your home and small office. With integrated ADSL2/2+ supporting download speeds up to 24 Mbps¹, firewall protection, Quality of Service (QoS), 802.11n wireless LAN, and 4 Ethernet switch ports, this router provides all the functions that a home or small office needs to establish a secure and high-speed link to the Internet.

**ULTIMATE WIRELESS CONNECTION WITH MAXIMUM SECURITY**

This router provides wireless speeds that are up to 4 times faster than Wireless G². Maximize wireless performance by connecting this router to computers equipped with wireless N interfaces and stay connected from virtually anywhere at home and in the office. The router can also be used with 802.11g and 802.11b wireless networks to enable significantly improved reception. It supports WPA/WPA2 and WEP for flexible user access security and data encryption methods, and a built-in WPS button provides easy wireless setup. A wireless ON/OFF button is also included for user convenience.

**FIREWALL PROTECTION & QoS**

Security features prevent unauthorized access to the home and office network from wireless devices or from the Internet. The Verizon Wireless N 4-Port HSI Gateway provides firewall security, such as Stateful Packet Inspection (SPI) and hacker attack logging. SPI inspects the contents of incoming packets before they are allowed in, while hacker logging helps to protect your network against Denial of Service (DoS) attacks. For Quality of Service (QoS), the router supports priority queues to enable a group of home or office users to experience the benefit of a smooth network connection without worrying about traffic congestion.

**COMPATIBILITY ASSURANCE**

The Verizon Wireless N 4-Port HSI Gateway is backward compatible with existing 802.11b and 802.11g wireless equipment, ensuring compatibility with a wide range of wireless devices. In addition, this router includes four Ethernet ports ready for you to connect Ethernet-enabled PCs, print servers and other devices.
**WHAT THIS PRODUCT DOES**

The Verizon Wireless N 4-Port HSI Gateway (DSL-2750B) connects a group of users to the Internet, allowing multiple computers at home or the office to share an integrated high-speed ADSL2+/ADSL2 interface. It provides high-performance 802.11n wireless access for wireless networked computers, 4 built-in Ethernet ports, firewall protection, and QoS for smooth and secure download/upload of photos, files, music, video, and e-mail over the Internet.
