Even when you're on the go, you can stay ready.

Read how the One Talk mobile app gives you a reliable, cost-effective way to support how you work today.

Employees in businesses of all sizes want to connect with customers using their most convenient device.

Download the Verizon One Talk Mobile App to compatible business and personal mobile devices, regardless of your carrier. The intuitive and user-friendly interface allows you to easily make and receive calls to your One Talk business numbers and keep them separate from personal numbers.

The One Talk mobile app works on your favorite Android® (6.0 or higher) and Apple® (iOS 10.0 or higher) devices, including tablets. You and your employees can enjoy the benefits of a bring-your-own-device (BYOD) program from any eligible smart device.

Say "Yes" to no contract

The global pandemic has forced businesses to shift to remote or hybrid working to maintain operations while keeping their people safe. One Talk is helping organizations find new ways to support their flexible work environments with minimal investment and no contracts.

With no separate contract or termination fees, you can feel confident that One Talk is a good fit for your organization. Using your existing compatible devices, you can easily assign and unassign phone numbers as needed – even to employees' personal devices. And once you start seeing the benefits of the One Talk mobile app, you can always add other One Talk devices and solutions as your needs and business change.

Don't miss out when opportunity calls.

When you have the One Talk mobile app, you can:

Take your business with you wherever you go

Enable compatible BYOD devices, a cost-effective solution that allows employees to make business calls on their personal devices

Use One Talk
Automated
Receptionist
and Hunt Group to
route calls to your
mobile app, even on
personal devices enabling employees
to stay connected
with coworkers,
partners and
customers

Leverage the
BlueJeans by
Verizon integration
which makes it easier
than ever to expand
collaboration
potential with high
quality video
conferencing

Integrate various data sources with Side View Mobile and Desktop Apps to display caller info including recent emails, past and upcoming meeting events and CRM account information.

Improve your employee productivity and customer experience.

6 ways One Talk and BlueJeans work together for your business

1. New Collaboration Options

One Talk and BlueJeans Meetings allow employees to communicate and collaborate in meaningful ways.

2. Seamless calling and conferencing

High-quality HD video and voice services available in a single app are designed for small businesses.

3. Extra Versatility and Flexibility
