FACILITIES FOR INTRASTATE ACCESS

12. CARRIER COMMON LINE SERVICE

12.1 General Description

Carrier Common Line charges are applicable with Switched Access under Section 4 of this tariff.

(N)

12.2 Description of Carrier Common Line Service

12.2.1 Description

Carrier Common Line charges compensate the Utility for the use of Utility provided common lines by customers for access to end users in furnishing intrastate communications.

12.2.2 Limitations

(A) Exclusions

Neither telephone number nor detail billing are provided with Carrier Common Line access. Additionally, Directory listings and Intercept arrangements are not included in the rates and charges for Carrier Common Line access.

(N)

(D)

(D)

12.2 Description of Carrier Common Line Service - Continued

12.2.2 Limitations - Continued

(B) WATS/WATS-type Access Lines

Where Switched Access Services are connected with Special Access Services at Utility designated WATS Serving Offices for the provision of WATS/WATS-type Services, Switched Access Service minutes which are carried on that end of the service (i.e., originating minutes for outward WATS/WATS-type services and terminating minutes for inward WATS/WATS-type services) shall not be assessed Carrier Common Line per minute charges with the following exception. Carrier Common Line per minute charges shall apply when FGA, FGB, BSA-A or BSA-B Switched Access is ordered from a nonequal access Utility end office or access tandem that does not have measurement capabilities, (i.e., cannot create an Automatic Message Automatic record).

(C)

Continued

SCHEDULE NO. AC - 2

FACILITIES FOR INTRASTATE ACCESS

12. CARRIER COMMON LINE SERVICE - Continued

12.3 Obligations of the Customer

12.3.1 Switched Access Service Requirement

Switched Access Service associated with the Carrier Common Line charges shall be ordered by the customer under other sections of this tariff.

12.3.2 Supervision

The customer facilities at the premises of the ordering customer shall provide the necessary on-hook supervision.

12.4 Rate Regulations

12.4.1 Description and Application of Rates

(A) Billing of Charges

Carrier Common Line charges will be billed to each Switched Access Service provided under this tariff in accordance with the regulations as specified in (E), except as specified in (D) and 12.4.3(D).

(N)

12.4 Rate Regulations - Continued

12.4.1 Description and Application of Rates - Continued

(B) Measuring and Recording of Call Detail

When access minutes are used to determine Carrier Common Line charges, they will be accumulated using call detail recorded by Utility equipment except as described in (C) and FGC or BSA-C operator and automated operator services systems call detail such as pay telephone sent-paid, operator-DDD, operator- (C) person, collect, credit card, third number and/or other like calls recorded by the customer. The Utility measuring and recording equipment, except as described in (C), will be associated with end office or access tandem switching equipment and will record each originating and terminating access minute, as described in 4.5.2(0), where answer supervision is received. The accumulated access minutes will be summed on a line by line or trunk by trunk basis, by access group or by end office, whichever type of account is used by the Utility, for each customer and then rounded to the nearest minute.

12. CARRIER COMMON LINE SERVICE - Continued

12.4 Rate Regulations - Continued

12.4.1 Description and Application of Rates - Continued

(C) Unmeasured FGA, FGB, BSA-A and BSA-B (C)

When Carrier Common Line charges are applicable in association with FGA, FGB, BSA-A or BSA-B Switched Access Service in Utility offices that are not equipped (C) for measurement capabilities, an assumed average intrastate access minutes will be used to determine Carrier Common Line charges. These assumed access minutes are in 4.5.2(0)(3).

(D) Mixed Interstate and Intrastate Usage

When the customer reports - interstate and intrastate use of Switched Access Service, Carrier Common Line charges, in 12.5, will be billed only intrastate Switched Access Service access minutes based on the data reported by the customer in 4.3.2 and 4.5.2(J), except where the Utility is billing according to actual usage by jurisdiction. Intrastate Switched Access Service access minutes will, after adjustments as described in 12.4.3(D), when necessary, be used to determine Carrier Common Line charges as specified in (E).

12.4.1 Description and Application of Rates - Continued

(E) Determination of Premium and Nonpremium Charges

The application of premium and nonpremium rates for a specific customer as described in 4.5.2(N)(1), is dependent upon the Switched Access feature group and the availability of equal access capabilities in the end office or the WATS Serving Office from which the service is provided.

(F) Determination of the California Customer Access
Fund Rate

The California Customer Access Fund rate is applied by the Utility to all terminating rated CCLC access minutes billed to the customer in addition to other rates in 12.5.

12.4.2 Determination of Usage Subject to Carrier Common Line Charges

Except as described herein, all Switched Access Service provided to the customer will be subject to Carrier Common Line charges.

(A) Determination of Jurisdiction

When the customer reports interstate and intrastate use of Switched Access Service, the associated Carrier Common Line charges for interstate usage will be determined as described in 4.3.2 and 4.5.2(J).

(B) Cases Involving Usage Recording By the Customer

Where FGC end office switching is provided without Utility recording and the customer records minutes of use to determine Carrier Common Line charges (i.e., FGC operator and calls such as pay telephone sent-paid, operator-DDD, operator-person, collect, credit card, third number and/or other like class), the customer shall furnish such minutes of use detail to the Utility in a timely manner. If the customer does not furnish the data, the customer shall identify all Switched Access Services which could carry such calls in order for the Utility to accumulate the minutes of use through the use of special Utility measuring and recording equipment.

FACILITIES FOR INTRASTATE ACCESS

12. CARRIER COMMON LINE SERVICE - Continued

12.4 Rate Regulations - Continued

12.4.3 Resold Services

(A) Scope

Where the customer is reselling MTS/MTS-type service(s) on which the Carrier Common Line and Switched Access charges have been assessed, the customer may, at the option of the customer, obtain FGA, FGB, FGD, BSA-A, BSA-B or BSA-D Switched Access Service under this tariff in Section 4, for originating and/or terminating access in the local exchange. Such access group arrangements, (C) whether single lines or trunks or multiline hunt groups or trunk groups, will have Carrier Common Line charges in 12.5 applied in accordance with the resale rate regulations specified in (D). For purposes of administering this provision:

Resold intrastate terminating MTS/MTS-type service(s) shall include collect calls, third number calls and credit card calls where the reseller pays the underlying carrier's service charges, and shall not include interstate minutes of use.

Resold intrastate originating MTS/MTS-type service(s) shall not include collect, third number, credit card or interstate minutes of use.

12.4.3 Resold Services

(B) Customer Obligations Concerning the Resale of
MTS/MTS-type Services

When the customer is reselling MTS/MTS-type service, as described in (A), the customer will be charged Carrier Common Line charges in accordance with the resale rate regulations, as described in (D), if the customer or the provider of the MTS/MTS-type service furnishes documentation of the MTS/MTS-type services. Such documentation shall be supplied each month by the customer and shall identify the involved resold MTS/MTS-type services.

The monthly period used to determine the minutes of use for resold MTS/MTS-type service(s) shall be the most recent monthly period for which the customer has received a bill for such resold service(s). This information shall be delivered to the Utility, at a location specified by the Utility, no later than 15 days after the bill date shown on the resold MTS/MTS-type service bill. If the required information is not received by the Utility, the previously reported information, will be used for the next two months. For any subsequent month, no allocation or credit will be made until the required documentation has been received by the Utility.

12.4.3 Resold Services - Continued

(C) Resale Documentation Provided by the Customer

When the customer utilizes Switched Access Service, as described in (B), the Utility may request a certified copy of the customer's resold MTS/MTS-type usage billing from either the customer or the provider of the MTS/MTS-type service. Requests for billing will go back no more than 12 months prior to the current billing period.

(D) Rate Regulations Concerning the Resale of MTS/MTS-type Services

When the customer is provided an access group or BSA to be used with the resale of MTS/MTS-type services, as described in (A), subject to the limitations, as described in 12.2.2, and the billing entity receives the usage information required, as described in (B), to calculate the adjustment of Carrier Common Line charges, the customer will be billed, as specified in (4), (5) or (6), depending upon, whether (C) the usage is from nonequal access offices, equal access offices or a combination (C) of the two.

12.4.3 Resold Services - Continued

(D) Rate Regulations Concerning the Resale of MTS/MTS-type Services - Continued

(1) Apportionment and Adjustment of Resold
Minutes of Use

When the customer is provided with more than one access group or BSA in a LATA in association with the resale of MTS/MTS-type services, the resold minutes of use will be apportioned as follows: (C)

(a) Originating Services

The Utility will apportion the resold originating MTS/MTS-type services and originating minutes of use for which the resale credit adjustment applies, among the access groups and BSAs. Such apportionment will be based on the relationship of the originating usage for each access group or BSA to the total originating usage for all access groups or BSAs in the LATA. For purposes of administering this provision:

Resold originating MTS/MTS-type services minutes shall be only those attributable to intrastate originating MTS/MTS-type minutes and shall not include collect, third number, credit card or interstate minutes of use. (C)

(D) Rate Regulations Concerning the Resale of MTS/MTS-type Services - Continued

(2) Same State/Utility/Exchange
Limitation

In order for the rate regulations to apply, as specified in (4), (5), (6), the access groups or BSAs and the resold MTS/MTS-type services must be provided in the same state (except when the same extended area service arrangement is provided in two different states by the same Utility) in the same exchange, provided by the same Utility and connected directly or indirectly. For those exchanges that encompass more than one state, the customer shall report the information by state within the exchange. (C)

(3) Direct and Indirect Connections

Each of the access group or BSA arrangements used by the customer in association with the resold MTS/MTS-type services must be connected either directly or indirectly to the customer designated premises at which the resold MTS/MTS-type services are terminated. Direct connections are those arrangements where the access groups and resold MTS/MTS-type services are terminated at the same customer designated premises. (C)

(4) Access Groups and BSAs - Nonequal Access Offices Only

(C)

The adjustments, as described here and in (5) and (6), will be computed separately for each access group and for each BSA.

When all the usage on an access group or BSA originates from and/or terminates to end offices that have not been converted to equal access, (C) the nonpremium charge per minute, as described in 12.5, will apply. The access minutes which will be subject to Carrier Common Line charges will (C) be the adjusted originating intrastate access minutes for such access groups or BSAs.

The adjusted originating access minutes will be the originating intrastate access minutes less the reported resold originating MTS/MTS-type service minutes of use in (1)(a), but not less than zero. The adjusted terminating access minutes will be the terminating intrastate access minutes less the reported resold terminating MTS/MTS-type service minutes of use in (C) (1)(b), but not less than zero.

12.4.4 Transitional Billing Arrangements

Transitional billing arrangements apply when FGA or FGB Switched Access Service is provided to a first point of switching (i.e., dial tone office for FGA and an access tandem for FGB) which has usage originating from and/or terminating at both end offices that have been converted to equal access and end offices that have not been converted. Premium and nonpremium rates for the Carrier Common Line Charge will apply in the following manner:

- (A) All access minutes that originate from or terminate at an equal access end office(s) will be billed premium rates with an exception as specified following. Access minutes that originate from or terminate at end offices not equipped with equal access capabilities are billed at nonpremium rates.
- (B) The number of access minutes that originate or terminate at each end office is determined as follows:
 - (1) Where measurement capability exists, and end office specific usage data is available, the measured access minutes are used.

12.4.4 Transitional Billing Arrangements - Continued

- (C) Where FGD Switched Access Service is subscribed to by a customer in an end office(s) where FGA or FGB access minutes have been allocated in accordance with (B)(2), such access minutes will be adjusted in the following manner.
- For each FGD access minute originating from or terminating at that end office, one originating or terminating FGA or FGB premium access minute allocated, as described in (2), will be reduced to nonpremium. In no event shall the reduction exceed the total number of FGA or FGB access minutes originating from or terminating at that end office.
 - When FGA or FGB originating or terminating minutes are greater than the FGD originating or terminating minutes, the difference (the greater amount) is identified as premium FGA or FGB minutes in the equal access end office, the residual amount (i.e., the remaining minutes) in that end office is considered as nonpremium usage and billed at nonpremium rates.
- (D) Specific details and methodology used to apportion FGA or FGB minutes as described in the preceding paragraphs will be provided to the customer upon request within 15 days of the receipt of such request.
