PRELIMINARY STATEMENT

This Tariff contains the regulations, rates and charges applicable to the provision of local telecommunications services by Verizon Select Services Inc. for the use of Customers transmitting messages within the State of California, subject to the jurisdiction of the California Public Utilities Commission ("Commission"). (T)

Carrier has been authorized by the California Public Utilities Commission in Decision No. 96-02-072 to operate as a reseller of local telecommunications services offered in California.

This Tariff is on file with the California Public Utilities Commission. In addition, this Tariff is available for review during business hours at the main office of Verizon Select Services Inc., located at 6665 N. MacArthur Blvd., 2nd Floor, Irving, TX 75039, or at its office located at 777 South Figueroa Street, Suite 3350, Los Angeles, CA 90017. (T) (T)

EXPLANATION OF SYMBOLS

Changes to this Tariff shall be identified on the revised sheet(s) through the use of symbols. The following are the only symbols used for the purposes indicated below:

(C) - To signify a changed regulation

(C)(R) - A change reducing rates
(C)(I) - A change increasing rates

(D) - To signify a discontinued rate or regulation

(I) - To signify an increase in rate or charge.

(L) - To signify material relocated from or to another part of tariff schedule with no change in text, rate, rule or condition.

(N) - To signify a new rate or regulation.

(R) - To signify a reduced rate or charge.

(T) - To signify a change in text but no change in rate or regulation.

Smart Call

Schedule 1

Exchange Services in Pacific Bell Territory

1. LOCAL MEASURED BUSINESS SERVICE

This service is no longer available to new Customers. (C)

1.1 Local Measured Business Service Description - Provides a Customer with the ability to originate calls to all other stations on the public switched network in the caller's local calling area.

All local business service lines are measured service lines. There is a flat, monthly recurring charge plus local usage charges associated with each line. The flat monthly recurring rate varies by Rate Group for Basic Service. Rate Groups are comprised of exchanges (including District Areas, or DAS, and Remote Island Areas, or RIAs), as defined by Pacific Bell, and listed below. Standard service has a uniform monthly recurring rate. Nonrecurring Installation Charges also apply.

1.2 Basic Local Measured Business Line Rates

This option is no longer available to new Customers.

1.2.1 Monthly Recurring Rate

A. Basic Local Measured Business Service

	Month-to-Month Term	One-Year Term Contract	Three-Year Term Contract
Rate Group 1	$10.32	$10.00	$9.70
Rate Group 2	10.92	10.60	10.25
Rate Group 3	11.30	10.90	10.60
Rate Group 4	11.90	11.55	11.30
Rate Group 5	12.85	12.50	12.15
Rate Group 6	14.20	13.75	13.40
Rate Group 7	16.90	16.30	15.85
Rate Group 8	18.32	17.75	17.25
Rate Group 9	19.82	19.25	18.65
Rate Group 10	22.62	21.95	21.25
Rate Group 11	31.15	30.20	29.30

1. Term Commitments - Customer may elect a one or three-year term commitment, subject to early termination charges of 50% of the monthly recurring charges for the remainder of the term.

Irving, TX 75038

Schedule 1

Exchange Services in Pacific Bell Territory

1. LOCAL MEASURED BUSINESS SERVICE

1.1 Local Measured Business Service Description - Provides a Customer with the ability to originate calls to all other stations on the public switched network in the caller's local calling area.

All local business service lines are measured service lines. There is a flat, monthly recurring charge plus local usage charges associated with each line. The flat monthly recurring rate varies by Rate Group for Basic Service. Rate Groups are comprised of exchanges (including District Areas, or DAS, and Remote Island Areas, or RIAs), as defined by Pacific Bell, and listed below. Standard service has a uniform monthly recurring rate. Nonrecurring Installation Charges also apply.

1.2 Basic Local Measured Business Line Rates

This option is no longer available to new customers.

1.2.1 Monthly Recurring Rate

A. Basic Local Measured Business Service

	MONTH TO MONTH TERM	1 YEAR TERM CONTRACT	3 YEAR TERM CONTRACT
Rate Group 1	10.32	10.00	9.70
Rate Group 2	10.92	10.60	10.25
Rate Group 3	11.30	10.90	10.60
Rate Group 4	11.90	11.55	11.30

C. Extended Area Service (EAS) - Carrier concurs in the EAS exchanges of Pacific Bell, found in Pacific Bell Schedule P.U.C. No. 175-T, Section 18.6.1B.

Schedule 1

Exchange Services in Pacific Bell Territory

1. LOCAL MEASURED BUSINESS SERVICE (Continued)

1.2 Basic Local Measured Business Line Rates (Continued)

1.2.2 Local Usage Rates

Usage charges are based on the length of the call, the area called, and the time of day. Local usage areas (zones) are defined by Pacific Bell in its Schedule Cal. P.U.C. No. A-5. Generally, Zone 3 rates apply for distances greater than 12 miles and up to 16 miles. Zone 3 charges are applicable in lieu of, but not in addition to, toll charges. Zones 1 and 2 are summarized on the Customer's bill. Zone 3 usage is itemized on the bill. Calls are billed in one-minute increments. Fractional amounts are rounded to the nearest whole cent.

A. Rates - Zones 1 and 2

Rate Period	Per Minute Rate
Day	
First Minute	$.0333
Additional Minutes	.0105
Evening	
First Minute	$.0233

Directory Listing - Section 9

1.3.7 Discount Plans - Discounts to qualifying organizations apply as specified in Section 1.2.4.

1.3.8 Remote Call Forwarding - Permits call completion from one telephone number to another telephone number. The Remote Call Forwarding telephone number must be located in an exchange area as defined by the underlying carrier. Service is offered subject to availability from the underlying carrier.

Monthly Recurring Charge
$18.00

Schedule 1

Exchange Services in Pacific Bell Territory

2. CENTREX SERVICE

This service is no longer available to new Customers. (C)

2.1 Centrex Service Definition - This service provides communication channels to the Public Switched Network which can be used to place or receive one phone call at a time. In addition, Centrex provides customers with access to call management features (i.e., call forwarding) which can be applied directly to their telephone equipment or can be activated on an as needed basis from the individual telephone set. There are two types of Centrex Lines available with Basic Centrex Service:

Basic Centrex Lines

Classic Centrex Lines - Includes the following standard features:

- Call Forward Busy Calls
- Call Forward No Answer
- Call Forward Variable
- Call Hold
- Call Pickup
- Direct Inward Dial (DID) to Direct Outward Dial (DOD) Transfer
- Directed Call Pickup
- Message Waiting Indicator (with Stutter Dial Tone)
- Touch Tone

Standard Centrex Service options are described in Section 2.4.

2.2 Minimum Number of Lines - The Customer must order a minimum of two (2) lines of Centrex Service.

2.3 Basic Centrex Service - Centrex pricing is calculated by adding a variety of individually priced elements or components to derive the total monthly recurring service rate. In addition to monthly rates, zone usage and long distance charges apply, and one-time design and installation charges may apply. This option is no longer available to new Customers.

Schedule 1

Exchange Services in Pacific Bell Territory

2. CENTREX SERVICE

2.1 Centrex Service Definition - This service provides communication channels to the Public Switched Network which can be used to place or receive one phone call at a time. In addition, Centrex provides customers with access to call management features (i.e., call forwarding) which can be applied directly to their telephone equipment or can be activated on an as needed basis from the individual telephone set. There are two types of Centrex Lines available with Basic Centrex Service:

Basic Centrex Lines

Toll Restriction
Touch Call
Three Way Calling

Schedule 1

Exchange Services in Pacific Bell Territory

2. CENTREX SERVICE (Continued)

2.4 Standard Centrex Service (Continued)

2.4.1 General Description (Continued)

Zone usage charges and toll charges are in addition to the MRC. Toll rates associated with a service combination package are based on Customer's total MRCs, toll usage, Zone usage, and other usage for services provided by Carrier. Each package has a minimum requirement for toll minutes of use; if Customer does not use the minimum required toll minutes, Customer will be charged the difference between the minimum number of minutes and the number of minutes actually used at Carrier's interstate rates (found in FCC No. 1) for Business Service Combination Packages. MTS rates for Service Combination Packages can be found in GTE Card Services Tariff Cal. P.U.C. and FCC No. 1. MTS calls eligible for combination package rates are only those direct dialed calls placed over lines presubscribed to Carrier for interLATA calls and for direct dialed calls placed over lines presubscribed to Carrier or resold for intraLATA calls.

2.4.2 Centrex System Design, Change Charges

2. CENTREX SERVICE (Continued)

2.4 Standard Centrex Service (Continued)

2.4.13 Centrex Package

Description - Provides a combination of services to business Customers for a flat MRC when Customer subscribes to a one-year term. The Centrex Package offering is limited to business Customers who subscribe to a two to nine line offering. The MRC does not include:

Local Usage Charges
Charges on previous bills
Bill adjustments or credits
Late Payment Charges
Surcharges and Taxes
Services provided by other Carriers
Federal Subscriber Line Charge
Nonrecurring Charges

Centrex Package includes the following:

2 Measured Centrex Primary Analog Station Lines
2 Centrex Classic Feature Packages
600 minutes of intrastate and/or interstate MTS usage from same business location. The 600 minutes does not apply to local usage.

Interstate MTS rates charged in addition to the flat monthly charge can be found in Carrier's Tariff Cal. P.U.C. Interstate and international rates charged in addition to the flat monthly charge can be found in Carrier's Tariff F.C.C. No. 1 and Tariff F.C.C. No. 2, respectively. MTS calls eligible for combination package rates and the additional rates for package subscribers are only those direct dialed calls placed over lines presubscribed to Carrier for interLATA calls and or direct dialed calls placed over lines presubscribed to Carrier, or resold, for intraLATA calls.

Schedule 1

Exchange Services in Pacific Bell Territory

2. CENTREX SERVICE (Continued)

2.4 Standard Centrex Service (Continued)

2.4.13 Centrex Package (Continued)

If Customer's bill for all MRCs and usage charges for the current month at the service location exceed $200.00, Customer will be given a bonus discount of 10% on the current bill. Services eligible for the bonus discount include services provided under Carrier's Tariff Cal. P.U.C., Tariff F.C.C. No. 1, Tariff F.C.C. No. 2, and cellular, paging Internet services, and voice mail provided by or through Carrier. Excluded from eligibility for the discount calculation are charges on prior bills, bill adjustments and credits, late payment charges, taxes and surcharges, equipment, NRCs, and Internet Browser Software. Customers terminating a one-year term agreement prior to its expiration will be subject to a lump sum charge of $25.00 times the number of months remaining in the term. Customer must subscribe to both Carrier's interexchange and local services.

Exchange Services in Pacific Bell Territory

9. DIRECTORY LISTING - BASIC BUSINESS SERVICES

This service is no longer available to new Customers. (C)

9.1 Directory Listing Service Definition - Carrier will arrange for Customer, other than Customers requesting Non-Published Service, to be listed in the directories and Directory Assistance records of Pacific Bell in accordance with the listing service tariff schedules of Pacific Bell.

Directory Listings may be limited by provisions, rules, and regulations as stated in the "Directory Services" section of the currently effective Pacific Bell Tariff Schedule Cal. P.U.C. No. 175-T, as it may be amended from time to time.

Customer will have Business Service Primary Listings in the alphabetic business white pages and alphabetic yellow pages sections of the Pacific Bell directories at no additional cost to Customer. Primary Listings shall consist of a name, designation, address, and telephone number.

9.2 Rates and Charges - Alternate User Listing

An Alternate User Listing allows two subscribers sharing a single telephone number to each have a listing for that number. Alternate User Listings are available for business subscribers only and provide all the features of a Main Listing. As with Main and Additional Listings, the only name permitted in an Alternate User Listing is the legitimate name of the listed subscriber. Like Main Listings, Alternate User Listings are published in both Directory Assistance and the Business section of the White Pages Local Directory, with a courtesy appearance in the SMART Yellow Pages Directory. Alternate User Listings are available for an additional charge, and the subscribers are responsible for determining how or whether they will share this cost.

	Nonrecurring Charge	Monthly Recurring Charge
Primary Listing	$ .00	$.00
Primary Listing in Foreign Directory	7.00	1.75
Alphabetic Section, Additional Listing	7.00	1.75

Non-Published Service (Charge Per Service)	.00	.20

Schedule 1

Exchange Services in Pacific Bell Territory

9. DIRECTORY LISTING - BASIC BUSINESS SERVICES

9.1 Directory Listing Service Definition - The Carrier will arrange for the Customer, other than customers requesting non-published service, to be listed in the directories and directory assistance records of Pacific Bell in accordance with the listing service tariff schedules of Pacific Bell.

Directory Listings may be limited by provisions, rules, and regulations as stated in the "Directory Services" section of the currently effective Pacific Bell tariff Schedule Cal. P.U.C. No. 175-T, as it may be amended from time to time.

The Customer will have Business Service primary listings in the alphabetic business white pages and alphabetic yellow pages sections of the Pacific Bell directories at no additional cost to the Customer. Primary listings shall consist of a name, designation, address, and telephone number.

9.2 Rates and Charges - Alternate User Listing

An Alternate User Listing allows two subscribers sharing a single telephone number to each have a listing for that number. Alternate User Listings are available for business subscribers only and provide all the features of a Main Listing. As with Main and Additional Listings, the only name permitted in an Alternate User Listing is the legitimate name of the listed subscriber. Like Main Listings, Alternate User Listings are published in both Directory Assistance and the Business section of the White Pages Local Directory, with a courtesy appearance in the SMART Yellow Pages Directory. Alternate User Listings are available for an additional charge, and the subscribers are responsible for determining how or whether they will share this cost.

10.3 Returned Check Charge

	Charge Per Returned Check
Checks returned for non-sufficient funds	$25.00

10.4 Number Referral Service

Number Referral Service is an optional intercept arrangement for diversion of calls to a number which is no longer in service. No charge is applied for Referral Service for 12 months after disconnect, or until a new directory is printed, whichever is later. Referral Service must be ordered at the time of disconnect. Number Referral Service charges do not apply to:

- A disconnect or number change with no referral.
- The primary number of any service with Basic Referral Service option (automated announcement of disconnect with no further information).
- Utility initiated number change.
- Directory errors caused by the Utility.

10.4.1 Number Referral Service Options

Only one new number will be provided under each option listed below.

A. Basic Referral Service

An automated system that repeats the called number, provides the status of the called number, and provides information on how to reach the called party.

Schedule 1

Exchange Services in Pacific Bell Territory

10. MISCELLANEOUS CHARGES (Continued)

10.4 Number Referral Service (Continued)

10.4.1 Number Referral Service Options (Continued)

B. Sequential Referral Service

An automated announcement for Centrex users that provides a new number to the calling party for a sequential range of two or more numbers that have been disconnected. All of the numbers that have been disconnected with Sequential Referral Service are referred to the same new number.

C. Non-Sequential Referral Service

An automated announcement for Centrex users that provides a new number to a calling party for a non-sequential range of numbers that has been disconnected. All of the numbers that have been disconnected with Non-Sequential Referral Service are referred to the same new number.

D. Single Number Referral Service

An automated announcement for Centrex users that repeats the called number and provides a new number to a calling party for individual numbers that have been disconnected.

E. No Referral Service

An automated announcement stating that the called number has been disconnected. No further information is provided about the called number.

C. Access Charge Allowance. An allowance equal to the current federally mandated end user access charge for ULTS Customers.

Schedule 1

Exchange Services in Pacific Bell Territory

12. RESIDENTIAL SERVICE (Continued)

12.3 Universal Lifeline Telephone Service (Continued)

12.3.3 Special Conditions

A. Universal Lifeline Telephone Service is available to all residence Customers who meet the following eligibility requirements:

1. The residence at which the service is requested is Customer's principal place of residence. The residence household (dwelling unit) shall consist of that portion of an individual house or building or one flat or apartment occupied entirely by a single family or individuals functioning as one domestic establishment.

   A room or portion of a residence occupied exclusively by an individual not sharing equally as a member of the domestic establishment may be considered a separate dwelling unit (premises) for the application of Universal Lifeline Telephone Service.

2. There is only one access line serving the residence premises.

3. The combined income of a household of one or two person(s), based on current income, does not exceed $24,000 for the fiscal year for which the service is furnished. (C)

4. The current income of a household of three or more persons does not exceed the following limitations:

Household Size	Income Limitation	
3 Members	28,200 per year	(C)
4 Members	34,000 per year	|
Each Additional Member	5,800 per year	(C)

Schedule 1

Exchange Services in Pacific Bell Territory

12. RESIDENTIAL SERVICE (Continued)

12.3 Universal Lifeline Telephone Service (Continued)

12.3.3 Special Conditions (Continued)

A. (Continued)

5. The income limitations claimed by Lifeline Customers in applications are subject to verification at any time by Carrier and/or by the Commission and its staff. If it is found that the Lifeline Customer actually exceeds the income limitation, back billing at full tariffed rates will be assessed.

6. No person who is claimed as a dependent on another person's income tax return shall be eligible.

B. Universal Lifeline Telephone Service is available to applicants for new residential service and to Customers subscribing to residential service who qualify under guidelines listed above.

C. Universal Lifeline Telephone Service includes the following:

1. Basic dial tone service.

2. Unlimited incoming calls.

3. An allowance equal to the current federally mandated access charge for ULTS Customers which is 50% discounted from the rate set forth in Carrier'sTariff FCC No. 1.

D. Universal Lifeline Telephone Service is restricted to residence local exchange service including 50% of all applicable extended area service charges.

Schedule 1

Exchange Services in Pacific Bell Territory

12. RESIDENTIAL SERVICE (Continued)

12.3 Universal Lifeline Telephone Service (Continued)

12.3.3 Special Conditions (Continued)

E. Customers qualifying for ULTS will be entitled to one installation every 12 months as shown in Rates and Charges. No carry-over credit will be given for years in which eligible Customers do not use their authorized reduced Service Connection Charges. Reduced Service Connection Charges will apply to requests from eligible recipients for changes in class, type or grade of service, including requests to change from Foreign Exchange Service. Changes in class, type or grade of service at the reduced rates will constitute that Customer's one installation per year. Other than stated above, any change to the service will be at regular tariffed rates.

F. Eligible recipients of this service may have up to three months to pay Carrier for the reduced Service Connection Charges. Carrier will bill Customer in three equal installments.

G. Deposits for establishment of Universal Lifeline Telephone Service will not be required from eligible applicants unless the Applicant has any outstanding telephone bill from any telephone utility in the State of California. A deposit may not be required if an Universal Lifeline Telephone Service Applicant voluntarily accepts toll block at no charge.

H. Universal Lifeline Telephone Service shall be subject to the conditions set forth in Rule 11, Discontinuance and Restoration of Service.

I. Service under this schedule will apply upon receipt of a completed Carrier-provided self-certification notice of eligibility from an Applicant/Customer. The self-certification form shall be the form shown in the forms section of these tariff schedules.

Schedule 1

Exchange Services in Pacific Bell Territory

12. RESIDENTIAL SERVICE (Continued)

12.3 Universal Lifeline Telephone Service (Continued)

12.3.3 Special Conditions (Continued)

J. New applicants for telephone service will be advised of the availability of Universal Lifeline Telephone Service and, if eligible, will be furnished with the necessary self certification forms. Those applicants who do not return a signed self-certification form to Carrier within 30 days will be changed to regular tariffed rates. The regular tariffed rates (excluding usage) will be retroactive to the date the Universal Lifeline Telephone Service began. If reduced service connection charges were applicable, the difference between reduced charges and regular tariffed charges will be billed to the Applicant. Such applicants who do not return the signed self-certification form to Carrier within 30 days will be subject to normal deposit requirements.

K. Recipients of Universal Lifeline Telephone Service must notify Carrier of a change in any condition which occurs that would cause the household to no longer qualify for the service. Upon receipt of notification, Carrier will change the service to regular tariffed rates for the service furnished. Service Connection Charges will not apply to the change in service.

If Carrier discovers that conditions exist which cause the recipient not to qualify for Universal Lifeline Telephone Service, Customer will be notified that the service will be converted to regular tariffed rates. If Customer cannot prove when he became ineligible, Carrier will bill Customer retroactive to the last certification date for the difference between Universal Lifeline Telephone Service rates and the regular tariff rates (excluding usage) for the service furnished, including Service Connection Charges and deposits, if applicable.

Schedule 1

Exchange Services in Pacific Bell Territory

12. RESIDENTIAL SERVICE (Continued)

12.3 Universal Lifeline Telephone Service (Continued)

12.3.3 Special Conditions (Continued)

L. Eligible recipients are required to be re-certified annually. Carrier will mail re-certification forms to each recipient of the service annually. If the recipient fails to return the re-certification notice within 30 days, Carrier will assume that Customer is no longer eligible. Customer's service rates will be converted to the regular tariffed rates for the type, class and grade of service furnished. Nonrecurring charges will not apply to the change in service. Deposit requirements will be applied in accordance with applicable tariffs.

M. Carrier will annually mail a notification of availability and a self-certification form to all residence Customers.

N. In addition to the rates and conditions specified herein, all rules, regulations, charges and rates in conjunction with the service furnished elsewhere in the tariffs are also applicable to the service provided under this schedule.

O. Optional services and equipment are not included in Universal Lifeline Telephone Service rates, but will be provided to Universal Lifeline Telephone Service Customers at applicable tariffed rates and charges.

P. Universal Lifeline Telephone Service rates shall be applied to each monthly statement for the months this service is furnished and shall apply only for the duration of this service.

Q. Universal Lifeline Telephone Service Customers may request conversion from flat-rate basic exchange service to measured basic exchange service, or vice versa, to determine the best call rating and billing for their local service.

Schedule 1

Exchange Services in Pacific Bell Territory

12. RESIDENTIAL SERVICE (Continued)

12.3 Universal Lifeline Telephone Service (Continued)

12.3.3 Special Conditions (Continued)

R. Customers may make up to two (2) subsequent changes (between flat-rate and measured service) within a ninety (90) day period without incurring a Service Order Change Charge for the two (2) changes.

S. The Service Order Change Charge is waived for ninety (90) days from the date Customer goes in-service (service turned on in initial or move order) after the initial service install or move is completed.

T. Initial Service Order Charges for new installation or moves are NOT waived, nor is the Service Order Change Charge waived for changes other than the change listed in Special Condition R., above.

U. A Service Order Change Charge is applied to the third and all subsequent changes between flat-rate and measured basic exchange service during the 90-day waiver period.

V. Carrier will waive the monthly recurring charge for Option I of the Flat Rate Residential Service Blocking Options (Schedule 2, Section 10.2.1.I.2).

Line Change (Changes in class, type or grade of service after initial installation of ULTS at a specific address.)	10.00
Outside Facility Connection Charge	.00

C. Access Charge Allowance. An allowance equal to the current federally mandated end user access charge for ULTS Customers.

Schedule 1

Exchange Services in Pacific Bell Territory

12. RESIDENTIAL SERVICE (Continued)

12.3 Universal Lifeline Telephone Service (Continued)

12.3.3 Special Conditions

A. Universal Lifeline Telephone Service is available to all residence Customers who meet the following eligibility requirements:

1. The residence at which the service is requested is Customer's principal place of residence. The residence household (dwelling unit) shall consist of that portion of an individual house or building or one flat or apartment occupied entirely by a single family or individuals functioning as one domestic establishment.

   A room or portion of a residence occupied exclusively by an individual not sharing equally as a member of the domestic establishment may be considered a separate dwelling unit (premises) for the application of Universal Lifeline Telephone Service.

2. There is only one access line serving the residence premises.

3. The combined income of a household of one or two person(s), based on current income, does not exceed $17,750 for the fiscal year for which the service is furnished.

4. The current income of a household of three or more persons does not exceed the following limitations:

Household Size	Income Limitation
3	$20,910
4	25,090
Each Additional Member	4,180

Schedule 1

Exchange Services in Pacific Bell Territory

13. SERVICE COMBINATION PACKAGES - RESIDENTIAL

This service is no longer available to new Customers. (C)

13.1 General Description - Provides various combinations of services to residential Customers for a flat Monthly Recurring Charge (MRC). The flat monthly charge does not include the following.

Charges on previous bills
Bill adjustments or credits
Nonrecurring charges
Late payment charges
Customer premises equipment charges
Local usage charges for Zone 3 calls
Surcharges and taxes
Services provided by other Carriers
Operator surcharges
Federal Subscriber Line Charge

Intrastate MTS rates charged in addition to the flat monthly charge can be found in Carrier's Tariff Cal. P.U.C. Interstate and international rates charged in addition to the (T)
flat monthly charge can be found in Carrier's Tariff FCC No. 1 and FCC No. 2, (T)
respectively. MTS calls eligible for combination package rates and the additional rates for package subscribers are only those direct dialed calls placed over lines presubscribed to Carrier for interLATA calls and for direct dialed calls placed over lines presubscribed to Carrier, or resold, for intraLATA calls.

If Customer's bill for all Carriers Monthly Recurring Charges and usage charges for the (T)
current month exceeds a specified amount (which varies with each package), Customer will be given a bonus discount on the current bill. Services eligible for the bonus discount include services provided under Carrier's tariffs Cal. P.U.C., FCC No. 1, FCC No. 2, CLC No. 2, and cellular, paging, voicemail, and Internet services, and equipment provided by or through Carrier. (T)

Excluded from eligibility for the bonus discount calculation are charges included on prior bills, NRCs, Internet Browser Software, late payment charges, surcharges and taxes, Federal Subscriber Line Charge, billing adjustments and credits, equipment, and pay-per call charges.

If Customer leaves a package plan, flat rate residential rates will apply.

Schedule 1

Exchange Services in Pacific Bell Territory

13. SERVICE COMBINATION PACKAGES - RESIDENTIAL

13.1 General Description - Provides various combinations of services to residential customers for a flat monthly recurring charge (MRC). The flat monthly charge does not include the following.

Charges on previous bills
Bill adjustments or credits
Non-Recurring Charges
Late Payment Charges
Customer Premises Equipment Charges
Local Usage Charges for Zone 3 calls
Surcharges and Taxes
Services provided by other Carriers
Operator surcharges
Federal Subscriber Line Charge

Intrastate MTS rates charged in addition to the flat monthly charge can be found in GTE Card Services Tariff Cal. P.U.C. Interstate and international rates charged in addition to the flat monthly charge can be found in GTE Card Services Tariff FCC No. 1 and FCC No. 2, respectively. MTS calls eligible for combination package rates and the additional rates for package subscribers are only those direct dialed calls placed over lines presubscribed to Carrier for interLATA calls and for direct dialed calls placed over lines presubscribed to Carrier, or resold, for intraLATA calls.

If Customer's bill for all GTE Card Services Monthly Recurring Charges and usage charges for the current month exceeds a specified amount (which varies with each package), Customer will be given a bonus discount on the current bill. Services eligible for the bonus discount include services provided under Carrier's tariffs Cal. P.U.C., FCC No. 1, FCC No. 2, CLC No. 2, and cellular, paging, voicemail, and Internet services, and equipment provided by or through GTE Card Services.

Excluded from eligibility for the bonus discount calculation are charges included on prior bills, NRCs, Internet Browser Software, late payment charges, surcharges and taxes, federal subscriber line charge, billing adjustments and credits, equipment, and pay-per call charges.

If Customer leaves a package plan, Flat Rate residential rates will apply.

DID Numbers, voice grade mileage charge fixed	25.00 per trunk
DID Numbers, voice grade mileage charge variable	2.17 per mile

Schedule 1

Exchange Services in Pacific Bell Territory

18. PRIVATE LINE SERVICE

This service is no longer available to new Customers.

18.1 Description - Private Line Service provides dedicated communications channels for voice, video and data services. The service provides point-to-point connections through non-switched, non-usage sensitive dedicated facilities for a specific Customer. The service offers two-way simultaneous transmission at Customer's selected bandwidth. Communications channels vary from voice grade through high speed for the various types of private lines. A minimum service period of 90 days is required on all private line circuits.

In addition to the various private line services, optional features including bridging, multiplexing, loop signaling, conditioning, and switch protection are available to meet Customer's specific needs. Bridging enables Customer to connect two or more Voice Grade Private Lines in a central office. Multiplexing enables Customer to combine multiple lower speed, Voice Grade Private Line Channels, into a single higher speed channel. Loop Signaling provides Customer the availability for different types of signaling (or tones) that may be required for each Customer's unique signaling requirements over a Voice Grade Private Line. Signaling types available include Loop Signaling, E&M Signaling, SF Signaling, and PCM Signaling. The type of signaling required by Customer is based upon vendor requirements for the particular type of CPE used by Customer.

18.1.1 Voice Grade Private Lines

Voice Grade Private Line Service provides dedicated, point-to-point service for voice transmission, as well as low-speed transmission for services such as alarm and telemetering applications. There are two versions: 2-wire and 4-wire offerings. Applications for voice grade private line services include tie lines and off-premise extensions.

18.1.2 Digital Data Service (DDS)

Digital Data Service provides low speed digital transmission over a dedicated private line. Typically, Customers use the service for transmitting lower speed data for point-to-point or multi-point transmission. Similar to Voice Grade Private Lines, DDS Customers may order various optional services including Bridging, Multiplexing, and Conditioning. Conditioning is often required by Customer for improving the quality of data transmission so that there are fewer errors that may slow down or affect the quality of transmission. DDS is offered at the following speeds - 2.4, 4.8, 9.6, 19.2, 56 and 64 Kbps. DDS is offered on a month-to-month basis only.

Schedule 1

Exchange Services in Pacific Bell Territory

18. PRIVATE LINE SERVICE (Continued)

18.1 Description (Continued)

18.1.3 DS-1 Service

DS-1s provide dedicated, non-switched point-to-point or multi-point high speed transmission at 1.544 Mbps. These services are typically used for high speed data and video transmission. In addition, T-1 Private Line Service can be used for voice transmission, in which circumstances it would be multiplexed. Similar to DDS, T-1 Customers often purchase optional features such as multiplexing. One optional service unique to T-1 Service is Switch Protection. Switch Protection provides the high speed user with circuit or facility re-routing capability in case Customer experiences circuit failure. This is often referred to as a "self-healing" trait necessary to ensure the operation of a data or video network. DS-1 Service is offered on a month-to-month basis only.

18.1.4 Fractional T-1 Service

Fractional T-1 Service provides a DS-1 special access interface for use in providing simultaneous two-way transmissions of isochronous bipolar serial data signals and is limited to groupings of Nx56 or Nx64 kbps where N is 2, 4, or 6. It is typically used for LAN interconnection, video conferencing, high-speed mainframe connection and computer imaging. Fractional T-1 Service is offered on a month-to-month basis only.

18.1.5 DS-3 Private Line

DS-3 Private Line provides high-speed data transmission at 44.736 Mbps through a point-to-point, non-switched, non-usage sensitive dedicated facilities for a specific customer. DS-3 Service can be provided through an electrical or an optical interface and with or without terminal equipment at Customer's premise. When the optic interface is selected, Customer must provide optical line termination at his premise, which must be compatible with Carrier's equipment. DS-3 Service is offered on a 1, 3, and 5-year plan.

DS-3 Service availability is dependent upon availability of appropriate digital facilities as determined by Verizon Select Services Inc. Service inquires will be necessary to determine availability interval.

Schedule 1

Exchange Services in Pacific Bell Territory

18. PRIVATE LINE SERVICE (Continued)

18.2 Rates

18.2.1 **General** - Private Line services have the following three general rate elements.

A. Local Loop - connection between Customer's premises and the serving central office. Charges apply on each end of a circuit.

B. Channel Termination - charges for termination of a circuit in multiple serving central offices. Both flat rated termination charges and mileage-sensitive transport charges apply.

C. Features - optional features providing additional functionality for specific Customer applications.

Material omitted from this page now appears on Page 47.52.1.

18.3 Discount Plans

DS-1 services offered to qualifying organizations are eligible for discounted rates, as specified below. Carrier reserves the right to require verification that the Customer qualifies under Decision No. 96-10-066 of the Commission prior to providing the discounts.

1. Qualifying schools and libraries receive a 50% discount off regular tariff rates for DS-1.

2. Qualifying municipal or county owned hospitals and health clinics receive a 20% discount off regular tariff rates for DS-1.

3. Qualifying community based organizations receive a 25% discount off regular tariff rates for one DS-1 circuit.

Schedule 1

Exchange Services in Pacific Bell Territory

RESERVED FOR FUTURE USE

Schedule 1

Exchange Services in Pacific Bell Territory

19. ISDN (INTEGRATED SERVICES DIGITAL NETWORK)

This service is no longer available to new Customers. (C)

19.1 Description - ISDN BRI is a central office based service, which consists of two 64 Kbps B-channels and one 16 Kbps D-channel terminated in a "U" interface at the Customer point of demarcation. ISDN BRI supports simultaneous transmission of voice and data services on the same exchange access line. Calling Number Delivery is included with this service.

B-channel circuit switched services offer up to 64 Kbps intraoffice transmission of voice or data on a per-call basis. Transmission on the B-channel will be circuit switched at 64 Kbps between ISDN compatible central offices connected with appropriate facilities. ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56 Kbps. Each ISDN BRI Service is comprised of a Basic Rate Interface Line and ISDN BRI Access. The B-channels can be arranged for circuit switched voice and/or data calls; the D-channel is arranged only for signaling. All directory numbers associated with a single ISDN BRI Service must presubscribe to the same Carrier. Access to other service providers will be via dial-around.

Transmission of packet data on either the D-channel or the B-channel is not available. The Customer may originate or receive circuit-switched voice calls from either inside or outside the serving central office of their local calling area. Where facilities are available, Customers will be able to originate and receive circuit-switched data calls outside their serving central office. When the Customer's serving central office is not equipped for ISDN, the Customer may be served with ISDN from another central office. The Customer must agree that the service will be moved back, with a probable number change, to their home serving office once it is equipped. When the Carrier elects to use this serving arrangement, extension charges do not apply. Should the Customer request to be served from an ISDN equipped office other than the home serving office, appropriate extension charges will apply.

Rates and charges for other optional features are in addition to those for ISDN BRI Service and are provided only where facilities and operating conditions permit, and are applicable to each telephone number associated with each B-channel. Service is offered subject to availability in the particular central office from which the Customer is served, and is limited to where facilities and appropriate technology exist. Circuit Switched Voice calls are subject to the appropriate message charges. Circuit Switched Data calls are transported over the Circuit Switched Data Digital Network and are subject to message charges. ISDN compatible customer-premises terminal equipment and electrical power are required for proper operation. It is the Customer's responsibility to provide necessary power and obtain such equipment.

Service is offered under a month-to-month term, or a one-year term. If the Customer terminates the service prior to end of minimum period, the Customer will be charged for the balance of the amount that is due for the remainder of the term.

Schedule 1

Exchange Services in Pacific Bell Territory

19. ISDN (INTEGRATED SERVICES DIGITAL NETWORK)

19.1 Description - ISDN BRI is a central office based service, which consists of two 64 Kbps □B□-channels and one 16 Kbps □D□- channel terminated in a □U□ interface at the customer point of demarcation. ISDN BRI supports simultaneous transmission of voice and data services on the same exchange access line. Calling Number Delivery is included with this service.

B□channel circuit switched services offer up to 64 Kbps intra-office transmission of voice or data on a per call basis. Transmission on the B-channel will be circuit switched at 64 Kbps between ISDN compatible central offices connected with appropriate facilities. ISDN interconnection to non-ISDN equipped central offices will be potentially subjected to analog transmission or sub-rated to 56 Kbps. Each ISDN BRI service is comprised of a Basic Rate Interface Line and ISDN BRI Access. The B-channels can be arranged for circuit switched voice and/or data calls; the D-channel is arranged only for signaling. All directory numbers associated with a single ISDN BRI service must presubscribe to the same Carrier. Access to other service providers will be via dial-around.

Transmission of packet data on either the D-channel or the B-channel is not available. Customer may originate or receive circuit-switched voice calls from either inside or outside the serving central office of their local calling area. Where facilities are available, customers will be able to originate and receive circuit-switched data calls outside their serving central office. When Customer's serving central office is not equipped for ISDN, Customer may be served with ISDN from another central office. Customer must agree that the service will be moved back, with a probable number change, to their home serving office once it is equipped. When Carrier elects to use this serving arrangement, extension charges do not apply. Should Customer request to be served from an ISDN equipped office other than the home serving office, appropriate extension charges will apply.

Rates and Charges for other optional features are in addition to those for ISDN BRI service and are provided only where facilities and operating conditions permit, and are applicable to each telephone number associated with each B-channel. Service is offered subject to availability in the particular central office from which Customer is served, and is limited to where facilities and appropriate technology exist. Circuit Switched Voice calls are subject to the appropriate message charges. Circuit Switched Data calls are transported over the Circuit Switched Data Digital Network and are subject to message charges. ISDN compatible customer premises terminal equipment and electrical power are required for proper operation. It is Customer's responsibility to provide necessary power and obtain such equipment.

Service is offered under a month to month term or a one year term. If Customer terminates the service prior to end of minimum period, Customer will be charged for the balance of the amount that is due for the remainder of the term.

Schedule 1

Exchange Services in Pacific Bell Territory

19. ISDN (INTEGRATED SERVICES DIGITAL NETWORK) (Continued)

19.1 Description (Continued)

19.1.1 Residential

ISDN BRI Service for residential Sustomers is subject to the rules and regulations governing Basic Exchange Access Line services and Measured Rate Service. Per minute use rates will apply for Zone 3 usage.

19.1.2 Business

ISDN BRI Service for business customers is subject to the rules and regulations governing Basic Exchange Access Line services and Measured Rate Service. Minutes of use rates will apply for Zone 1, Zone 2, and Zone 3 usage.

Schedule 1

Exchange Services in Pacific Bell Territory

19. ISDN (INTEGRATED SERVICES DIGITAL NETWORK) (Continued)

19.2 Rates

19.2.1 **General** - There are three basic rate elements. Unless stated otherwise, all ZUM, toll, and other charges are in addition to those stated below.

A. The underlying R-1, B-1, or Centrex line.

B. ISDN Access. This access line refers to the hardware and software for a basic ISDN feature set located in the central office.

C. ISDN features, including packages of features. Features available with ISDN are limited to those described in this section.

19.2.2 **Residential ISDN** - With the exception of the CORE package, residential ISDN Service may not be ordered as a Customer's primary line to a residence. All packages include additional telephone number, CNID, CNID Block (change in selection), and Loop Extension.

A. Package 1 - includes installation, basic flat rate exchange line, flat rate BRI, single device ISDN access, one or two B-channels, and D-channel signaling. This option no longer available to new Customers.

	Nonrecurring Charge	Monthly Recurring Charge
Package 1	$125.00	$31.25

B. CORE Package - includes installation, basic exchange line, flat rate BRI, multiple device ISDN access, two B-channels, D-channel signaling, 100 minutes of intrastate and/or interstate MTS usage, and additional telephone number. Rates for MTS usage in addition to the 100 minutes included in the package are found in the California P.U.C. Tariff, Section 1.14 and F.C.C. Tariff No. 1. This option no longer available to new Customers.

	Nonrecurring Charge	Monthly Recurring Charge
CORE Package	$125.00	$43.25

Schedule 1

Exchange Services in Pacific Bell Territory

19. ISDN (INTEGRATED SERVICES DIGITAL NETWORK) (Continued)

19.2 Rates (Continued)

19.2.3 Business ISDN - All packages below include additional telephone number, CNID, CNID Blocking (change in selection), and Loop Extension.

A. Package 1 - for business lines in a residence - includes installation, basic measured exchange line, flat rate BRI, single device ISDN access, one or two B-channels, and D-channel signaling. This option no longer available to new customers.

	Nonrecurring Charge	Monthly Recurring Charge
Package 1	$125.00	$30.32

B. Package 2 - includes installation, basic measured exchange line, flat rate BRI, single device ISDN access, one or two B-channels, D-channel signaling, and one additional telephone number. This option no longer available to new Customers.

	Nonrecurring Charge	Monthly Recurring Charge
Package 2	$125.00	$28.82

C. Package 3 - includes installation, Centrex exchange lines, flat rate BRI, single device ISDN access, one or two B-channels, D-channel signaling, time/date display, call review, group intercom, privacy, multiple call appearances, shared directory number, two logical channels with primary directory number, semi-restricted line, speed call short list, and hunting. Does NOT include loop extension. This option no longer available to new Customers.

	Nonrecurring Charge	Monthly Recurring Charge
Package 3	$220.00	$26.92

Schedule 1

Exchange Services in Pacific Bell Territory

19. ISDN (INTEGRATED SERVICES DIGITAL NETWORK) (Continued)

19.2 Rates (Continued)

19.2.4 Business ISDN Optional Features

A. Description

1. Packet PVC - permits packet switching over a dedicated logical channel without requiring call set-up or clearing; both ends of the permanent virtual circuit must be in the same central office.

2. Knowledge Network Line - for qualifying schools, provides unlimited ZUM usage for a flat monthly rate.

3. Centrex Feature Pack - includes automatic call, calling name display, directory query display, and query service features.

4. B or D-Packet Channel - provides X.25 data transmission capability. This capability is subject to network availability limits of underlying carrier, and is currently available only within a single central office.

5. Centrex Loop Extension - permits extension of loop range capability; flat monthly rate and mileage sensitive rate apply.

6. Electronic Directory - provides access to electronic directory features.

7. D-Packet Features - includes fast select, flow control parameter negotiate, throughput class negotiate, and incoming/outgoing calls barred.

	Nonrecurring Charge	Monthly Recurring Charge
Centrex Feature Package A	$100.00	$ 1.85/line
Centrex Feature Package B	120.00	10.35/line
Centrex Feature Package C	150.00	13.85/line
Centrex Feature Package D	150.00	9.35/line
Additional Call Appearance	5.00	2.00/appearance
Centrex D-Packet Device Ordered	50.00	3.50/device

Schedule 1

Exchange Services in Pacific Bell Territory

19. ISDN (INTEGRATED SERVICES DIGITAL NETWORK) (Continued)

19.3 ISDN-BRI Home/Office

19.3.1 Rate Structure

ISDN BRI consists of four basic rate elements:

ISDN BRI Basic Service
ISDN BRI Enhanced Features
Individual Line Measured Rate
Nonrecurring Charges (NRCs)

NRCs are in addition to any applicable service charge for moves, changes, and/or installation provided for in other sections of this Tariff.

19.3.2 ISDN BRI Definitions and Feature Descriptions

Additional Call Appearances - allows multiple call appearances for directory numbers per ISDN telephone set.

B-channel - A 64 kbps path used for Circuit Switched Voice (CSV) or Circuit Switched Data (CSD) from end-user to end-user.

Basic Rate Interface Line Capacity (2B+D) - Two 64 kilobits per second (kbps) B-channels and one 16 kbps D-channel.

Call Forwarding Busy Line - Automatically routes calls to a preselected directory number when the called line is busy.

Call Forwarding Don't Answer - Automatically routes calls to a preselected directory number when the called line does not answer within a preset ringing cycle.

Call Forwarding Variable - Allows the ISDN user the ability to forward all incoming calls to a user specified directory number. An access code is used to activate this feature.

Priority Ring - Provides a distinctive ring to the subscribing Customer for up to ten specific telephone numbers.

Conference - Allows the user to add a third party to an existing conversation and may be used with voice calls only.

Schedule 1

Exchange Services in Pacific Bell Territory

19. ISDN (INTEGRATED SERVICES DIGITAL NETWORK) (Continued)

19.3 ISDN-BRI Home/Office (Continued)

19.3.2 ISDN BRI Definitions and Feature Descriptions (Continued)

Conference - Allows the user to add a third party to an existing conversation and may be used with voice calls only.

D-channel - A 16 kbps path used for signaling purposes only.

Drop - Allows the user to disconnect the last party added to a conference call.

Hold - Allows the user to place a call on hold.

Multiline Hunting - Provides for a predefined search for an idle directory number to complete a call. Directory numbers subscribing to this service may not have multiple call appearances.

Primary Directory Number (PDN) - The single telephone number provided to each B-channel.

Repeat Dialing - When activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed. If the line is busy, a 30 minute queuing interval begins and if the line becomes idle during this time the user is alerted and the call placed.

Secondary Directory Number (SDN) - A telephone number purchased by the Customer which is in addition to the PDN for a B-channel.

Speed Calling - Allows the user to assign telephone numbers to a one or two-digit code for abbreviated dialing.

Schedule 1

Exchange Services in Pacific Bell Territory

19. ISDN (INTEGRATED SERVICES DIGITAL NETWORK) (Continued)

19.3 ISDN-BRI Home/Office (Continued)

19.3.2 ISDN BRI Definitions and Feature Descriptions (Continued)

Multibutton Key System (MBKS) Features - Feature function buttons on the MBKS set can be assigned to activate certain features. Indicator lights show the activation or deactivation status of the features. The number of function buttons is dependent on the MBKS set design.

- Analog Shared Directory Number - Allows analog lines that are served from the same central office switch as the ISDN BRI line to be assigned to a button of a MBKS set.

- Drop - Allows the MBKS set user to drop the last party added to a conference call.

- Hold - Allows the MBKS set user to place a call on hold by pressing the function button.

- Multiple Directory Number Buttons - Provide access to more than one directory number on the MBKS set.

- Additional Call Appearances - Allows multiple call appearances for directory numbers per MBKS set.

- Call Forwarding Variable - Allows the ISDN user the ability to forward all incoming calls to a user specified directory number.

- Call Forwarding Busy Line - Automatically routes calls to a preselected directory number when the called line is busy.

- Call Forwarding Don't Answer - Automatically routes calls to a preselected directory number when the called line does not answer within a preset ringing cycle.

- Conference - Allows the user to add a third party to an existing conversation and may be used with voice calls only.

- Transfer - Allows the user to transfer a voice call to another directory number if the user has a vacant call appearance or directory number.

19. ISDN (INTEGRATED SERVICES DIGITAL NETWORK) (Continued)

19.4 Discount Plans

ISDN services offered to qualifying organizations are eligible for discounted rates, as specified below. The Carrier reserves the right to require verification that the Customer qualifies under Decision No. 96-10-066 of the Commission prior to providing the discounts.

1. Qualifying schools and libraries receive a 50% discount off regular tariff rates for ISDN.

2. Qualifying municipal or county owned hospitals and health clinics receive a 20% discount off regular tariff rates for ISDN.

3. Qualifying community based organizations receive a 25% discount off regular tariff rates for a maximum of two ISDN lines.

Schedule 1

Exchange Services in Pacific Bell Territory

20. FRAME RELAY SERVICE

This service is no longer available to new Customers.

20.1 Frame Relay Service is a high-performance, cost effective data offering for connectivity of multiple local area networks (LANs) or Systems Network Architecture (SNA) locations. Frame Relay Service uses shared facilities and statistical multiplexing to transport data communications (packets). Frame Relay Service delivers bandwidth-on-demand internetworking connections, providing speeds up to 37 Mbps. It is ideal for intensive, bursty data transmission applications.

Dedicated access facilities provide access to the frame relay network through ports on a frame relay switch. Connectivity to the frame relay network is provided through Permanent Virtual Circuits (PVCs) which provide logical software connections for communications between ports on the network. Multiple PVCs can be defined on any given port providing a single access line the capability to transmit data to multiple destinations.

20.2 Rate Elements

There are three primary components to Frame Relay Service:

- Local Access Facility (dedicated)
- Port
- Data Link Connection Identifier (DLCI)

A. Access Facility - Customers may access the frame relay network at speeds ranging from 56/64 Kbps (DS0), 1.536 Mbps (DS-1), or 44.210 Mbps (DS-3) digital facilities.

B. Frame Relay Port - The frame relay port provides the physical connection between the local access facility and the frame relay network. The port also provides the logical termination of the PVCs assigned to the port. The port speed provides the maximum (burst) speed for which Customer is capable of sending or receiving information through an individual port. Customers select a speed for each frame relay port, ranging from 56/64 Kbps to 37 Mbps. The sum of the individual PVCs speed can not exceed the port speed. The port speed must be large enough to accommodate the cumulative egress of all PVCs connected to the port.

Schedule 1

Exchange Services in Pacific Bell Territory

20. FRAME RELAY SERVICE (Continued)

20.2 Rate Elements (Continued)

C. Data Link Connection Identifier (DLCI) and Committed Information Rate (CIR) - The DLCI is one of two address points required to establish a PVC. The PVC provides the logical dedicated communications path (circuit) between two ports. PVCs are predefined for each pair of end point devices so a virtual network path (circuit) is always available without call set-up delay. This results in faster access to the network, better response time for end user applications, and a high degree of network security.

A Committed Information Rate (CIR) is assigned to each PVC. The CIR defines the average minimum data transmission rate the network will allocate to the PVC under normal operating conditions. The data transmission rate for a PVC can exceed the CIR when excess capacity is available on the port and on the network. When excess capacity exists, an average data rate above the CIR may be achieved up to the port capacity. Data sent across a virtual connection in excess of the connection's CIR will be marked by the network as being discard eligible in the event of network congestion, and will be delivered only if the instantaneous demand for the output on the transmission channel is equal to or less than the capacity of the queue for that channel.

20.3 Features

IntraLata/Multi-LEC Service

This option permits Customers to connect separate Frame Relay network arrangements. IntraLata/Multi-LEC CIR-based PVC charges apply, in addition to the primary Frame Relay components, on each network arrangement. See Rates, Section 20.5.

20.4 Additional Terms and Conditions of Service

Frame Relay Service is provided where facilities and operating conditions permit and where technically feasible.

The Customer must give the Carrier 30 days prior written notice to terminate Frame Relay Service.

Schedule 1

Exchange Services in Pacific Bell Territory

20. FRAME RELAY SERVICE (Continued)

20.5 Rates and Charges

The Customer may purchase service as a combined local access and port element, plus the DLCI element from the Carrier. Alternatively, the Customer may purchase only the port and DLCI elements from the Carrier under this section, and purchase local access from the Carrier under the applicable Private Line section of this Tariff. The latter option applies when the Customer's serving wire center is not frame relay capable.

A. Port and Access

Charges include a Nonrecurring Charge (NRC) and a Monthly Recurring Charge (MRC), based on the type of access line utilized. Charges are per access facility, and include the local access, port and one DLCI.

1. NRCs

Speed	Month-to-Month NRC	One-Year NRC	Three-Year NRC	Five-Year NRC
56/64 Kbps	$1005.00	$1005.00	$1005.00	$1005.00
128 Kbps	1009.00	1009.00	1009.00	1009.00
384 Kbps	1009.00	1009.00	1009.00	1009.00
DS-1 (1.536 Mbps)	1009.00	1009.00	375.00	375.00

2. MRCs

Speed	Month-To-Month MRC	One-Year MRC	Three-Year MRC	Five-Year MRC
56/64 Kbps	$112.00	$112.00	$112.00	$112.00
128 Kbps	315.00	315.00	315.00	315.00
384 Kbps	565.00	565.00	565.00	565.00
DS-1 (1.536 Mbps)	675.00	665.00	655.00	645.00

Schedule 1

Exchange Services in Pacific Bell Territory

20. FRAME RELAY SERVICE (Continued)

20.5 Rates and Charges (Continued)

B. Port

Charges include a NRC and a MRC, based on the speed of the port connection (i.e., 56/64 Kbps to 37 Mbps). Charges apply per port for each Frame Relay access facility to the network supporting Frame Relay Service. Each port can accommodate multiple PVCs. A port added to the network after initial installation will be considered a new element and the nonrecurring and monthly charges will both apply. Port price includes one DLCI. NRCs and MRCs below apply to month-to-month, one-year, three-year, and five-year term plans.

Speed (Kbps)	NRC	MRC
56/64	$ 375.00	$ 75.00
128	375.00	150.00
384	375.00	400.00
DS-1 (1.536Mbps)	375.00	500.00
DS-3 (37Mbps)	1,500.00	4,800.00

C. DLCI (Data Link Connection Identifier)

Charges include a NRC and a MRC for each PVC, based on the number of PVCs selected. PVCs added to the network after initial installation will be considered new elements and the nonrecurring and monthly charges will apply.

PVC - Per DLCI	NRC	MRC
1	N/A	N/A
2 - 6	$50.00	$15.00
7 - 11	50.00	10.00
12+	50.00	5.00

D. Miscellaneous Charges

Subsequent Activity Charge - per port	$30.00
Expedite Charge - per port	75.00

E. IntraLata/Multi-LEC Service - Service is offered subject to availability from underlying carriers. These charges are in addition to the primary Frame Relay components, including all appropriate private line charges.

EXCHANGE SERVICES IN VERIZON TERRITORY

1. LOCAL MEASURED BUSINESS SERVICE

This service is no longer available to new Customers. (C)

1.1 Local Measured Business Service Description - applies to single lines. Two options are available: Basic and Standard Service.

1.2 Basic Service - Rates and Charges include the monthly recurring rate plus any local usage charges. This option is no longer available to new Customers.

1.2.1 Service Charges and Recurring Charges

	Nonrecurring Installation Charge	Monthly Recurring Charge
Basic Local Measured Business Service		
Service Charge First Line on Order		
Month-to-Month Contract	$49.57	N/A
One-Year Contract	30.00	N/A
Three-Year Contract	.00	N/A
Service Charge Each Additional Line		
Month-to-Month Contract	$27.49	N/A
One-Year Contract	15.00	N/A
Three-Year Contract	.00	N/A
Basic Local Measured Service		
Month to Month Contract	N/A	$19.22
One-Year Contract	N/A	18.65
Three-Year Contract	N/A	18.05

A. Term Commitments - Customer may elect a one or three-year term commitment, subject to early termination charges of 50% of the monthly recurring charges for the remainder of the term.

1.2.2 Local Usage - Zone Usage Measurement (ZUM) - Usage charges are based on the length of the call, the area called and the time of day. Calls are billed in one-minute increments. Zones are defined by Verizon in its schedule CAL P.U.C. No A-28 for Zones 1 and 2, and schedule Cal. P.U.C. No. H-1 for Zone 3.

A. ZUM Zones 1 and 2 - The local usage rate for calls made in Zones 1 and 2 applies to calls within the 0-12 mile range.

Schedule 2

10. BASIC FLAT RATE RESIDENTIAL SERVICE (Continued)

This service is no longer available to new Customers. (C)

10.3 Universal Lifeline Telephone Service

Applicable to eligible residential Customers for Universal Lifeline Telephone Service furnished pursuant to the Moore Universal Telephone Service Act. For rates, terms, and conditions see Schedule 1, Section 12.3 above.

11. SERVICE COMBINATION PACKAGES - RESIDENTIAL

This service is no longer available to new Customers. (C)

11.1 General Description - Provides various combinations of services to residential Customers for a flat Monthly Recurring Charge (MRC). The flat monthly charge does not include the following:

Charges on previous bills
Bill adjustments or credits
Nonrecurring Charges
Late payment charges
Customer premises equipment charges
Local usage charges for Zone 3 calls
Surcharges and taxes
Services provided by other Carriers
Operator surcharges
Federal subscriber line charge
Extended Area Service

Intrastate MTS rates charged in addition to the flat monthly charge can be found in Carrier's Tariff Cal. P.U.C. Interstate and international rates charged in addition to the flat monthly charge can be found in Carrier's Tariff FCC No. 1 and FCC No. 2, respectively. MTS calls eligible for combination package rates and the additional rates for package subscribers are only those direct dialed calls placed over lines presubscribed to Carrier for interLATA calls and for direct dialed calls places over lines presubscribed to Carrier, or resold, for intraLATA calls. (T) | (T) (T) (T)

If Customer's bill for all Carrier's Monthly Recurring Charges and usage charges for the current month exceeds a specified amount (which varies with each package), Customer will be given a bonus discount on the current bill. Services eligible for the bonus discount include services provided under Carrier's tariffs Cal. P.U.C., FCC No. 1, FCC No. 2, CLC No. 2, and cellular, paging, voicemail, and Internet services, and equipment provided by or through Carrier. If Customer discontinues a package plan, Basic residential rates will apply. (T)

Excluded from eligibility for the bonus discount calculation are charges included on prior bills, NRCs, Internet Browser Software, late payment charges, surcharges and taxes, Federal Subscriber Line charge, billing adjustments and credits, equipment, and pay-per-call charges.

If Customer leaves a package plan, Flat Rate residential rates will apply.

Schedule 2

10. BASIC FLAT RATE RESIDENTIAL SERVICE (Continued)

10.3 Universal Lifeline Telephone Service
Applicable to eligible residential customers for Universal Lifeline Telephone Service furnished pursuant to the Moore Universal Telephone Service Act. For rates, terms, and conditions, see Schedule 1, Section 12.3 above.

11. SERVICE COMBINATION PACKAGES - RESIDENTIAL

11.1 General Description - Provides various combinations of services to residential customers for a flat monthly recurring charge (MRC). The flat monthly charge does not include the following.

Charges on previous bills
Bill adjustments or credits
Non-Recurring Charges
Late Payment Charges
Customer Premises Equipment Charges
Local Usage Charges for Zone 3 calls
Surcharges and Taxes
Services provided by other Carriers
Operator surcharges
Federal Subscriber Line Charge
Extended Area Service

Intrastate MTS rates charged in addition to the flat monthly charge can be found in GTE Card Services Tariff Cal. P.U.C. Interstate and international rates charged in addition to the flat monthly charge can be found in GTE Card Services Tariff FCC No. 1 and FCC No. 2, respectively. MTS calls eligible for combination package rates and the additional rates for package subscribers are only those direct dialed calls placed over lines presubscribed to GTE Card Services for interLATA calls and for direct dialed calls places over lines presubscribed to GTE Card Services, or resold, for intraLATA calls.

If Customer's bill for all GTE Card Services Monthly Recurring Charges and usage charges for the current month exceeds a specified amount (which varies with each package), Customer will be given a bonus discount on the current bill. Services eligible for the bonus discount include services provided under Carrier's tariffs Cal. P.U.C., FCC No. 1, FCC No. 2, CLC No. 2, and cellular, paging, voicemail, and Internet services, and equipment provided by or through Carrier. If Customer discontinues a package plan, Basic residential rates will apply.

Excluded from eligibility for the bonus discount calculation are charges included on prior bills, NRCs, Internet Browser Software, late payment charges, surcharges and taxes, federal subscriber line charge, billing adjustments and credits, equipment, and pay-per call charges.

If Customer leaves a package plan, Flat Rate residential rates will apply.

13.3 Centrex Packages

13.3.1 Description - Provides a combination of services to business customers for a flat MRC when Customer subscribes to a one-year term. The Centrex Package offering is limited to business Customers who subscribe to a two to nine line offering. The MRC does not include:

Local calling usage
Charges on previous bills
Bill adjustments or credits
Late payment charges
Surcharges and taxes
Services provided by other carriers
Federal Subscriber Line Charge
Nonrecurring charges

Centrex Package includes the following:

2 Measured Centrex Primary Analog Station Lines
2 Centrex Feature 1000 Packages
600 minutes of intrastate, and/or interstate MTS usage from same business location. The 600 minutes does not apply to local usage.

Interstate MTS rates charged in addition to the flat monthly charge can be found in Carrier's Tariff Cal. P.U.C. Interstate and international rates charged in addition to the flat monthly charge can be found in Carrier's Tariff F.C.C. No. 1 and Tariff F.C.C. Tariff No. 2, respectively. MTS calls eligible for combination package rates and the additional rates for package subscribers are only those direct dialed calls placed over lines presubscribed to Carrier for interLATA calls and for direct dialed calls placed over lines presubscribed to Carrier, or resold, for interLATA calls.

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY (T)

17. PRIVATE LINE SERVICE

This service is no longer available to new Customers.

17.1 Description - Private line service provides dedicated communications channels for data services. The service provides point-to-point connections through non-switched, non-usage sensitive dedicated facilities for a specific Customer. Communications speeds vary from 2.4 Kbps through 1.544 Mbps for the various types of private lines. A minimum service period of 90 days is required on all private line circuits.

A. Digital Data Service (DDS) - Digital Data Service provides low speed digital transmission over a dedicated private line. Typically, Customers use the service for transmitting lower speed data from point-to-point or multi-point transmission. DDS is provided on a two-point or multi-point, four-wire basis for 2.4, 4.8, 9.6, 19.2 and 56 Kbps transmission of synchronous serial data. A multi-point circuit or bridged circuit is a communications line to which three or more Customer locations are connected. DDS service is available on a month-to-month basis only.

B. DS1 Private Lines - DS-1 Service provides for the two-way transmission of 1.544 Mbps digital signals on a point-to-point basis only. These services are typically used for high speed data transmission. Clear Channel Capability (B8ZS - Bipolar with eight zero substitution) is offered as an option. This option allows the DS-1 user to obtain greater throughput and functionality from their facilities. DS-1 Service is available on a month-to-month basis or one, three or five-year contract plans.

C. Fractional T-1 Service - Fractional T-1 Service provides a DS-1 special access interface for use in providing simultaneous two-way transmission of isochronous bipolar serial data signals and is limited to grouping of Nx56 or Nx64 Kbps where N is 2, 4, or 6. It is typically used for LAN interconnection, video conferencing, high-speed mainframe connection and computer imaging. Fractional T-1 Service is offered on a month-to-month basis or one, three or five-year contract plans.

D. Voice Grade Service - These facilities are unconditioned and are capable of transmitting voice or data signals. They are furnished on a two-point or multi-point basis and will be two-wire or four-wire at the point of termination. They permit the simultaneous transmission of information in both directions over a circuit. To insure independent information transmission in both directions, the four-wire facility will be required. Supplemental features may be added to enhance the operational capabilities of these facilities.

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY (T)

17. PRIVATE LINE SERVICE (Continued)

17.1 Description (Continued)

E. DS-3 Service - This service availability within the LATA is dependent on the availability of appropriate digital facilities as determined by GTECC and will be priced on an Individual Case Basis (ICB). Service inquiries will be necessary to determine availability interval.

17.2 Rates

17.3 Discount Plans

T-1 Services offered to qualifying organizations are eligible for discounted rates, as specified below. Carrier reserves the right to require verification that the Customer qualifies under Decision No. 96-10-066 of the Commission prior to providing the discounts.

1. Qualifying schools and libraries receive a 50% discount off regular tariff rates for T-1.

2. Qualifying municipal or county owned hospitals and health clinics receive a 20% discount off regular tariff rates for T-1.

3. Qualifying community based organizations receive a 25% discount off regular tariff rates for one T-1 circuit.

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY

18. ISDN (INTEGRATED SERVICES DIGITAL NETWORK)

This service is no longer available to new Customers. (C)

18.1 Description - See Description in Schedule 1, Section 19.1

18.2 Rates

18.2.1 General - There are three basic rate elements. Unless stated otherwise, all ZUM, toll, and other charges are in addition to those stated below.

A. The underlying R-1, B-1, or Centrex line.

B. ISDN Access - this access line refers to the hardware and software for a basic ISDN feature set located in the central office.

C. ISDN features, including packages of features. Features available with ISDN are limited to those described in this section.

18.2.2 Residential ISDN - With the exception of the CORE package, residential ISDN Service may not be ordered as a Customer's primary line to a residence. All packages below include CNID, CNID Blocking (change in selection), and Loop Extension.

A. Package 1 - includes installation, basic flat rate exchange line, flat rate BRI, single device ISDN access, one B channel, and D channel signaling.

This option no longer available to new Customers.

	Nonrecurring Charge	Monthly Recurring Charge
Package 1	$150.90	$37.04

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY (T)

18. ISDN (INTEGRATED SERVICES DIGITAL NETWORK) (Continued)

18.3 ISDN-BRI Home/Office

18.3.1 Rate Structure

ISDN BRI consists of four (4) basic rate elements:

ISDN BRI Access
ISDN BRI Enhanced Features
Basic Rate Interface Line
Nonrecurring Charges (NRC's)

NRCs are in addition to any applicable service charge for moves, changes, and/or installation provided for in other sections of this Tariff.

18.3.2 ISDN-BRI Definitions and Feature Descriptions

Additional Call Appearances - allows multiple call appearances for directory numbers per ISDN telephone set.

B-Channel - A 64 kbps path used for Circuit Switched Voice (CSV) or Circuit Switched Data (CSD) from end-user to end-user.

Basic Rate Interface Line Capacity (2B+D) - Two 64 Kilobits Per Second (Kbps) B-Channels and one 16 Kbps D-channel.

Call Forwarding Busy Line - Automatically routes calls to a pre-selected directory number when the called line is busy.

Call Forwarding Don't Answer - Automatically routes calls to a pre-selected directory number when the called line does not answer within a preset ringing cycle.

Call Forwarding Variable - Allows the ISDN user the ability to forward all incoming calls to a user specified directory number. An access code is used to activate this feature.

Priority Ring - Provides a distinctive ring to the subscribing customer for up to ten specific telephone numbers.

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY (T)

18. ISDN (INTEGRATED SERVICES DIGITAL NETWORK) (Continued)

18.3 ISDN-BRI Home/Office (Continued)

18.3.2 ISDN-BRI Definitions and Feature Descriptions (Continued)

Conference - Allows the user to add a third party to an existing conversation and may be used with voice calls only.

D-Channel - A 16 Kbps path used for signaling purposes only.

Drop - Allows the user to disconnect the last party added to a conference call.

Hold - Allows the user to place a call on hold.

Multi-line Hunting - Provides for a predefined search for an idle directory number to complete a call. Directory numbers subscribing to this service may not have multiple Call Appearances.

Primary Directory Number (PDN) - The single telephone number provided to each B-Channel.

Repeat Dialing - When activated, automatically redials the last number the Customer attempted to call. If the called line is not busy, the call will be placed. If the line is busy, a 30-minute queuing interval begins and if the line becomes idle during this time the user is alerted and the call placed.

Secondary Directory Number (SDN) - A telephone number purchased by the Customer which is in addition to the PDN for a B-Channel.

Speed Calling - Allows the user to assign telephone numbers to a one or two-digit code for abbreviated dialing.

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY (T)

18. ISDN (INTEGRATED SERVICES DIGITAL NETWORK) (Continued)

18.3 ISDN-BRI Home/Office (Continued)

18.3.2 ISDN-BRI Definitions and Feature Descriptions (Continued)

Multi-Button Key System (MBKS) Features - Feature function buttons on the MBKS set can be assigned to activate certain features. Indicator lights show the activation or deactivation status of the features. The number of function buttons is dependent on the MBKS set design.

Analog Shared Directory Number - Allows analog lines that are served from the same central office switch as the ISDN BRI line to be assigned to a button of a MBKS set.

Drop - Allows the MBKS set user to drop the last party added to a conference call.

Hold - Allows the MBKS set user to place a call on hold by pressing the function button.

Multiple Directory Number Buttons - Provide access to more than one directory number on the MBKS set.

Additional Call Appearances - Allows multiple call appearances for directory numbers per MBKS set.

Call Forwarding Variable - Allows the ISDN user the ability to forward all incoming calls to a user specified directory number.

Call Forwarding Busy Line - Automatically routes calls to a pre-selected directory number when the called line is busy.

Call Forwarding Don't Answer - Automatically routes calls to a pre-selected directory number when the called line does not answer within a preset ringing cycle.

Conference - Allows the user to add a third party to an existing conversation and may be used with voice calls only.

Transfer - Allows the user to transfer a voice call to another directory number if the user has a vacant call appearance or directory number.

18. ISDN (INTEGRATED SERVICES DIGITAL NETWORK) (Continued)

18.4 Discount Plans

ISDN services offered to qualifying organizations are eligible for discounted rates, as specified below. Carrier reserves the right to require verification that the Customer qualifies under Decision No. 96-10-066 of the Commission prior to providing the discounts.

1. Qualifying schools and libraries receive a 50% discount off regular tariff rates for ISDN.

2. Qualifying municipal or county owned hospitals and health clinics receive a 20% discount off regular tariff rates for ISDN.

3. Qualifying community based organizations receive a 25% discount off regular tariff rates for a maximum of 2 ISDN lines.

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY (T)

18. FRAME RELAY SERVICE

This service is no longer available to new Customers.

For description of service, see Schedule 1, Section 20.
DS-3 Service can be offered on an Individual Case Basis (ICB) only.

19.1 Rates and Charges

Customer may purchase service as a combined local access and port element, plus the DLCI element from Carrier. Alternatively, Customer may purchase only the port and DLCI elements from Carrier under this section, or purchase local access from Carrier under the applicable private line section of this Tariff. The latter applies when Customer's serving wire center is not Frame Relay capable.

A. Port and Access

Charges include a Nonrecurring Charge (NRC) and a Monthly Recurring Charge (MRC), based on the type of access line utilized. Charges are per-access facility, and include the local access, port, and one (1) DLCI.

1. NRCs - Applies to all plans

Speed	NRC
56/64 Kbps	$856.00
128 Kbps	306.00
256 Kbps	306.00
384 Kbps	306.00
DS-1 (1.536Mbps)	306.00

2. MRCs

Speed	Month-to-Month	1-Yr. Term	3-Yr. Term	5-Yr. Term
56/64 Kbps	$122.00	$117.00	$112.00	$107.00
128 Kbps	180.00	175.00	160.00	148.00
256 Kbps	225.00	220.00	204.00	188.00
384 Kbps	264.00	259.00	242.00	225.00
DS-1 (1.534Mbps)	510.00	505.00	473.00	441.00

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY (T)

19. FRAME RELAY SERVICE (Continued)

19.1 Rates and Charges (Continued)

B. Port

Charges include a Nonrecurring Charge (NRC) and a Monthly Recurring Charge (MRC), based on the speed of the port connection (i.e., 56/64 Kbps to 1.536 Mbps) for areas not deemed Frame Relay capable. Charges apply per port. Each port can accommodate multiple PVCs. A port added to the network after initial installation will be considered a new element and the nonrecurring and monthly charges will both apply. Port price includes one DLCI.

1. NRCs

Speed	NRC
56/64 Kbps	$125.00
128 Kbps	225.00
256 Kbps	225.00
384 Kbps	225.00
DS-1 (1.536Mbps)	225.00

2. MRCs

Speed	Month-To-Month	1-Yr. Term	3-Yr. Term	5Yr. Term
56/64 Kbps	$70.00	$65.00	$60.00	$55.00
128 Kbps	80.00	70.00	70.00	68.00
256 Kbps	115.00	110.00	105.00	100.00
384 Kbps	145.00	140.00	135.00	30.00
DS-1 (1.534Mbps)	240.00	235.00	230.00	225.00

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY (T)

19. FRAME RELAY SERVICE (Continued)

19.1 Rates and Charges (Continued)

C. DLCI (Data Link Connection Identifier)

Charges include an NRC and an MRC for each PVC, based on the number of PVCs selected. PVCs added to the network after initial installation will be considered new elements and the nonrecurring and monthly charges will apply.

CIR/PVC - per DLCI	NRC	MRC
1	N/A	N/A
2-10	$10.00	$8.00
11-20	10.00	7.00
21+	10.00	6.00

D. Miscellaneous Charges

	NRC
Order Charge - per access order	$81.00
Subsequent Activity Charge - per DLCI	10.00
Design Change Charge	18.00
Expedite Charge	75.00

E. IntraLata/Multi-LEC Service - Service is offered subject to availability from underlying carriers. These charges are in addition to the primary Frame Relay components, including all appropriate private line charges. See Schedule 1, Section 20.5 for rates.

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY

20. INSIDE WIRE MAINTENANCE

This service is no longer available to new Customers. (C)

20.1 Definitions

A. Industry Standard Wire/Cable. Wiring which conforms to industry standards and is installed in accordance with National Electrical Code and any other applicable standards or guidelines.

B. Inside Wire Cable. Includes all non-system premise telephone wiring, including the associated jacks, on Customer's side of the current demarcation point, whether owned and installed by Customer or premises owner, or their agent. Inside Wire Cable does not include Customer premises equipment.

C. Demarcation Points

1. The Local Loop Demarcation Point (LLDP) - Separates the responsibility of Carrier from the responsibility of Customer by:

   a. Designating the end of the network facility, thus the end of the local loop,

   b. Defining the beginning of the inside wire provided by either Customer or premise owner.

2. The Inside Wire Demarcation Point (IWDP) - Separates the responsibility of the inside wire provider from the responsibility of the CPE vendor by:

   a. Designating the end of the inside wire,

   b. Defining the beginning of the CPE facility.

20.2 Inside Wire Maintenance Plan (IWMP)

An IWMP is available as an optional service to residential Customers subscribing to service combination packages. Arranging for installation, maintenance and repair of inside wire and cable including jacks is the responsibility of Customer. Customer may choose a source for maintenance and repair other than Carrier. Customers must subscribe on a per-line basis for all of their lines. There is a 30-day waiting period after initial subscription before repair services can be performed.

An IWMP agreement does not imply resolution of a problem within any specific time period. This service does not include removal, installation, or re-installation of inside wire nor does it include installation of additional wire or jacks.

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY (T)

20. INSIDE WIRE MAINTENANCE

20.1 Definitions

A. Industry Standard Wire/Cable. Wiring which conforms to industry standards and is installed in accordance with National Electrical Code and any other applicable standards or guidelines.

B. Inside Wire Cable. Includes all non-system premise telephone wiring, including the associated jacks, on Customer's side of the current demarcation point, whether owned and installed by Customer or premises owner, or their agent. Inside Wire Cable does not include Customer premises equipment.

C. Demarcation Points.

1. The Local Loop Demarcation Point (LLDP) - Separates the responsibility of Carrier from the responsibility of Customer by:

   a. designating the end of the network facility, thus the end of the local loop

   b. defining the beginning of the inside wire provided by either Customer or premise owner

2. The Inside Wire Demarcation Point (IWDP) - Separates the responsibility of the inside wire provider from the responsibility of the CPE vendor by:

   a. designating the end of the inside wire

   b. defining the beginning of the CPE facility

20.2 Inside Wire Maintenance Plan (IWMP)

An IWMP is available as an optional service to residential Customers subscribing to service combination packages. Arranging for installation, maintenance and repair of inside wire and cable including jacks is the responsibility of Customer. Customer may choose a source for maintenance and repair other than Carrier. Customers must subscribe on a per-line basis for all of their lines. There is a 30-day waiting period after initial subscription before repair services can be performed.

An IWMP agreement does not imply resolution of a problem within any specific time period. This service does not include removal, installation, or re-installation of inside wire nor does it include installation of additional wire or jacks.

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY (T)

20. INSIDE WIRE MAINTENANCE (Continued)

20.3 Additional Terms and Conditions of Service

A. This IWMP includes the following:

1. Determining the source of trouble.

2. Repair or replacement of defective, damaged, or improperly operating standard inside wire or standard jacks.

B. This IWMP excludes the following:

1. Repairs of jacks and wiring for marine (floating boat slips, piers, or docks), recreational vehicle (RV), construction trailer, mobile homes, or other temporary or moveable structures.

2. Repair of damage caused by catastrophic loss (fire, flood, or other acts of nature) or the willful neglect of Customer.

3. Repair or replacement of non-industry-standard wire and jacks.

4. Repair of damage due to malicious activity.

5. Repair of complex inside wiring or jacks associated with complex inside wiring, WATS, or data services.

6. Repair of customer-provided equipment.

7. Repair of non-analog inside wire.

8. Repair of inside wire and jacks for ADSL Service.

9. Repair of wiring to improve data transmission speed.

10. Repair of wiring or jacks that are not connected to the telephone system at the premises, such as re-association of disconnected jacks or stranded wiring.

Schedule 2

EXCHANGE SERVICES IN VERIZON TERRITORY (T)

20. INSIDE WIRE MAINTENANCE (Continued)

20.3 Additional Terms and Conditions of Service (Continued)

C. Access to the Network

1. Responsibility for the protector (and its associated grounding) on the network side of the local loop demarcation point rests with Carrier. Customer is responsible for consequences resulting from erroneous wiring or cabling procedures conducted under his or her direction on the inside wire.

2. Connection of wiring and terminal equipment to the telephone network may be made through a jack conforming to industry standards.

20.4 Rates and Charges

Inside Wire Maintenance Plan (IWMP)

	NRC	Monthly Rate
Residential Service, per line	$.00	$1.95

SPECIAL PROMOTIONS

1. Carrier may provide special promotional offerings to its Customers. These offerings may be limited to certain dates, times and locations. The following specific rates, terms and conditions are applicable to each promotional offering. Promotions will be included in the Tariff by advice letter.

2. Carrier may, from time to time, waive or vary the rates and charges associated with its service for promotional, market research or other similar business purposes. In no case, shall the varying rates and charges exceed the rates and charges listed in the Tariff for the same services.

3. Customers subscribing to basic service under a 1-year term for intraLATA toll will receive an additional 10% off their 1st six months' usage. Subscribers of a 3-year term for intraLATA toll will receive an additional 10% off their 1st twelve months' usage. Early termination charges apply.

TAXES AND SURCHARGES

1. Service may be subject to state and/or local taxes at the prevailing rates if service originates and terminates in the State of California. Taxes are not included in the rates and charges listed herein.

2. Customer is responsible for payment of any sales, use, gross receipts, excess, access or other local, state and federal taxes, charges or surcharges (however designated, excluding taxes on Carrier's net income) imposed on or based upon the provision, sale or use of services. Taxes and surcharges include but are not limited to the following.

CPUC Reimbursement Fee	.11%
Universal Lifeline Telephone Service (ULTS)	1.2%
CA High Cost Fund A (CHCF)	.21%
CA High Cost Fund B (CHCF-B)	2.20%
California Relay Service & Communications Devices Fund	.30%
California Teleconnect Fund Surcharge	.16% (I)

RULES (Continued)

RULE 3 APPLICATION FOR SERVICE

3.1 Applications for service covered by the filed schedule of rates will be accepted by the Carrier or its agents. An applicant for service agrees to pay all charges against such service made in accordance with the provisions of the Tariffs.

3.2 The applicant may be asked to provide the following information:

- Service desired.
- Whether facilities are in place on premises where service is desired.
- Whether applicant is the owner, agent or tenant of the premises.
- Date applicant will be ready for service.
- Address to which bills are to be mailed or delivered.
- Date of application.
- Such other information as the Carrier may reasonably require.

3.3 The Carrier will accept an oral or written application from a Customer for new service, additions to or changes in the existing service, or for discontinuance of service of such Customer.

3.4 An application is merely a request for service and does not in itself bind the Carrier to provide service except under reasonable conditions, nor does it bind the applicant to take service.

3.5 Carrier will charge for a line change and transfer of service. A line change applies when a Customer requests to change the class of service, such as residential to business, to change the party responsible for payment, or to change the telephone number. A line change does not apply if the above changes are the result of harassing phone calls. A transfer of service applies when a Customer migrates to Carrier without selecting a bundle service package. For example, the Customer selects local service only, not Package A through F, and is not subscribed to Carrier's long distance service.

RULES (Continued)

RULE 4 CONTRACTS OR AGREEMENTS

4.1 Carrier will offer Contract Service Arrangements to meet the diverse communications needs of Carrier's customers. All terms and conditions as specified in this Tariff will apply unless otherwise specified in the contract between Carrier and Customer.

4.2 None in effect.

RULE 5 SPECIAL INFORMATION REQUIRED ON FORMS

5.1 Carrier's bills include the following information.

This bill is now due and payable; it becomes subject to a late payment charge if not paid within 20 calendar days of presentation date. Should you question this bill, please request an explanation from GTE Card Services.

If you believe you have been billed incorrectly you may file a complaint with the California Public Utilities Commission, Consumer Affairs Branch, 505 Van Ness Avenue, San Francisco, CA 94102, or 107 South Broadway, Room 5109, Los Angeles, CA 90012. To avoid having service disconnected, payment of the disputed bill should be made "under protest" to the CPUC or payment arrangements should be made agreeable to GTE Card Services pending the outcome of the Commission's Consumer Affairs Branch review. The Consumer Affairs Branch shall review the basis of the billed amount, communicate the results of its review to the parties and inform you of your recourse to pursue the matter further with the Commission.

RULE 6 ESTABLISHMENT OR REESTABLISHMENT OF CREDIT

6.1 The carrier reserves the right to examine the credit record and check the references of all applicants and Customers.

RULES (Continued)

RULE 16 Limitations on Liabilities

16.1 Carrier shall not be liable for any failure of performance due to causes beyond its control, including, without limitation to, acts of God, fires, floods or other catastrophes, national emergencies, insurrections, riots or wars, strikes, lockouts, work stoppage or other labor difficulties, and any order, regulation or other action of any governing authority or agency thereof.

16.2 The provisions of this rule do not apply to errors and omissions caused by willful misconduct, fraudulent conduct or violations of law.

16.3 In the event an error or omission is caused by the gross negligence of the Carrier, the liability of the Carrier shall be limited to and in no event exceed the sum of $10,000.

16.4 The Carrier will not provide a credit allowance for interruptions of service caused by the Customer's facilities, equipment, or systems.

16.5 Except as provided in 16.4 of this rule, the liability of the Carrier for damages arising out of mistakes, omissions, interruptions, delays, error or defects in any of the services or facilities furnished by the Carrier up to and including its local loop demarcation point, including exchange, toll, private line, supplemental equipment, alphabetical directory listings (excluding the use of bold face type) and all other services, shall in no event exceed an amount equal to the pro rata charges to the Customer for the period during which the services or facilities are affected by the mistake, omission, interruption, delay, error or defect, provided, however, that where any mistake, omission, interruption, delay, error or defect in any one service or facility affects or diminishes the value of any other service said liability shall include such diminution, but in no event shall the liability exceed the total amount of the charges to the Customer for all services or facilities for the period affected by the mistake, omission, interruption, delay, error or defect.

16.6 Subject to 16.4 of this rule, the Carrier shall allow for errors or omissions in alphabetical telephone directories (excluding the use of bold face type) an amount within the following limits:

16.6.1 For listings in alphabetical telephone directories furnished without additional charge, an amount not in excess of the minimum monthly charge to the Customer for exchange service during the effective life of the directory in which the error or omission occurred.

16.6.2 For listing and lines of information in alphabetical telephone directories furnished at additional charge set forth in Carrier's Schedules, an amount not in excess of the charge for that listing or line of information during the effective life of the directory in which the error or omission occurred.

16.6.3 For listings in information records furnished without additional charge, an amount not in excess of the minimum monthly charge to the Customer for exchange service during the effective life of the directory in which the error or omission occurred.

RULES (Continued)

RULE 16 LIMITATIONS ON LIABILITIES (Continued)

16.6 (Continued)

16.6.4 For listings in information furnished at additional charge, an amount not in excess of the charge for the listing during the period the error or omission occurred.

16.6.5 For listings in telephone directories furnished in connection with mobile telephone service, an amount not in excess of the guarantee and fixed charges for the service during the effective life of the directory in which the error or omission occurred.

16.7 Errors in Transmitting, Receiving or Delivering Oral Message by Telephone

The Carrier shall not be liable for errors in transmitting, receiving or delivering oral messages by telephone over the lines of the Carrier and connecting utilities.

16.8 Loss Arising From Non-Delivery of Written Messages

The Carrier shall be liable for loss or damage that may occur in the course of the employment of any messenger not to exceed twenty times the charge for such messenger service, and shall be liable for loss or damage that my occur in the transmission of any message over its lines not to exceed the amount received for sending same.

16.9 Errors in Information Furnished by Directory Assistance Operators

Subject to provisions of 16.4 of this rule, the Carrier shall allow a credit for errors in telephone numbers or other information furnished by the underlying carrier's Directory Assistance Operators in accordance with the underlying carrier's tariff (Pacific Bell Schedule Cal. P.U.C. No. A5.7.4) an amount not in excess of the charge for a call to Directory Assistance, dialed direct or placed through another carrier operator (i.e. "0" Operator) as appropriate to the call on which the error occurred. For direct dialed calls, the credit will only apply if the Customer has exceeded their allowance and incurred a charge.

RULE 17 UNDERTAKING OF THE CARRIER

17.1 Service is furnished for telecommunications originating and terminating within the state of California under the terms and conditions of this Tariff.

17.2 Carrier shall operate and maintain Service provided hereunder in accordance with the terms and conditions set forth in this Tariff.

17.3 Carrier neither owns nor operates telecommunications facilities within the state of California, but rather resells telecommunications services provided by other carriers. Notwithstanding the foregoing, Customer shall be considered a Customer of Carrier, and not a Customer of any other carrier.

17.4 Service is available twenty-four (24) hours per day, seven (7) days per week.

RULES (Continued)

(D)

RULE 26 MILEAGE CALCULATION

26.1 Mileage between Carrier's POPs where services are offered is calculated based on V and H (V&H) coordinates as obtained by reference to NECA Tariff F.C.C. No. 4. Not all services are available from all POPs.

26.2 The airline mileage between Carrier network terminal offices is calculated as follows.

A. Obtain the V and H coordinates for each POP.

B. Obtain the difference between the V coordinates and between the H coordinates for each POP.

C. Square each difference from B, above.

D. Add the square of the V difference to the square of the H difference from C, above.

E. Divide the sum of the squared numbers by 10. Round to the next higher whole number.

F. Obtain the square root of the number obtained in E, above. Round to the next higher whole number. This is the airline mileage figure.

RULES (Continued)

RULE 25 MARKET TRIALS AND TECHNOLOGY TESTS

From time to time, Carrier may conduct market trials and/or technology tests, which may be combined where appropriate, pursuant to the guidelines adopted by the Commission in Resolution No. T-14944, dated June 17, 1992, to the extent applicable to carriers which are competitive local exchange carriers.

Customers selected by Carrier to participate in market trials and/or technology tests under the conditions and obligations of designated trials and/or tests may receive a discount, in the form of a credit on Customer's bill, for services provided by Carrier.

RULE 26 MILEAGE CALCULATION

26.1 Mileage between Carrier's POPs where services are offered is calculated based on V and H (V&H) coordinates as obtained by reference to NECA Tariff F.C.C. No. 4. Not all services are available from all POPs.

26.2 The airline mileage between Carrier network terminal offices is calculated as follows.

A. Obtain the V and H coordinates for each POP.

B. Obtain the difference between the V coordinates and between the H coordinates for each POP.

C. Square each difference from B, above.

D. Add the square of the V difference to the square of the H difference from C, above.

E. Divide the sum of the squared numbers by 10. Round to the next higher whole number.

F. Obtain the square root of the number obtained in E, above. Round to the next higher whole number. This is the airline mileage figure.

RULES (Continued)

RULE 26 MILEAGE CALCULATION (Continued)

26.2 (Continued)

G. Example:

	V	H
Abbeville, AL	7752	1993
Abernathy, TX	8546	4978

The difference between the V coordinates is 794.
The difference between the H coordinates is 2985.

Squaring each difference yields:
794 X 794 = 630,436
2985 X 2985 = 8,910,225

Adding the results equals 9,540,661.

Dividing by 10 equals 954,066.

The square root of 954,066 is 977, which is the mileage figure.

RULE 27 TERMINATION LIABILITY FOR PRIVATE LINE (C)

In the event of early termination of a contract plan, and unless otherwise stated, Customer must pay a lump sum of 50 percent (50%) the monthly discounted charges of the remaining unexpired term of the agreement. Customer will not be liable for termination charges for a specified service if new service of the same type, and of equal or greater charges, is ordered, and the order is received by the Carrier, provided that the inception date of the contract plan for the new service is on or before the expiration date of the terminated plan. In addition, no termination charge will be applied for the Customer converting from a specified service to a more advanced service provided that the expiration date for the contract plan for the new service is on or before the expiration date of the terminated plan.

RULES (Continued)

RULE 26 MILEAGE CALCULATION (Continued)

26.2 (Continued)

G. Example:

	V	H
Abbeville, AL	7752	1993
Abernathy, TX	8546	4978

The difference between the V coordinates is 794.
The difference between the H coordinates is 2985.

Squaring each difference yields:
794 X 794 = 630,436
2985 X 2985 = 8,910,225

Adding the results equals 9,540,661.

Dividing by 10 equals 954,066.

The square root of 954,066 is 977, which is the mileage figure.

RULE 27 TERMINATION LIABILITY FOR FRAME RELAY, PRIVATE LINE, AND ISDN

In the event of early termination of a contract plan, and unless otherwise stated, Customer must pay a lump sum of 50 percent (50%) the monthly discounted charges of the remaining unexpired term of the agreement. Customer will not be liable for termination charges for a specified service if new service of the same type, and of equal or greater charges, is ordered, and the order is received by the Carrier, provided that the inception date of the contract plan for the new service is on or before the expiration date of the terminated plan. In addition, no termination charge will be applied for the Customer converting from a specified service to a more advanced service provided that the expiration date for the contract plan for the new service is on or before the expiration date of the terminated plan.
