## CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

### 5.1 Construction Charges (C)

#### 5.1.1 General

a. Construction charges are applicable to customers under certain conditions for the establishment or rearrangement of telephone service when suitable plant facilities are not available or when the construction of the necessary facilities involves excessive costs.

b. Construction charges apply in addition to the rate for the class of servcie furnished and any service connection charge, service change charge, installation charges, nonrecurring charge, mileage charge or other similar charges that may apply.

c. Title to all construction, provided wholly or partly at a customer's expense, is vested in the Company

d. The word "cost", when used in this Section, means the inplant cost consisting of labor, engineering, materials, supervision, and other overhead expenses associated with the construction. Estimated cost will be used; however, where the customer requests, actual cost will be used where practicable.

e. When attachments are made to poles of other companies in lieu of providing new pole line construction for which construction charges would be applicable under the provisions of this Section, the attachment rental charges to the Company for such attachments may be assessed to the applicant(s) in whole or in part as the particular circumstances may warrant.

f. Except as otherwise provided herein, the regulations in this tariff contemplate that the type of construction required to provide the quantity and class of service involved will be determined by the Company. The applicant may be required to pay the additional costs involved where a different type of construction than that proposed by the Company is desired.

g. When an applicant is so located that it is necessary to use private right-of-way to furnish service and the Company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the costs incurred in securing, clearing, and retaining such right-of-way.

h. Where a customer elects to provide and install underground conduit, dig and backfill trenches, and provide and erect poles, it must be in accordance with the specification of the Company. (C)

## CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

5.1 Line Extension Charges

5.1.1 General

a. If the estimated construction cost is less than the amount of seven years exchange service charges for which service is subscribed, the Company under the agreement of the REA Loan may not charge for construction. However, if the estimated construction cost is more than the amount of seven years exchange service charges for which service is subscribed, the conditions for construction charges described in this tariff apply.

b. Construction or installation charges are non-recurring charges made under certain conditions as hereinafter set forth and are in addition to applicable charges for the class of service furnished, mileage charges, service charges for specific items of equipment, and other charges that may be applicable.

c. Construction charges are payable at the time the application for service is signed or when the amount is rendered, as the Company, at its option, may require.

d. The word "Cost", wherever used in this section, is to be interpreted to mean the cost of labor and materials, and include charges for supervision and other overhead expense associated with the construction or installation.

e. When attachments are made to poles of other companies, in lieu of providing new pole line construction for which the subscriber would regularly be charged construction charges under the provision of this section, the attachment rental charges to the Company for such attachments may be borne in whole or in part by the subscriber as the particular circumstances may warrant.

f. Any poles, conduit, cable or other plant provided at the expense of the customer, on either a public highway or on private property shall not be used by the customer for any purpose other than service furnished by the Company for the support of cable, wire or other apparatus of the Company, except upon approval of the Company.

g. In all cases of construction on public highway or on private property to serve customers in general, ownership of the poles, conduit, and other plant must be vested either in the Company or some other company with which the Company has joint use arrangement. All plant is maintained and replaced at the expense of the Company.

## CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

**5.1 Construction Charges (Cont'd)** (C)

**5.1.2 Construction on Public Highways or Other Easements**

a. No construction charge is applicable for the general provision of service along public highways or other public easements, except as follows:

Where an applicant desires service in an area not presently served and where there is no foreseeable potential growth, the Company will provide 2500 feet of new construction at no charge, and all other construction charges will be borne by the applicant.

**5.1.3 Construction on Private Property**

a. Distribution Facilities

(1) No charge is made for construction of distribution facilities on private property, when such construction conforms to Company construction practices and is to be used in serving customers in general. Where an applicant desires any type of construction other than that determined to be appropriate by the Company, the applicant may be required to bear the increases costs incurred by the Company.

(2) Where construction of distribution facilities is provided on private property and is not to be used in serving customers in general, the applicant may be required to bear all costs incurred by the Company for construction in excess of 500 feet.

b. Service Entrance Facilities

(1) Where an applicant desires any type of construction other than that determined to be appropriate by the Company, the applicant may be required to bear the increased cost incurred by the Company. Construction charges will not apply to the drop facility that extends from the distribution facility to the general location of the station instrument when such construction conforms to Company construction practices and the drop facility is not in excess of 1,000 feet. The applicant may be required to bear all costs incurred by the Company for a drop in excess of 1,000 feet.

(2) Where armored cable is laid in a trench, the trench shall be constructed and backfilled by or at the expense of the customer. In addition, the customer shall pay the cost of the cable - including the cost of installing - less the estimated cost to the Company of installing such aerial drop as would be (or is) required to furnish the same service.

(3) Where facilities are changed from aerial to underground in addition to the above, the customer may be charged the cost of dismantling and removing the aerial facilities. (C)

## CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

5.1 Line Extension Charges (Cont'd)

5.1.2 Private Right-of-Way

When the applicant is so located that it is necessary to use private right-of-way to furnish service and the Company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the cost incurred in securing, clearing and retaining such right-of-way.

5.1.3 Exceptions to Construction Charges

a. Except as provided under "Temporary Service", no construction charge is made for the provision of new pole lines or wire on public highways within the Exchange Service Area.

b. Except as provided under "Temporary Service", where the construction of outside plant is required to provide facilities to serve one or more applicants, the applicant or applicants may be required to bear the cost of such construction. Neither service installations, including drop wire and protector, nor any plant within the Exchange Service Area shall be considered as construction costs.

5.2 Temporary Service

When construction is required for temporary service and there is no immediate prospect of reusing the plant provided, the subscriber is required to bear the total cost of such construction and installation and the cost of removal, if removed, provided, however, that the salvage value of any plant removed shall be deducted from the total cost to be paid by the subscriber. The conditions in 5.1.1 A. do not apply to construction charges for temporary service.

5.3 Moves or Changes of Existing Construction

When the Company shall move or change existing construction or equipment for which no specific charge is quoted in this Tariff, the person at whose request the move or change is made may be required to bear the cost of such move or change.

## CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

**5.1 Construction Charges (Cont'd)** (C)

**5.1.3 Construction on Private Property (Cont'd)**

c. Supporting Structures for Plant Facilities for Extension Lines

Where for the purpose of furnishing extension lines, it is necessary to lay underground conduit, to trench, or to set poles on the customer's premises, the customer is required to provide and install such underground conduit, to dig and backfill trenches and to provide and erect such poles or the Company will perform the work at the customer's expense.

**5.1.4 Rearrangement of Existing Plant**

When the Company is requested to move or change existing plant for which no specific charge is quoted in this Tariff, the person at whose request such move or change is made may be required to bear the costs incurred.

**5.1.5 Construction Required for Temporary Service**

When construction is required for temporary service and there is no immediate prospect of reusing the plant provided, the customer may be required to bear all or a portion of the cost of such construction, plus the estimated cost of removal of the plant minus net salvage.

**5.1.6 Special Types of Construction**

When a special type of construction other than those covered preceding is desired by a customer or where the individual requirements of a particular situation make the construction unusually expensive, the customer is required to pay the additional expense incurred by the Company, determined as follows: the difference between the expense incurred by the Company for such construction, facilities or installation and the expense which would otherwise be incurred for a normal type of construction or facilities for a normal installation. (C)

## CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

5.4

5.5 Construction in Residential Developments

All telephone service placed in residential developments of 5 or more adjoining lots in a recorded plan for the construction of single-family residence including mobile homes intended for year-round occupancy, or one or more adjoining lots for the construction of one or more apartment houses containing an aggregate of five or more family units, if telephone service to such residential or apartment house lots necessitates extending the Company's existing distribution lines.

A developer shall:

a. At his own cost, provide the Company with easements satisfactory to the Company for occupancy and maintenance of distribution and service lines and related facilities, except in public ways which the Company has the legal right to occupy.

b. At his own cost, clear the ground in which the aforesaid line and related facilities are to be laid, of trees, stumps and other obstructions.

c. Place with the Company, in advance or upon other terms the Company may require the following charges when the developer requests construction ahead of the time the Company would normally provide service at customer request.

(1) A prepayment in aid of construction in an amount not in excess of 50% of the Company's costs of the distribution cable for the development.

(2) Such prepayment in aid of construction will be refunded on a proportionate basis for each contract for telephone service received. The basis of total refund shall be 100 percent refund upon receipt of telephone contracts for telephone service from 50 percent of the total development within a 3 year period.

d. If the developer changes the plot plan after installation of the Company's lines has begun, or otherwise necessitates additional costs by his act or failure to act, such additional costs shall be borne by the developer or his agent.

e. All distribution and service lines installed within a development shall conform to the Company's construction standards; and shall be owned and maintained by the Company. Such installations shall be performed by the Company or by such other entity as the Company may authorize to do the work. The Company shall not be liable for injury or damage occasioned by the willful or negligent excavation, breakage or other interference with its facilities by other than its own employees or agents.

## CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

**5.2 Establishment and Furnishing of Service** (M) (T)

**5.2.1 Special Assemblies of Equipment or Speculative Projects** (T)

a. Special assemblies of equipment or speculative projects for which provision is not otherwise made in this tariff may be provided where practicable, if not detrimental to any of the services furnished by the Company.

(1) The charge for such facilities may be in the form of an installation charge, a monthly charge, a termination charge or any combination thereof and will include, when applicable, one or more of the following estimated expense items associated with the special equipment or service provided:

(a) maintenance expense
(b) depreciation expense - including reusable and nonrecoverable items
(c) administration expense
(d) taxes - including Federal Income Tax
(e) any other specific items of expense that may be associated with the facility provided
(f) a reasonable return on investment

(2) The estimated installation cost used in the derivation of the various expense items shall include the following:

(a) material
(b) material overhead
(c) installation labor
(d) installation labor overhead (M)

(M) Material relocated from Sheet 5. (N)

## CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

5.6 Establishment and Furnishing of Service

5.6.1 Special Construction

a. Private Property

(1) An average amount of entrance and distribution facilities may be furnished by the Company provided the facilities are of the standard type normally furnished for the particular location or kind of service.

(2) If additional entrance or distribution facilities are required; if the conditions are such as to require special equipment, maintenance or methods of construction; if the stability of the customer has not been established; if the installation is for a temporary or semipermanent purpose or if for any other reason the construction costs are excessive as compared with the revenue to be derived, the applicant shall be required to pay the costs over and above those applicable for a normal installation.

(3) The customer will provide the Company without charge written permission for the placing of the Company's facilities on the property.

b. Underground

(1) When feasible conduit will be furnished by the Company at cost, or conduit may be provided by the applicant subject to the Company's specifications. Conduit used for telephone company facilities may not be used for any other purpose without the consent of the Company. The distance between the conduit and any Electric Light or Power Conduit or Conductor shall be in accordance with the Company's specifications. The customer shall be required to pay the entire cost of maintenance of conduit including subsequent excavations and replacements necessary because of damage resulting from negligence on the part of the customer or his representatives or from freezing or improper drainage.

(2) The cost of relocating underground entrance facilities at the customer's request will be borne by him.

**CHARGES APPLICABLE UNDER SPECIAL CONDITIONS**

**5.2 Establishment and Furnishing of Service (Cont'd)** (T)

**5.2.1 Special Assemblies of Equipment or Speculative Projects (Cont'd)** (T)

(M)

b. In connection with Marketing and Sales studies and/or Marketing and Sales programs, the Company reserves the right to waive service connection charges, move and change charges within specified areas for such periods of time as designated by the Company.

c. Switched Data Service - Piedmont Mental Health
(State of South Carolina) (SC9501003 and SC9601022)

This service arrangement provides two (2) Switched Data Service lines to Piedmont Mental Health (State of South Carolina), Simpsonville, South Carolina.

(1) Switched Data Service is a network service that provides the capability for switched digital end-to-end data transport.

(2) Piedmont Mental Health will be provided two (2) High Speed Switched Data service lines and Individual Line Loop Extension. High Speed Switched Data service supports 48,000, 56,000, and 64,000 bits per second synchronous full duplex connections.

(3) The following regulations/rates are in addition to other regulations/rates as stated in this and other Company tariffs.

(4) End User Charges as shown in Section 13 of GTOC Tariff FCC No. 1 will apply to Switched Data Service.

(5) Presubscription of Carrier rates and regulations shown in Section 6 of GTOC Tariff FCC No. 1 will apply to Switched Data Service.

(M) Material relocated to Sheet 4. (N)

## CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

**5.6 Establishment and Furnishing of Service (Cont'd)**

**5.6.2 Special Assemblies of Equipment or Speculative Projects**

a. Special assemblies of equipment or speculative projects for which provision is not otherwise made in this tariff may be provided where practicable, if not detrimental to any of the services furnished by the Company.

(1) The charge for such facilities may be in the form of an installation charge, a monthly charge, a termination charge or any combination thereof and will include, when applicable, one or more of the following estimated expense items associated with the special equipment or service provided:

(a) maintenance expense
(b) depreciation expense - including reusable and nonrecoverable items
(c) administration expense
(d) taxes - including Federal Income Tax
(e) any other specific items of expense that may be associated with the facility provided
(f) a reasonable return on investment

(2) The estimated installation cost used in the derivation of the various expense items shall include the following:

(a) material
(b) material overhead
(c) installation labor
(d) installation labor overhead

b. In connection with Marketing and Sales studies and/or Marketing and Sales programs, the Company reserves the right to waive service connection charges, move and change charges within specified areas for such periods of time as designated by the Company.

c. Switched Data Service - Piedmont Mental Health
(State of South Carolina) (SC9501003 and SC9601022) (C)

This service arrangement provides two (2) Switched Data Service lines to Piedmont Mental Health (State of South Carolina), Simpsonville, South Carolina.

(1) Switched Data Service is a network service that provides the capability for switched digital end-to-end data transport.

(2) Piedmont Mental Health will be provided two (2) High Speed Switched Data service lines and Individual Line Loop Extension. (C) (C) High Speed Switched Data service supports 48,000, 56,000, and 64,000 bits per second synchronous full duplex connections.

(3) The following regulations/rates are in addition to other regulations/rates as stated in this and other Company tariffs.

(4) End User Charges as shown in Section 13 of GTOC Tariff FCC No. 1 will apply to Switched Data Service.

(5) Presubscription of Carrier rates and regulations shown in Section 6 of GTOC Tariff FCC No. 1 will apply to Switched Data Service.

e. Integrated Services Digital Network - Primary Rate Interface (ISDN-PRI) for Kemet Industries (SC9601045)

(1) General

(a) This tariff provides Integrated Services Digital Network-Primary Rate Interface Service (ISDN-PRI) for Kemet Industries.

(b) ISDN-PRI Service provides intraexchange access for integrated services between the customer's premises and the serving office via a 1.544 Mbps facility. ISDN-PRI denotes an end-to-end digital network capable of supporting a combination of public and private network access services.

(2) Regulations

(a) ISDN-PRI Service is available to customers where facilities are available. Customers must provide compatible premises switching equipment for terminating the "D" channel and the 1.544 Mbps high capacity digital services facilities.

(b) ISDN-PRI Service is typically divided in capacities in twenty-three 64 Kbps "B" channels and one 64 Kbps "D" channel (23B+D).

(c) The "B" channels can carry switched voice and switched data at up to 64 Kbps. The channels can be configured for voice or data.

(d) The "B" channels can be dedicated to a specific configuration, or, optionally, a group of "B" channels can be shared for access to two or more configurations.

(e) The "D" channel carries the out-of-band signaling required to control its associated "B" channels on one or more 1.544 Mbps high capacity digital services facilities where technology permits.

(f) Where a customer's ISDN-PRI Service interconnects with an Interexchange Carrier (IC) or other service provider, PRI Access is only permitted within a single customer's ISDN-PRI Service Arrangement. Access to the Company's network exchange or switched services is not permitted.

(g) When a customer's serving office is not suitably equipped and the customer chooses to subscribe to ISDN-PRI Service from another Company designated ISDN-PRI central office, the customer will utilize the dialing plan associated with the designated ISDN-PRI central office. In this instance, the applicable NAR rate as specified in Section 3 will apply.

**CHARGES APPLICABLE UNDER SPECIAL CONDITIONS**

**5.6 Establishment and Furnishing of Service (Cont'd)**

**5.6.2 Special Assemblies of Equipment or Speculative Projects (Continued)**

e. Integrated Services Digital Network - Primary Rate Interface (ISDN-PRI) for Kemet Industries (SC9601045)

(1) General (N)

(a) This tariff provides Integrated Services Digital Network-Primary Rate Interface Service (ISDN-PRI) for Kemet Industries.

(b) ISDN-PRI Service provides intraexchange access for integrated services between the customer's premises and the serving office via a 1.544 Mbps facility. ISDN-PRI denotes an end-to-end digital network capable of supporting a combination of public and private network access services.

(2) Regulations

(a) ISDN-PRI Service is available to customers where facilities are available. Customers must provide compatible premises switching equipment for terminating the "D" channel and the 1.544 Mbps high capacity digital services facilities.

(b) ISDN-PRI Service is typically divided in capacities in twenty-three 64 Kbps "B" channels and one 64 Kbps "D" channel (23B+D).

(c) The "B" channels can carry switched voice and switched data at up to 64 Kbps. The channels can be configured for voice or data.

(d) The "B" channels can be dedicated to a specific configuration, or, optionally, a group of "B" channels can be shared for access to two or more configurations.

(e) The "D" channel carries the out-of-band signaling required to control its associated "B" channels on one or more 1.544 Mbps high capacity digital services facilities where technology permits.

(f) Where a customer's ISDN-PRI Service interconnects with an Interexchange Carrier (IC) or other service provider, PRI Access is only permitted within a single customer's ISDN-PRI Service Arrangement. Access to the Telephone Company's network exchange or switched services are not permitted.

(g) When a customer's serving office is not suitably equipped and the customer chooses to subscribe to ISDN-PRI Service from another Telephone Company designated ISDN-PRI central office, the customer will utilize the dialing plan associated with the designated ISDN-PRI central office. In this instance, the applicable NAR rate as specified in Section 3 will apply.

f. Integrated Services Digital Network - Primary Rate Interface (ISDN-PRI) (SC9801093)/DID Service (SC9801096) for Kemet Industries

(1) General

(a) This tariff provides Integrated Services Digital Network-Primary Rate Interface Service (ISDN-PRI) and DID Service for Kemet Industries.

(b) This customer requested that GTE South Carolina Incorporated provide measured usage Data Channels for their proposed Integrated Services Digital Network - Primary Rate Interface (ISDN-PRI) Service. The customer also requested that the service be provided over a pre-existing High Capacity Digital DS3 Service to which they already subscribe.

(2) Regulations

(a) Measured Usage Data Channels capable of handling Switched Data Service calls are not provided for in GTE South Carolina Incorporated's tariff and as a consequence are provided for in this special assembly.

(b) The customer's High Capacity DS3 Service was already equipped with the requisite Central Office DS3 to DS1 multiplexing arrangement and had sufficient excess capacity to be utilized in lieu of the High Capacity Digital DS1 specified in GTE South Carolina Incorporated's Tariff as applicable for ISDN-PRI Facility.

(c) This special assembly also provides for 1400 DID station numbers delivered over ISDN-PRI for Kemet Industries.

(3) Rates and Charges

(a) The following rates are stabilized for 60 months.

| | | Nonrecurring Charge | Monthly Rate |
|---|---|---|---|
| 1. | ISDN-PRI Data Channel, per channel | $ - | $ 5.00 |
| 2. | DID Station Numbers, per 100 Number Group | - | 15.00 |

(b) The rates are in addition to any applicable tariffed rates found elsewhere in this Tariff, especially the applicable ISDN-PRI rates as specified in Section 12.3 of this Tariff.

(c) Should the customer disconnect his service before the expiration of the contract period, an early termination liability charge equal to the monthly rate times the number of months remaining on the contract shall apply.

**CHARGES APPLICABLE UNDER SPECIAL CONDITIONS**

**5.6 Establishment and Furnishing of Service (Cont'd)**

**5.6.2 Special Assemblies of Equipment or Speculative Projects (Continued)**

f. Integrated Services Digital Network - Primary Rate Interface (ISDN-PRI) (SC9801093)/DID Service (SC9801096) for Kemet Industries (N)

(1) General

(a) This tariff provides Integrated Services Digital Network-Primary Rate Interface Service (ISDN-PRI) and DID Service for Kemet Industries.

(b) This customer requested that GTE South Carolina Incorporated provide measured usage Data Channels for their proposed Integrated Services Digital Network - Primary Rate Interface (ISDN-PRI) Service. The customer also requested that the service be provided over a pre-existing High Capacity Digital DS3 Service to which they already subscribe.

(2) Regulations

(a) Measured Usage Data Channels capable of handling Switched Data Service calls are not provided for in GTE South Carolina Incorporated's tariff and as a consequence are provided for in this special assembly.

(b) The customer's High Capacity DS3 Service was already equipped with the requisite Central Office DS3 to DS1 multiplexing arrangement and had sufficient excess capacity to be utilized in lieu of the High Capacity Digital DS1 specified in GTE South Carolina Incorporated's Tariff as applicable for ISDN-PRI Facility.

(c) This special assembly also provides for 1400 DID station numbers delivered over ISDN-PRI for Kemet Industries.

(3) Rates and Charges

(a) The following rates are stabilized for 60 months.

| | | Nonrecurring Charge | Monthly Rate |
|---|---|---|---|
| 1. | ISDN-PRI Data Channel, per channel | $ - | $ 5.00 |
| 2. | DID Station Numbers, per 100 Number Group | - | 15.00 |

(b) The rates are in addition to any applicable tariffed rates found elsewhere in this Tariff, especially the applicable ISDN-PRI rates as specified in Section 12.3 of this Tariff.

(c) Should the customer disconnect his service before the expiration of the contract period, an early termination liability charge equal to the monthly rate times the number of months remaining on the contract shall apply. (N)

## CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

### 5.3 Contract Service Arrangements (T)

a. General

(1) When economically practicable, customer specific contract service arrangements may be furnished in lieu of existing tariff offerings provided there is reasonable potential for uneconomic bypass of the Company's services. Uneconomic bypass occurs when an alternative service arrangement is utilized, in lieu of Company services, at prices below the Company's rates but above the Company's incremental costs. This Tariff will remain in effect until modified or removed by authorization of the Public Service Commission.

(2) Rates, Charges, Terms and additional regulations, if applicable, for the contract service arrangements will be developed on an individual case basis, and will include all relevant costs, plus an appropriate level of contribution.

(3) Unless otherwise specified, the regulations for contract service arrangements are in addition to the applicable regulations and rates specified in other sections of this Tariff.
