S18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.1 Application

- a. This Tariff applies to long distance message telecommunications service furnished or made available by the Company and its connecting companies, between two or more points which are located in the same Local Access and Transport Area (LATA) within the State of South Carolina where the respective rate centers of such points also are located in said State.
- b. When Long Distance Message Telecommunications Service is provided for resale, a discount of 5% will apply. This discount applies only to Two-Point Service and does not include associated services. The resale provisions will be available upon completion of Company and reseller arrangements. Services and facilities will be provided to public resellers only in instances where the reseller can demonstrate its authority to operate. Such authority can only be demonstrated by providing the Company a copy of the reseller's certification as issued by the South Carolina Public Service Commission.

S18.6 IntraLATA Long Distance Verification and Emergency Interrupt Service

(N)

a. General

- (1) Verification and Emergency Interrupt Service is furnished where and to the extent that facilities permit. The customer shall indemnify and save the Company harmless against all claims that may arise from either party to the interrupted call or any person.
- (2) Verification
 - (a) The Company furnishes Verification Service for the purpose of aiding subscribers with legitimate call completion problems. Upon request the operator will verify and provide the line status condition of a subscriber line within the intraLATA calling area but outside the local calling area.
 - (b) A subscriber originated request for verification of an intraLATA long distance number other than an emergency agency number is a chargeable verification request if a Company operator determines that the line is in use. No charge applies if the line is out of order.
- (3) Emergency Interrupt Service
 - (a) The Company furnishes Emergency Interrupt Service when a subscriber who has originated a verification request to a line which has been found in a busy talking state informs the operator that an urgent or emergency situation exists and requests that the operator have the busy line cleared.
 - (b) A subscriber originated request for Emergency Interrupt to an intraLATA long distance number other than an emergency agency number is a chargeable Emergency Interrupt request.

b. Application of Rates and Charges

- (1) No charge will apply if the requesting customer identifies that the call is to or from an official public emergency agency. An official public emergency agency is defined as a government agency which is operated by the Federal, state or local government, and has the capability and legal authority to provide prompt and direct aid to the public in emergency situations. Such agencies include the local police, state police, fire department, etc.
- (2) Charges may not be billed on a collect basis or on a third number basis to the number being verified or interrupted.
- (3) If the number verified is not in use, or as a result of interrupt the line is cleared, and, at the calling party's request, the operator completes the call, the charges as specified in S18.3(7) of this Tariff apply in addition to the applicable verification and emergency interrupt charges.

(3) Timing of Messages (Continued)

(a) (Continued)

(.1) In cases where a message begins in one time period and ends in another, the charge for the portion of the message within each time period shall be the charge for whole minutes in effect for that time period.

(b) On station-to-station calls, chargeable time begins when connection is established between the calling station and the called station or PBX system.

(c) On person-to-person calls, chargeable time begins when connection is established between the calling person and the particular person or station specified or an agreed alternate.

(d) Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the operator.

(e) Chargeable time does not include time lost because of faults or defects in the service.

(f) Sub-minute rating will be utilized for the timing and rating of Business IntraLATA Long Distance Message Telecommunications Service messages. Sub-minute rating consists of the initial 18 seconds of the first minute rated at the appropriate initial period rate and then each increment of 6 seconds thereafter is rated at the appropriate additional period rate. (N)

(4) Reversal of Charges (Collect Calls)

(a) Collect calls are permissible for all telephone calls except calls to which dial Station-to-Station or customer dialed calling card rates apply.

(b) The regularly established rates apply.

S18. LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.7 Calling Plans - GTE Discount Calling Plans (Continued) (T)

S18.7.3 Use of the Service (T)

- a. Resale or shared use of GTE Discount Calling Plans is permitted. Use of the service is subject to regulations in this Section and in Section S2 of this Tariff, with the exception of S2.2.1 which restricts the use of service and prohibits payment to the customer by another for use of the service.
- b. The service is offered on an account basis only which would include the number of individual lines, automatic access lines or CentraNet^R network access registers in the account.

S18.7.4 Limitation of Service

- a. The service is not available for use with intraLATA only Outward WATS and combined Outward WATS in Section S19 of this Tariff, Foreign Exchange, Mobile Telephone Service, Public and Semi-public Telephone Service and Public Telephone Access Service for Customer-Provided Equipment.

(T)

S18.7.5 Nonrecurring Charges

- a. A Network Access Change Charge as specified in Section S4 of this Tariff applies when the service is ordered and no central office work is required.
- b. In addition, when central office work is required to implement an Optional Calling Plan, a Central Office Line Connection Charge also specified in Section S4 of this Tariff will apply, as appropriate.

S18.7.6 GTE Discount Calling Plans Options (T)

- a. For a fixed monthly charge, customers receive a discount in addition to regular MTS discounts. Subscribers may select either of two business or two residence options as appropriate.

a. (Continued)

(1) Fixed Monthly Charges

(a) GTE Discount Calling Plans monthly recurring rates are in addition to the usage charges specified in (2) following.

(b) Method of Determining Monthly Recurring Rates

1. Determine the total number of individual lines, automatic access lines, or CentraNet[®] network access registers in the account included in the GTE Discount Calling Plans during the billing period. Individual lines, automatic access lines, etc. in service for a fraction of a month are prorated based on the number of days in service divided by 30 days.

2. The number of individual lines, automatic access lines or CentraNet[®] network access registers in the account from 1. preceding is applied to the rate to produce the monthly charge. The rates may range between and include the minimums and maximums following. The rates in effect are specified in the current Price List.
