TOUCH-TONE TRANSMITTING SERVICE

A. TOUCH-TONE TRANSMITTING SERVICE

1. DESCRIPTION

Touch-Tone Transmitting Service is a Central Office service that passes the called telephone number over facilities to a distant switching system using Touch-Tone type signals.

Touch-Tone Transmitting Service, through the use of Touch-Tone type signaling, provides faster processing of:

a. Incoming calls placed over facilities arranged for Direct Inward Dialing Service (DID).

b. Outgoing calls placed over Foreign Exchange Dial Tone Lines and/or Special Services Facilities originating in Central Office Services such as Centrex or other compatible services.

2. REGULATION

Touch-Tone Transmitting Service requires special Central Office equipment and is furnished only where facilities permit.

3. RATES
