TOUCH-TONE TRANSMITTING SERVICE

A. TOUCH-TONE TRANSMITTING SERVICE

1. DESCRIPTION

Touch-Tone Transmitting Service is a Central Office service that passes the called telephone number over facilities to a distant switching system using Touch-Tone type signals.

Touch-Tone Transmitting Service, through the use of Touch-Tone type signaling, provides faster processing of:

- a. Incoming calls placed over facilities arranged for Direct Inward Dialing Service (DID).
- b. Outgoing calls placed over Foreign Exchange Dial Tone Lines and/or Special Services Facilities originating in Central Office Services such as Centrex or other compatible services.

2. REGULATION

Touch-Tone Transmitting Service requires special Central Office equipment and is furnished only where facilities permit.

3. RATES

|                                                                                                                                                                                                                                                                      | <u>Product/Service<br/>Charge</u> | <u>Monthly<br/>Rate</u> |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|-------------------------|
| Touch-Tone Transmitting Service,<br>for Dial Tone Lines equipped for<br>DID Service, and Foreign Exchange<br>Dial Tone Lines and/or Special<br>Services Facilities associated<br>with Centrex C.O. Services or other<br>compatible services, each <sup>1, 2, 3</sup> | \$00.00                           | \$0.00                  |

<sup>1</sup> In addition, Touch-Tone Central Office Dial Tone Line Charges as shown in Section 30D of the Telephone Company's Pa. P.U.C. – No. 1 Tariff apply to Foreign Exchange Dial Tone Lines.

<sup>2</sup> A Touch-Tone Transmitting Charge applies to each originating end of an equipped Special Services Facility.

<sup>3</sup> All Dial Tone Lines (DID, and Foreign Exchange and Special Services Facilities, Feature Group A terminated on Centrex and other types of access lines) in a facility route or group must be equipped with Touch-Tone Transmitting Service.
