PART II - LONG DISTANCE

SECTION 1 - DEFINITION OF TERMS AND ABBREVIATIONS

Acceptance and Confirmation - Written acknowledgment to Customer that an application for service has been accepted by Company. (T) (T)

Access Arrangement - Any equipment or access facility necessary to interconnect Customer's voice/data/video equipment to Carrier point of presence for transmission purposes. (T) (T)

Additional Period - Unit of time used for measuring and charging for a connection in excess of the initial period. (T)

Application for Service - Customer request in the form of a standard Carrier order that provides applicable service description, technical data and pertinent information that allows Company to design the network facilities for Customer and its authorized users. (T) | (T)

Authorization Code - Numerical code, one or more of which are available to Customer to enable it to access Carrier's network, and which are used by Carrier both to prevent unauthorized access to its facilities and to identify Customer for billing purposes. (T)

Authorized User - Person, firm or corporation authorized by Customer to utilize the service. (T)

Automatic Number Identification (ANI) - Refers to the calling telephone number identification, which will be forwarded to Carrier's network by the Local Exchange Company (LEC) as a call is placed. (N) (N)

B8ZS - Bipolar with eight Zero Substitution (B8ZS) is a line coding technique which permits DS-0 and DS-1 transmission with more than 15 consecutive zeros. B8ZS supports 64 Kbps clear channel transmission.

Bandwidth - In Hertz, the approximate size of the channel or termination and represents the difference between the highest and lowest frequencies of a band. (T)

Bill to Third Party - Billing arrangement by which a call may be charged to an authorized station other than the station originating the call or station where the call is terminated. (T)

Bit - Smallest unit of information in a binary system of notation. (T)

Bits Per Second (Bps) - Number of bits transmitted in a one-second interval. (T)

Calling Card - Billing arrangement by which a call may be charged to an authorized calling card account. (T)

Carrier - Verizon Select Services Inc. (T)

Material omitted from this page now appears on Page 39.

PART II - LONG DISTANCE

SECTION 1 - DEFINITION OF TERMS AND ABBREVIATIONS (Continued)

Central Office Connection - Connection between local access facilities and Carrier service components for facilities. (M)

Channel - Electrical transmission path for two-way communications. (M)

Clear Channel Capability - Allows Customers to utilize 64 Kbps per DS-0 channel by allowing DS-0 or DS-1 transmission independent of the number of consecutive zeros or pulse density. (T) (M)

Collect Call - Billing arrangement by which the charge for a call is assessed upon the called station. (T)

Correctional Institutions - Used throughout this Tariff to refer to prisons, jails, penal institutions or other facilities used for penalty purposes. Correctional Institutions are subscribers of Carrier's service and make its service available to inmates.

Customer - Company, individual, or other entity which orders or uses service and is responsible for the payment of charges due and for compliance with Carrier's tariff regulations. (T)

Customer Premise - Customer or user's premises, including Customer-designated non-Carrier premises. (T)

Customer Dialed Direct Station-to-Station - Service by which the person originating the call dials the telephone number desired, the message is connected without the assistance of an Operator and the message is billed to the originating number.

Data - Information represented as characters in digital or analog form to which meaning can be assigned.

Database Routing - Used to specify routing based oneither the digits a caller enters on the keypad or the caller's ANI. (N) (N)

Digital Transmission - Information transmitted using digitally encoded signals.

DS-0 - Facilities provide for the two-way transmission of isochronous bipolar serial data at a rate of 56/64 Kbps.

DS-1 - Facilities provide for the two-way transmission of isochronous bipolar serial data at a rate of 1.544 Mbps.

DS-3 - Facilities provide two-way transmission of isochronous bipolar serial data signals at 44.736 Mbps. The service can be provided with either an optical or electrical interface as specified by Customer. (T)

Material omitted from this page now appears on Page 39.1.

PART II - LONG DISTANCE

SECTION 1 - DEFINITION OF TERMS AND ABBREVIATIONS (Continued)

Enhanced Routing - Provides routing and control features which Customer may utilize by Voice Intelligent Network - Enhanced Toll Free (VIN-E800) Service. The routing features may be combined to create a customized routing plan for each enhanced routing number. Command routing can be utilized to activate alternate routing plans by placing a call to designated Carrier personnel. (N) (N)

Entrance Facility - Physical circuit arrangement which connects an entrance site to Carrier point-of-presence. (T) (M)

Entrance Site - Location of Carrier's transmission facilities from which services can be provided for Customer to any other entrance site or point-of-presence. (T) (M)

Facility (or Facilities) - Any item or items of communications plant or equipment used to provide or to connect to specialized services. (M)

Initial Period - Minimum unit of time for which a rate is charged for a connection between given points. (T)

Interactive Toll Free (IVR) - Allows callers to access information in Customer's computer database and to receive that information using an ordinary touch-tone phone. This system also enables callers to execute certain transactions without the intervention of Customer Service personnel. (N) (N)

Inter-Office Channel - Private line service element that connect two central offices or points-of-presence. (T)

Local Access and Transport Area (LATA) - Defined geographic area within which the local telephone company may provide telephone services and/or facilities. (T) (M)

Material appearing on this page previously appeared on Page 39.

PART II - LONG DISTANCE

SECTION 1 - DEFINITION OF TERMS AND ABBREVIATIONS (Continued)

Local Access Facility - Channel provided by the local telephone company or alternative provider to connect Carrier's point-of-presence to Customer's location. (T) (T)

Local Telephone Company - Company which furnishes exchange telephone service. (T)

Long Distance Message Telecommunications Service (LDMTS) - Long distance telecommunications service offered between exchanges pursuant to this Tariff.

Main Billed Account - Customer name, address and account number to which charges are billed. (T)

Multipoint - Private line service that connects three or more central offices.

Network Interface - Demarcation point on Customer's premise that defines the end of the supplier's responsibility. (T)

Office Connection - Private line service element that interconnects channels and other service elements to a central office, including access connections and function connections.

Operator - Automated or live Operator. (T)

Operator Assisted Station-to-Station - Service by which the person originating the call asks the Operator to connect to a particular number.

Person-to-Person - Service by which the person originating the call asks the Operator to reach a particular person, mobile station, or location.

Point-of-Presence (or POP) - Location in Carrier's system where local access facilities connect to an interexchange carrier's network. (T)

Real Time ANI - Delivery of calling party ANI to Customers using the Real Time ANI feature. (N)

Service - Any or all service(s) provided by Carrier pursuant to this Tariff.

Service Agreement - Agreement in which Carrier provides services under specific terms and conditions of this Tariff.

Service Period - Period from service date to Customer-requested end date.

Serving Wire Center - Physical location within a service area used to determine mileage sensitive rates. (T)

Sub-Minute Rating - Method of charging for a connection in which the appropriate rate is assessed for an initial period of 18 seconds and for each additional period of six seconds thereafter. (T)
