MINES-TELEPHONE SERVICE IN

A. GENERAL

New installations of or additions to customer-provided terminal equipment and communications systems subject to Part 68 of the Federal Communications Commission's Rules and Regulations, connected to the telecommunications network or private line services, must conform with Part 68 of the Federal Communications Commission's Rules and Regulations.

Telephone Service is furnished to mining companies at places inaccessible to the Telephone Company's employees and at hazardous locations, subject to the regulations and rates in B. and C. following.

B. REGULATIONS

Facilities located below the surface are furnished by the Telephone Company provided the conditions at the desired locations are such that the Telephone Company's facilities will operate satisfactorily. The Telephone Company will require such facilities to be installed and maintained by the customer. (C)

C. RATES

The service, equipment and facilities furnished by the Telephone Company are charged for at established Tariff rates.

Special equipment required because of the location below the surface of any facilities furnished by the Telephone Company is subject to extra charges based on the costs incurred.

(C) Indicates change.
