

TRANSFER OF MESSAGE CHARGE SERVICE (1)

(C)

A. DESCRIPTION

Transfer of message charge service permits a customer to have charged to his account the charges for all calls to his number from telephones in one or more exchanges other than the one in which his service is located.

Transfer of message charge service permits a customer to have charged to his account the charges for all calls to his number from telephones in one or more exchanges other than the one in which his service is located.

The customer selects in advance the exchange or exchanges in connection with which he desires transfer of message charge service.

The Telephone Company assigns a special call number for use in each exchange selected. Calls for the special number are completed on the customers' regular service lines designated for that purpose.

The customer assumes all charges for calls completed through the special call number.

The charges are billed separately for each exchange; the monthly bill rendered to the customer shows the total number of calls completed, but does not show the numbers of the telephones at which the calls originated.

B. REGULATIONS

1. This service will be completely withdrawn one year from the effective date of this Tariff.
2. Transfer of message charge service is furnished for completion over non-coin lines to which the individual line or branch exchange trunk line rate applies.

(C)

The service is furnished only from exchanges from which message charges apply for calls to the customer's telephone from telephones under one or more classes of service other than public, semi-public or apartment house or semi-public branch exchange service. All completed calls for the special number from the selected exchanges are billed to customers' accounts at the rates specified in C. following, regardless of the class of service of the telephone at which the call originates.

Only those calls originating in the selected exchanges and placed by calling the special number are considered as coming within the scope of this service.

The charge for the service entitles the customer to one directory listing of the special number for each exchange selected, in the alphabetical list for that exchange.

Note:

(1) Not available for new installations or additions.

TRANSFER OF MESSAGE CHARGE SERVICE (1)

(C)

C. RATES

1. Monthly Charge

For each exchange selected:

Philadelphia or Pittsburgh.....	\$5.28
Other Exchanges.....	3.17

The minimum service charge for each exchange selected is the service charge for three months.

2. Directory Listings

Directory listings in addition to one for each exchange selected are furnished subject to the rates and regulations for charge listings in Section 5 of this Tariff.

3. Message Charges

Each completed call is charged for on the basis of a sent-paid station to station message between the two telephones involved.

For a route on which a toll rate is quoted for any class of service in the originating exchange the charge is the rate quoted in the Telephone Company's Toll Tariffs.

For a route on which service is furnished entirely on a local basis, measured local use rates apply, as specified in the Local General Tariff of the originating exchange.

NOTE:

(1) Not available for new installations or additions.
