

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services

13.1 Additional Engineering

Additional Engineering will be provided by the Telephone Company at the request of the customer only when:

- (A) A customer requests additional technical information after the Telephone Company has already provided the technical information normally included on the Design Layout Report (DLR) as set forth in 6.1.5 and the Special Services Tariff (Pa. P.U.C.-No. 304). (C)
- (B) A customer requests the provision of engineering activities which are not normally provided as part of the design and installation of a service.
- (C) Additional engineering time is incurred by the Telephone Company to engineer a customer's request for a customized service as set forth in the Special Services Tariff (Pa. P.U.C.-No. 304). (C)

The Telephone Company will notify the customer that additional engineering charges, as set forth in 13.1.1 following, will apply before any additional engineering is undertaken.

(C) Indicates change.

ISSUED FEBRUARY 25, 1987.

EFFECTIVE APRIL 26, 1987.

By J. J. Doherty, Jr., Vice-President, One Parkway, Philadelphia, Pa.

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.1 Additional Engineering (Cont'd)

13.1.1 Charges For Additional Engineering (C)

Additional Engineering Periods	USOC	First Half	Each Additional
		Hour or Fraction Thereof	Half Hour or Fraction Thereof
(A) Basic Time, regularly scheduled working hours, per engineer	AEH	\$107.28 (I)	\$49.39 (I)
(B) Overtime, outside of regularly scheduled working hours, per engineer	AEH	114.48 (I)	56.94 (I)

13.2 Additional Labor

Additional labor is that labor requested by the customer on a given service as set forth in 13.2.1 through 13.2.5 following. Additional Labor charges will be applied based on the cost of the time plus any material involved. The material used will be charged to the customer based on the level of charges on the current Telephone Company price list filed in Section 2B of the Pa. P.U.C.-No. 1 Tariff. The Telephone Company will notify the customer that additional labor charges as set forth in 13.2.6 following will apply before any additional labor is undertaken.

(C)

13.2.1 Overtime Installation

Overtime installation is that Telephone Company installation effort outside of regularly scheduled working hours.

13.2.2 Overtime Repair

Overtime repair is that Telephone Company maintenance effort performed outside regularly scheduled working hours.

(C) Indicates change. (I) Indicates increase.

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.2 Additional Labor (Cont'd)

13.2.3 Stand by

Stand by includes all time in excess of one-half (1/2) hour during which Telephone Company personnel stand by to make initial acceptance tests or cooperative tests with a customer to verify facility repair on a given service.

13.2.4 Testing and Maintenance with Other Telephone Companies

Additional testing, maintenance or repair of facilities which connect to facilities of other telephone companies, if they are not Concurring Carriers, which is in addition to normal effort required to test, maintain or repair facilities provided solely by the Telephone Company.

13.2.5 Other Labor

Other Labor is that additional labor not included in 13.2.1 through 13.2.4 preceding, and labor incurred to accommodate a specific customer request that involves only labor which is not covered by any other Section of this Tariff. (C)

13.3 Miscellaneous Services

13.3.1 Maintenance of Service

(A) Switched Access

When a customer reports a Switched Access Service trouble to the Telephone Company for clearance, the customer shall be responsible for payment of a Maintenance of Service charge when Telephone Company personnel are dispatched to the customer's premises and no trouble is found in the Telephone Company's facilities. Failure of Telephone Company personnel to find trouble in Telephone Company facilities will result in no charge if the trouble is actually in those facilities, but not discovered at the time.

The customer shall be responsible for payment of a Maintenance of Service charge when the Telephone Company dispatches personnel to the customer's premises, and the trouble is in equipment or communications systems provided by other than the Telephone Company or in detariffed CPE provided by the Telephone Company.

No credit allowance will be applicable for the interruption involved if the Maintenance of Service Charge applies.

(B) Special Access

When a customer reports a Special Access service trouble to the Telephone Company for clearance, the customer shall be responsible for payment of a Maintenance of Service charge when the trouble is observed to be in the equipment or communications systems provided by other than the Telephone Company, or the trouble is not found to be in the Telephone Company facilities.

No credit allowance will be applicable for the interruption involved if the Maintenance of Service Charge applies.

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.2 Telecommunications Service Priority

Existing Restoration Priority (RP) was superseded by Telecommunications Service Priority (TSP), as specified in Section 10.7.4(A) preceding on April 7, 1991. Existing RP arrangements for Special Services will remain in effect until March 10, 1993. If RP Service is converted to TSP, the customer will incur the Priority Restoration Level Implementation Nonrecurring Charge as specified in Section 10.7.5(A) (2) (a) preceding.

13.3.3 Presubscription

- (A) Presubscription is an arrangement whereby an end user may select and designate to the Telephone Company an IC to access, without an access code, for interLATA calls. This IC is referred to as the end user's predesignated IC.
- (B) On the effective date of this tariff, all existing end users will have access to interLATA MTS. Ninety days prior to the implementation of Trunkside BSA-101XXXX option or Feature Group D and six months following the implementation of Trunkside BSA-101XXXX Option or Feature Group D in a serving end office, end users may select one of the following options at no charge.
 - Designate an IC as predesignated IC and dial 101XXXX or other access codes, i.e., 950-10XX, to reach other ICs. (C)
 - Designate that they do not want to be presubscribed to any IC and choose to dial 101XXXX or other access codes, i.e., 950-10XX, for all calls to all ICs, including AT&T. (C)

After the end user's initial selection of a predesignated IC for any additional change in selection a nonrecurring charge as set forth in (D) following applies.

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.3 Presubscription (Cont'd)

(C) New end users, who are served by end offices equipped with Trunkside BSA-101XXXX Option or Feature Group D, will be asked to presubscribe to an IC at the time they place an order with the Telephone Company for Telephone Exchange Service. They may select either of the following options. There will be no additional charge for this initial selection. (C)

- Designate an IC as predesignated IC and dial 101XXXX other access codes, i.e., 950-10XX to reach other ICs. (C)

- Designate that they do not want to be presubscribed to any IC and choose to dial 101XXXX or other access codes, i.e., 950-10XX, for all calls for all ICs. (C)

Subsequent to the installation of Telephone Exchange Service, and after the end user's initial selection of a predesignated IC, for any additional change in selection, a nonrecurring charge, as set forth in (D) following, applies.

(D) The nonrecurring charge for Presubscription is that filed in Bell Atlantic Telephone Companies' Tariff F.C.C. No. 1.

Note: This charge is billed to the end user which is the subscriber to the Telephone Exchange Service.

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.4 Standard Jacks - Registration Program

Standard jacks are provided by the Telephone Company to connect Registered Equipment to those services that are subject to the Registration Program as set forth in 2.5 preceding. The use of jacks is covered in Part 68 of the F.C.C.'s Rules and Regulations. Specific jacks are described in the document on file with the F.C.C. entitled "Descriptions of Standard Registration Program Connection Configurations Supplementing Configurations Described in Subpart F of Part 68 of the F.C.C.'s Rules and Regulations."

These jacks are used to terminate services provided by the Telephone Company. Other services or facilities provided by the Telephone Company or by others may also be terminated in any spare capacity of the jacks remaining after installation without additional charge for the use of such capacity.

When jacks are ordered or otherwise required to install or to reterminate access, the provisions of Additional Labor set forth in 13.2 preceding apply.

* Next Tariff Sheet is Sheet 588

(C)

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

13.3 Miscellaneous Services (Cont'd)

13.3.5 Testing Services

The Telephone Company will, in addition to any customer requested acceptance testing, perform such tests as it believes necessary to insure that the access services ordered by a customer are functioning properly prior to turning over such access services to the customer. In addition, the Telephone Company as part of the ongoing work to maintain the continued satisfactory performance of the access services ordered by the customer, may perform periodic tests.

Testing Services offered under this section of the tariff are optional and subject to rates and charges as set forth in 13.3.5(C) following. Other testing services provided by the Telephone Company in association with Access Services are furnished at no additional charge. These other testing services are described in 6.1.6 and in the Special Services Tariff (Pa. P.U.C.-No. 304).

(C)
|

Testing services are normally provided by Telephone Company personnel at Telephone Company locations. However, provisions are made in (A) (5) and (B) (2) following for a customer to request Telephone Company personnel to perform testing services at the customer's premises.

The offering of Testing Services under this section of the tariff is made subject to the availability of the necessary qualified personnel and test equipment at the various test locations mentioned in (A), (B) and (C) following:

(A) Switched Access Service

Testing Services for Switched Access are comprised of (a) tests which are performed during the installation of a Switched Access Service, and (b) tests which are performed after acceptance of such access services by a customer, i.e., in-service tests. These in-service tests may be further divided into two broad categories of tests: scheduled and nonscheduled.

Scheduled tests are those tests performed by the Telephone Company on a regular basis, e.g., monthly, which result in the measurement of Switched Access Service. Scheduled tests may be done on an automatic basis (no Telephone

Company or customer technicians involved), on a cooperative basis (Telephone Company technician(s) involved at Telephone Company office(s) and customer technician(s) involved at customer's premises, or a manual basis (Telephone Company technician(s) involved at Telephone Company office(s) and at customer's premises).

Nonscheduled tests are performed by the Telephone Company "on demand", which result in the measurement of Switched Access Services. Nonscheduled tests may involve Telephone Company technicians at Telephone Company offices and at the customer's premises.

(1) Additional Cooperative Acceptance Testing

Additional Cooperative Acceptance Testing (ACAT) of Switched Access Service involves the Telephone Company provision of a technician at its office(s) and the customer provides a technician at its office(s) and the customer provides a technician at its premises, with suitable test equipment to perform the required tests.

Additional Cooperative Acceptance Tests may, for an example, consist of the following tests:

- . C-Notched Noise
- . Impulse Noise
- . Phase Jitter
- . Signal to C-Notched Noise Ratio
- . Intermodulation (Nonlinear) Distortion
- . Frequency Shift (Offset)
- . Envelope Delay Distortion
- . Dial Pulse Percent Break

(2) Automatic Scheduled Testing

Automatic Scheduled Testing (AST) of Switched Access Services (Trunkside BSA-950 Option, Trunkside BSA-10XXXX Option or Feature Groups B and D), where the customer (C)
