Rates and charges for service explained herein are contained in Part M, Section 5.

| 1.1.1     | Description                                                                                                                                                                                                                                                                                                                                                                                                          |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>A.</b> | <b>Availability</b> – Effective May 13, 2002 Collocation is no longer offered under this Product Guide to new customers or to existing customers at new central office locations. Existing customers may retain Collocation at their present location in the same or greater quantities.                                                                                                                             |
| <b>1.</b> | Collocation circuits provided to Carriers are available via relevant UNE offerings from the DTC MA No. 17 tariff.                                                                                                                                                                                                                                                                                                    |
| <b>B.</b> | Collocation provides a customer with space and associated requirements such as power and environmental conditioning within a Verizon central office building.                                                                                                                                                                                                                                                        |
| <b>C.</b> | Collocation is available to a customer solely for the purpose of connecting their fiber optic facilities to their owned and operated transmission equipment within their collocated space.                                                                                                                                                                                                                           |
| <b>D.</b> | Collocation is provided by Verizon where suitable central office facilities exist. A listing of such central offices is contained in Section 1.4.                                                                                                                                                                                                                                                                    |
| <b>E.</b> | Collocation is subject to the terms, conditions and charges specified in this Product Guide and to the terms and conditions specified in a contract between Verizon and the customer, known herein as an agreement. Terms and conditions described herein are in addition to the terms and conditions specified in the agreement. Verizon's obligation to provide collocation is contingent upon a signed agreement. |
| <b>1.</b> | Collocation agreements will have a base duration of three years, and are subject to renewal in accordance with the terms and conditions of the agreement.                                                                                                                                                                                                                                                            |

Effective: January 1, 2015

Verizon New England Inc.

# 1. Collocation

## 1.2 Responsibility of Verizon

| 1.2.1 Accommodations |                                                                                                                                                                                                                                                                                                                                                                                            |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>A.</b>            | In those instances where Verizon determines that existing space and associated requirements are available to provide collocation, Verizon will permit the customer to occupy between 100 and 300 square feet of Verizon owned space within a central office building, and make available a path for its fiber optic cable, subject to the terms and conditions set forth in the agreement. |
| <b>1.</b>            | Verizon will notify the customer in writing within a reasonable period of time following receipt of a collocation application as to the availability of space and associated requirements.                                                                                                                                                                                                 |
| <b>B.</b>            | Verizon will arrange for the construction of a secure enclosure around the customer's collocated space. The enclosure will conform with the standards for health, safety and security to which Verizon presently adheres within a central office environment and will be provided in accordance with terms and conditions specified in the agreement.                                      |
| <b>C.</b>            | Verizon will administer the customer's designated collocated space under the same terms and conditions as specified in this Product Guide for a customer premises.                                                                                                                                                                                                                         |
| <b>D.</b>            | Verizon is not required to purchase additional plant or equipment, relinquish forecasted space or facilities, or to undertake the construction of new quarters or to construct additions to existing quarters in order to satisfy a customer's request.                                                                                                                                    |
| <b>E.</b>            | Verizon will extend the customer's fiber optic cable to the cable vault and splice the cable to customer provided fire retardant riser cable and deliver it to the customer's collocated space on a time and materials basis as described in the agreement, at the rates and charges as specified in DTC MA No. 15, Section 30.                                                            |
| <b>F.</b>            | When special construction of facilities is reasonably required for the provision of collocation, the provisions, rates, charges and liabilities for special construction apply as set forth in Part A, Section 2.                                                                                                                                                                          |

| 1.2.2 Provision of Other Service |                                                                                                                                                                                                                                             |
|----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>A.</b>                        | Upon the establishment of collocation, Verizon will furnish to the customer, services as provided in Part B and Part C of this Product Guide, subject to the provisions, rates and charges specified in those Parts and as provided herein. |
| <b>1.</b>                        | The demarcation point for these services is as detailed in Part A, Section 1.                                                                                                                                                               |

Effective: January 1, 2015

**1. Collocation**  
**1.2 Responsibility of Verizon**

---

| <b>1.2.3 Safety and Technical Standards</b> |                                                                                                                                                                                                                                                                                                                                                                                                 |
|---------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>A.</b>                                   | Verizon may at any time, for purposes of inspection, access the customer's collocated space by prior notice, and may without prior notice, access the customer's collocated space for the purpose of averting any threat of harm inadvertently imposed by the customer upon the operation of Verizon equipment, facilities and/or personnel located outside of the customer's collocated space. |
| <b>B.</b>                                   | Verizon does not assume responsibility for the design, engineering, testing, or performance of the customer's equipment.                                                                                                                                                                                                                                                                        |
| <b>C.</b>                                   | Verizon can terminate an agreement before its date of expiration in the event that the customer is not in conformance with the terms and conditions contained herein and/or in the event that the customer imposes continued disruption and threat of harm upon Verizon's employees and/or network or its ability to provide service to other customers.                                        |

## **1. Collocation**

### **1.3 Responsibility of the Customer**

---

| <b>1.3.1 Ordering Service</b> |                                                                                                                                                                                                                                                                                            |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>A.</b>                     | Customers must request collocation through their Verizon point of contact.                                                                                                                                                                                                                 |
| <b>1.</b>                     | The point of contact will provide the customer a collocation application through which they must convey their requirements for space and associated requirements such as power and environmental conditioning, and any other matters of a special nature pertaining to customer occupancy. |
| <b>B.</b>                     | Customer requests received by Verizon for collocation will be processed by Verizon on a case by case basis.                                                                                                                                                                                |
| <b>C.</b>                     | If space is unavailable or a customer withdraws its request, the customer is responsible for any nonrecurring costs incurred by Verizon on behalf of the customer.                                                                                                                         |

| <b>1.3.2 Safety and Technical Standards</b> |                                                                                                                                                                                                                                        |
|---------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>A.</b>                                   | Customer facilities and equipment located in a Verizon central office building pursuant to this Product Guide will meet the technical standards and safety requirements as specified by Verizon.                                       |
| <b>B.</b>                                   | In the event of a Verizon work stoppage, the customer's employees, authorized agents and contractors will comply with the emergency operating procedures established by Verizon.                                                       |
| <b>C.</b>                                   | The customer's employees, authorized agents and contractors will comply with Verizon policies and practices pertaining to safety and security and with all terms and conditions relating thereto as may be set forth in the agreement. |

| <b>1.3.3 Placement and Removal of Facilities and Equipment</b> |                                                                                                                                                                                                                                                                     |
|----------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>A.</b>                                                      | The customer will bring its fiber optic cable to the central office manhole and leave sufficient cable length in order for Verizon to be able to fully extend such cable through to the vault.                                                                      |
| <b>B.</b>                                                      | Upon the day of expiration of the agreement, the customer will disconnect and remove its equipment from its collocated space up to the demarcation point and from all other areas identified as common between the customer and Verizon as stated in the agreement. |
