B. WATS

(T)

1. Description

The WATS customer is furnished a WATS access line arranged for outward calling only. WATS provides for directly dialed telephone calling from a WATS termination by way of the WATS access line and the public switched network to other locations in the same subscription area as that in which the access line terminates.

(T)

2. Terms and Conditions

(a) Area of Service

A WATS message must originate and terminate in the WATS subscription area for which the access line is arranged.

(T)

(b) Rate Structure

- (1) Monthly usage charges for a service group are computed on an average usage per line basis according to a tapered schedule. There is no minimum monthly usage requirement. Hourly rates for each hour of use decrease at defined levels of use called taper points.
- (2) This schedule requires a separate monthly charge for each access line in a service group independent of usage.
- (3) In addition to the charges described elsewhere, a Set-Up charge applies to each message, whether dialed by the customer or Company operator as provided in III.A.2., Limitations of Service, preceding.

(c) Service Group

The term "Service Group", as used in connection with WATS, denotes one or more access lines for the same subscription area appearing in the same multiline system terminating on the customer's side of the Company's local loop demarcation point.

(d) Usage Charges

Method of determining usage charges for WATS:

- (1) Note the total actual hours to be billed for the service group.
- (2) Determine the chargeable hours rounded to the nearest tenth (one decimal place) for the service group. See III.B.2.(c). preceding.
- (3) Determine the number of access lines in the service group in service during the month. Access lines in service for a fraction of a month are based on the number of days in service divided by 30 days. The result is rounded to the nearest hundredth (two decimal places).
- (4) Determine the average hours of use per line in the service group by dividing the chargeable hours in (2) above, by the number of access lines in (3) above. The result is rounded to the nearest hundredth of an hour.
- (5) Determine the usage charge per line by multiplying the hourly rate for the appropriate taper(s) by the number of hours used in each taper and then totaling these charges. The result is rounded to the nearest cent.
- (6) Determine the total usage charge for the service group by multiplying the usage charge per access line in (5) above by the number of access lines in (3) above. The result is rounded to the nearest cent.

Dedicated 800 Service is furnished upon the condition that the customer obtain adequate service to permit the use of the service without injurious effect upon it or any other service rendered by the Company. The Company may terminate or refuse to furnish 800 Service to any customer, without incurring any liability, if the use of the service would interfere with or impair WATS ¹ or any other service rendered by the Company. In the case of a termination of service, at least five days must elapse following written notification to the customer by mail or in person of the Company's intention to terminate the service for such cause. This notice need not be given by the Company in the case of any emergency which, in the judgment of the Company renders immediate discontinuance of service.

(f) Impairment of Service

- (1) A Dedicated 800 Service customer must subscribe to and make use of a sufficient number of access lines so that use of the service does not interfere with another customer's service or proper operation of the public switched network.
- (2) Any arrangement permitting customer control of the number of messages completed to a Dedicated 800 Service access line is not permitted.

(g) Service Group

The term "Service Group" as used in connection with Dedicated 800 Service, denotes the access lines for the same subscription area arranged in central office equipment furnished by the Company as part of a given hunting arrangement. (The term "hunting arrangement" denotes a grouping of Dedicated 800 Service access lines arranged for the completion of a given call or arranged for overflow to or from another access line or group of access lines.)

(j) Usage Charges

Method of determining usage charge for Half State, Full State, or Metro 800 service:

- (1) Determine the total actual hours to be billed for each rate period for each service group.
- (2) Determine the chargeable hours rounded to the nearest tenth (one decimal place) for each rate period for each service group. See III.B.2.(e). preceding.
- (3) Determine the total usage charge by multiplying the hourly rate for the appropriate rate period by the number of chargeable hours in each rate period and then totaling these charges. The applicable hourly rate for Northern California Half State, Southern California Half State, Full State, or Metro 800 is dependent upon whether or not the minimum requirement of 100 hours of usage in a monthly billing period has been met.

D. BUSINESS/RESIDENCE⁴ LINE 800 SERVICE

(T)

1. Description

- (a) Business/Residence Line 800 Service allows a customer to terminate an 800/888 service on a regular, PBX, or CentraNet® business line, thereby eliminating the need for a dedicated line. This service provides for directly dialed telephone calling via the public switched network from other locations within the same subscription area as that in which the business line terminates. Business/Residence Line 800 charges will be in addition to the applicable line or trunk rate.
- (b) When a customer subscribes to additional service areas, the Company will provide Business/Residence Line 800 Service in conjunction with an Interexchange Carrier. The Company will provide the intraLATA portion and the Interexchange Carrier will provide the interLATA portion. For the interLATA service which the Interexchange Carrier provides, the NRCs and monthly recurring charges of the Interexchange Carrier will apply.
- (c) Rates within this section are applicable only to dial type telecommunications from stations within the LATA to a station associated with an 800/888 termination point within the same LATA.
- (d) Dial type telecommunication is a call dialed and completed to Business/Residence Line 800 Service without the assistance of a Company operator or placed with an operator where facilities are not available for dial completion or where, for other service reasons, operator assistance in completion of the call is necessary.
- (e) Discount Plans are available for customers who sign up for one, two, or three years of service. Nonrecurring charges and usage will be discounted as specified in the rates section. Customers who sign a term agreement for one, two, or three years of service will also receive a unique ringing signal at no additional charge. The unique ringing signal will enable the customer to distinguish if the incoming call was placed by dialing the 800/888 number or the customer's local exchange number. This will be provided on only one termination and only where facilities and conditions permit.

3. Determination of Charges

- (a) Determine the chargeable hours rounded to the nearest tenth (one decimal place) for each rate period for each 800/888 number. See III.A.2.(e). preceding.
- (b) The chargeable hours within each rate period determines the appropriate rate.
- (c) Determine the total usage charge by multiplying the hourly rate for the appropriate rate period by the number of chargeable hours in each rate period and then totaling these charges.
- (d) Add the monthly rate (per 800/888 number) to the total usage charge calculated above to obtain the total overall charge for Business/Residence Line 800 Service on a single 800/888 number.
- (e) Repeat steps 1 through 4 for each additional 800/888 number.
- (f) Rates for changes to existing Business/Residence Line 800 Service are found in Section 3 of this Product Guide, Subsequent Order Additions Charge.

4. Charges for Business/Residence Line 800 Service are determined on a per 800/888 number basis. Usage on separate 800/888 numbers may not be aggregated.

2. Four-Wire Terminating Arrangements

- (a) Four-Wire Terminating Arrangements are used in connection with Wide Area Telecommunications Service.
- (b) The Four-Wire Terminating Arrangement permits terminating equipment that is designed to use four-wire terminations to be connected to the Company's services. While this offering contemplates the use of four-wire facilities, between the local serving central office and the premises terminating equipment, two-wire facilities may be used. Transmission performance that meets the established standards of the Company will be obtained over facilities connected to a Four-Wire Terminating Arrangement. If a customer requires additional special equipment for which provision is not included herein, additional installation charges and monthly rates will be incurred based upon the total cost of the equipment furnished or of the special work required, subject to the review of such charges by the Public Utilities Commission of the State of California.
