BASIC EXCHANGE ACCESS LINE RESIDENCE SERVICES (T)

III. SPECIAL CONDITIONS (L)

A. General

1. Rates for local calling are applicable to the duration in minutes (rounded upward) of each message originating from a measured-rate line and terminating at a location within the Local (serving) Exchange or within an Extended Service Area as set forth in Schedule Cal. P.U.C. No. A-28.

2. All services listed may be furnished from any central office serving the exchange or district area at the discretion of the Utility.

3. In the Sierra Madre Exchange, the Utility will provide, own and maintain all facilities between the central office and the boundary of the base rate area used to furnish service in the mountainous area located outside the base rate area and within the exchange area. The customer will provide, own and maintain all facilities used to provide service between the customer's station and the point of connection with the Utility's facilities at the base rate area boundary. Exchange rates, based on the point of connection, will apply to these services. (T)

4. While the Utility's Basic Exchange Access Line Service may be used by the customer for dial-up access, the advertised speeds of the customer's modem may not be attainable with this service and are not guaranteed by the Utility. (T) (L)

5. Individual Line Residence Measured Rate Service Usage Allowance (L[1]) (T)

a. Each residential measured-rate service customer will receive an allowance for local and ZUM calling of $3.00 per line. If the usage does not exceed the usage allowance, the customer will not be given credit in subsequent billing periods for the unused portion of the usage allowance.

b. For accounts to which more than one individual line residence measured rate service is billed, the monthly billing for usage for each account will be the total accumulated usage for the billing period at the rates and discounts as set forth in Schedule Cal. P.U.C. No. A-1 for local calls and as set forth in Schedule Cal. P.U.C. No. H-1 for ZUM Zone 3 calls less the sum of the applicable usage allowances for each line. When the usage does not exceed the sum of the applicable usage allowances, the customer. will not be given credit in subsequent billing periods for the unused portion of the usage allowances.

c. Usage allowances are not applicable to message toll calls.

d. The usage allowance does not apply to calls on routes for which the customer is subscribing to the Discount Calling Plans. (L[1])

(L) Material moved from 22nd Revised Sheet 12.
(L[1]) Material moved from 21st Revised Sheet 13.

Continued

BASIC EXCHANGE ACCESS LINE RESIDENCE SERVICES (T)

III. SPECIAL CONDITIONS - Continued

B. Basic Exchange Access Line Residence Services (L)

1. Residential customers may request conversion from flat-rate basic exchange service to measured rate basic exchange service, or vice versa, to determine the best call rating and billing for their local service.

2. Customers may make up to two (2) subsequent changes (between flat-rate and measured service) within a ninety (90) day period without incurring a Service Order Change Charge for the two (2) changes.

3. The Service Order Change Charge is waived for ninety (90) days from the date customer goes in-service (service turned on in "Initial" or "Move" order) after the initial service install or move is completed.

4. Initial Service Order Charges for new installation or moves are NOT waived, nor is the Service Order Change Charge waived for changes other than the change listed in III.B.2 above.

5. A Service Order Change Charge is applied to the third and all subsequent changes between flat-rate and measured basic exchange service during the ninety (90) day waiver period. (L)

6. Basic Exchange Access Line Residence Service includes the basic service elements as defined by D.96-10-066. The basic service elements are as follows: (N)

a. access to single party local exchange service;
b. access to all interexchange carriers offering service to customers in a local exchange;
c. ability to place calls;
d. ability to receive free unlimited incoming calls;
e. free touch tone dialing;
f. free and unlimited access to 911/E911;
g. access to local directory assistance, and access to foreign NPAs;
h. Lifeline rates and charges for eligible customers;
i. customer choice of flat or measured rate service;
j. free provision of one directory listing per year as provided for in D.96-02-072;
k. free white pages telephone directory;
l. access to operator services;
m. voice grade connection to public switched telephone network;
n. free access to 800 or 800-like toll free services;
o. one-time free blocking for information services and one time billing adjustments for charges incurred inadvertently, mistakenly, or that were unauthorized;
p. access to telephone relay service as provided for in PU Code § 2881;
q. free access to customer service for information about ULTS, service activation, service termination, service repair and bill inquiries.
r. free access to CRS via the 711 abbreviated dialing code (N)

C. Verizon Dial DataLink® Service [1, 2] (L[1])
(L)

Verizon Dial DataLink® Service is an enhancement to single line residential and single line business service to provide higher quality transmission standards than normally provided for voice transmission. It is designed for customers requesting a better grade of service for data transmission. Lines conditioned with this level of service may also be used for normal voice communication. This service is offered subject to the availability of suitable facilities. (D)

1. The parameters of Verizon Dial DataLink® Service are designed to support transmission of data up to 4800 bits per second on the local loop from the point of demarcation to the serving central office switch.

2. The quality of the line is guaranteed only between the premises point of demarcation and the serving central office switch. No guarantee is made for transmission level over the entire circuit.

3. Verizon Dial DataLink® Service may not be compatible with other services offered in the Utility's tariffs.

4. All appropriate charges in Schedule Cal. P.U.C. No. A-41 apply. (L[1])

[1] Dial DataLink® Service is withdrawn effective May 11, 2006. (L[1])
[2] Dial DataLink®Service is limited to existing customers at existing locations as of January 27, 2005. Moves, additions or changes will not be permitted. (L[1])

INDIVIDUAL LINE AND TRUNK LINE BASIC EXCHANGE SERVICES

III. SPECIAL CONDITIONS

A. General

1. Rates for local calling are applicable to the duration in minutes (rounded upward) of each message originating from a measured-rate line and terminating at a location within the Local (serving) Exchange or within an Extended Service Area as set forth in Schedule Cal. P.U.C. No. A-28.

2. All services listed may be furnished from any central office serving the exchange or district area at the discretion of the Utility.

3. The rate for PBX trunks applies for each trunk ordered. Direct Inward Dialing Service (DID) station numbers may be purchased at rates set forth in Section II.M. of this tariff. (T)

4. Customers who subscribe to DID numbers for PBX trunks are required to keep 50% or more of the assigned numbers working at all times in order to retain assignment of their entire block of numbers. Customers must notify the Utility if their usage level drops below 50% so that action can be initiated to reclaim the DID numbers. (N) (N)

5. In the Sierra Madre Exchange, the Utility will provide, own and maintain all facilities between the central office and the boundary of the base rate area used to furnish service in the mountainous area located outside the base rate area and within the exchange area. The customer will provide, own and maintain all facilities used to provide service between the customer's station and the point of connection with the Utility's facilities at the base rate area boundary. Exchange rates, based on the point of connection, will apply to these services. (T)

6. While the Utility's Basic Exchange Access Line Service may be used by the customer for dial-up access, the advertised speeds of the customer's modem may not be attainable with this service and are not guaranteed by the Utility. (T)

A. General (Continued)

6. Individual Line Residence Measured Rate Service Usage Allowance

a. Each residential measured-rate service customer will receive an allowance for local and ZUM calling of $3.00 per line. If the usage does not exceed the usage allowance, the customer will not be given credit in subsequent billing periods for the unused portion of the usage allowance.

b. For accounts to which more than one individual line residence measured rate service is billed, the monthly billing for usage for each account will be the total accumulated usage for the billing period at the rates and discounts as set forth in Schedule Cal. P.U.C. No. A-1 for local calls and as set forth in Schedule Cal. P.U.C. No. H-1 for ZUM Zone 3 calls less the sum of the applicable usage allowances for each line. When the usage does not exceed the sum of the applicable usage allowances, the customer. will not be given credit in subsequent billing periods for the unused portion of the usage allowances.

c. Usage allowances are not applicable to message toll calls.

d. The usage allowance does not apply to calls on routes for which the customer is subscribing to the Discount Calling Plans.

7. Vacation Service (Residential) (N)

Vacation Service is for numbers already in service. The customer's number must be working for at least 90 days in a calendar year. (C) (C)

Numbers may be reserved for a period of not less than one month and up to a maximum of nine months. Monthly rates are specified in Section II.RATES. (N) (N)

8. Reservation of Telephone Number (Business) (N)

A business telephone number may be reserved after the listing in which the telephone number appears has been advanced to the directory and the customer subsequently delays or cancels the installation of the telephone service. The maximum period for which a telephone number may be reserved is 180 days.

F. Verizon Dial DataLink® Service [1, 2] (T)

Verizon Dial DataLink® Service is an enhancement to single line residential and single line business service to provide higher quality transmission standards than normally provided for voice transmission. It is designed for customers requesting a better grade of service for data transmission. Lines conditioned with this level of service may also be used for normal voice communication. This service is offered subject to the availability of suitable facilities.

1. The parameters of Verizon Dial DataLink® Service are designed to support transmission of data up to 4800 bits per second on the local loop from the point of demarcation to the serving central office switch.

2. The quality of the line is guaranteed only between the premises point of demarcation and the serving central office switch. No guarantee is made for transmission level over the entire circuit.

3. Verizon Dial DataLink® Service may not be compatible with other services offered in the Utility's tariffs.

4. All appropriate charges in Schedule Cal. P.U.C. No. A-41 apply.

[1] Dial DataLink® Service is withdrawn effective May 11, 2006. (N)
[2] Dial DataLink®Service is limited to existing customers at existing locations as of January 27, 2005. Moves, additions or changes will not be permitted. (T)

F. GTE Dial DataLink® Service (N)

GTE Dial DataLink® Service is an enhancement to single line residential and single line business service to provide higher quality transmission standards than normally provided for voice transmission. It is designed for customers requesting a better grade of service for data transmission. Lines conditioned with this level of service may also be used for normal voice communication. This service is offered subject to the availability of suitable facilities.

1. The parameters of GTE Dial DataLink® Service are designed to support transmission of data up to 4800 bits per second on the local loop from the point of demarcation to the serving central office switch.

2. The quality of the line is guaranteed only between the premises point of demarcation and the serving central office switch. No guarantee is made for transmission level over the entire circuit.

3. GTE Dial DataLink® Service may not be compatible with other services offered in the Utility's tariffs.

4. All appropriate charges in Schedule Cal. P.U.C. No. A-41 apply.

G. Personalized Telephone Number

1. Personalized Telephone Number (PTN) service provides the customer with a telephone number containing the digits the customer has specifically requested or with a telephone number selected through a customer- requested search of available telephone numbers. The charges set forth in RATES preceding apply if the specifically-requested or search-selected telephone number is available. (T) (T)

2. Customers placing service orders which require the assignment of a new telephone number will be offered a choice of five available numbers. Any additional searching will be considered PTN service and will be charged accordingly.

3. PTN is subject to Schedule Cal. P.U.C. No. D&R Rule No. 17 which states, "the customer has no proprietary right in the number, and the Utility may make such reasonable changes in the telephone number as the requirements of the service may demand."

4. All PTN-requested telephone numbers are subject to availability, and provided at the discretion of the Utility. (T)

5. Existing customers who have a specific number prior to the establishment of this service will not be charged for PTN service.

6. If the Utility finds it necessary to change the PTN customer's telephone number, the PTN customer will be granted a refund of the nonrecurring charge (NRC) as specified under RATES preceding.

7. PTN service will not be offered to 800 service business customers.

8. Service connection charges will not apply when changing from a PTN to a nonspecific number at the customer's request.

9. PTN includes an alpha or numerical directory listing as provided in Schedule Cal. P.U.C. No. D-1.

I. Direct Inward Dialing Service (DID) - Continued

1. Equipment Arrangement - Continued

k. Service provided from a step-by-step (non-electronic) central office or a central office utilizing a GTD-4600 as the serving switch is limited as follows:

(1) When the customer subscribes to less than 1000 numbers, a separate trunk group is required for each group of 100 numbers and two digits will be forwarded to the customer premises.

(2) In order to have three digits forwarded to the customer premises, the customer must subscribe to a minimum of 1000 numbers which requires a separate trunk group for each 1000 numbers.

l. Service provided from electronic central offices may be arranged to forward the number of digits to the customer premises as specified by the customer. A separate trunk group is not required for each group of numbers.

m. When the customer requests non-direct inward dialing trunks changed to direct inward dialing trunks, these trunks will be considered new and the applicable service connection charges as shown in Schedule Cal. P.U.C. No. A-41 will apply.

n. Discounted monthly rates are also available for DID Service when it is ordered in conjunction with PBX service. For rates, terms and conditions refer to Sections II.O. and III.J. (T)

2. Extended Basic Referral

Extended Basic Referral permits incoming DID trunks to be placed on intercept and routed to a "change number announcement." This service allows a business DID customer who is relocating within the Company or changing numbers to have as many internal lines placed on intercept as desired. Dialing the customer's former DID number results in a prerecorded message which announces the new number.

a. Extended Basic Referral is offered to DID customers in five (5) DID number increments and is subject to the availability of facilities.

If the customer requests such a transfer, the customer will be subject to a change in telephone numbers and will also incur initial nonrecurring charges and applicable Service Order Charges in Schedule Cal. P.U.C. No. A-41.

h. A change in central office equipment could require the customer to discontinue the service or obtain service from another central office. The Utility makes no guarantees and assumes no liability for loss of service to the customer, resulting from the conversion or upgrade of central office equipment.

i. DIOD service works in conjunction with Direct Inward Dialing (DID) service and the charges specified in II.M.1.e are in addition to applicable rates and charges for DID service specified II.M.1.b. (N)

J. PBX Discount Pricing Plan (DPP)

1. Customers subscribing to the 12 month and 36 month PBX Trunk Discount Pricing Plans are eligible for Verizon IntraLATA Toll usage discounts. Customers may also receive discounts on DID Service. (T)

2. Minimum Monthly Billing

a. Verizon IntraLATA Toll Service (T)

A minimum monthly billing applies for all Verizon IntraLATA Toll usage as follows. For customers with a 12 or 36 month PBX Term and less than 5000 minutes of use (MOU) per month, the Minimum Monthly Billing will be $25.00 per PBX Trunk. For customers with a 12 or 36 month PBX Term and 5000 or more MOU per month, the Minimum Monthly Billing will be negotiated. The Utility will true up the actual toll usage annually. If the amount is less than 12 times the total PBX trunks multiplied by the per trunk minimum, the customer will be billed for the difference. The customer is also liable for the minimum monthly billing should the service be terminated (see III.J.3.b., Termination Liability). (T) (T)

3. Termination Liability

(D)

J. PBX Discount Pricing Plan (DPP)

1. Customers subscribing to the 12 month and 36 month PBX Trunk Discount Pricing Plans are eligible for GTE IntraLATA Toll usage discounts. Customers may also receive discounts on DID Service. (T)

2. Minimum Monthly Billing

a. GTE IntraLATA Toll Service (T)

A minimum monthly billing applies for all GTE IntraLATA Toll usage as follows. For customers with a 12 or 36 month PBX Term and less than 5000 minutes of use (MOU) per month, the Minimum Monthly Billing will be $25.00 per PBX Trunk. For customers with a 12 or 36 month PBX Term and 5000 or more MOU per month, the Minimum Monthly Billing will be negotiated. The Utility will true up the actual toll usage annually. If the amount is less than 12 times the total PBX trunks multiplied by the per trunk minimum, the customer will be billed for the difference. The customer is also liable for the minimum monthly billing should the service be terminated (see III.I.3.b., Termination Liability). (T) (T) (T)

3. Termination Liability

The Termination Liability for each DPP is calculated as follows. The total Termination Liability will depend on the customer's total DPP solution and may include one or more of the following components:

a. PBX Trunks and DID Service

A PBX Trunk and DID Service Termination Liability charge applies as follows. This charge is applied when a PBX DPP is terminated by the Customer prior to the end of the respective 12 or 36 month term. The charge will be ninety per cent (90%) of the term monthly rates applied to the initially ordered PBX trunk and DID line quantities, for the number of months remaining in the term. The liability is applicable for both PBX Trunks and DID Station lines.

b. Verizon IntraLATA Toll Service

A Verizon IntraLATA Toll Termination Liability charge applies. This charge is applied when a PBX/Verizon IntraLATA Toll term is terminated by the customer prior to the end of the respective 12 or 36 month term. The liability for customers with less than 5000 MOU per month will be $25.00 per trunk for the initial ordered quantity of PBX Trunks times the number of months remaining in the term.

4. A Customer's volume discounts may be calculated based on an aggregate of all locations statewide.

5. Additional PBX trunks and DID groups may be added under a Discount Pricing Plan (DPP) at the same rate as the current DPP for the remainder of the DPP term.

6. Before the expiration of a discount pricing plan period, a customer may elect to subscribe to a new Discount Pricing Plan with the same or longer term period than the current plan. When a new discount pricing plan is chosen, the new rate applies for the new term period and the previous rates no longer apply.

7. Schedule Cal. P.U.C. No. B-5 has a list of services for which Discount Pricing Plans are available.

L. Digital Format Trunking (T)

1. This Service is applicable to the provision of Direct-Inward-Dialing/Direct-Outward Dialing (DID/DOD) trunks in digital format with answer back supervision from the utility to the customer's facilities.

2. DID/DOD trunks allow incoming and outgoing calling in a digital transmission format and, optionally, may utilize answer supervision on DOD trunks.

3. DID/DOD trunks are provided from the utility's central office to the customer's premises in a high capacity digital transmission format.

4. Services in this schedule will be provided on the basis of a minimum service period of 60 months. Any customer who discontinues service prior to the completion of the 60 month period will be required to pay for the remaining months.

5. Channel bank is necessary if the customer's equipment is not compatible with the utility's digital facilities.

6. This service is available only to customers in the exchanges listed in Schedule Cal. P.U.C. No. AB, Sheet 2.

M. Discounts for Qualifying Entities (T)

Basic Exchange Access Line Business Services, Measured-Rate Service and PBX Trunk are the only services contained in this tariff that are eligible for the Teleconnect Discount Service. See Schedule Cal. P.U.C. No. T-1 for qualifications and discounts for Schools, Libraries, Health Care Providers, and Community Based Organizations.
