3. LEVEL BILL PLAN (LBP) (L)

The LBP is available to large telephone users excluding IECs, whose accounts average $10,000 per month. The account must be in service for a full 12 months prior to participation in the LBP.

Subscription to the plan will be open on a quarterly basis. Enrollment requests must be received by the Utility a minimum of 30 days prior to the next quarter. This lead time enables determination of the appropriate LBP amount and the necessary billing system preparation. The LBP amount will be based on the last 12 months of billing divided by 12 to determine the account's monthly average. The LBP amount will be reviewed and adjusted annually.

All monthly service rates and charges will be billed at regular billing cycles. The bill format will be revised to reflect the LBP amount due and payable, and the credit or debit status relative to the amounts paid versus amounts billed.

The centralized credit check system (CCCS) may be utilized to determine credit worthiness of new applicants to the LBP. An account whose service is temporarily disconnected for non-payment within the preceding 12 month period may be denied the LBP.

A settlement procedure will occur in the month following each quarter whereby the difference between the amount paid the previous quarter and the actual amount billed will be debited or credited to the next month's level payment.

The plan will be processed in quarterly cyclic periods, as follows.

(Re) Establishment in January,	True Up in April
(Re) Establishment in April,	True Up in July
(Re) Establishment in July,	True Up in October
(Re) Establishment in October,	True Up in January

Discontinuance requests must be made no later than 30 days prior to the next monthly billing cycle. These accounts will be eligible to request participation in the LBP at a later date.

The LPC will then be applicable to the first bill following discontinuance of participation in the LBP.
