MARITIME RADIOTELEPHONE SERVICE

SPECIAL CONDITIONS

1. VHF Maritime Service is a communication service through a coastal station between a wire line or mobile telephone and a ship station or between two ship stations.

   VHF Maritime Service is furnished between a coastal station and

   a. A ship station in range of the coastal station, to provide a portion of facilities for telecommunication with other telephones, or

   b. Two ship stations in range of the coastal station, to provide facilities for telecommunication between such ship stations.

2. VHF Maritime Service is available to ship equipped for this service when in range of a coastal station through which such service is furnished and subject to transmission, atmospheric, and like limitations.

3. Where the message is between two ships served through the coastal station, the Rate in A.1. above will be applied to each ship.

4. No additional charge applies to ship originated calls to any telephone located within the service area as defined under territory.

5. For service with ships of foreign registry served through coastal stations, in addition to the charge specified in this tariff, the ships station charge specified in the List of Ship Stations, published by the International Telecommunication Convention of Geneva (1959) shall apply.
