OBSOLETE SERVICE (N)

FARMER LINE SERVICE - Continued

SPECIAL CONDITIONS

A1 Rates for service include local service without additional charge to all stations receiving service from the exchange listed under Rates above.

A2 Service is furnished outside the base rate area and normally within the exchange area. A farmer line telephone shall not be located within the base rate area. A farmer line shall not extend across an exchange boundary except upon a foreign exchange basis, as may be provided in foreign exchange schedules.

A3 The utility will provide, own, and maintain all outside plant facilities used to furnish farmer line service to the boundary of the base rate area. The customer will provide, own, and maintain all outside plant facilities beyond the boundary of the base rate area.

A4 Farmer line service will be rendered outside the base rate area but within the exchange area to less than five customers, provided the total minimum exchange revenue of each circuit is not less than that of five residence stations.

A5 In the San Miguel serving area, the customer will be allowed a discount of ten percent (10%) on the charge for exchange service if bill is paid at the utility's office during the first month of the year. New customers will be billed from the date of connection to the end of the year and annually in advance thereafter. Initial bills rendered new customers will be subject to a ten percent (10%) discount on the charge for exchange service, provided the bill is paid at the utility's office within thirty days after date of bill. (N)

OBSOLETE SERVICE (N)

FARMER LINE SERVICE - Continued

SPECIAL CONDITIONS - Continued

A6 Farmer line service will be furnished to lines as a whole only. It shall be the duty of the members of each farmer line to appoint or designate a secretary or manager for such line and no new member shall thereafter be connected to said line nor will the utility assign a number to a new member on such line except on written authority from such secretary or manager. Telephone service will be furnished to a farmer line only when service at the above rates is subscribed for in connection with each telephone connected to the line. Should a telephone for which service has not been subscribed be connected to a line, it shall be the duty of the secretary or manager to disconnect such telephone and refuse to permit its reconnection until proper arrangements have been made for service with both the manager of the line and the utility. The utility shall render bills for exchange and toll service to the individual members of the farmer line unless requested to do otherwise by the secretary or manager. If a customer fails to pay a bill within the period set forth under the rules, the utility may ask the secretary or manager to assist in collecting the unpaid bill. If, after reasonable effort the secretary or manager is unable to effect collection, the utility will assume full responsibility for the unpaid charges. In case the utility does not secure payment of all charges against each member on any line within the period set forth under the rules, the utility may deny exchange and toll telephone service to the line as a whole until the bill for such charges shall have been paid or until the utility shall have received notification from the secretary or manager that the telephone of the member or members from whom payment has not been received has been disconnected from the line. (N)

OBSOLETE SERVICE (N)

FARMER LINE SERVICE - Continued

SPECIAL CONDITIONS - Continued

A7 Farmer line service will be furnished provided the outside plant facilities owned by the customer or customers are properly constructed and in an operating condition. The utility reserves the right to discontinue telephone service to a customer or customers served by a farmer line by disconnection of such farmer line if a fault in any part of the facilities provided by the customer or customers causes interference with service furnished to other customers, and may refuse to reconnect the line until the fault is corrected and the line and other customer-provided facilities are placed in an operating condition.

A8 A farmer line may not be connected to more than one exchange. In the event that the farmer line is so connected, and upon failure, after notice to the customers of record on that line, to comply with the above provision, the utility shall then have the right to disconnect that line.

A9 Connection to new farmer line circuits
On or after January 1, 1974, this utility will not provide connecting facilities to new or proposed farmer lines; however, additional stations may be connected to existing lines.

A10 Within the Colfax exchange discounted rates are not allowed. (N)

OBSOLETE SERVICE (N)

FARMER LINE SERVICE - Continued

APPLICABILITY

Applicable to farmer line service provided from the Garberville exchange and limited to customers residing in the unfiled territory known as Hanson Ranch as described in and as required by CPUC Decision 89-01-042.

TERRITORY

Within the Garberville exchange as said area is defined on maps filed as part of the tariff schedules.

RATES		Monthly Rates
A1	Each local primary service	
B1	Business access line	$37.65
B2	Residence access line	13.85

SPECIAL CONDITIONS

A1 Farmer line service will provide Garberville exchange network access line service to specified customers outside the exchange area.

A2 The Utility will provide, own, and maintain all outside plant facilities used to furnish farmer line service to the boundary of the exchange areas. The customer will maintain all outside plant facilities beyond the standard network interface at the exchange boundary. (N)

OBSOLETE SERVICE (N)

FARMER LINE SERVICE - Continued

SPECIAL CONDITIONS - Continued

A3 GTE shall make available one-party Farmer Line Service at a point of demarcation in the Garberville exchange at a location as set forth in Paragraph A4 below. This service will be made available at the regular nonrecurring charges and monthly rates (including ULTS) that apply to the regular one-party services in the Garberville exchange. Each one-party Farmer Line Service will be provided through a standard network interface (SNI connector block) housed in a secure metal enclosure similar to those used in multi-tenant buildings.

A4 This service will be a limited offering to the customers residing in the unfiled territory known as Hanson Ranch encompassed by the Garberville, Piercy, Leggett, and Laytonville exchanges as described in Decision 89-01-042, which became effective on January 26, 1989. This service will not be provided in any other location within the Garberville exchange or any other GTE or former Contel serving area. (N)

OBSOLETE SERVICE (N)

FIRE REPORTING SYSTEMS - Continued

SPECIAL CONDITIONS

A1 A fire reporting telephone system will be furnished under the provisions of this tariff to a fire protection district, a municipality, or other governmental agencies for use in transmitting reports of fires, other public emergencies, and for the operation of public alarm signals.

A2 The utility's liability to the customer for this service, or to any member of the public, or to any third party for any failure of the system, or any delay, interruptions, confusion or mistake in transmission of any message or signal or any consequence for the use, misuse, or failure of the system or service shall be limited to an allowance for interruptions or failure of service as specified in the Rules of this tariff. In no event will the utility be liable to the customer, or any member of the public or any governmental body for any consequential damage arising from any of the foregoing.

A3 Where a special type of fire reporting system or facilities are furnished for a customer which are not specifically covered by this schedule the utility may require a special agreement to be signed by the customer. This agreement will cover the special conditions related to the service if any, its methods of operation and liability clauses to protect the utility to the extent limiting its financial responsibility to the total charges applicable to the service and/or facilities provided.

A4 Arrangements to signal firemen's telephones must be compatible with the ringing characteristics of the fire reporting system and the serving central office.

A5 Each fireman is required to subscribe to either business or residence one-party network access line service which will be terminated on special fire alarm telephone sets. This access line will be independently billed to each volunteer fireman.

A6 A siren control relay will be installed by the utility. All other wiring necessary for the operation of the siren will be provided by the fire department.
