STRUCTURE OF PART C – CHANNEL SERVICE

1.1 HOW TO USE THIS MATERIAL

1.1.1 APPLICATION

This Product Guide contains rates and terms of service applicable to channel services, channels and certain supplemental equipment items associated with channels furnished or made available by the Verizon New Jersey Inc., hereinafter referred to as the Company, throughout the territory served by it, over facilities wholly within a LATA and within the state of New Jersey, and to service points located exclusively within the State of New Jersey.

The terms of service are applicable to all intrastate intra-LATA facilities and services furnished by the Company and are in addition to the Terms of Service governing these services as specified in Part 0, Section 1.

Where portions of channel service are furnished by another telephone company, its rates and terms of service apply to the portions of service which it provides.

1.1.2 PRODUCT GUIDE FORMAT

The Product Guide sections listed in 1.1.2 preceding are divided into subsections (e.g., 1.1 and 1.1.1) which are intended to logically subordinate the subject matter contained therein. Additional levels of subordination are used as necessary to further outline each subsection.

Grandfathered service offerings are identified the Grandfathered Services, Section 8.

1.1.4 SPECIAL CHARACTERS

A. SPECIAL CHARACTERS

Positive entries are required in each column of a rate table. When the applicable rate or charge is "none" or when the service is "not offered", the letters NO are shown in the appropriate column. (Where the usage of NO is unclear, a note has been added for clarification). When the rate or charge for an item is shown elsewhere in the Product Guide or cannot be shown in a single entry, the letters RR (Referenced Rate) are shown in the appropriate column and a footnote is used to (1) refer to the location of the applicable rate or charge, or (2) specify the applicable rate or charge. When a Universal Service Order Code (USOC) is not applicable for a particular rate element, the letters NA are shown in the USOC column.
