
PUBLIC TELEPHONE SERVICES

NOTE: Public Telephone Services consist solely of Public Access Lines and Public Access Smart-pay Line Service, as specified in Paragraphs A. and B. following.

A. PUBLIC ACCESS LINES

1. General

Public Access Lines (PALs) are voice grade individual business exchange lines which provide exchange access from the subscriber's premises to the Company's central office facilities for the purpose of connecting COCOTs (as defined in Paragraph A.3.a. of this Section following) to the Company's network.

2. PAL and Feature Descriptions

a. Public Access Lines

PALs are measured service lines arranged for either two way (incoming and outgoing) calling or one way (outgoing) calling.

Lines may also be arranged for Outward Call Screening where facilities permit. This feature is designed to prevent a PAL user from obtaining service through an operator when such service is billed to the calling number. An Automatic Number Identification (ANI) code is transmitted to alert operator and carrier systems that the call is originating from a Public Access Line and may require special handling and billing treatment. However, if an interexchange carrier's facilities are not compatible with the Company's signaling arrangements, directly dialed interLATA calls may be blocked by the carrier.

Incoming service on PAL may also be equipped with Billed Number Screening (BNS). This optional feature is designed to permit operator systems to disallow incoming collect and third number calls to the PAL line when such calls originate within the continental United States and when such calls are processed through the national data base known as Billing Validation Application (BVA).

In addition to the features described above, PALs may be equipped to block the 900 service access code.

b. Line Side Answer Supervision

Line Side Answer Supervision (LSAS) optional feature provides "off-hook" supervisory signals to customer premises equipment of the Public Access Line subscriber when the called party answers the call. When a called party on-hook at the end of a call is detected, the reverse battery is returned to normal indicating that the called party has disconnected from the call. The LSAS feature will permit improved accuracy of COCOT timing of sent paid calls.

3. Terms and Conditions

- a. Customer-owned Coin Operated Telephones (COCOTs) are F.C.C. registered coin-activated telephone sets or coin-activated equipment provided through F.C.C. registered protective circuitry and used by any Payphone Provider. COCOTs may be connected to the Company's network only through Public Telephone Services (as defined in NOTE on Page 1 of this Section preceding).
- b. Customer-owned coinless and other telephones, such as credit-card reader telephones, may also be connected to PAL lines at the option of the subscriber.
- c. Coin, coinless and combination coin and coinless telephones may be connected only to PAL individual line business message rate service.
- d. Usage rates and charges for local and toll message usage and all other terms and conditions governing business individual access lines apply to PAL access lines.
- e. PAL subscribers are liable for all usage and monthly charges incurred on PAL access lines.
- f. PAL lines terminate in Company-provided jacks or interfaces.
- g. Regulations and rates applicable to the End User Common Line charge for multiline business service as provided in Tariff F.C.C. 11 apply to PAL access lines.
- h. PAL access lines and PAL optional features are furnished subject to the availability of facilities.
- i. Other optional features for PAL access lines such as Custom Calling Services are furnished at existing Product Guide rates and charges for business service, subject to the availability of facilities.
- j. There is no charge to Customer Owned Coin Operated Telephones for local and intraLATA Directory Assistance calls.
- k. The initial request for PAL in a central office entity will require a 30-day interval to establish service. Subsequent requests will be completed at normal intervals.
- l. Line Side Answer Supervision is not compatible with Basic Coin Access Lines 1 and 2.
- m. Line Side Answer Supervision is available in 5ESS and DMS-100 central offices where facilities permit.

4. Rates and Charges

	<u>Monthly Rate</u>	<u>Non- Recurring Charge</u>	<u>USOC</u>
Public Access Line, each			
Measured	\$16.55	*	19Q
Measured, Originating Only	17.68	*	19W
Public Access Line with Outward Call Screening, each			
Measured	18.80	*	19Z
Measured, Originating Only	19.93	*	1UQ
Optional Feature, each, per line			
Billed Number Screening	No Charge	#	
Line Side Answer Supervision	0.97	**	AS8LX
Blocking Service	No Charge	**	

* Service Connection Charges for business service apply, as specified in Part B, Section 12 of this Product Guide. Moves or additions are subject to existing Product Guide rates and charges for business service.

A Record Order Charge applies to the addition of the BNS feature subsequent to the connection of the line.

** Service charges apply as specified in Part B, Section 12 of this Product Guide.

PUBLIC TELEPHONE SERVICES

B. PUBLIC ACCESS SMART-PAY LINE SERVICE

1. General

Public Access Smart-pay Line (PASL) Service is comprised of individual measured business exchange lines with coin or coinless functionality offered to Payphone Providers (PPs) for the purpose of accessing measured services and features provided by the Company. PASLs are furnished from suitably equipped central offices, subject to the availability of facilities.

Four types of PASLs are available to PPs. Certain standard features apply to each depending on the service option selected. For details concerning the four PASL options and the standard features applicable to each, see Paragraph B.4. of this Section following.

2. Features

- Automated Local Coin Overtime
- Billed Number Screening (BNS)
- Blocking Service
- Coin Return of Initial Deposit on Cash Calls Beyond the Local Calling Area
- Coin Signaling (Coin Collect and Coin Return)
- Dial Tone First (DTF)
- Directory Assistance (DA)
- International Direct Dialed (011) Blocking (IDDB)
- Operator System Coin Control
- Outward Call Screening (OCS)
- Standard Recorded Announcements

3. Feature Descriptions

Automated Local Coin Overtime (Pre-Pay) - provides for standard overtime charging on local calls after the initial period.

Billed Number Screening (BNS) - permits operator systems to disallow incoming collect and bill to third number calls when such calls originate within the continental United States and when such calls are processed through the national data base known as Billing Validation Application (BVA).

Blocking Service - see Part B, Section 2.F of this Product Guide.

Coin Return of Initial Deposit on Cash Calls Beyond the Local Calling Area - transmits a coin return signal for the initial deposit on all calls beyond the local calling area and the full initial rate is requested by a standard recorded announcement.

Coin Signaling (Coin Collect and Coin Return) - controls the disposition of the coins held in the Basic Coin Access Line station, i.e., coin collect is used when a call has been completed and coin return is used if a no answer or busy condition is encountered.

Dial Tone First (DTF) - enables customers to dial certain calls without requiring coin deposits, e.g., "911" Emergency Service.

Directory Assistance - see Part B, Section 8.B of this Product Guide.

PUBLIC TELEPHONE SERVICES

B. PUBLIC ACCESS SMART-PAY LINE SERVICE (Cont'd)

3. Feature Descriptions (Cont'd)

International Direct Dialed (011) Blocking - provides blocking of international directly dialed calls while allowing for completion of directly dialed domestic calls.

Operator System Coin Control - provides control of 0-, 0+ and 1+ dialing from Basic Coin Access Line (BCAL) stations. Sent-paid interLATA calls from BCAL 1 and 2 stations, if permitted by the Presubscribed Interexchange Carrier (PIC), will be forwarded to the customer's designated PIC.

Outward Call Screening - transmits an Automatic Number Identification (ANI) code to alert operator and carrier systems that the call is originating from a BCAL station and may require special handling and billing treatment.

Standard Recorded Announcements - utilizes announcements regarding rating and timing of sent-paid calls.

4. PASL Options

One-Way Basic Coin Access Line (BCAL 1)

BCAL 1 is a standard DTF coin line which provides only outgoing service with Blocking Service, BNS, OCS, IDDB and DA.

Two-Way Basic Coin Access Line (BCAL 2)

BCAL 2 is a standard DTF coin line which provides outgoing and incoming service with Blocking Service, BNS, OCS, IDDB and DA.

Inmate Public Access Line (Inmate)

Inmate service is a coinless line which provides only outgoing service on an operator assisted collect call basis with OCS and BNS; DA is not provided. Equal access (10XXX) dialing is not permitted.

Charge-A-Call Public Access Line (Charge-A-Call)

Charge-A-Call service is a coinless line which provides only outgoing service on an authorized credit card basis with OCS, BNS and DA. One-Plus (1+) dialing (except 800 and 555) is not permitted.

5. Coin Timing and Rating Application

a. Payphone Providers

- (1) Station-to-station calls within the local calling area are charged on an initial period and overtime period basis for local call from message rate telephones as identified in Part C, Section 1 of this Product Guide. The initial period is three minutes or fraction thereof and the overtime period is one minute or fraction thereof.
- (2) For rating and timing of person-to-person and operator handled station-to-station local calls, refer to Part C, Section 1.C of this Product Guide.
- (3) Toll calls are charged for at toll rates shown in Part D of this Product Guide.

b. Payphone Users

- (1) Local station-to-station sent paid calls are charged for at the rate of \$.25 for the initial period of 5 minutes or fraction thereof and \$.05 for each overtime period of 5 minutes or fraction thereof.
- (2) Charges for person-to-person and operator handled station-to-station local calls are charged for as shown in Part C, Section 1.C of this Product Guide.
- (3) Toll calls are charged for at toll rates shown in Part D of this Product Guide.

6. Terms and Conditions

- a. Customer-owned Coin Operated Telephones (COCOTs) are F.C.C. registered coin-activated telephone sets or coin-activated equipment provided through F.C.C. registered protective circuitry and used by any Payphone Provider. COCOTs may be connected to the Company's network only through Public Telephone Services (as defined in NOTE on Page 1 preceding).
- b. Customer-owned coinless and other telephones, such as credit-card reader telephones, may also be connected to PASLs at the option of the subscriber.
- c. Coin, coinless and combination coin and coinless telephones may be connected only to PASL individual line business message rate service.
- d. PASL subscribers are liable for all monthly rates and usage charges incurred on PASLs.
- e. Usage rates and charges for local and toll message usage and all other terms and conditions governing business individual access lines apply to PASLs.

PUBLIC TELEPHONE SERVICES

B. PUBLIC ACCESS SMART-PAY LINE SERVICE (Cont'd)

6. Terms and Conditions (Cont'd)

- f. Regulations and rates applicable to the End User Common Line charge for multiline business service as specified in Tariff F.C.C. No. 11 apply to PASLs.
- g. PASLs terminate in Company-provided jacks or interfaces.
- h. Other optional features for PASLs are furnished subject to the availability of facilities. Custom Calling Services are not available to PASLs.
- i. There is no charge to Customer Owned Coin Operated Telephones for local and intraLATA Directory Assistance calls.
- j. The initial request for a PASL in a central office entity will require a 30-day interval to establish service. Subsequent requests for PASLs will be completed at normal intervals.

7. Rates and Charges

	<u>Monthly Rate</u>	<u>Non-Recurring Charge</u>
BCAL 1, each Measured Rate	\$25.93	*
BCAL 2, each Measured Rate	24.80	*
Inmate Service, each Measured Rate	21.93	*
Charge-A-Call Service, each Measured Rate	21.93	*

* Service Connection Charges for business service apply as specified in Part B, Section 12 of this Product Guide. Moves or additions are subject to existing Product Guide rates and charges for business service.
