TERMS AND CONDITIONS

The terms and conditions in this Part G are in addition to all applicable terms and conditions specified in Part A of this Product Guide and to the applicable regulations and rates specified in Company's tariffs.

A SCOPE

1. This Product Guide Part G contains the schedule of rates, terms and conditions applicable to channels for television transmission between points within the State of New York furnished by Verizon New York Inc., hereinafter referred to as "the Company", for use in connection with educational TV systems.

   Educational TV systems consist of television channels (video and associated audio channels) equipped for use by public or private schools or other recognized educational institutions for the purpose of transmitting visual and audible educational program material from a studio or other signal source to designated receiving locations.

2. Service provided by this Product Guide Part G is furnished on existing installations only. Additions and rearrangements up to the capacity of the existing facilities are permitted provided facilities are available. Moves of equipment on the same premises are permitted.

TERMS AND CONDITIONS

B USE OF SERVICE

1. General

a. The channel facilities provided under the terms, conditions and charges of this Product Guide Part G are the only channel facilities furnished by the Company for the transmission of television program material in connection with educational TV systems. Channels for television transmission in connection with educational TV systems may be interconnected and may be connected with other program or video channels, furnished by the Company, for transmission between points within New York State of television programs to the educational TV system and with antenna systems for pick-up of broadcast programs but may not be connected with other channels of the Company, the subscriber, or others, except as follows.

The subscriber may provide the station wiring within a building beyond the termination of the Company's television channel facilities, or the Company will provide extensions of the television channel facilities to each classroom or other location within the building designated by the subscriber at applicable rates.

2. Interference with Company Service or Other Parties

a. The magnitude and the character of the voltages and currents impressed on the channel by the subscriber-owned equipment and wiring and the operation and maintenance of such equipment and wiring shall be such as not to interfere with any of the services offered by the Company or interfere with others. The characteristics of the subscriber-owned apparatus shall be such that its connection to the channel does not interfere with service over other Company lines or channels or impair privacy of communication over such lines or channels.

If, in the judgment of the Company, additional protective equipment is required to prevent such interference or impairment, such equipment shall be provided by the subscriber or by the Company at the subscriber's expense.

b. Subscriber-owned equipment and the power supply to which it is connected shall be of such character and so located as to avoid injury to the public or Company employees, or damage to Company plant or services.

TERMS AND CONDITIONS

C RESPONSIBILITY OF THE COMPANY

1. Testing and Inspection

a. The Company may, upon notice to the subscriber, make such tests and inspections as may be necessary to determine that the provisions of Part G Section 1.B.2 are being met in the installation, operation and maintenance of subscriber-owned equipment.

The Company may interrupt the channel at any time if, in its judgment, such action becomes necessary in order to protect the public, the Company's employees or its plant or services.

b. The Company may test and adjust a channel as often as necessary at any time during regular business hours. No allowance for interruption of service is made for the time required to make such tests and adjustments. The subscriber shall provide his own means of ascertaining any inoperative condition of such channel when prompt detection of such condition is required for the subscriber's use.

2. Provisions of Service

a. The Company's obligation to furnish channels in connection with educational TV systems is dependent upon its ability to do the following.

(1) Secure and retain, without unreasonable expense, suitable channel frequencies, facilities and rights for the construction and maintenance of the necessary circuits and equipment.

(2) Secure and retain, without expense to it, suitable space for its plant and facilities in the buildings where service is or is to be provided.

(3) Secure, without unreasonable expense, electric power for line amplifiers,

(4) Secure reimbursement of all costs where the owner or operator of a building demands relocation or rearrangement of the facilities.

(5) Secure compliance with the provisions of Part G Section 1.D.2 as to underground entrance construction.

b. Channels are furnished subject to availability of facilities and the requirements of exchange and toll service, and are derived in such manner as the Company may elect.

TERMS AND CONDITIONS

D RESPONSIBILITY OF THE CUSTOMER

1. Station Facilities and Electric Power

The subscriber shall be responsible for all station facilities associated with the television channels and for providing suitable electric power at suitable outlets when and where required.

2. Unavailable Spare Conduit

Where conduit in connection with an underground entrance to a building is requested by the subscriber and spare conduit is not available, suitable conduit shall be furnished by the subscriber or provided at his expense.

E ORDERING SERVICE

1. Cancellation or Change of Application Prior to Furnishing of Facilities

a. When the applicant or subscriber requests cancellation of an application, in whole or in part, at any time prior to the establishment of service, or when the Company cancels such application for any reason for which it may do so a cancellation charge applies.

The cancellation charge is an amount equal to the total costs incurred or to be incurred by the Company with respect to the cancelled facilities, and shall include all of the elements of installed and removal costs, less estimated recoverable salvage value, if any, as set forth in the provisions pertaining to termination charges.

b. When an applicant or subscriber requests a change in the location of all or a part of the facilities covered by his application prior to establishment of service, the applicant or subscriber is required to pay to the Company, upon demand, all costs and expenses incurred or to be incurred by the Company which would not have been incurred if the final location of the facilities had been specified in the initial application. The costs and expenses specified above shall include all the elements of installed and removal costs less estimated recoverable salvage value, if any, as set forth in the provisions pertaining to termination charges.

c. When an applicant or subscriber requests suspension of construction or installation of channel facilities in whole or in part, the Company may at its option, suspend installation and construction, or in its discretion may continue such installation and construction for a period not to exceed 30 days from the date of such request. If the request for suspension is not withdrawn within 30 days from the time made, the Company may at any time cancel the application for the facilities.

TERMS AND CONDITIONS

E ORDERING SERVICE (CONT'D)

2. Special Construction, Special Installation Work or Unreasonable Construction

a. General

In any case where the furnishing of facilities involves special installation work or unreasonable construction, maintenance or replacement costs or expenses on the part of the Company, the subscriber may be required to pay an additional installation or construction charge, monthly charge, or both, based on the additional costs and expenses involved. The subscriber may also be required to pay additional charges for work performed outside of regular working hours at the request of the subscriber.

Where the Company furnishes a facility or service for which a rate or charge is not specified in the Company's Product Guide, charges based on cost apply. Where such facilities or services are being furnished, the monthly charges are decreased by 2.05% for terminal and for non-terminal equipment, and 2.05% for mileage services.

b. Special Construction

A one-time engineering design charge (EDC) applies to each request for a special construction quote. The charge will apply whether or not the customer elects to proceed with the installation. If the customer elects to proceed with the installation, the labor rates applicable to the special construction will be offset by the EDC.
