
DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H.

Effective February 13, 2026, moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

]

A. APPLICATION

1. Scope

This Part B, Section 11 of the Product Guide contains the provisions and rates applicable to Digipath Digital Service (DDS) furnished by the Company for private line intrastate communication over facilities wholly within the State of New York, between two or more points, all of said points being within a LATA in the State of New York.

2. Limitations

- a. The use and restoration of service shall be in accordance with the FCCs Rules and Regulations, which specifies the priority system for such activities.
- b. The furnishing of service under this Section will require certain physical arrangements of the facilities of the Company and is therefore subject to the availability of such facilities.
- c. DDS may be limited in order to comply with orders issued under wartime authority of the President of the United States.
- d. The design, maintenance and operation of DDS contemplate communications originating or terminating at stations on the DDS. While connections to DDS of communications systems provided by others may be made on a permissive basis as provided for in this Section, the Company does not represent its DDS as adapted for such connections, and shall not be responsible for the through transmission of signals, or the quality of such transmission on such connections.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H.

Effective February 13, 2026, moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

]

B. USE OF SERVICE

1. General

- a. DDS may be used for the transmission of communications of the customer and users provided that the customer, upon request, furnishes such information as may be required to permit the Company to design and maintain DDS and to assure that the service arrangement is in accordance with Product Guide provisions.
- b. Transfer of Service— The service or any rights associated therewith may not be assigned or in any manner transferred.

2. Lawful Use

DDS shall not be used for an unlawful purpose.

3. Shared Use

- a. A user must have a station on the service and the station must be located on the premises of the user and connected to the service by means of a separate digital access line, except that these requirements do not apply to a user of a service with respect to the use of digital bit streams created by customer-provided or user-provided derivation equipment so long as the customer or user has a station on the line connected to such equipment in accordance with Paragraph B.4 following.
- b. Orders which involve the start, rearrangement, release, or discontinuance of service will be accepted by the Company only from the customer.
- c. Total charges for telephone service allocated by the customer to users shall not exceed charges of the Company to the customer. The Company shall not be responsible for the manner in which the use of service will be allocated.
- d. All charges for DDS will be billed to the customer.

4. Connections

- a. All connections as provided herein shall be made through equipment furnished by the customer or user. Customer-provided terminal equipment, customer-provided derivation equipment and customer-provided communications systems may be connected to DDS when such connection is made in accordance with the following provisions.
 - (1) The customer or user, by use of its own derivation equipment, may create digital bit streams from a DDS and such equipment may be connected at the customer's or user's premises for the transmission of such bit streams to facilities furnished by the Company for exchange, toll, WATS and private line service.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H.

Effective February 13, 2026, moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

B. USE OF SERVICE (Cont'd)

4. Connections (Cont'd)

a. (Cont'd)

(2) The customer shall be responsible for providing data service and channel service type units and all equipment on the customer's side of the network interface. The Company will maintain only those data service and channel service units in the embedded base. The undertaking of the Company is to furnish DDS as ordered and specified by the customer.

b. Connection to Other Services Furnished by the Company to the Same Customer or Different Customers— A DDS furnished by the Company to a customer may be connected by the customer or user at the premises of the customer or user to another DDS or to other services furnished by the Company as follows.

(1) Private line channels of the following types furnished under the provisions of this Product Guide.

i. Data Schedule 4 Channels

ii. Group Channel Service

(2) Exchange Lines or WATS Access Lines— The functions of network control signaling shall be performed by the central office and connected on an interface on the customer's premises. The customer's CPE equipment must meet the technical parameters of the Company.

c. Accessories provided by customers or users may be used in conjunction with DDS provided that such accessories comply with the provisions of Paragraph E following.

DIGITPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H.

Effective February 13, 2026, moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

C. RESPONSIBILITY OF THE COMPANY

1. Liability

- a. The responsibility of the Company shall be limited to the furnishing of service to that point on the customer's or user's premises where provision is made for the connection of equipment described in Paragraph B.4 preceding. The customer or user is responsible for testing its equipment or facilities to insure that, when they are connected with DDS, such equipment or facilities are operating properly and further that the cause of any service difficulty reported by the customer or user to the Company results from the operation of equipment and facilities provided by the Company.
- b. The Company shall not be responsible for installation, operation or maintenance of any terminal equipment or communications systems provided by a customer or user. DDS is not represented as adapted to the use of such equipment or system. Where such equipment or system is connected to the Company's facilities, the responsibility of the Company shall be limited to the furnishing of facilities suitable for DDS and to the maintenance and operation of such facilities in a manner proper for such digital service. Subject to this responsibility, the Company shall not be responsible for the through transmission of signals generated by such equipment or system, or for the quality of, or defects in such transmission or for the reception of signals by such equipment or system.
- c. The Company shall not be responsible to the customer or user if changes in any of the facilities, operations or procedures of the Company utilized in the provision of DDS render any facilities provided by a customer or user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
- d. The Company shall not be liable for damages arising out of mistakes, omissions, interruptions, delays or errors, or defects in transmission occurring in the course of furnishing service hereunder where the same is caused by the negligence of the customer or user. Any liability of the Company for damages arising out of any of the foregoing or for failing to maintain proper standards of maintenance and operation or for failing to exercise reasonable supervision shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay or error or defect in transmission occurs.
- e. The Company shall be indemnified and saved harmless by the customer or user against the following claims.
 - i. Claims for libel, slander and infringement of copyright arising from the material transmitted over the facilities.
 - ii. Claims for infringement of patents arising from combining with, or using in connection with, facilities furnished by the Company, apparatus and systems of the customer or user.
 - iii. All other claims arising out of any act of omission of the customer or user in connection with the facilities provided by the Company.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H. Effective February 13, 2026, Moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

1
(C)
J

C. RESPONSIBILITY OF THE COMPANY (Cont'd)

1. Liability (Cont'd)

- f. The Company does not guarantee nor make any warranty with respect to equipment provided by it for use in an explosive atmosphere. The customer or user indemnifies and holds the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or user or by any other party or persons, for any personal injury to or death of any person or persons, and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of said equipment so provided. The Company will require each customer to sign an agreement for the furnishing of such equipment as a condition precedent to the furnishing of such equipment.
- g. The Company is not liable for any defacement of or damage to the premises of a customer (or user) resulting from the furnishing of facilities or the attachment of the instruments, apparatus and associated wiring furnished by the Company on such premises or by the installation or removal thereof, when such defacement or damage is not the result of negligence of the agents or employees of the Company.

2. Provision of Facilities

The Company will provide all facilities necessary for provision of DDS, except that the customer, authorized user will provide his own terminal equipment or communications system for use with such service as specified in this Product Guide.

Where any terminal equipment or communications system provided by a customer or user is used with services furnished by the Company and if any of the Product Guide provisions pertaining to connections are violated (refer to Paragraphs B.4, C.1, C.2 and E of this Section), the Company will take such immediate action as necessary for the protection of its facilities and will promptly notify the customer of the violation. The customer shall take such steps as necessary to discontinue such use of the equipment or system or correct the violation and shall confirm in writing to the Company within ten days following the receipt of written notice from the Company that such use has ceased or that the violation has been corrected. Failure to discontinue such use or to correct the violation and to give the required written confirmation to the Company within the time stated above shall result in suspension of the customer's service until such time as there is compliance with the provisions of this Product Guide.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H. Effective February 13, 2026, Moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

] (C)]

C. RESPONSIBILITY OF THE COMPANY (Cont'd)

3. Maintenance and Repair of Facilities

The Company undertakes to maintain and repair the facilities which it furnishes.

4. Suspension of Service

Upon request of the customer, service will be suspended without cancellation at any time after the initial one month of service. Service will be suspended for a period of not less than two weeks. Billing shall continue at the full rate.

5. Cancellation of Service for Cause

A violation of any condition in this Product Guide governing the furnishing of service will result in the Company by 13 days written notice to the customer, immediately discontinuing the furnishing of DDS without the Company incurring liability.

D. RESPONSIBILITY OF THE CUSTOMER

1. Liability

- a. The customer shall be responsible for damage to facilities of the Company caused by the negligence or willful act of the customer or users.
- b. The customer shall be responsible for reimbursing the Company for any loss through theft of its equipment or apparatus on the customer's or user's premises.
- c. The customer shall be responsible for all actions or omissions of a person, firm or corporation appointed by the customer as its agent. Any limitation of an agent's authority shall not be binding on the Company.

2. Operating Characteristics of Customer Provided Equipment/Systems

Where DDS is available under this Product Guide for use in connection with terminal equipment or communications systems provided by a customer or user, the operating characteristics of such equipment or systems shall be such as not to interfere with any of the services offered by the Company. Such use is subject to the further provisions that the equipment of a customer or user does not endanger the safety of the Company's employees or the public; or damage, require a change in or the alteration of the equipment or other facilities of the Company.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H. Effective February 13, 2026, Moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

]
(C)
]

D. RESPONSIBILITY OF THE CUSTOMER (Cont'd)

3. Company Installed Equipment

The customer or user may not rearrange, disconnect, remove or attempt to repair any equipment installed by the Company without prior written consent of the Company.

4. Power

The customer shall be responsible for the provision of the power required to operate the Company facilities installed on the premises of the customer or user.

5. Explosive/Hazardous Area

The customer shall be responsible for the provision, installation and maintenance of sealed conduit with explosive-proof fittings between equipment furnished by the Company in explosive atmospheres and points outside the hazardous area where connection may be made with regular facilities of the Company, and may be required to install and maintain the Company's equipment within the hazardous area if, in the opinion of the Company, injury or damage to its employees or property might result from installation or maintenance by the Company.

6. Maintenance

The customer shall be responsible for making Company service components and equipment available periodically for maintenance purposes at a time agreeable to both the Company and the customer. No allowance will be made for the period during which the service is interrupted for such purposes.

7. Company Agent/Employee Access

The customer shall be responsible for obtaining permission for the Company's agents or employees to enter the premises of the customer or user at any reasonable hour for the purpose of installing, inspecting, repairing or, upon termination of the service, removing the facilities of the Company.

E. ORDERING SERVICE

1. Cancellation or Change of Application Prior to Furnishing of Facilities

- a. Where the applicant cancels an application for service prior to the start of installation or special construction of facilities no charge applies. Installation or special construction of facilities for a customer is considered to have started when the Company incurs any expense in connection therewith or in preparation therefore which would not otherwise have been incurred provided either of the following has occurred.

(1) The customer has advised the Company to proceed with the installation.

(2) The Company has advised the customer that, in accordance with his order, it is commencing the installation.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H. Effective February 13, 2026, Moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

]
(C)
]

E. ORDERING SERVICE (Cont'd)

1. Cancellation or Change of Application Prior to Furnishing of Facilities (Cont'd)

- b. Where the applicant cancels an application for service and installation of facilities has been started prior to the cancellation, the lower of the following charges applies.

(1) A charge equal to the estimated costs incurred in such installation, less estimated net salvage.

(2) The charge for the minimum period of the service ordered by the customer including NRCs.

2. Minimum Service Period

DDS is furnished for duplex operation on a 24 hour per day, seven day per week basis, for a minimum period of one month. The minimum period for which charges are applicable is one month, unless otherwise specified.

F. ISSUANCE, PAYMENT AND CREDITING OF CUSTOMER BILLS

1. Advance Payments and Deposits

- a. Applicants for service who have no account with the Company or whose financial responsibility is not a matter of general knowledge, may be required to make an advance payment at the time an application for service is placed with the Company equal to the NRCs if applicable and at least one month's charges for the service provided. The amount of the advance payment is credited to the customer's account as applying to any indebtedness of the customer for the service furnished.
- b. The Company may, in order to safeguard its interests, require an applicant or customer for service to make a deposit to be held by the Company as a guarantee of the payment of charges. Such deposit will be equivalent to up to two months charges for the service except that, where the service involves equipment to which charges are applicable for discontinuance of use prior to the expiration of a specified period, the deposit will include an additional amount not to exceed the maximum charge applicable for such discontinuance of use, as provided in this Product Guide. The fact that a deposit has been made in no way relieves the applicant or customer from complying with the provisions set forth in this section and the prompt payment of bills on presentation.
- i. At such time as the service is terminated the amount of the deposit is credited to the customer's account and any credit balance which may remain is refunded. At the option of the Company such a deposit may be refunded or credited to the customer at any time prior to the termination of service.
- c. In case of a cash deposit, simple interest at the rate prescribed from time to time by the PSC, is paid for the period during which the deposit is held by the Company.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H. Effective February 13, 2026, Moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

] (C)]

F. ISSUANCE, PAYMENT AND CREDITING OF CUSTOMER BILLS (Cont'd)

2. Payment of Charges

a. General

The customer is responsible for payment of all charges as specified in this Product Guide for services furnished the customer or user. NRCs are payable upon request.

b. Check Return

Whenever a check or draft presented for payment or service or a deposit is not accepted by the institution on which it is written, a check return charge as specified in Part A, Section 1 of this Product Guide will apply.

c. Termination of Service for Nonpayment

The Company, by 13 days written notice to the customer, may immediately discontinue the furnishing of DDS without incurring liability upon non-payment of any sum due to the Company.

d. Late Payment

Late payments are subject to the same provisions and rates as specified for late payments under Part A, Section 1 of this Product Guide.

e. Jointly Provided Service

Concurring Corporations— When private line service is jointly provided by the Company and an independent telephone company, each company will separately bill the customer for its proportionate share of the total circuit in accordance with its respective rates and charges. The customer will remit payment directly to each separate company.

3. Credit Allowance Conditions

a. Service Interruptions

Credit allowances are applied subject to the general liability provisions set forth in Paragraph C.1 of this Section. No credit allowance will apply for the following types of interruption.

(1) A charge equal to the estimated costs incurred in such installation, less estimated net salvage.

(2) The charge for the minimum period of the service ordered by the customer including NRCs.

(3) Liability

Interruptions of service during any period in which the Company is not afforded access to the premises at which DDS is terminated.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H. Effective February 13, 2026, Moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

]
(C)
]

F. ISSUANCE, PAYMENT AND CREDITING OF CUSTOMER BILLS (Cont'd)

3. Credit Allowance Conditions (Cont'd)

- b. When service is interrupted, a credit allowance will be made after the interruption is reported by the customer based on the average station value and the length of the interruption. For the purpose of determining the amount of allowance, every month is considered to have 30 days and only those stations on the interrupted portions of a service shall be considered in determining the number of stations affected.
 - i. Average Station Value— Divide the total monthly charge for a service by the total number of stations on the service. The total monthly charge is comprised of all charges associated with the service, including charges for all equipment assigned to all access lines on the service.
- c. When the interruption is 24 hours or less, the following credits will apply.
 - (1) No Credit— Interruption less than 30 minutes
 - (2) 1/10 Day— Interruption of 30 minutes, up to but not including 3 hours
 - (3) 1/5 Day— Interruption of 3 hours, up to but not including 6 hours
 - (4) 2/5 Day— Interruption of 6 hours, up to but not including 9 hours
 - (5) 3/5 Day— Interruption of 9 hours, up to but not including 12 hours
 - (6) 4/5 Day— Interruption of 12 hours, up to but not including 15 hours
 - (7) One Day— Interruption of 15 hours, up to 24 hours inclusive
- d. Interruptions of 24 Hours or Less— Two or more interruptions of 30 minutes or more during any period up to, but not including 3 hours shall be considered as one interruption.
- e. Interruptions Over 24 Hours— Credit will be allowed in 1/5 day multiples for each three hours period of interruption or fraction thereof. No more than one full day's credit will be allowed for any period of 24 hours.
- f. To calculate an interruption credit allowance, determine the average station value for one full day (i.e., average station value by 30 days) and multiply that value by the appropriate credit. Then multiply that result by the number of stations affected.
- g. DDS is designed to provide an average performance exceeding 99.5% error-free seconds for operation at all speeds offered in this Product Guide. When a DDS is operating at an error performance level which is unsatisfactory to the customer or user and it is determined by the Company that the error performance level is below that specified above, the period of sub-standard performance will be considered as an interruption and a credit allowance will be made. All such credit allowances shall begin from the time of notice by the customer or user to the Company that an unsatisfactory performance level has occurred, provided that the customer promptly releases the service as requested by the Company to perform testing and maintenance.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H. Effective February 13, 2026, Moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

] (C)]

G. DIGIPATH DIGITAL SERVICE

1. Availability of Service

DDS is furnished on existing installations only. DDS is provided subject to availability of facilities. Moves on the same premises are permitted. Additions and rearrangements are permitted provided facilities are available.

2. Description

- a. DDS is a service for the transmission of digital signals only, using only digital transmission facilities. DDS provides for the simultaneous two-way transmission of digital signals at synchronous speeds of 2.4, 4.8, 9.6, or 56 kbps within the LATAs for the digital serving areas of the following cities (i.e., digital city).

- (1) Albany
- (2) Binghamton
- (3) Buffalo
- (4) Garden City, NY

Customers with circuits terminating in the Woodmere-Franklyn, Lynbrook, Floral Park, Glen Cove, Port Washington, Roslyn, Great Neck, Manhasset, Freeport, Wantagh and Oyster Bay central offices prior to May 14, 1987 have the one time option of selecting the New York City digital serving area for mileage determination. New circuits and additions to grandfathered existing circuits will be reconfigured into its proper digital city. Applicable NRCs will apply to reconfigure the grandfathered circuits.

- (5) New York, NY
- (6) Poughkeepsie
- (7) Syracuse
- (8) White Plains

- b. Local central office buildings designating the specific serving area (i.e., digital city serving area) to which service is available and the type of DAL required are contained in Exhibits G2-1 through G2-8. In the digital city serving area, DDS is available only to stations located in the territory of the Company local central offices.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H. Effective February 13, 2026, Moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. G. DIGIPATH DIGITAL SERVICE (Cont'd)

3. Service Components

- a. Digital Access Lines— Stations which are normally served by means of baseband transmission from the Company digital serving central office require a Type 1 DAL. Stations outside the serving range of baseband transmission from the Company digital serving central office require a Type 2 DAL. (remove underline on the remainder of this page)here and under Type 1 and Type 2)

- (1) Type 1— DALs furnished for digital transmission at synchronous rates of 2.4, 4.8, 9.6 or 56 kbps to serve stations inside the normal serving range of baseband transmission from the Company digital serving central office.
- (2) Type 2— DALs furnished for digital transmission at synchronous rates of 2.4, 4.8, 9.6 or 56 kbps to serve stations outside the normal serving range of baseband transmission from the Company digital serving central office.

When stations located in a digital serving area require Type 2 DALs, the DAL mileage is based on the airline mileage distance between the Company digital serving central office and the Company central office serving such stations.

- b. Data Service Unit— This unit is required for each station at a customer's or user's premises to perform such functions as proper coding and decoding of signals, timing recovery, synchronous sampling, formatting, and generation and recognition of control signals.
- c. Channel Service Unit— Is required for each DAL at a customer or user's premises to perform such functions as proper termination of service, regeneration, signal shaping, and provide remote loop-back capability. The CSU must comply with the requirements of the PUB 62310.
- (1) The customer or user may not disconnect the customer channel service unit from the local distribution channel without written consent of the Company.
- d. Inter-DSA Channel— Required for digital transmission at synchronous rates of 2.4, 4.8, 9.6 or 56 kbps when service is furnished between two digital city serving areas.
- e. Multi-Station Arrangement— Required to provide for DDS between three or more digital stations on the same and/or different premises located in the digital city serving area.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H. Effective February 13, 2026, Moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

4. Application of Rates and Charges

a. General

- (1) Where facilities are not available to provide DDS, and unusual expenditures are involved in making them available, the customer may be required to pay additional charges to cover the unusual expenditures, or to contract for service beyond the initial period, or both.
- (2) Company Labor— The charges specified in this Product Guide do not contemplate work being performed by the Company employees involved at a time when overtime wages apply, due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. If the customer requests labor be performed at hours of the day or days of the week other than normal work hours or days, holidays, or interrupts work once begun, an additional charge based on the additional costs involved applies. Such charges do not apply if sufficient advance notice is given so that employees' work schedules can be changed and it is agreeable to the Company. The additional charge does not apply to overtime or premium time work at the Company's convenience.
- (3) When the computed charge includes a fraction of a cent, fractions of one-half cent or more are treated as one cent and fractions of less than one-half cent are disregarded.
- (4) Fractional Rates and Charges— The charges for a fractional part of a month which follows and is consecutive with a full month will be a proportionate part of the monthly charge using the same ratio that the actual number of days service is furnished bears to 30 days. The actual number of days service furnished is computed as follows.

The applicable charges for a DDS, or any component thereof, including additions to an existing service, shall commence on the day after service is furnished and will continue to accrue through and include the day on which such service is discontinued.

The applicable charges for a DDS, or any component thereof, including additions to an existing service, shall commence on the day after service is furnished and will continue to accrue through and include the day on which such service is discontinued.

- (5) The rates and charges described herein apply for all services involving the Company digital city serving areas.
- (6) Waiver of NRCs for DDS customers who convert to DDSII is as specified in Part A of this Product Guide.
- (7) Relevant incremental costs would include the appropriate universal service element (refer to Part B, Section 10 of this Product Guide), for 2-wire or 4-wire other than signal grade facilities.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H. Effective February 13, 2026, Moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

] (C)]

G. DIGIPATH DIGITAL SERVICE (Cont'd)

4. Application of Rates and Charges (Cont'd)

b. Surcharges

- (1) Municipal Surcharge for Local Utility Gross Revenue Taxes— In certain cities and villages a municipal surcharge to recover the additional expense related to local utility gross revenue taxes applies as specified in Part A of this Product Guide.
- (2) Metropolitan Commuter Transportation District Tax Surcharge— In the following counties, a surcharge to recover the additional expense related to the temporary metropolitan transportation business tax surcharge applies as specified in Part A of this Product Guide.
 - Bronx County
 - Dutchess County
 - Kings County
 - Nassau County
 - New York County
 - Orange County
 - Putnam County
 - Queens County
 - Richmond County
 - Rockland County
 - Suffolk County
 - Westchester County
- (3) Surcharge for State Excise Tax on Telecommunication Services and Gross Earnings Tax (Gross Revenue Tax)— A surcharge to recover the additional expense related to the Gross Revenue Tax applies as specified in Part A of this Product Guide.

c. Digital Access Lines

- (1) Type I — Monthly rates and NRCs apply.
- (2) Type 2— Monthly rates apply and are incurred as fixed and per mile rate elements. An NRC also applies.
- (3) Service Connection charges apply to both Type 1 and Type 2 DALs and are the same as those specified in Part B, Section 18 of this Product Guide.

d. Inter-DSA Channel

Monthly rates apply and are incurred as fixed and per mile rate elements.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H. Effective February 13, 2026, Moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. ] (C)]

G. DIGIPATH DIGITAL SERVICE (Cont'd)

4. Application of Rates and Charges (Cont'd)

e. Multi-Station Arrangement

A monthly charge applies per station, and is in addition to other charges in this Product Guide which may apply when DDS is arranged for multi-station operation.

f. Moves

When a DAL is moved to a new location in the same or different premises, the full NRC applies.

g. Change in Restoration Priority

Charges apply as set forth in Part B., Section 18 of this Product Guide. relative to restoration priority.

H. OPTIONAL FEATAURES

1. Definitions

- a. Primary Channel—A DDS access line to the customer premise.
- b. Secondary Channel—An independent lower speed derived companion channel operating with the primary channel of a DDS access line.

2. Secondary Channel Capability (SCC)

- a. SCC provides for a derived companion digital transmission channel at a lower bit rate, which is independent of its associated primary channel, for simultaneous two-way synchronous transmission of digital signals between two or more customer premises equipped with customer-provided equipment compatible with SCC. SCC is offered as an optional feature for a DDS access line which operates at a transmission speed of 56 kbps.

DIGIPATH DIGITAL SERVICE

Throughout New York State, DDS is furnished on existing installations only and subject to availability of facilities. Moves on the same premises, additions and rearrangements are permitted. In the wire centers and as of the effective dates listed in Part H of this Product Guide, DDS is only available to existing customers as outlined in Part H. Effective February 13, 2026, Moves, changes or modifications to this service will no longer be supported. Service modifications for customers with existing contracts are subject to the terms of their contracts. For wire centers specific service withdrawal information, please refer to Part H, of this Product Guide.

H. OPTIONAL FEATAURES (Cont'd)

2. Secondary Channel Capability (SCC) (Cont'd)

- b. Service is not available on a DDS access line which requires regenerative repeaters in the loop to the customer premises.
- c. SCC may be ordered at the same time the primary channel access line is ordered or it may be ordered as an addition to existing DDS access line.
- d. In ordering SCC customers must agree to out-of-service periods required to add this feature to an existing DDS access line.
- e. Each DDS access line on a two-point or multipoint circuit with SCC must be equipped with this feature.
- f. Customers must provide customer premises equipment which is compatible with the SCC interface requirements specified in TR-NPL-000157.

3. Provisions

SCC is provided as stated herein and all provisions pertaining to DDS also apply.

4. Application of Rates and Charges

A monthly rate and NRC apply. The NRC only applies for the addition of SCC to an existing primary channel digital service access line.
