TARIFF FORMAT

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Ca.PUC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc., the Ca.PUC follow in their tariff approval process, the most current sheet number on file with the PUC is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence - There are seven levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.(A).
 - 2.(A).1
 - 2.(A).1.(a).
 - 2.(A).1.(a).1.
 - 2.(A).1.(a).1.(i).
 - 2.1.1.A.1.(a).1.(i).(1).
- D. Check Sheets - When a tariff filing is made with the Ca. PUC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision.

PRELIMINARY STATEMENT

This tariff contains the regulations and rates applicable to the furnishing of intrastate interexchange resale common carrier communications service by Verizon Long Distance LLC between locations within the State of California.

EXPLANATION OF SYMBOLS

- (C) - To signify changed listing, rule, or condition which may affect rates or charges.
