MESSAGE TELECOMMUNICATION SERVICE

5.1 GENERAL

5.1.1 APPLICATION

A. DEFINITION

Message Telecommunication Service (MTS) is the furnishing of facilities for telephone communication to or from exchange telephones within a calling party's LATA, as specified in 4. of this Product Guide, exclusive of those facilities furnished for Wide Area Telecommunication Service and Selective Calling Service.

The rates and charges for intraLATA usage of MTS are as specified in this Product Guide. All inter-LATA usage is subject to the rates and charges specified in the tariff of the Intrastate Customer/Carrier (IC) and the Access Service tariff.

B. TIME-OF-DAY

The time when connection is established, determined in accordance with the - Standard or Daylight Saving - legally or commonly in use at the point where the calling station is located, determines whether Day, Evening, or Night rates apply.

In cases where a call begins in one rate period and ends in another, the rate in effect in each rate period applies to the portion of the message occurring within that rate period. In the event that a minute of use is split two rate periods, the rate in effect at the start of that minute applies.

C. ALLOWANCES

An allowance is made for chargeable time lost because of faults or defects in Message Telecommunication Service.

D. LIMITATIONS OF SERVICE

1. Message Telecommunications Service (MTS), including Standard Service Offerings, Optional Calling Plans and Other Calling Plans, as specified in 5.2, 5.3, 5.4 and 5.5 following, are available only to customers who obtain Exchange Access Service or Centrex Service from Verizon New Jersey Inc. (C)

2. The provisions of D.1, preceding, do not apply to resellers obtaining MTS under Part 0, Section 2.1.3.

MESSAGE TELECOMMUNICATION SERVICE

5.1 GENERAL (Cont'd)

5.1.1 APPLICATION (Cont'd)

E. TERMS OF SERVICE

The rates and terms of service herein, in addition to applying to Message Telecommunication Service furnished by the Company, apply to service made available jointly by the Company and

- in connection with the Verizon Pennsylvania LLC, Verizon Delaware LLC and Verizon New York Inc.

- in connection with mobile radiotelephone systems of regulated Miscellaneous Common Carriers.

5.1.2 METHOD OF DETERMINING RATES

A. MILEAGE DISTANCES

1. Measuring Points

Message Telecommunication Service rates between intrastate intra-LATA points (cities, towns or localities) in the state of New Jersey are based on the airline distance between rate centers. In general, each point is designated as a rate center except that certain towns or localities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest. These points are listed in 9.1.

The applicable airline distance between rate centers is determined as provided in 9.1.

B. PROCEDURE FOR ASCERTAINING A RATE

1. MTS Service

The rates for the mileage distance obtained in accordance with Part 0, Section 2 preceding are obtained by reference to the Rate Schedules in 5.2.1 following.

2. Conference Service

See 5.2.2 following.

MESSAGE TELECOMMUNICATION SERVICE

5.2 STANDARD SERVICE OFFERINGS

5.2.1 MESSAGE TELECOMMUNICATION SERVICE

A. GENERAL

1. Types of Service

a. General

Three types of intra-LATA service are offered, i.e., direct distance dialed (DDD) unassisted service, customer dialed sent-paid coin arrangement station-to-station service, and special assistance charge service.

b. Description

(1) Direct Distance Dialed (DDD) Unassisted Service

This type of service applies in connection with calls made from other than coin arrangements where the person originating the call dials the telephone number desired and the call is completed without the assistance of an operator or when an operator is required only to:

- record the originating telephone number where no automatic recording equipment is available.

- reach the called telephone number where facilities are not available for dial completion.

- establish a dialed connection where the customer has been unable to do so, or re-establish a call which has been interrupted after the called number has been reached.

- handle calls in the case of station sets furnished for the physically disabled who are unable to dial, and the calling party does not specify a particular person to be reached, nor a particular extension station line, department or office to be reached through a branch exchange attendant, but only gives the operator the telephone number of the desired exchange access line, branch exchange system or branch exchange extension station line, which is reached directly rather than through a branch exchange attendant.

5.2.1 MESSAGE TELECOMMUNICATION SERVICE (Cont'd)
A. GENERAL (Cont'd)
1. Types of Service (Cont'd)
b. Description (Cont'd)

(2) Customer Dialed Sent-Paid Coin Arrangement Station-To-Station Service

This type of service applies only in connection with calls made from coin arrangements telephones (station sets) and where the assistance of an operator is required only because of the coin-operated arrangements or for the reasons listed in b.(1) preceding. When the assistance of an operator is requested by the person originating the call for any other reason, the call will be rated as a Special Assistance Charge call.

(3) Special Assistance Charge Service

This type of service applies where the person originating the call requests an operator to handle the call for any reason other than as specified in b.(1) and b.(2) preceding except that the reversal of only a portion of the charge in connection with the failure to collect at coin arrangements does not affect the classification of the call.

The classes of intra-LATA Special Assistance Charge calls are as follows:[1]

Class I

These include the following types of calls:

- Special Toll Billing - See 5.2.4 following.

0+ Customer dials zero plus the desired number and gives his Special Toll Billing number to the operator verbally.

NOTE 1: Where a call includes elements of more than one class of call, the call is classified for charge purposes on the basis of the class of call for which the higher charge applies.

Class II

These include the following types of calls:

- Special Toll Billing - See 5.2.4 following.

  0 - Customer dials zero only and requests that the operator dial the desired number. The customer gives his Special Toll Billing number to the operator verbally.

- Third Number - The operator is requested to bill the charges for a call to a number other than that of the calling or called party.

- Operator Assisted Sent Paid Coin Arrangement – Operator assistance is requested by the calling party for reasons other than listed in b.(1) or b.(2) preceding.

- Collect - The operator is requested to bill the charges to the called number and obtains acceptance thereof.

NOTE 1: Where a call includes elements of more than one class of call, the call is classified for charge purposes on the basis of the class of call for which the higher charge applies.

2. Time-of-Day and Day-of-Week Periods

The Rate Schedules shown in 5. following apply as follows:

Day - From 8:00 A.M. to 5:00 P.M. every day except Saturday, Sunday and on Christmas Day, New Year's Day, Independence Day, Thanksgiving Day, Memorial Day and Labor Day legal holidays.

Evening - From 5:00 P.M. to 11:00 P.M. on Monday through Friday and also from 8:00 A.M. to 11:00 P.M. on Saturday and Sunday and the holidays specified above.

Night - From 11:00 P.M. to 8:00 A.M. every day.

3. Timing of Messages

(C)

On all other calls, chargeable time begins when connection is established between the calling telephone and the called telephone or private branch exchange switchboard, or after acceptance of charges on a Class II collect call.

Chargeable time ends when connection is terminated at any point.

4. Initial and Overtime Periods

The initial period is the interval of time allowed at the rate quoted for a toll connection between given points. Initial period intervals and rates are shown in the Rate Schedules following and are applicable for connections of the intervals specified, or any fraction thereof.

The overtime period is the unit of time used for measuring and charging for time over the initial period. Overtime units of time and rates are shown in the Rate Schedules following and are applicable for each additional unit of time, or any fraction thereof, that the connection continues beyond the initial period.

A. GENERAL (Cont'd)

6. INTRALATA TOLL WIN-BACK PROGRAM

Business customers that change their intraLATA toll service provider to Verizon New Jersey Inc. will receive $2.50 per exchange access line or Centrex Service line that is changed.

Customers will receive either: 1) a credit on their bill or 2) a check (payable to Verizon New Jersey Inc.) to be used as payment against their Verizon monthly telephone bill, in an amount equal to $2.50 per presubscribed line changed to Verizon New Jersey Inc.

This offering does not apply to those exchange access lines or Centrex Service lines for which presubscribed intraLATA toll service is being restored to Verizon New Jersey Inc., in order to order to correct an unauthorized transfer to another intraLATA toll service provider.

B. BUSINESS INTRA-LATA TOLL PIC NONRECURRING WAIVER

Business customers who select Verizon New Jersey Inc. as their intra-LATA toll carrier will receive a waiver of the applicable LPIC Change Charge associated with the business customer’s selection of Verizon for intra-LATA toll service.

The full non-recurring waiver will be charged back when customers cancel their intra-LATA service, or change their intra-LATA carrier from Verizon New Jersey Inc. to another carrier within 12 months after selecting New Jersey Inc. as their intra-LATA carrier.

MESSAGE TELECOMMUNICATION SERVICE

5.2. STANDARD SERVICE OFFERINGS (Cont'd)

5.2.2. CONFERENCE SERVICE

A. GENERAL

1. Conference service, i.e., connection among three or more exchange services within the same LATA on one connection at the same time, is furnished only where and to the extent that facilities are available.

2. If one or more conference points are not within the same LATA, the entire call is subject to the rates and terms of service set forth in the Access Service tariff/Product Guide.

3. All exchange access lines or private branch exchanges on a conference connection may be so interconnected that each may communicate with all the others, or arrangements may be made whereby one line will transmit and all others receive.

4. One class of service only is offered whether the call is to specified persons or specified exchange access lines, private branch exchanges, extension station lines (locations), departments or offices.

5. The Company, upon request, will attempt to arrange for the establishment of a conference connection at a specified time.

B. TIMING OF MESSAGES

1. Chargeable time begins when connection is established among all the persons on the conference and ends when the connection is terminated by the originating location.

2. When the originator of the call requests that a party or parties be added to or disconnected from a conference call on which conversation is in progress, it is considered as terminating the call and initiating a new call to the revised group of exchange access lines, private branch exchanges, extension station lines, etc.

C. INITIAL AND OVERTIME PERIODS

The initial period is one minute or any fraction thereof and the overtime period is one minute or fraction thereof.

5.2.3 SPECIAL REVERSED CHARGE TOLL SERVICE

A. DESCRIPTION

Special Reversed Charge Toll Service provides a service on toll calls whereby customers may offer their patrons the privilege of calling them without the payment of a toll charge between specified exchanges. Such charges are assumed by and billed to the customer with Special Reversed Charge Toll Service.

Specifically, a special telephone designation is assigned to each service and only those toll calls placed by calling this special designation are considered as coming within the scope of this arrangement.

B. TERMS OF SERVICE

This service is provided in connection with business or residence individual exchange access lines, exclusive of coin arrangements and with Private Branch Exchange Service subject to the availability of suitable facilities.

Special Reversed Charge Toll Service is available only to customers who have selected Verizon New Jersey as their intraLATA toll provider.

Directory listings are provided as specified in 4.6.1 preceding.

2. Message Rates

The established rates for Class II messages apply as specified in 5.2.1 preceding or in other applicable tariffs/Product Guide.

5.2.4 SPECIAL TOLL BILLING SERVICE

A. DESCRIPTION

Special Toll Billing Service (SBN, QZ) provides the customer with a number of non-dialable numerical codes which he/she may assign within his/her organization for identification purposes on toll calls. Toll statements prepared for the customer identify the toll calls made by each special toll billing number.

Special Toll Billing Service is available only to customers who have selected Verizon New Jersey Inc. as their intraLATA toll provider.

NOTE 1: Subject to a minimum service charge of three months; nonrecurring charges do not apply.

B. RATE TREATMENT

1. General

a. Messages initiated on a Special Toll Billing basis will be subject to the Class I or Class II rate specified in 5.2.1 preceding or in other applicable tariffs/Product Guide.

b. The monthly rates for this service are based upon the greater amount of:

The total number of extension stations including satellite systems that can access the exchange and toll network, either directly or indirectly, from the serving system, or

The total number of Special Toll Billing codes supplied to the customer for use.

2. Rate Schedule

Stations or Codes	Nonrecurring Charge	Monthly Rate	USOC
- First group of up to 300	NO	$24.46	BLN
- Each additional group of 50 or less	NO	4.08	BLQ

MESSAGE TELECOMMUNICATION SERVICE

5.3. OPTIONAL CALLING PLANS

5.3.1 FIXED RATE TOLL PLAN

A. DESCRIPTION AND TERMS OF SERVICE

The Fixed Rate Toll Plan is an optional calling plan for residence customers which provides an alternate rate treatment for Direct Distance Dialed (DDD) Unassisted calls (from other than coin arrangements). Customers enrolling in this plan will be billed a monthly charge for each residence exchange access line enrolled in the plan and a fixed, per minute, intraLATA DDD rate in lieu of the regular Residence DDD Unassisted rate schedule in Section 5.2.1. After the first full minute of a call, additional time will be billed in six second increments, or fraction thereof.#

This plan applies to individual residence exchange access lines. Calls to Repeat Call and Return Call per use rated calls are not eligible toll calls under the Fixed Rate Toll Plan.

This plan is not available with Residential **IntelliLinQ**® Basic Rate Interface (BRI) Service, Residence PBX trunks, or Consumer Opportunity Savings Plan, either on the same exchange access line or on an account where mutliple lines are billed together. Residence customers who subscribe to **SoundDeal**sm, or **Weekend Choice**sm cannot have the Fixed Rate Toll Plan on the same exchange access line.

The Fixed Rate Toll Plan is available only to customers who have selected Verizon New Jersey, Inc. as their intraLATA toll provider.

B. RATE TREATMENT

A monthly recurring charge of $7.00 applies per line enrolled in the plan. (I)

Customers enrolling in this plan will be billed at the following per minute intraLATA rates in lieu of the Residence DDD Unassisted rate schedule in Section 5.2.1:

Per Minute Rate	
Initial Minute	6 Second Increment
$0.150	$0.015

MESSAGE TELECOMMUNICATION SERVICE

5.3 OPTIONAL CALLING PLANS (Cont'd)

5.3.2. KEY CONNECTIONS - BUSINESS VOLUME DISCOUNT PLAN

A. DESCRIPTION AND TERMS OF SERVICE

The Key Connections - Business Volume Discount Plan is an optional calling plan for business customers which provides an alternate rate treatment for intraLATA Direct Distance Dialed (DDD) unassisted calls (from other than coin arrangements). Customers enrolling in this plan will have their intraLATA DDD messages billed based on a rate for the initial 30-second period and a rate for each additional 6-second period in lieu of the Business DDD unassisted rate schedule in 5.2.1. A variable volume discount will be applied when a customer's usage charges equal or exceed $50 in any given month. This plan applies to all business lines and PBX trunks billed to the same billed telephone number (BTN), except Remote Call Forwarding Service, as described in 4.4.3, and Outward WATS, as described in Section 13.

This plan does not include calls to 976, 700, 900, Directory Assistance, conference calls and calls to which special assistance charges would apply.

Key Connections - Business Volume Discount Plan is available only to customers who have selected Bell Atlantic-New Jersey as their intraLATA toll provider.

Customers who subscribe to the Key Connections - Business Volume Discount Plan have the option of subscribing to the Key Connections - Toll Free Service. The Key Connections - Toll Free Service is available only to business customers subscribing to the Key Connections -Business Volume Discount Plan.

The monthly usage charges for the Key Connections - Business Volume Discount Plan and the Key Connections - Toll Free Service will be combined for the calculation of the volume discount. If the $50 usage threshold is not achieved in any given month, the discount will not be applied for that month.

Customers subscribing to this plan are not eligible for the Large User Discount as described in 5.2.1.

Customers who subscribe to Selective Calling Service, as described in 13.1.2 cannot include their Selective Calling Usage in the calculation of the discount, or in the calculation of the $50 threshold.

These services are available only on a grandfathered basis as described in Section 13.

MESSAGE TELECOMMUNICATION SERVICE

5.3 OPTIONAL CALLING PLANS (Cont'd)

5.3.2. KEY CONNECTIONS - BUSINESS VOLUME DISCOUNT PLAN

A. DESCRIPTION AND TERMS OF SERVICE

This plan is not available to customers subscribing to the Toll Savings Plan# or Customer Specific Pricing Arrangements. (C)

This plan is not applicable to exchange codes, specified in 9.1, which are entirely dedicated to cellular applications and within a cellular company's switch.

This plan is not available with customer requested suspension of service.

These services are available only on a grandfathered basis as described in Section 13.

MESSAGE TELECOMMUNICATION SERVICE

5.3 OPTIONAL CALLING PLANS (Cont'd)
5.3.2. KEY CONNECTIONS - BUSINESS VOLUME DISCOUNT PLAN (Cont'd)

B. RATE TREATMENT

Key Connections - Business Volume Discount Plan

Customers enrolling in this plan will be billed at the following rates in lieu of the Business DDD unassisted rate schedule in 5.2.1.

Charges, per message	Rate
Initial 30 seconds or fraction thereof	
Day	$ .045
Evening	$ .045
Night/Weekend	$ .045
Additional 6 seconds or fraction thereof	
Day	$ .009
Evening	$ .009
...	
Night/Weekend	$ .009

If charges per individual message do not result in whole cents, the charges will be rounded to the nearest penny when the bill is rendered.

Volume Discount

Once a customer's combined Key Connections - Business Volume Discount Plan and Key Connections - Toll Free Service usage charges equal or exceed $50, a volume discount will be applied. If the charges after the discount is applied do not result in whole cents, charges will be rounded to the nearest penny.

Usage Charges	Usage Discount
$ 0.00 - $ 49.99	0%
$ 50.00 - $ 199.99	2% on Usage Charges from $ 1.00 to $ 199.99
$ 200.00 - $ 349.99	5% on Usage Charges from $ 1.00 to $ 349.99
$ 350.00 - $ 499.99	8% on Usage Charges from $ 1.00 to $ 499.99
$500.00 +	10% on Usage Charges from $ 1.00 +

MESSAGE TELECOMMUNICATION SERVICE

5.3 OPTIONAL CALLING PLANS (Cont'd)

5.3.3. PERSONAL UNLIMITED PLAN

A. RATE TREATMENT

Where sufficient data exists, the monthly rate for the Personal Unlimited Plan will be based on the customer's historical usage during a study period of at least three billed months selected by the Company, and may be updated as more recent information becomes available. For an account with multiple lines, the rate for the line with the highest amount of historical average plan usage will apply to all other lines subscribed to the plan.

A customer who does not have plan usage for at least three months during the study period, may purchase the service for an initial default rate of $19.95 per month. A line billed at the default rate may be changed to a usage-based rate during the rerating process. A line with a usage-based rate, which is exactly equal to the default rate, may be rounded down, in order to uniquely identify default rate customers.

Recurring Monthly Charge:

Historical Monthly Average	Monthly Rate
$0.01 - $5.00	$10.00 plus historical usage
$5.01 - $10.00	$8.00 plus historical usage
$10.01 - $15.00	$6.00 plus historical usage
$15.01 - $20.00	$4.00 plus historical usage
$20.01 or more	$2.00 plus historical usage
Insufficient Usage (less than 3 months)	$19.95

MESSAGE TELECOMMUNICATION SERVICE

5.3 OPTIONAL CALLING PLANS (Cont'd)
5.3.3. PERSONAL UNLIMITED PLAN (Cont'd)
A. RATE TREATMENT (Cont'd)

The Company will recalculate the rate that will apply to each line at least once every 12-18 months. Rerating will be based on the customer's plan usage according to the schedule below. Average usage will be determined using a study period of at least three months selected by the Company, and will include at least one full month's usage under the plan. A new subscriber to the plan will not be rerated for at least 30 days.

Lines which have received a usage-based rate (i.e., not a default rate) will be rerated based on the customer's average rate per minute (ARPM):

ARPM	New Monthly Rate
Less than $.035	$.035 x average plan minutes
Greater than or Equal to $.035 and Less than or Equal to $.10	No change in rate
Greater than	$.10 x average plan minutes

Lines billed at the default rate will be given a new, usage-based monthly rate at least once every 12-18 months equal to the line's historical average minutes of use under the plan times $.05. Average usage will be determined using a study period of at least three months selected by the Company, and will include at least one full month of usage under the plan.

In addition, at intervals of not less than three months, the company may elect to redetermine the rate for lines whose ARPM is below $.02 under the plan. These lines will receive a new rate of $.035 times average plan minutes.

A customer's payment of a redetermined rate shall constitute acceptance by the customer of the redetermined rate.

MESSAGE TELECOMMUNICATION SERVICE

5.3 OPTIONAL CALLING PLANS (Cont'd)
5.3.4. BUSINESS SPECIAL RETENTION TOLL PROGRAM (Cont'd)

A. DESCRIPTION AND TERMS OF SERVICE

The Business Special Retention Toll Program provides an alternate rate treatment for intraLATA Direct Distance Dialed (DDD) unassisted calls.

An eligible customer for this plan is a Verizon New Jersey Inc. Business customer who has subscribed to the Business Special Toll Winback Program, who receives an offer from Verizon New Jersey to enroll in the Business Special Retention Toll Program, and who agrees to enroll in the plan.

The alternate rate treatment is available to an eligible customer that enrolls in the plan for an initial or renewal two-year term for each account enrolled in the plan, and that retains Verizon New Jersey Inc. as the presubscribed intraLATA toll service provider for all exchange access lines in the enrolled account for the entire two-year term.

The plan is not available in conjunction with any other Verizon New Jersey Inc. payment plan or toll offering, Remote Call Forwarding, coin arrangements, or Customer Specific Pricing arrangements.

Calls to 700/900 and 976 numbers are excluded from this plan.

B. RATE TREATMENT

Customers enrolling the plan will have their intraLATA DDD messages billed at the following rates in lieu of the Business DDD unassisted rate schedule in 5.2.1 for a period of two years after enrolling in the plan.

Initial Eighteen Seconds	Additional Six Second Increments
$0.018	$0.006

A $50.00 termination charge will apply if the customer the plan prior to the expiration of the initial or renewal two-year term. The termination charge does not apply if the customer subscribes to another Verizon New Jersey Inc. toll offering which has an agreement period of equal or greater length.

MESSAGE TELECOMMUNICATION SERVICE

5.4 STANDARD SERVICE OFFERINGS

5.4.1. INTRAMUNICIPAL CALLING SERVICE

A. GENERAL

1. Intramunicipal Calling Service is a service arrangement provided on a non-optional basis to municipalities served by more than one exchange where toll charges would normally apply to calls between the exchanges serving the same municipality and located within the same Local Access and Transport Area. All dial station-to-station service within a municipality is not chargeable as toll except for calls from coin arrangements or calls originating from or terminating at foreign exchange lines.

2. Intramunicipal Calling Service is available only to customers who have selected Verizon New Jersey Inc. as their intraLATA toll provider.

3. Municipalities and serving exchanges where Intramunicipal Calling Service applies for Verizon New Jersey Inc. exchanges are shown in B. following.

5.5 OTHER CALLING PLANS

5.5.1. MILLSTONE TOWNSHIP CALLING PLAN

A. DESCRIPTION

This calling plan is non-optional for residence customers of Millstone Township. The plan applies to directly dialed calls originating within Millstone Township and terminating in the Allentown, Englishtown, Freehold, Hightstown, and Lakewood exchanges.

The plan provides unlimited calling for a monthly flat rate.

B. TERMS AND CONDITIONS

The Millstone Township Calling Plan is limited to residents of Millstone Township served by the Allentown, Englishtown, Freehold, Hightstown, and Lakewood exchange areas.

It is only available with residence local exchange service; not with Foreign Exchange Service or business local exchange service.

The discount provisions of Section 8.6.2.I are not applicable to this service.

Conference or other calls requiring the assistance of an operator are not covered under this plan. (C)

The interLATA Message Telecommunications Service routes affected by the Millstone Township Calling Plan are:

From	To
Allentown	Englishtown
Allentown	Freehold
Allentown	Lakewood
Freehold	Allentown
Freehold	Hightstown
Englishtown	Allentown
Hightstown	Freehold
Hightstown	Lakewood
Lakewood	Allentown
Lakewood	Hightstown
